For Diesel engines for land vehicles; locomotives; armored vehicles

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Machines and equipment, and the parts and tools for such machines for power generation and for treatment of industrial waste streams and other industrial processes, namely, steam-operated power generators, gasoline operated power generators, diesel fuel operated power generators, bio diesel operated power generators, emulsified diesel operated power generators, propane gas operated power generators, natural gas operated power generators, hydrogen operated power generators, portable electric power generators, machine tools for processing, destroying, handling, grinding, sieving, mixing, removing, separating and sorting materials and waste; galvanizing apparatus, namely, galvanizing machines; ore treating machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Guns, ballistic weapons and targeting systems primarily composed of armored platforms, missiles and armored turrets

International Classes 13 - Primary Classes **US Classes** 2, 9 **International Class Title** Firearms

For Steam generators; electromagnetic induction cookers for industrial purposes; furnaces for melting metals; furnaces for recovering scrap metals; garbage incinerators for industrial purposes; gas generating furnaces for industrial purposes; gas scrubbing apparatus; gas scrubbing installations; heat accumulators; heat exchangers for chemical processing; induction ovens; industrial air filter machines; industrial air purifiers; industrial dehumidifiers; industrial furnaces; rainwater purification installations; refractory furnaces; refrigerating machines; reheating furnaces for industrial purposes; sewage purification installations; sewage purification apparatus; solar collectors for heating; ventilation hoods; waste water treatment tanks; water

purification installations; water purification apparatus namely water purification machines, water purification tanks, and water purification units

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Educational, practical, and theoretical training in the fields mining, industry, energy production, equipment and systems for military defense, waste flow treatment, water treatment, consulting methods regarding energy saving, computer systems and design of software; organization and conducting of colloquiums, conferences, conventions in the fields of mining, industry, energy production, equipment and systems for military defense, waste flow treatment, water treatment, consulting methods regarding energy saving, computer systems and design of software; organization of exhibitions for educational purposes in the fields of human resources, equipment used for military defense, real estate and land resources, virtual reality and augmented reality; all the aforesaid services provided in the fields of mining, industry, energy production, equipment and systems for military defense, waste flow treatment, water treatment, consulting in the field of training in the fields of energy-saving, computer systems and design of software

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Maintenance, repair, and installation of machines and equipment for mining, power generation, treatment of industrial waste streams and other industrial processes; Maintenance, repair, and installation of equipment, parts and tools for such machines, namely, steam generators, apparatus for the treatment of metal, namely, galvanizing machines, ore treating machines, electromagnetic induction cookers for industrial purposes, furnaces for melting metals, furnaces for recovering scrap metals, garbage incinerators for industrial purposes, gas generating furnaces for industrial purposes, gas scrubbing apparatus, gas scrubbing installations, heat accumulators, heat exchangers for chemical processing, induction ovens, industrial air filter machines, industrial air purifiers, industrial dehumidifiers, industrial furnaces, rainwater purification installations, refractory furnaces, refrigerating machines, reheating furnaces for industrial purposes, sewage purification installations, sewage purification apparatus, solar collectors for heating, ventilation hoods, waste water treatment tanks, water purification installations, water purification apparatus, diesel engines for land vehicles, locomotives, armored vehicles, guns, weapons and targeting systems primarily composed of armored platforms, missiles and armored turrets

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Downloadable industrial software for operating, controlling and optimizing industrial processes and equipment

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Research, design and engineering services in the field of mining, industry, energy production, military equipment and military defense systems, waste stream processing, consultancy in the field of energy measurement to improve energy efficiency, computer systems and software design for the aforementioned applications; testing and analysis of materials; installation, calibration, maintenance and updating of industrial software for operating, controlling and optimizing of industrial processes and equipment

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Waste management and recycling machines; Machines and machine tools for recycling and producing fuel; Machines and machine tools for use in recycling processes, namely, industrial fluidized bed reactors, burners for industrial fluidized bed reactors, screw conveyors, conveying machines for plastic waste, separator machines for plastics, machines for drying plastic, three phase separators for separating gas, oil and water, separating machines for chemical processing, separating machines for separating oil, gas and water, machines for separating recycling materials, and tray columns for distillation; Machines for producing chemical feedstock in the form of hydrocarbon material; Apparatuses for converting waste material into chemical feedstock in the form of hydrocarbon, namely, industrial fluidized bed reactors, burners for industrial fluidized bed reactors, gear pumps being parts of machines, centrifugal pumps, heat exchangers being parts of machines, gas filters for waste converting machines, storage tanks being parts of waste converting machines, gas scrubbers, and packed bed scrubbers; structural parts and fittings for all the aforementioned goods

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Apparatus and equipment for recycling of waste and waste materials, and for collecting, storing and utilizing fuel and energy obtained from waste and recycled products, namely, combustion chambers, fluid separation apparatus for separation of gas from liquid, heat exchangers for chemical processing, heat exchangers not being parts of machines, filters and filtering devices for air and gas conditioning, and separators for the cleaning and purification of liquids and gasses; structural parts and

fittings for all the aforementioned goods

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Machinery installation, maintenance and repair; maintenance of industrial machinery, namely, industrial fluidized bed reactors, burners for industrial fluidized bed reactors, screw conveyors, conveying machines for plastic waste, separator machines for plastics, machines for drying plastic, three phase separators for separating gas, oil and water, separating machines for chemical processing, separating machines for separating oil, gas and water, machines for separating recycling materials, and tray columns for distillation, pumps, remote sensing apparatus, control systems and heat exchangers; Industrial recycling plant maintenance; recycling machinery maintenance services; consultancy, information and advisory services relating to the aforementioned services

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Recycling; recycling and waste treatment; Recycling of plastics; Waste recycling services; Waste treatment services; Treatment of materials, by mechanical and chemical and biological processing and transformation of waste, waste materials, waste objects, and waste products, for the production of fuel and energy from waste and recycled materials, including without limitation oil, wax, petrochemical feedstock or gases; Processing of hydrocarbons; Consultancy, information and advisory services relating to the aforementioned services

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Custom design of specialist and industrial machinery; Design and development of apparatus, namely, machines for recycling purposes, industrial fluidized bed reactors, combustion chambers, distilling units, distillation apparatuses, pumps for use in converting waste and water material into fuel and energy, heat exchangers, filters for waste converting machines, pre-packed columns for use in separation and purification of waste and waste materials, industrial scrubbers for removing particulate matter from the air during industrial processing, gas filters for waste converting machines, and storage tanks for waste converting machines; Engineering services in relation to processing and recycling of waste; conducting scientific research in the field of the circular economy; design of waste disposal and conversion systems for the purpose of resource management and chemical feedstock production; consultancy, information and advisory services relating to the aforementioned services

For Direct marketing services in the energy sector; providing of an online marketplace for buyers and sellers of products and services relating to the energy sector; negotiation and conclusion of commercial transactions for others via online shops in the energy sector; mediation and conclusion of commercial transactions for others in the energy sector; collection of commercial information for the energy sector; sales promotion in the energy sector; arranging of contractual services with third parties in the energy sector; mediation of contracts for the purchase and sale of products and services in the energy sector; demonstration of goods for advertising purposes in the energy sector; demonstration of goods and services in the energy sector; online and offline advertising and marketing services in the energy sector; advisory services for preparing and carrying out commercial transactions in the energy sector; provision of online business and commercial information in the energy sector; compilation and provision of trade and business price information in the energy sector; e-commerce services, namely, providing consumer product advice by means of telecommunication networks for advertising and sale purposes in the energy sector; online ordering services featuring energy production and energy consumption goods and services in the energy sector; online and offline retail store services featuring energy production and energy consumption goods and services in the energy sector; mail order retail services featuring goods from the energy production and energy consumption sector; provision of an online marketplace for buyers and sellers of goods and services in the energy sector; auctioneering provided on the Internet in the energy sector; conducting virtual trade show exhibitions online for business purposes in the field of energy; billing services in the field of energy; import-export agencies in the field of energy; energy price comparison services; assistance and consultancy services in the field of business management of companies in the energy sector; tracking and monitoring energy consumption for others by reading the meter for billing purposes; business organizational and business consultancy services relating to the design and provision of solution packages in the field of energy management

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Installation of energy generation devices for the energy sector; maintenance of energy generation devices for use in the field of energy; repair of energy generation devices for use in the field of energy; assembly of energy generation devices for use in the field of energy; cleaning of energy generating equipment in the field of energy, laying of cable; assembly and repair of fences; technical installation, technical maintenance and technical repair of energy saving devices for use in the field of energy; installation, maintenance and repair of solar, photovoltaic and energy generating systems

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Apparatus and instruments for conducting, switching, transforming, storing, regulating and controlling electricity, namely, electrical control instruments, electrical regulating instruments, electrical storing devices, each for electrical current flow in the energy production and energy consumption field; apparatus and instruments for conducting, switching, transforming, storing, regulating and controlling electricity, for high frequency technology and telecommunications, namely, electrical transformers, electrical inverters, electrical storage batteries, and solar plants for generating energy consisting of solar modules, electrical inverters, electrical control instruments and electric battery storage devices; apparatus and instruments for measuring and analyzing electricity, namely, electrical measuring instruments and electrical analyzing instruments, each for electrical current flow in the energy production and energy consumption field; downloadable computer software in the energy production and energy consumption field for use in the energy sector; downloadable mobile applications in the energy production and energy consumption field for use in the energy sector; electric display apparatus for use in the energy sector,

namely, displays for controlling, regulating and analyzing electrical current flow in the energy production and energy consumption field; data processing apparatus for use in the energy sector; inverters

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Providing of access to online computer databases in the field of energy; providing of access to databases featuring information on the Internet in the field of energy; telecommunication services, namely, transmission of data by means of telecommunications network platforms and portals on the Internet in the field of energy; providing of access to databases on the Internet in the field of energy; electronic transmission of information and data via online telecommunications system and via the Internet in the field of energy; providing access to an electronic global computer network for online research in the field of energy; telecommunications consultation services in the field of energy; providing of telecommunication connection to a worldwide computer network in the field of energy; rental of telecommunications installations for the exchange of electronic data in the field of energy; online electronic transmission of information via telecommunications means in the field of energy; telecommunications consultation services in the field of energy provided via platforms and portals on the Internet and other media; providing online forums in the field of energy; providing of access to databases featuring information in the field of energy via data networks; electronic data exchange stored in databases in the field of energy accessible via telecommunications networks; data transfer by telecommunications means in the field of energy; telecommunications services, namely, transmission of information in the field of energy; telecommunications services, namely, communication by means of computer terminals, via digital transmission or via satellite transmission in the field of energy; electronic transmission of data, messages and information by telecommunications means in the field of energy; provision of access to databases of information in the field of energy distribution and energy storage; provision of access to databases related to trade and business price and statistical information in the energy sector

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Distribution of energy; storage of energy; information and advisory services relating to energy distribution; information and advisory services in the field of energy distribution and energy storage

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Generation of power; energy production; leasing of energy generating equipment

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Design, development and programming of computer software and computer software applications for controlling energy systems; design, development and programming of energy management computer software and computer software applications; design, development and programming of computer software and computer software applications for controlling energy management systems; design, development and programming of computer software and computer software applications in the field of energy; rental of computer software and computer software applications in the field of energy; installation and maintenance of computer software and computer software applications in the field of energy; custom design of computer software and computer software applications in the field of energy; monitoring of computer systems for others for regulating energy; monitoring of computer systems for others for regulating energy by remote access; recording data for others on optical, digital, and magnetic media for electronic storage relating to energy consumption in buildings; consulting services in the field

of energy measurement to improve energy efficiency; providing technical analysis relating to scientific research in the fields of energy supply, energy generation, and the energy consumption by others; providing technological consulting services in the field of energy generation and energy consumption; technological consulting services in the field of energy supply; technological advisory services in the field of energy; technological consultancy in the field of energy-saving, use of energy and energy efficiency; technological consultancy related to technical examination of the efficiency of energy consumption; energy auditing; testing, analysis, and evaluation of the goods and services of others to determine conformity with certification standards related to the energy efficiency of buildings; providing technological advice relating to the engineering of energy systems; conducting feasibility studies in the field of new technologies in the field of energy; technological analysis services in the field of engineering of goods in the energy field; technological consultancy services, namely, computer programming services online in the field of energy; planning, design, development and maintenance of online websites for others in the field of energy; maintenance of websites and hosting online web facilities for others in the field of energy; software as a service (SaaS) services, namely, hosting computer software applications of others in the field of energy for use in database management; programming, maintenance and provision of online, non-downloadable software for use in database management via a worldwide computer network in the field of energy, used by others; programming, maintenance and provision of online, non-downloadable software and computer software applications, both for e-commerce platforms for providing user authentication using single sign-in technology for e-commerce transactions in the field of energy, used by others; computer consultancy services, namely, development of computer software and computer software applications for use in the field of energy; providing temporary use of online, non-downloadable computer software for tracking packages over computer networks, intranets and the Internet in the field of energy; hosting computer server platforms and portals in the field of energy; hosting platforms on the Internet in the nature of computer servers in the field of energy; hosting of servers featuring computerized data, files, applications and information in the field of energy; encryption, decryption and authentication of information, messages and data in the field of energy; cross-platform conversion of digital content into other forms of digital content; data warehousing in the field of energy; data conversion of electronic information in the field of energy; maintenance of software for data bases in the field of energy; engineering services relating to energy supply systems; engineering services in the field of energy technology; scientific research in the field of energy; technology supervision in the field of energy management systems and the management of energy flows; technology supervision related to the operation of compute-based energy management systems and the energy flows resulting therefrom; conversion of computer programs and data in the energy sector, excluding physical conversion; hosting and maintenance of websites for third parties for memory space in the field of energy; hosting of website memory space for others on the Internet in the field of energy; provision of online, non-downloadable evaluation software online for controlling a measuring apparatus for tracking energy consumption and for evaluating energy consumption
