For Lamp shades; steam accumulators; heat accumulators; defrosters, namely, defrosting apparatus for vehicles; disinfectant apparatus for medical purposes; distillation apparatus not for scientific purposes; desiccating apparatus for producing dried fruits; hydromassage bath apparatus; disinfectant apparatus for banknotes; electric air deodorizing apparatus; tanning apparatus, namely, tanning beds; ionization apparatus for the treatment of air and electrostatic ionization apparatus for the treatment of water; coffee roasters; beverage cooling apparatus; electric hand drying apparatus for washrooms; fruit roasters; water purifying apparatus and machines; refrigerating apparatus and machines; drying apparatus and installations, namely, drying machines for agriculture; freezers; heating and cooling apparatus for dispensing hot and cold beverages; drying apparatus, namely, laundry drying machines; structural plates sold as parts of ovens; evaporative air coolers for furnaces; expansion hot water tanks for central heating installations; flushing toilet tanks; refining towers for distillation, namely, distillation apparatus not for scientific purposes; bidets; boilers, other than parts of machines, namely, heating boilers and furnace boilers; bath tubs; spa baths in the nature of whirlpool baths; bath tubs for sitz baths; waffle irons, electric; fans for air-conditioning apparatus; fans as parts of air-conditioning installations; electric fans for personal use; roasting spits for cooking ovens; refrigerating display cabinets; heated display cabinets; water heaters; water flushing installations, namely, automatic flush valves for toilets; air reheaters, namely, reheating furnaces for industrial purposes; extractor hoods for kitchens; gas condensers, other than parts of machines; acetylene generators; microbubble generators for baths; hydrants; burners, namely, gas burners; acetylene burners; oil burners for industrial, commercial and domestic use; gas burners; burners for lamps; germicidal burners for laboratory use; incandescent alcohol burners; oxyhydrogen burners; laboratory burners; alcohol burners; hot water bottles; footwarmers, electric, namely, electric footmuffs; bed warmers; electric pocket warmers for warming hands;

warming pans for beds; cooking appliances, namely, gas and electric grills; lampshade holders; stills not for scientific purposes; showers; refrigerating shipping containers; friction lighters for igniting Bunsen burners; gas lighters in the nature of utility lighters for lighting grills; friction lighters for igniting gas; chimney blowers; coils as parts of distilling, heating or cooling installations; furnace ash boxes; evaporators for air conditioners; shower enclosures; Turkish bath cabinets, portable; heating apparatus, namely, space heating apparatus; cool boxes, electric, namely, air cooling apparatus; refrigerating chambers; fireplaces, domestic; chimney flues; air valves for steam heating installations; level controlling valves in tanks, namely, automatic flush valves for toilets; thermostatic valves as component parts of heating installations; electrically heated carpets; light bulbs; light bulbs, electric; solar thermal collectors, namely, solar thermal instillations in the nature of solar thermal modules; distillation columns in the nature of distillation apparatus not for scientific purposes; ventilation hoods; ventilation hoods for laboratories; lamp globes; air-conditioning apparatus; air conditioners for vehicles; gas heating boilers; laundry room boilers; heating boilers; coffee machines, electric; taps being faucets; mixer faucets for water pipes and water pipelines; mixer faucets for water pipes; forges, portable being furnaces; lava rocks for use in barbecue grills; electric lights for Christmas trees; acetylene flares for lighting; LED safety lamps; gas lamps; curling lamps; nail lamps; germicidal lamps for purifying air; light bulbs for directional signals for vehicles; arc lamps; laboratory lamps; oil lamps; ultraviolet ray lamps, not for medical purposes; miners' lamps, namely, safety lamps for underground use; electric lamps; chandeliers; barbecues; watering machines for agricultural purposes; ice-cream making machines; pounded rice cake making machines, electric, for household purposes; multicookers; footmuffs, electrically heated; heaters for baths, namely; water heaters; heaters for heating irons, namely, ironing tables that generate steam for ironing; immersion heaters; component part of gas burners, namely, brackets for gas burners sold as a component part of gas burners; anti-splash tap nozzles; heat pumps; filaments for electric lamps; magnesium filaments for lighting; heating elements, namely, heating filaments, electric; luminous house numbers; socks, electrically heated; heating apparatus for defrosting vehicle windows; hot air bath fittings, namely, fitted liners for baths; bath fittings, namely, bath tub jets and spouts for affixing on walls of baths; furnace boilers, namely, loading apparatus for furnaces; supports used in kilns, namely, kiln furniture; sauna bath installations; refrigerating appliances and installations; directional lights for bicycles; electrically heated clothing; blankets, electric, not for medical purposes; fabric steamers; lamp reflectors; vehicle reflectors; fireplace hearths; electric cooktops; steam heating boilers, other than parts of machines; pasteurisers for use in the food and beverage industry; lamp mantles; sockets for electric lights; coffee percolators, electric; stoves being heating apparatus; bakers' ovens; hot air cooking ovens; cooking ovens, namely, kitchen ranges; cooking apparatus, namely, microwave ovens; microwave ovens for industrial purposes; incinerators; kilns; solar furnaces; dental ovens; furnaces, other than for laboratory use; urinals being sanitary fixtures; feeding apparatus for heating boilers in the nature of economisers, namely, devices for warming feed water in heating boilers; heating plates, namely, electric hot plates; gas cookers; hot plates; wine cellars, electric; heaters, electric, for feeding bottles; aquarium heaters; aquarium lights; heating cushions, electric, not for medical purposes; clean chambers, namely, sanitary installations in the nature of shower and bath cubicles; tortilla presses, electric; water intake apparatus, namely, water filtering apparatus; deodorizing apparatus, not for personal use, namely, electric air deodorizers for industrial use; apparatus for dehydrating food waste; air fumigation apparatus, not for medical purposes; gas scrubbing apparatus; oil-scrubbing apparatus in the nature of gas scrubbing apparatus; glue-heating appliances, namely, electric hot glue melting pots; forage drying apparatus; water filtering apparatus; air purifying apparatus and machines; ice machines and apparatus; cooling appliances and installations, namely, air cooling apparatus; cooking apparatus and installations, namely, cooking ranges; lighting apparatus and installations, namely, lighting fixtures; sanitary apparatus and installations, namely, steam rooms; cooking rings; lighting apparatus for vehicles; light-emitting diodes LED lighting apparatus, namely, LED

luminaires; heating apparatus for solid, liquid or gaseous fuels; heating apparatus, electric, namely, electric patio heaters; hot air apparatus, namely, hot air blowers; saunas, namely, steam facial apparatus; safety accessories for water or gas apparatus and pipes, namely, cooking ranges; regulating and safety accessories for gas apparatus, namely, safety accessories for gas pipes, namely, flashback arrestors and reverse flow check valves; regulating accessories for water or gas apparatus and pipes; regulating and safety accessories for water apparatus, namely, tap water faucets; regulating and safety accessories for gas pipes, namely, safety accessories for gas pipes, namely, flashback arrestors and reverse flow check valves; roasting jacks; plate warmers; electric appliances for making yogurt; anti-glare devices for vehicles, namely, lamp fittings in the nature of anti-glare vehicle lights; rotisseries; radiator caps; searchlights; diving lights; washers for water faucets; heat guns; heating radiators; central heating radiators; radiators, electric; sinks; disinfectant dispensers for toilets; drip irrigation emitters, namely, sprinkler heads for irrigation sprinklers; light diffusers; nuclear reactors; heat regenerators, namely, heat exchangers not being parts of machines; pressure hot water tanks; electric roasters; lamps; street lamps; ceiling lights; toilet seats; lighting installations for air vehicles; sous-vide cookers, electric; pressure cookers, electric; parts of gas installations, namely, gas scrubbers; lamp glasses; sterilizers; water sterilizers; air sterilizers; electric air dryers; laundry dryers, electric; hair dryers; malt roasters; tobacco roasters; heat exchangers, other than parts of machines; electric bread toasters; discharge tubes, electric, for lighting; lamp chimneys; luminous tubes for lighting; pipes being parts of sanitary installations; flues for heating boilers in the nature of chimney flues; boiler pipes for heating boiler installations; water closets, namely, toilets; toilets, portable; humidifiers for central heating radiators; wash-hand basins being parts of sanitary installations; toilet bowls; water conduits installations, namely, water purification installations; air-conditioning installations; water desalination plants; installations for processing nuclear fuel and nuclear moderating material, namely, nuclear power plants; watering installations, automatic, namely, water sterilizers; cooling installations for water; cooling installations for liquids, namely, beverage cooling machines; milk cooling installations; cooling installations for tobacco; water purification installations; purification installations for sewage; steam generating installations; water distribution installations, namely, water fountains; air filtering installations; swimming pool chlorinating apparatus; air conditioning installations and apparatus; air-conditioning installations for vehicles; water softening apparatus and installations; cooling installations and machines for water; heating installations; heaters for vehicles; hot water heating installations; polymerisation installations, namely, heated polymerization units for dental restoration compounds; water supply installations namely, water coolers; flare stacks for use in the oil industry; ash conveyor installations, automatic as component part of furnaces; whirlpool-jet apparatus, namely, whirlpool jets and jet nozzles for bathtubs; air cooling apparatus; aquarium filtration apparatus; cooking utensils, electric, namely, electric pressure cooking saucepans; flaming torches namely, butane torches for cooking; headlights for automobiles; vehicle headlights; filters for air conditioning; filters for drinking water; wicks adapted for oil stoves; lights for automobiles, namely, LED light assemblies for automobiles; bicycle lights; motorcycle lights; lights for vehicles; electric torches for lighting; head torches; lanterns for lighting; candle lanterns in the nature of electric lanterns featuring a plastic candle; electric Chinese lanterns; decorative water fountains; ornamental fountains; chocolate fountains, electric; air fryers; deep fryers, electric; fittings, shaped, for ovens, namely, disposable aluminum oven liners for catching spills; oven fittings made of fireclay, namely, ceramic plates sold as parts of ovens; bread-making machines; refrigerators; chromatography apparatus for industrial purposes; kettles, electric; dampers, namely, chimney dampers and electronic fireplace dampers; book sterilization apparatus; refrigerating cabinets; carbon for arc lamps, namely, component part of arc lamps; heating elements; fairy lights for festive decoration; bread baking machines; bath installations

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For DVD players; ticket dispensers, namely, video lottery ticket terminals; coin-operated musical automata, namely, musical juke boxes; fire engines; answering machines; electrical adapters; batteries for electronic cigarettes; accumulators, electric; accumulators, electric, for vehicles; accelerometers; actinometers; alidades; altimeters; ammeters; nanoparticle size analysers; anemometers; anodes; antennas; anticathodes; optic devices, namely, apertometers; high-frequency apparatus, namely, high frequency switches; testing apparatus not for medical purposes, namely cement testing machines, metal strength testing machines; remote control apparatus for televisions and motors; electro-dynamic apparatus for the remote control of railway points; electro-dynamic apparatus for the remote control of signals; monitoring apparatus, other than for medical purposes, namely, wireless controllers to monitor and control the functioning of other electronic devices; sound recording apparatus; Global Positioning System [GPS] apparatus; distillation apparatus for scientific purposes; diffraction apparatus, namely, microscopes; air analysis apparatus; apparatus to check franking in the nature of time and date stamping machines; sound transmitting apparatus; apparatus for fermentation, namely, fermenter apparatus for laboratory use; breathing apparatus for underwater swimming; breathing apparatus, except for artificial respiration, namely, buoyancy bladders and soda lime cartridges; apparatus and installations for the production of X-rays, not for medical purposes, namely, x-rays security scanners and industrial x-ray apparatus in the nature of testing equipment for determining industrial flaws; cash registers; electric apparatus for commutation, namely, commutators; magnetic resonance imaging [MRI] apparatus, not for medical purposes; intercommunication apparatus, namely, telephones incorporating intercommunication systems; stills for laboratory experiments; projection apparatus, namely, projection screens and transparency projection apparatus; fire extinguishing apparatus; radiological apparatus for industrial purposes, namely, radiation-measuring instruments; X-ray apparatus not for medical purposes; blueprint machines; flashing safety lights; stereoscopic apparatus, namely, stereoscopes; telephone apparatus; facsimile machines; phototelegraphy apparatus; igniting apparatus, electric, for igniting at a distance, namely, remote controls for ignition batteries; acid hydrometers; salinometers; acidimeters for batteries; aerometers; beacons, luminous; battery jars; automated teller machines [ATM]; barometers; anode batteries; galvanic batteries; batteries for lighting; solar batteries; solar panels for the production of electricity; batteries, electric; balances [steelyards]; betatrons; binoculars; biochips for research or scientific purposes; electronic tags for goods; lens hoods; magnetic tape units for computers; computer memory devices; fire hose nozzles; encoded identification bracelets, magnetic; measuring instruments, namely, connected bracelets in the nature of smart watches featuring software for measuring the wearer's activity; safety tarpaulins; electronic key fobs being remote control apparatus; bullet-proof clothing; signalling buoys; life buoys; marking buoys; directional compasses; vacuum gauges; electrolysers; variometers; verniers; scales; baby scales; bathroom scales; letter scales; weighbridges; precision balances; scales with body mass analysers; levelling staffs in the nature of surveying instruments; camcorders; video baby monitors; blank video cassettes; video telephones; video screens; viewfinders, photographic; electric plugs; micrometer screws for optical instruments; viscosimeters; electric circuit closers; wavemeters; voltmeters; mechanical signs; signs, luminous; electricity switch boxes; current rectifiers; gas testing instruments; measuring instruments, namely, gasometers; galvanometers; hands-free kits for telephones, namely, desk or car mounted units incorporating a loudspeaker to allow a telephone handset to be used hands-free; heliographic apparatus; hygrometers; hydrometers; test weights; peepholes, namely, magnifying lenses for doors; teaching apparatus in the nature of hairdressing training heads; hologram apparatus; plotters; sounding leads, namely, phone extension leads; plumb bobs; range finders for golf and for cameras; piezoelectric sensors;

densimeters; densitometers not for medical use; detectors, namely, radon detectors and metal detectors; smoke detectors; infrared detectors; counterfeit coin detectors; joysticks for use with computers, other than for video games; photographic transparencies; slide projectors; photography diaphragms for use in cameras; dictating machines; dynamometers; light-emitting diodes [LED]; quantum dot light-emitting diodes [QLED]; organic light-emitting diodes [OLED]; blank floppy computer disks; sound recording discs, namely, blank audio discs; blank disks, magnetic; blank optical discs; circular slide rules; disk drives for computers; juke boxes for computers; wearable video display monitors; electronic numeric displays; DNA chips; electronic interactive whiteboards; electronic notice boards; electric wire harnesses for automobiles; bullet-proof waistcoats; life jackets; reflective safety vests; identification threads for electric wires; nose clips for divers and swimmers; locks, electric; warning bells; alarm bells, electric; electric door bells; signal bells; audio interfaces; acoustic conduits; mirrors for inspecting work, namely, inspection mirrors; road signs, luminous or mechanical; marine depth finders; probes for scientific purposes; electric buzzers; needles for surveying compasses; needles for record players; eyewear; reflective articles for wear, namely reflective clothing for the prevention of accidents; measures, namely, compasses for measuring, measuring tapes and measuring glassware; pressure measuring apparatus; simulators for the steering and control of vehicles; electricity, namely, power inverters; pressure indicators; automatic indicators of low pressure in vehicle tires; temperature indicators; incubators for bacteria culture; measuring instruments, namely, length measuring gauges; cosmographic instruments, namely, satellites; mathematical instruments, namely, math coprocessor and calculators; levelling instruments, namely, level indicators; instruments containing eyepieces, namely, telescopes; surveying instruments; azimuth instruments; interfaces for computers; ionization apparatus not for the treatment of air or water, namely, ionization apparatus for scientific or laboratory use; satellite finder meters; spark-guards, namely, spark plug gap gauges; coaxial cables; fiber optic cables; cables, electric; calipers, namely, pocket calipers for measuring; slide calipers; screw-tapping gauges; calorimeters; calculating machines; pocket calculators; decompression chambers; rearview cameras for vehicles; cinematographic cameras; thermal imaging cameras; mouth guards for sports; life-saving capsules for natural disasters; visual display units, namely, electronic pens; holders for electric coils; identity cards, magnetic; video game cartridges; ink cartridges, unfilled, for printers and photocopiers; memory cards for video game machines; encoded magnetic cards, namely, magnetically encoded key cards and magnetically encoded gift cards; riding helmets; protective helmets; carriers for dark plates, namely, component part of cameras; cathodes; photography spools, namely, spools for cameras; choking coils for use in electrical apparatus; coils, electric; electromagnetic coils; cinematographic film, exposed; computer keyboards; solenoid valves, namely, electromagnetic switches; electricity wire connectors; thin client computers; encoded key cards; electronic book readers; electronic agendas; push buttons for bells, namely, remote control for operating an emergency alarm bell; magnetic encoders; visors for helmets; collectors, electric, namely, electrical storage batteries; calibrating rings, namely. calibration devices for calibrating optical emission spectrometers; smart rings; ring sizers; protective suits for aviators; commutators; comparators; marine compasses; computers; laptop computers; tablet computers; notebook computers; wearable computers; condensers [capacitors]; contacts, electric; wind socks for indicating wind direction; safety traffic cones; branch boxes, namely, electrical terminal boxes; electrical distribution boxes; electric junction boxes; battery boxes; cabinets for loudspeakers; diving suits; galena crystal detectors for use in electronics; covers for electric outlets; logs, namely, measuring instruments in the nature of radiation-measuring instruments; lasers, not for medical purposes; lactodensimeters; lactometers; vacuum tubes for radios; photography darkroom lamps; thermionic tubes; amplifying tubes, namely, tube amplifiers; flashlights for use in photography; head cleaning tapes for video recorder; magnetic tapes, namely, blank magnetic tapes for tape recorders; videotapes recorded with animation; surveying chains; fire escapes, namely, fire escape ladders; measuring rulers; square rulers for measuring; slide-rules; contact

lenses; correcting lenses in the nature of optical lenses; optical lenses; optical condensers; sounding lines, namely, sound equalizers; electricity conduits; measuring spoons; magnifying glasses; thread counters; magnets; decorative magnets; close-up lenses; crash test dummies; teaching apparatus, namely, resuscitation mannequins; pressure gauges; encryption devices, namely, security token hardware; divers' masks; solderers' helmets; protecting masks; respiratory masks, other than for artificial respiration for non-medical purposes; materials for electricity mains, namely, electric wires and electric cables; voting machines; money counting and sorting machines; material testing instruments and machines, namely, electronic apparatus for testing compression, strength, hardness and tensile characteristics of industrial materials; furniture especially made for laboratories; megaphones; portable media players; acoustic diaphragms, namely, namely, electroacoustic transducers; diaphragms for scientific apparatus, namely, acoustic membranes; metal detectors for industrial or military purposes; digital weather station instruments; metronomes; measuring rules; carpenters' rules; dressmakers' tape measures; mechanisms for coin-operated apparatus; mechanisms for counter-operated apparatus in the nature of automatic pill counters; coin-operated mechanisms for television sets; photography shutter releases; micrometers; microprocessors; microscopes; microtomes; microphones; audio mixers; modems; lightning rods; computer hardware, namely, monitors; computer monitors for use with computer programs; selfie sticks in the nature of hand-held monopods used to take photographs by positioning a smartphone or camera beyond the normal range of the arm; electrical terminal blocks; junction sleeves for electric cables; teeth protectors in the nature of mouth guards for athletic use; temperature indicator labels, not for medical purposes; knee-pads for workers; headphones; surveyors' levels; sound recording carriers, namely, recording and playing devices for sound carriers; magnetic data media, namely, blank magnetic data carriers; optical data media, namely, blank optical data carriers; electronic sheet music, downloadable; computer software, recorded for database management and word processing; sheaths for electric cables; identification sheaths for electric wires; weighing machines; computer hardware; punched card machines for offices; microscope objectives; lenses for astrophotography; selfie lenses, namely, smartphone camera lenses; egg-candlers; fire extinguishers; rescue laser signalling flares; electrified fences; electricity limiters; clothing for protection against accidents, irradiation and fire; clothing for protection against fire; asbestos clothing for protection against fire; protective clothing especially made for use in laboratories; survival blankets to prevent injury due to hypothermia; ozonators, namely, ozonisers; octants; protective eye pieces; ohmmeters; wrist rests for use with computers; eyeglass frames; oscillographs; plumb lines; scientific and technical apparatus, namely, optical mirrors; eyeglasses; sunglasses; goggles for sports; electronic collars to train animals; finger sizers; signalling sign panels, luminous and mechanical; wah-wah pedals; radio pagers; pince-nez; electronic pocket translators; transmitters of electronic signals for telecommunication purposes; telephone transmitters; transmitters of electronic signals; switches, electric; periscopes; data gloves; gloves for divers; gloves for protection against accidents; gloves for protection against X-rays for industrial purposes; asbestos gloves for protection against accidents; furnaces for laboratory use; droppers for measuring, other than for medical or household purposes; laboratory pipettes; pyrometers; planimeters; surveying instruments in the nature of plane tables; plates for batteries; computer software platforms, recorded and downloadable, namely, downloadable and recorded computer software platforms for application development, web hosting, database management; wafers for integrated circuits; printed circuit boards; compact disc players; cassette players; protective films adapted for computer screens; protective films adapted for smartphones; sound recording strips, namely, musical sound recordings; X-ray films, exposed; films, exposed, namely, exposed photographic and cinematographic film; life-saving rafts; laboratory trays; digital signs; stands adapted for laptops; semiconductors; polarimeters; personal digital assistants [PDA]; fire pumps; measuring glassware; life belts; fuses; circuit breakers; converters, electric; telerupters being electromechanical relays;

food analysis apparatus, namely, diagnostic apparatus for testing food; diagnostic apparatus, not for medical purposes, namely, diagnostic apparatus for the detection of pathogens for laboratory or research use; distance recording apparatus; distance measuring apparatus; photography speed measuring apparatus, namely, IP (Internet protocol) speed dome cameras; appliances for measuring the thickness of leather; apparatus for measuring the thickness of skins in the nature of ultrasonic thickness gauges; speed checking apparatus for vehicles, namely, speedometers for vehicles; teaching apparatus, namely, teaching robots; time recording apparatus; apparatus and instruments for astronomy, namely, reflecting telescopes; surveying apparatus and instruments; weighing apparatus and instruments; nautical apparatus and instruments, namely, mooring buoys of metal; navigational instruments, namely, navigational buoys; optical apparatus and instruments, namely, optical glasses, optical filters and optical reflectors; apparatus and instruments for physics, namely, flasks for laboratory use; chemistry apparatus and instruments, namely, laboratory chemical reactors; measuring apparatus, namely, angle finders and rain gauges; measuring devices, electric, namely, electronic devices for measuring electric current; boiler control instruments; meteorological instruments; naval signalling apparatus, namely, signaling buoys; observation instruments, namely, electronic detectors for observing and measuring the infrared spectrum, namely, infrared detectors; navigation apparatus for vehicles, namely, on-board computers; satellite navigational apparatus, namely, satellite-aided navigation systems; regulating apparatus, electric, namely, voltage regulators; telecommunication apparatus in the nature of wireless receivers in the form of jewellery; precision measuring apparatus, namely, fine dust measuring apparatus; audio- and video-receivers; optics, namely, prisms; computer software applications, downloadable for database management; document printers for use with computers; retorts' stands, namely, stands specially adapted for retorts for use in high temperature chemical reactions; apparatus for changing record player needles; drainers for use in photography; cleaning apparatus for sound recording discs, namely, head cleaning tapes for audio recorders; fire beaters, namely, fire blankets and fire-extinguishers; telescopic sights for firearms; telescopic sights for artillery; test tubes; pressure indicator plugs for valves; magnetic wires; telegraph wires; telephone wires; wires, electric; conductors, electric; copper wire, insulated; fuse wire; computer programs, recorded for database management; computer game software, downloadable; computer game software, recorded; computer programs, downloadable for database management; computer operating programs, recorded; computer screen saver software, recorded and downloadable; record players; computer hardware, namely, central processing units; rods for water diviners; electronic publications, downloadable, namely, magazines for use by medical professionals in the field of science and medicine; electricity distribution consoles; electric control panels; radar apparatus; masts for wireless aerials; transmitting sets for telecommunications composed of sound transmitting apparatus; radios; vehicle radios; sprinkler systems for fire protection; frames for photographic transparencies; screens for photoengraving, namely, touch screens; flowmeters; walkie-talkies; voltage surge protectors; voltage regulators for vehicles; stage lighting regulators in the nature of electronic regulating and control devices for the operation of light emitting diodes; speed regulators for record players; cell switches, namely, electric switches; washing trays for photography; marking gauges for joinery purposes; T-squares for measuring; time switches, automatic; relays, electric; X-ray photographs, other than for medical purposes; rheostats; respirators for filtering air other than for artificial respiration; retorts for use in high temperature chemical reactions; refractometers; refractors, namely, refractometers; grids for batteries; security surveillance robots; laboratory robots; teaching robots; telepresence robots; humanoid robots with artificial intelligence; electric sockets; height measuring instruments; speaking tubes; horns for loudspeakers; subwoofers; saccharometers; optical fibers, namely, light conducting filaments; traffic-light apparatus; dog whistles; signalling whistles; sports whistles; sextants; electricity inductors; safety nets; nets for protection against accidents; fire alarms; signals, luminous or mechanical, namely, luminous traffic signals and signal whistles; rescue flares, non-explosive and non-pyrotechnic; sirens; electronic access control systems

for interlocking doors; hand-held electronic dictionaries; integrated circuit cards, namely, blank smart cards; smart glasses; smartphones; smartwatches; connections for electric lines; couplings, electric; sonars; sound locating instruments, namely, electronic devices used to locate lost objects employing radio frequency; lighting ballasts; resistances, electric; spectrograph apparatus; spectroscopes; speed indicators; alcoholmeters; satellites for scientific purposes; protection devices for personal use against accidents, namely, face-protection shields; audiovisual teaching apparatus, namely, audiovisual receivers; charging stations for electric vehicles; radiotelegraphy sets; radiotelephony sets; spectacle lenses; anti-glare glasses; optical glasses; personal stereos; stereoscopes; stands for photographic apparatus; stroboscopes; fire boats; sulfitometers; bags adapted for laptops; drying racks for photography; spherometers; integrated circuits; printed circuits; counters, namely, Geiger counters; parking meters; kilometer recorders for vehicles; revolution thread counters; abacuses; sandglasses, namely, egg timers; taximeters; ear plugs for divers; tachometers; television apparatus, namely, televisions; telegraphs; telescopes; teleprompters; teleprinters; cordless telephones; cellular phones; theodolites; interactive touch screen terminals; thermo-hygrometers; thermometers, not for medical purposes; thermostats; thermostats for vehicles; climate control digital thermostats; laboratory equipment, namely, crucibles; tone arms for record players; totalizators; electrical apparatus, namely, transistors; transponders; measuring instruments, namely, protractors; electric transformers; step-up transformers; resuscitation training simulators; vehicle breakdown warning triangles; triodes; starter cables for motor batteries; discharge tubes, electric, other than for lighting; capillary tubes in the nature of glass tubes for scientific purposes; neon signs; Pitot tubes; X-ray tubes not for medical purposes; telephone receivers; headgear being protective helmets; squares for measuring; gauges, namely, depth gauges; quantity indicators, namely, fuel gauges; gasoline gauges; water level indicators; electric loss indicators, namely, electronic monitors and monitor modules for monitoring electric current and electrical signals; light-emitting electronic pointers, namely, luminous pointers; slope indicators; levels in the nature of instruments for determining the horizontal, namely, spirit levels; mercury levels, namely, bubble levels containing mercury; spirit levels; urinometers; amplifiers; particle accelerators; electric installations for the remote control of industrial operations; baby monitors; steering apparatus, automatic, for vehicles; balancing apparatus, namely, precision balances; video recorders; sound reproduction apparatus; invoicing machines, namely, adding machines; tape recorders; protection devices against X-rays, not for medical purposes, namely, gloves for protection against X-rays for industrial purposes; railway traffic safety appliances; data processing apparatus; oxygen transvasing apparatus, namely, oxygen regulators; theft prevention installations, electric, namely, theft alarms; devices for the projection of virtual keyboards, namely, projection screens; film cutting apparatus, namely, apparatus for editing cinematographic film; drying apparatus for photographic prints; optical character readers; centering apparatus for photographic transparencies in the nature of frames for photographic transparencies; dosage dispensers, namely, machines for dispensing pre-determined dosages of medication; battery chargers; chargers for electric batteries; chargers for electronic cigarettes; acoustic alarms; sounding apparatus and machines, namely, sound recording apparatus and sound transmitting apparatus; apparatus for editing cinematographic film; cathodic anti-corrosion apparatus, namely, cathodes; data processing equipment, namely, couplers; anti-theft warning apparatus, namely, theft alarms; computer peripheral devices; electricity anti-interference devices, namely, conductive silicone packing for electro-magnetic interference; demagnetizing apparatus for magnetic tapes; acoustic couplers; alarms, namely, alarm sensors; fog signals, non-explosive; whistle alarms; adding machines; heat regulating apparatus, namely, automatic temperature regulators for central heating radiators; photographic, electrostatic, and thermic photocopiers; electric and electronic effects units for musical instruments; bar code readers; downloadable image files containing sheet music; downloadable music files; video disks with recorded animated cartoons; filters for non-medial respiratory masks; filters

for ultraviolet rays, for photography; filters for use in photography, namely, photographic filters; blank USB flash drives; magic lanterns; optical lamps; signal optical lanterns; photography cameras; glazing apparatus for photographic prints in the nature of photo printer featuring glazing for photographic prints; camera shutters; photography darkrooms products, namely, lamps; photometers; photography flash-bulbs; digital photo frames; enlarging apparatus for photographs; photovoltaic cells; containers for contact lenses; eyeglass cases; containers specially adapted for microscope slides; cases for smartphones; cases especially made for photographic apparatus and instruments; chromatography apparatus for laboratory use; chronographs for use as specialized time recording apparatuses; laboratory centrifuges; eyeglass chains; cyclotrons; compasses for measuring; frequency meters; time clocks; Petri dishes; sleeves for laptops; covers for personal digital assistants [PDAs]; covers for tablet computers; covers for smartphones; fire blankets; chips, namely, integrated circuits; measuring instruments, namely, jigs; pedometers; meteorological balloons; electrified rails for mounting spot lights; asbestos safety screens for firemen; fire hose; virtual reality headsets; protective helmets for sports; head guards for sports; lifeboats; snorkels; cell phone straps; eyeglass cords; tripods for cameras; switchboards; distribution boards, namely, electrical circuit boards; sound equalizers; workmen's protective face-shields; projection screens; radiology screens for industrial purposes, namely, radiation shields for electronic products; fluorescent screens; photographic exposure meters; electrical ducts; galvanic cells; downloadable graphics for mobile phones; epidiascopes; ergometers not for medical purposes; armatures for use in electrical apparatus; electronic black boxes for recording data; 3D spectacles; ear pads for headphones; downloadable emoticons for mobile phones; toner cartridges, unfilled, for printers and photocopiers; photography screens, namely, projection screens for use with photographs; downloadable ring tones for mobile phones; data processing equipment in the nature of optical character readers; wearable activity trackers; computer peripherals, namely, trackballs; data processing equipment, namely, scanners; safety restraints, other than for vehicle seats and sports equipment, namely, fall protection equipment for fall restraint, namely, lines; electric light dimmers; measuring device in the nature of hemline markers; shoes for protection against accidents, irradiation and fire; life saving apparatus and equipment, namely, lifesaving rafts; computer peripheral, namely, computer mouse; mouse pads

GOODS AND SERVICES INFORMATION

For Insurance and financial information and consultancy services; insurance services, namely, underwriting extended warranty contracts in the field of materials technology, mining, construction and metal working industry; financing, lease-purchase financing and loan services; credit, lease-purchase financing and loan services; insurance underwriting services for all types of insurance

International Classes 36 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Insurance and Financial

For Land vehicles; apparatus for locomotion by land, namely, motor vehicles in the nature of automobiles, trucks, vans, and structural parts therefore; land vehicles incorporating bucket loaders; bulk hauling vehicles, namely, bulk hauling trailers; trailers; gearboxes; structural parts of land vehicles, bulk hauling trailers, trailers, and gearboxes

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Anti-friction bearings for machines; anti-friction pads for machines; machines and machine tools for the cutting and forming of materials; conveyer belts; power operated metal machine tools, namely, wire drawing tools, pressing tools, grinding tools, threading tools, sharpening tools, chiseling tools, shearing tools, punching tools, piercing tools, broaching tools, reaming tools, drilling tools, milling tools, cutting and turning tools; inserts for power-operated machine chiseling tools, shearing tools, punching tools, piercing tools, broaching tools, reaming tools, cutting and turning tools; machine tool holders; machines parts, namely, blades and blade holders, wear plates and strips, bearings, as parts of machines; rock bolting rigs; cargo handling machines; cranes; casting machines; double belt presses; machine parts, namely, mandrels; mechanical disintegrators for chemical processing; earth moving machines, namely, excavators, loaders, scrapers; loading and unloading machines;

mechanical and hydraulic lifts hoists; forging machines; foundation work machines; granulating machines for chemical processes; hauling apparatus for mining, namely, mining carts, loaders, excavators and dumpers used in the mining industry; lathes; lathe tools for metalworking; fuel pumps for land vehicles; pneumatic transporters; pneumatic controls for machines, motors and engines; hydraulic and pneumatic hammers; pulleys being parts of machines; rolls for rolling mills; rolling mills; sifting machines; power-operated sprayers; sieves being machines; sieves being machine parts; gravel and dirt sorting and screening machines; mechanical spreaders; motors and engines except for land vehicles; machine couplings and transmission components except for land vehicles; automatic vending machines; automated dispensing machines for tools and metal cutting tools; grinding machines for metal cutting; power-operated grinding wheels; grinding tools for grinding machines; earth moving machines, namely, graders, grading tools; mine carbide tip tools, drilling rigs in the nature of truck-mounted drilling pipes, power hammer lifting bails, foot valve rods as machine components; power drill accessories, namely, drill tubes, shank adapters, drill bits, hand held rock drilling tools, drill bits made with integral drill steels, tapered and threaded rods, guide and drill tubes, drilling and bolting tools, shank adaptors, raise boring tools, reaming heads, continuous miner cutting tools, drilling accessories for the installation of strata support products, casing accessories and completion tools, reamers and reaming apparatus, drills, drill rigs and drilling equipment and apparatus, hydraulic rock drills, mining and tunneling jumbos, screw boosters, raise boring machines and reaming heads, bolters, excavators, hydraulic rotation heads, cone splitters, blast hole splitters, miners, bolter miners, borer miners, road headers, drill rods, extension rods, spanners for installing rock bolts and drill chuck extension spanners, pullers and extractors, pliers, mineral ground tools, blocks and sleeves, crushers and crushing apparatus, crushing chambers, mantels and jaw plates, crusher wear parts, vibratory and non-vibratory screen dust separators as parts of machines, scalpers, breakers, chisel and compacting tools, filters and filtration cartridges, hydraulic cylinders, blocks and valves, hydraulic pumps, drive shafts, radiators [cooling] for motors and engines, oil coolers, axles, hydraulic hoses, pipes, fittings and adapters, air compressors, hydraulic oil filtering units, exhaust systems, pressure accumulators, liners for crushing and screening equipment, wear plates, impact bars, ground engaging tools, including buckets, shrouds, lips, adaptors and teeth; all the aforesaid goods being machines or power tools, or parts of machines and power tools included in this class

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Chemicals, chemical additives, chemical binding agents, coolants, chemical fluids, detergents for industrial use, and cleaning solvents, all of the foregoing for use within materials technology, mining, construction and metal working industry; carbide and ceramic compositions in the nature of granules and powders used in manufacturing; carbide powder; soldering fluxes; fire retardant chemicals being fire extinguishing and fire suppression compositions; tempering preparations; engineered ceramic and composite materials for heat transfer or thermal management applications

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Wholesale and retail store services of products within materials technology, mining, construction and rock technology and metal working industry; business management consultancy and advisory services; inventory control; database management; updating and maintenance of data in computer databases; commercial and industrial management assistance; advisory services for business management; business management and organization consultancy

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Repair, maintenance, assembly, and installation of construction and rock technology, materials technology, mining, and metal working industry products, namely, machines and apparatus; construction, upgrade, and installation of mining and construction machines, tools and apparatus within the materials technology, mining, construction and rock technology and metal working industry

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Downloadable registered computer programs for operating automated machines in mines; downloadable registered operating system programs; downloadable registered computer software for monitoring and controlling computer systems and communications between computers and automated machine systems and for monitoring and tracking productivity and product orders; computers, computer peripheral equipment, simulators for steering and control of vehicles and crafts; remote control apparatus, namely, electronic apparatus for the remote control of mining land vehicles used in industrial mining operations; electric video surveillance installations for remote control apparatus of industrial functions; apparatus and instruments for conveying, distributing, transforming, storing, regulating or controlling electric current; electrical controlling devices and regulating apparatus; measuring, detecting and monitoring instruments and apparatus, namely, level indicators, temperature indicators and pressure indicators, all in the field of materials technology, mining, construction and rock technology industry; measuring, detecting and monitoring instruments and apparatus, namely, level indicators in the nature of performance indicators, wear indicators, load indicators, service indicators and controllers; electronic control units and systems for the remote control of industrial operations; electric installations for the remote control of industrial operations; simulation apparatus and instruments, namely, electronic training simulators and simulation test equipment in the nature of downloadable simulation software and hardware for mining machines and equipment; chargers for batteries; electrical cables; electric resistors; integrated circuits; semi-conductors; capacitors; electric resistances; fuel cells; apparatus for recording, transmission and reproduction of sound or images; blank magnetic data carriers, blank recording discs; downloadable mobile applications for use in inventory automated ordering, inventory management, inventory cost follow-up and for calculation of data collected in connection with machine working machines and for increased machine working tool productivity, logistics, accessibility and identification, use in turning, milling, drilling and tapping applications by calculating optimal cut settings based on job parameters, use in calculating metal cutting settings, use in providing machine tool recommendations, use in finding and identifying machine tools and spare parts, use in providing solutions for activities and projects requiring machine cutting tools, use in providing instructions on assembling tools, use in the transmission of data and information and accessing online product information, use in browsing and selecting products from online catalog, use in viewing product guide and offerings, use in purchasing machine tools, use in providing information relating to machine tools, use in instruction on machine tools, use in managing, tracking and analyzing data relating to rock crushing and screening, use in recording, viewing, storing, sharing, capturing and analyzing data and images, use in analyzing machine tool wear and identifying cause of machine tool wear, use in diagnosing and repairing machine tool wear, use in providing machine cutting speed, feed and depth, use in optimization of machining process, use in analyzing and preventing machine tool failure and discard, use in providing information relating to machine tools for exploration, rock drilling, raise boring, coal and mineral cutting, tunneling, trenching, road grading and cold planning, use in order tracking and status, use in pushing notifications to consumers, use in transferring and transmitting data to drill rigs, use in sharing drill plans, reports and data via email, cloud storage and messaging; mechanisms for coin-operated apparatus; calculating machines, data processing apparatus; computers; recorded computer operating system software;

downloadable computer software for the calculation of data for machines tools and mine automation; measuring instruments and apparatus, namely, pressure measuring apparatus, temperature measuring apparatus, resistance measuring instruments; downloadable computer software for the storage and calculation of temperature, strain, and vibration information; temperature sensors, strain sensors, pressure sensors, vibration sensors and acceleration sensors; measuring apparatus, sensors, and instruments for measurement of temperature, controlling temperature performance, and working capacity of tube systems, namely, digitizers; downloadable computer software and downloadable computer programs for measurement of temperature, controlling temperature performance, and working capacity of tube systems; downloadable electronic publications in the nature of handbooks, manuals, instructional and teaching material in the field of metal-cutting tools and tooling systems, mining equipment and tools, construction equipment and tools, stainless steels, special alloys and titanium, furnace products and heating systems, hard and super-hard materials; protective and safety equipment, namely, fire-extinguishing systems and sprinkler systems for fire protection; thermocouples; global positioning system (gps) consisting of computers, computer software, transmitters, receivers, and network interface devices; downloadable computer programs for use in production planning of the manufacture of industrial products; electronic sensors, namely, electronic sensors for the determination and avoidance of impact, electronic sensors for the determination and avoidance of collision, electric sensors, electronic proximity sensors, optical sensors, led position sensors, sensors for the determination of positions and distances, sensors for controlling and managing automated machines and machine tools, proximity sensors, sensors for controlling and managing self-driving machine and machine tools, electronic sensor for the determination of movements, electronic sensors for use in mining and monitoring drilling performance and productivity, and electronic sensors for use in mining and monitoring drilling performance and productivity

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Treatment of materials in the nature of common metals and their alloys; treatment and regrinding of metal surfaces, tools, and machines; applying protective coatings to metal surfaces, tools, and machines by means of galvanization; gold and silver plating; metal casting and tempering; custom manufacture of metal working products and machines; assembly of products for others; fuel processing; treatment of materials in the nature of common metals and their alloys by mechanical or chemical processing; grinding; providing information relating to material treatment; recycling; waste management services in the nature of waste processing; recycling of steel; recycling of carbide, metal, lubricants, lubricating and cutting fluids, industrial oils and greases, lubricating oils, non-chemical additives for fuels, lubricants and greases, dust absorbing compositions, dust binding compositions, chemicals, chemical additives, binding agents, coolants, and chemical fluids; providing information relating to material treatment, specifically metal; regrinding and electrophoretic coating services of tools and machines

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Lubricants, namely, lubricating fluids in the nature of grinding fluid, cutting fluids, industrial oils, and greases; lubricating oils; non-chemical additives for fuels, lubricants and greases; dust controlling and removing compositions being dust absorbing compositions and dust binding compositions

International Classes 4 - Primary Classes **US Classes** 1, 6, 15 **International Class Title** Lubricants and Fuels

For Scientific and technological services, namely, scientific and industrial research and design in the field of tools and tooling systems for industrial metal cutting, equipment and tools, service and technical solutions for the mining and construction industries, advanced stainless steels and special alloys as well as products for industrial heating; industrial research in the field of tools and tooling systems for industrial metal cutting; computer hardware and software design; computer software development; testing, analysis, and evaluation of the goods of others to assure compliance with industry standards; consulting services in the field of design and development of engineering processes; consumer product safety testing consultation; chemical research and analysis; platform as a service (PaaS) featuring computer software platforms for use in operating a tool library; operational support services, namely, scientific research, analysis, and custom design of machinery in the nature of mining and rock excavation equipment and apparatus for improved performance and results; consulting services in the field of cloud computing; custom engineering services of products within materials technology, mining, construction and rock technology and metal working industry

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Common metals, unwrought or semi-wrought; alloys of common metal; irons and steels; strip steel springs; casting alloys, wire, ores of metal, barrels of metal, barrel hoops of metal, pipes and tubes of metal, pipe muffs of metal, metal pipe fittings, cables of metal, nonelectric, metal pipe clamping sleeves, metal pipe collars, elbows of metal for pipes, spray nozzles of metal for commercial and industrial use, steel strip, iron strip, drill rods of metal being steel rods, sheets of metal including those from alloy steel and titanium; metal bars for further manufacture, metal billets; semi-wrought common metals in powder form, metal modular hardware of metal, namely, ring-shaped fittings of metal, metal shims, housings, packages, tubs, holders, wafers and wire bonders; brazing alloys, solder pastes; common metal powders used in manufacturing; metal hardware, namely, metal casing centralizers and metal centralizer locks; metal casing shoes, not as a part of machines

GOODS AND SERVICES INFORMATION

For Insurance and financial information and consultancy services; insurance services, namely, underwriting extended warranty contracts in the field of materials technology, mining, construction and metal working industry; financing, lease-purchase financing and loan services; credit, lease-purchase financing and loan services; insurance underwriting services for all types of insurance

International Classes 36 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Insurance and Financial

For Land vehicles; apparatus for locomotion by land, namely, motor vehicles in the nature of automobiles, trucks, vans, and structural parts therefore; land vehicles incorporating bucket loaders; bulk hauling vehicles, namely, bulk hauling trailers; trailers; gearboxes; structural parts of land vehicles, bulk hauling trailers, trailers, and gearboxes

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Anti-friction bearings for machines; anti-friction pads for machines; machines and machine tools for the cutting and forming of materials; conveyer belts; power operated metal machine tools, namely, wire drawing tools, pressing tools, grinding tools, threading tools, sharpening tools, chiseling tools, shearing tools, punching tools, piercing tools, broaching tools, reaming tools, drilling tools, milling tools, cutting and turning tools; inserts for power-operated machine chiseling tools, shearing tools, punching tools, piercing tools, broaching tools, reaming tools, cutting and turning tools; machine tool holders; machines parts, namely, blades and blade holders, wear plates and strips, bearings, as parts of machines; rock bolting rigs; cargo handling machines; cranes; casting machines; double belt presses; machine parts, namely, mandrels; mechanical disintegrators for chemical processing; earth moving machines, namely, excavators, loaders, scrapers; loading and unloading machines; mechanical and hydraulic lifts hoists; forging machines; foundation work machines; granulating machines for chemical

processes; hauling apparatus for mining, namely, mining carts, loaders, excavators and dumpers used in the mining industry; lathes; lathe tools for metalworking; fuel pumps for land vehicles; pneumatic transporters; pneumatic controls for machines, motors and engines; hydraulic and pneumatic hammers; pulleys being parts of machines; rolls for rolling mills; rolling mills; sifting machines; power-operated sprayers; sieves being machines; sieves being machine parts; gravel and dirt sorting and screening machines; mechanical spreaders; motors and engines except for land vehicles; machine couplings and transmission components except for land vehicles; automatic vending machines; automated dispensing machines for tools and metal cutting tools; grinding machines for metal cutting; power-operated grinding wheels; grinding tools for grinding machines; earth moving machines, namely, graders, grading tools; mine carbide tip tools, drilling rigs in the nature of truck-mounted drilling pipes, power hammer lifting bails, foot valve rods as machine components; power drill accessories, namely, drill tubes, shank adapters, drill bits, hand held rock drilling tools, drill bits made with integral drill steels, tapered and threaded rods, guide and drill tubes, drilling and bolting tools, shank adaptors, raise boring tools, reaming heads, continuous miner cutting tools, drilling accessories for the installation of strata support products, casing accessories and completion tools, reamers and reaming apparatus, drills, drill rigs and drilling equipment and apparatus, hydraulic rock drills, mining and tunneling jumbos, screw boosters, raise boring machines and reaming heads, bolters, excavators, hydraulic rotation heads, cone splitters, blast hole splitters, miners, bolter miners, borer miners, road headers, drill rods, extension rods, spanners for installing rock bolts and drill chuck extension spanners, pullers and extractors, pliers, mineral ground tools, blocks and sleeves, crushers and crushing apparatus, crushing chambers, mantels and jaw plates, crusher wear parts, vibratory and non-vibratory screen dust separators as parts of machines, scalpers, breakers, chisel and compacting tools, filters and filtration cartridges, hydraulic cylinders, blocks and valves, hydraulic pumps, drive shafts, radiators [cooling] for motors and engines, oil coolers, axles, hydraulic hoses, pipes, fittings and adapters, air compressors, hydraulic oil filtering units, exhaust systems, pressure accumulators, liners for crushing and screening equipment, wear plates, impact bars, ground engaging tools, including buckets, shrouds, lips, adaptors and teeth; all the aforesaid goods being machines or power tools, or parts of machines and power tools included in this class

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Chemicals, chemical additives, chemical binding agents, coolants, chemical fluids, detergents for industrial use, and cleaning solvents, all of the foregoing for use within materials technology, mining, construction and metal working industry; carbide and ceramic compositions in the nature of granules and powders used in manufacturing; carbide powder; soldering fluxes; fire retardant chemicals being fire extinguishing and fire suppression compositions; tempering preparations; engineered ceramic and composite materials for heat transfer or thermal management applications

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Wholesale and retail store services of products within materials technology, mining, construction and rock technology and metal working industry; business management consultancy and advisory services; inventory control; database management; updating and maintenance of data in computer databases; commercial and industrial management assistance; advisory services for business management; business management and organization consultancy

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Repair, maintenance, assembly, and installation of construction and rock technology, materials technology, mining, and metal working industry products, namely, machines and apparatus; construction, upgrade, and installation of mining and construction machines, tools and apparatus within the materials technology, mining, construction and rock technology and metal working industry

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Downloadable registered computer programs for operating automated machines in mines; downloadable registered operating system programs; downloadable registered computer software for monitoring and controlling computer systems and communications between computers and automated machine systems and for monitoring and tracking productivity and product orders; computers, computer peripheral equipment, simulators for steering and control of vehicles and crafts; remote control apparatus, namely, electronic apparatus for the remote control of mining land vehicles used in industrial mining operations; electric video surveillance installations for remote control apparatus of industrial functions; apparatus and instruments for conveying, distributing, transforming, storing, regulating or controlling electric current; electrical controlling devices and regulating apparatus; measuring, detecting and monitoring instruments and apparatus, namely, level indicators, temperature indicators and pressure indicators, all in the field of materials technology, mining, construction and rock technology industry; measuring, detecting and monitoring instruments and apparatus, namely, level indicators in the nature of performance indicators, wear indicators, load indicators, service indicators and controllers; electronic control units and systems for the remote control of industrial operations; electric installations for the remote control of industrial operations; simulation apparatus and instruments, namely, electronic training simulators and simulation test equipment in the nature of downloadable simulation software and hardware for mining machines and equipment; chargers for batteries; electrical cables; electric resistors; integrated circuits; semi-conductors; capacitors; electric resistances; fuel cells; apparatus for recording, transmission and reproduction of sound or images; blank magnetic data carriers, blank recording discs; downloadable mobile applications for use in inventory automated ordering, inventory management, inventory cost follow-up and for calculation of data collected in connection with machine working machines and for increased machine working tool productivity, logistics, accessibility and identification, use in turning, milling, drilling and tapping applications by calculating optimal cut settings based on job parameters, use in calculating metal cutting settings, use in providing machine tool recommendations, use in finding and identifying machine tools and spare parts, use in providing solutions for activities and projects requiring machine cutting tools, use in providing instructions on assembling tools, use in the transmission of data and information and accessing online product information, use in browsing and selecting products from online catalog, use in viewing product guide and offerings, use in purchasing machine tools, use in providing information relating to machine tools, use in instruction on machine tools, use in managing, tracking and analyzing data relating to rock crushing and screening, use in recording, viewing, storing, sharing, capturing and analyzing data and images, use in analyzing machine tool wear and identifying cause of machine tool wear, use in diagnosing and repairing machine tool wear, use in providing machine cutting speed, feed and depth, use in optimization of machining process, use in analyzing and preventing machine tool failure and discard, use in providing information relating to machine tools for exploration, rock drilling, raise boring, coal and mineral cutting, tunneling, trenching, road grading and cold planning, use in order tracking and status, use in pushing notifications to consumers, use in transferring and transmitting data to drill rigs, use in sharing drill plans, reports and data via email, cloud storage and messaging; mechanisms for coin-operated apparatus; calculating machines, data processing apparatus; computers; recorded computer operating system software;

downloadable computer software for the calculation of data for machines tools and mine automation; measuring instruments and apparatus, namely, pressure measuring apparatus, temperature measuring apparatus, resistance measuring instruments; downloadable computer software for the storage and calculation of temperature, strain, and vibration information; temperature sensors, strain sensors, pressure sensors, vibration sensors and acceleration sensors; measuring apparatus, sensors, and instruments for measurement of temperature, controlling temperature performance, and working capacity of tube systems, namely, digitizers; downloadable computer software and downloadable computer programs for measurement of temperature, controlling temperature performance, and working capacity of tube systems; downloadable electronic publications in the nature of handbooks, manuals, instructional and teaching material in the field of metal-cutting tools and tooling systems, mining equipment and tools, construction equipment and tools, stainless steels, special alloys and titanium, furnace products and heating systems, hard and super-hard materials; protective and safety equipment, namely, fire-extinguishing systems and sprinkler systems for fire protection; thermocouples; global positioning system (gps) consisting of computers, computer software, transmitters, receivers, and network interface devices; downloadable computer programs for use in production planning of the manufacture of industrial products; electronic sensors, namely, electronic sensors for the determination and avoidance of impact, electronic sensors for the determination and avoidance of collision, electric sensors, electronic proximity sensors, optical sensors, led position sensors, sensors for the determination of positions and distances, sensors for controlling and managing automated machines and machine tools, proximity sensors, sensors for controlling and managing self-driving machine and machine tools, electronic sensor for the determination of movements, electronic sensors for use in mining and monitoring drilling performance and productivity, and electronic sensors for use in mining and monitoring drilling performance and productivity

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Treatment of materials in the nature of common metals and their alloys; treatment and regrinding of metal surfaces, tools, and machines; applying protective coatings to metal surfaces, tools, and machines by means of galvanization; gold and silver plating; metal casting and tempering; custom manufacture of metal working products and machines; assembly of products for others; fuel processing; treatment of materials in the nature of common metals and their alloys by mechanical or chemical processing; grinding; providing information relating to material treatment; recycling; waste management services in the nature of waste processing; recycling of steel; recycling of carbide, metal, lubricants, lubricating and cutting fluids, industrial oils and greases, lubricating oils, non-chemical additives for fuels, lubricants and greases, dust absorbing compositions, dust binding compositions, chemicals, chemical additives, binding agents, coolants, and chemical fluids; providing information relating to material treatment, specifically metal; regrinding and electrophoretic coating services of tools and machines

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Lubricants, namely, lubricating fluids in the nature of grinding fluid, cutting fluids, industrial oils, and greases; lubricating oils; non-chemical additives for fuels, lubricants and greases; dust controlling and removing compositions being dust absorbing compositions and dust binding compositions

For Pharmaceutical and medical preparations for the treatment of cancer, heart disease, diabetes, and blood disorders; biochemical, in particular immunological preparations in the nature of immunostimulants, vaccines, and cells for medical and pharmaceutical purposes; absorbents for therapeutic purposes in the field of extracorporeal plasma treatment, namely, peptide adsorbents; pharmaceutical preparations and pharmaceuticals in the field of extracorporeal plasma therapy, namely, blood purifying preparations, extracorporeal plasma therapy solutions, physiological saline solutions, glycine solutions, PBS solutions, preparations for extending blood coagulation time, heparin solutions; biochemical preparations for medical and pharmaceutical purposes in the field of extracorporeal plasma, in particular immunological preparations for the prevention and treatment of diseases and disorders of the immune system; reagents and cell growth media, and substances and components for the preparation of cell growth media, all being for medical purposes; reagents for processing, separating, isolating, enriching, depleting, detecting, expanding, differentiating, screening, analyzing and tallying biological material, reagents containing magnetic beads, and antibody reagents, all for medical purposes; buffer solutions and reagents for use with medical apparatus, in particular separation apparatus, analyzers, reactors, cell processing apparatus and imaging apparatus; reagents for processing biological material, in particular tissues, bone marrow, cells, blood and components thereof, all being for medical purposes; reagents for medical use and preparations for medical purposes for the treatment of cancer, heart disease, diabetes and blood disorders; culture media for cultivating human cells and human tissue, cell culture media for cultivating human cells and human tissue, freezing media for the cryopreservation of human cells and human tissue, contrast agents and contract agents for in vivo imaging, all of the aforesaid goods for medical, pharmaceutical purposes; cellular medicines and pharmaceutical treatments for the treatment of cancer, heart disease, diabetes and blood disorders; chemical, biochemical and biological preparations for pharmaceutical and medical purposes for the treatment of cancer, heart disease, diabetes, and blood disorders; molecules of microorganisms including viruses, bacteria, fungi, in particular proteins, peptides, and protein and peptide pools,

all for medical purposes; freezing preparations for medical purposes for the cryopreservation of human cells and human tissues; diagnostic preparations and substances for medical purposes; media for cell culture for cultivating human cells and human tissue; media for bacteriological cultures for medical purposes; cell cultures, fungal cultures and virus cultures, all for medical purposes; pharmaceuticals for cellular therapy; reagents for medical use, in particular cytokines and antibodies

International Classes 5 - Primary Classes **US Classes** 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

For Medical apparatus and instruments, namely, apparatus and instruments for magnetic cell separation for medical purposes; apparatus and instruments for medical use, in particular an automated system for processing cells; blood tube sets for medical purposes; analysis columns for medical purposes, for blood analysis; incubation units for medical purposes; bio-reactors for medical purposes for cell culturing; component and replacement parts for the aforesaid goods; medical apparatus for extracorporeal immunoadsorption; medical apparatus and equipment for extracorporeal plasma therapy and component and replacement parts and fittings therefor, in particular sterile bottles, filters, membrane filters, cannulae and tubes for medical purposes, being replaceable parts; chromatography columns for medical use, in particular adsorption columns and cartridges for use in extra-corporal plasma therapy; medical apparatus and equipment for separating plasma and component and replacement parts and fittings therefor, in particular sterile bottles, filters, membrane filters and tubes for medical purposes, being replaceable parts; extracorporeal plasma therapy systems for medical purposes comprised of units for separating plasma, plastic containers and bags for plasma for medical purposes, plasma filter and collecting tubes, sterile filters for medical purposes, control units, microprocessors, pumps, monitors, pH detectors, air detectors and photodetectors, optical detectors; medical apparatus in the nature of absorber cartridges and columns for use in extracorporeal plasma therapy; medical apparatus and equipment for separating plasma; apparatus for magnetic cell separation for medical purposes; sacks, pouches, bags, foils, hoses and connectors adapted for medical use, in particular for cryopreservation of human cells and human tissues; chromatography columns for medical use, in particular immune adsorption columns for ex-vivo application in therapy; medical measuring apparatus and instruments, namely, flow cytometers and flow-based analyzers providing cell and particle analysis, detection, or counting for medical, clinical, medical diagnostic, and therapeutic uses; component and replacement parts for the aforesaid goods

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Chemicals and/or biological preparations for use in industry and science; diagnostic preparations for scientific or research use including medical laboratory diagnosis; chemicals, biological and biochemical preparations for use in separation processes for biological materials, in particular nucleic acid for laboratory use; reagents for scientific and research use, namely, reagents for cell separation, labelling reagents; chemicals for scientific use and for use in medical laboratories for use in separation processes for biological materials; molecules of microorganisms including viruses, bacteria, fungi, in particular proteins, peptides, and protein and peptide pools, oligosaccharides, lipids, hybridization solutions, chemical preparations for cleaning purposes, cDNA clones, all for use in industry and science; reagents, chemical and/or biological media, materials and components for preparing media, all of the aforesaid for industrial and scientific purposes and for use in medical laboratories; reagents for use in science and/or industry for processing, separating, isolating, enriching, expanding, differentiating, depleting, detecting, screening, analyzing and tallying material, in particular chemicals and biological material, reagents featuring magnetic beads, antibody reagents; buffer solutions and reagents for use with laboratory apparatus, in particular separation apparatus, analyzers, reactors, cell processing apparatus and imaging apparatus; reagents for use in science and/or

industry for processing biological material, in particular tissues, bone marrow, cells, blood and components thereof; diagnostic reagents and preparations for scientific purposes and for use in medical laboratories; chemical reagents and preparations for use in the manufacture of medicines; culture media, cell culture media, freezing media for in vivo scientific use; reagents other than for medical purposes for use in biotechnology, in biological processing operations and in the biotechnology industry, and the manufacture of medicine; chemicals and biological preparations for use in industry and science; diagnostic preparations for scientific or research use; chemical and/or biological substances and mixtures for industrial and scientific applications in preparing media; culture media for scientific use, namely, biology, microbiology, and for use in the biotechnical industry and in medical research; chemical preparations for use in pharmaceutical and medical science; reagents for clinical and non-clinical laboratory use, in particular cytokines and antibodies

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Scientific apparatus and instruments for magnetic cell separation for use in clinical and non-clinical laboratories; apparatus and instruments for use in clinical and non-clinical laboratories, in particular an automated system for processing cells; test tube sets for scientific purposes; chromatography columns for laboratory use; laboratory centrifuges; laboratory incubators; laboratory bioreactors; component and replacement parts for all the mentioned goods; scientific, electric and electronic apparatus and instruments for separating biological material for scientific use, in particular for separating cells and biological macro-molecules, in particular proteins, nucleic acids; scientific, electric and electronic apparatus and instruments for conducting enzymatic reactions for scientific use; liquid and gas analyzers, and recorded control software, laboratory pipetting stations and laboratory sample carrier plates therefor; scientific apparatus and instruments for magnetically sorting biological material, and computer hardware and recorded computer operating software therefor; cell separation and cell processing apparatus for laboratory use; cytometers; microchips and data carriers containing recorded software for use with gene detecting apparatus, namely, for indicating pathological changes; microchips in the form of coated glass slides or plastic materials; microchips and testing instruments for the diagnostic detection of gene expression profiles indicative of pathological changes for scientific research use; electric and electronic apparatus and instruments for cell separation and for cell processing, for use in clinical and non-clinical laboratories; sacks, pouches, bags and films specially adapted for the holding of cell culture and biotechnological preparations for scientific or laboratory use, in particular for cryopreservation; component and replacement parts for all the mentioned goods

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Medical and pharmaceutical compounding services; medical, pharmaceutical laboratory services, in particular providing medical and pharmaceutical consultation in connection with manufacturing cell therapy products, cell preparations, cellular medicines, selecting, stimulating, activating cells, and manufacturing kits or reagents; medical services, in particular in the field of extracorporeal plasma therapy; medical analysis services for diagnostic and treatment purposes provided by medical laboratories

International Classes 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

For Scientific and technological services, namely, research and design in the field of computer hardware and software for the analysis of biological and biochemical materials ; industrial analysis and research services; design and development of computer hardware and computer software, all of the aforesaid services for and in connection with the analysis of biological material, in particular cell material for biological and medical research and therapy; scientific services relating to the isolation and cultivation of cell materials for biological and medical research and therapy; design and development of laboratory processes for manufacturing cell products; design and development of computer hardware and software, in connection with manufacturing cell preparations, selecting, stimulating, activating cells for medical, scientific, pharmaceutical or biotechnological purposes, and products necessary therefor; development of software in the field of molecular biology; biotechnological laboratory services, in particular in connection with manufacturing cell therapy products, cell preparations, cellular medicines, selecting, stimulating, activating cells, and manufacturing kits or reagents; chemistry, biology and molecular biology laboratory services; design and development of manufacturing processes for medical cell preparations **International Classes** 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services
