For Card games; toy vehicles; toys, namely, carpets for vehicles; and toy model ships and toy model diesel engines, and toy model turbines

International Classes 28 - Primary Classes **US Classes** 22, 23, 38, 50 **International Class Title** Toys and Sporting Goods

For Printed matter, namely, manuals, program manuals and pamphlets in the field of reactor systems, hydrotreaters, and steam generating installations; stationery; printed instructional and teaching material in the field of reactor systems, hydrotreaters, and steam generating installations; plastic materials for packaging, namely, films, bags, sheets

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Motors and engines, except for land vehicles, internal combustion engines, machine coupling and transmission components, except for land vehicles, and parts and spare parts therefor; motors and engines for ships, namely, ship propelling systems, for on-board power generation and for fixed power plants, primarily comprised of propeller, shaft and gearbox; 2-stroke and 4-stroke diesel engines, 4-stroke diesel-gas and gas-otto engines and parts therefor, in particular fuel-mixing devices, shafts, gears, couplings for machines; engines for boats; current generators; hand tools, other than hand-operated, for the maintenance of motors and engines; land-based and floating electricity generators for generating direct current or alternating current, predominantly consisting of combustion engines, other than for land vehicles; exhaust gas turbochargers and turbines, except for land vehicles, and parts therefor; diesel-gas engines for land-based and floating power stations;

compressors, turbines, turbomachines, turbogenerator installations and generators for generating electricity, namely, axial compressors, radial compressors, process gas turbines, axial expanders, radial expanders, transmission expanders; machine units comprising the aforesaid turbines and compressors; process gas screw compressors; screw expanders, multi-shaft compressors, transmission compressors, industrial steam turbines, industrial gas turbines, other than turbines for land vehicles; compressors consisting of integrated electric motors with compressors and frequency converters; energy generating machines and heat production installations, namely, gas and combined cycle power plants, steam power plants; fitted thermal protection housings for the aforesaid compressors, turbines, turbogenerator installations and generators, consisting of insulating linings; fitted sound insulation housings for the aforesaid compressors, turbines, turbogenerator installations and generators, consisting of damping linings; fitted basic housings for the aforesaid compressors, turbines, and turbomachines; gear boxes, in particular industrial gear boxes, except for land vehicles, for cement installations and petrochemical installations, for the plastics and steel industry, for wind energy installations; spur gears and epicyclic gears for turbo engines; marine transmissions with diesel engine and/or turbine drives; sliding bearings, in particular for electric machines, blowers, compactors, pumps, ships; machines and mechanical equipment and apparatus, and installations constructed therefrom, for use in the chemical industry; hydrotreaters, namely, machines for pre-treating liquid media; machines and mechanical equipment and apparatus, and installations composed thereof, for exothermic and/or endothermic processes, in particular gas phase processes; machines and mechanical equipment and apparatus, and installations composed thereof, for the chemical and refinery sector, namely, reactor systems for catalytic gas phase reactions; hydrotreaters; machines and mechanical equipment and apparatus, and installations composed thereof, for research purposes in the field of catalytic gas phase reactions and acid production; machines and mechanical equipment and apparatus, and installations composed thereof, for generating ultra-high vacuum; machines and mechanical equipment and apparatus, and installations composed thereof, for nuclear technology; machines and mechanical equipment and apparatus, and installations composed thereof, for accelerating nuclear particles; solar, hybrid and geothermal power plants composed of the aforesaid compressors, turbines, turbogenerator installations and generators for generating electricity, gas tank installations; electrical monitoring apparatus and instruments and monitoring equipment composed thereof for compressors, turbines, turbo machines, turbo generator installations and generators and for installations for generating energy

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Steam generating installations, namely, pipe reactors for catalytic gas-phase reactions; fusion reactors

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Education services, namely, providing training in the field of reactor systems, hydrotreaters, and steam generating installations arranging and conducting of educational seminars in the field of reactor systems, hydrotreaters, and steam generating installations; organisation and conducting of training workshops in the field of reactor systems, hydrotreaters, and steam generating installations

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Advertising services; promotion services; business management; business administration; arranging of commercial and business contacts; commercial sponsoring of cultural, social, scientific or sporting

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Repair, maintenance, servicing, rebuilding of vehicles and parts therefor; installation, maintenance and repair of machines, diesel engines, turbomachines; repair, maintenance, building construction for the modernisation and maintenance of motors and engines and turbochargers and motor and engine and machine parts, included in this class; rental of turbomachines in the form of drives for construction equipment and for installations for processing gaseous and liquid media; industrial and plant construction; shipbuilding; conducting building projects; construction of exhibition stands and shops, including installation, repair and maintenance thereof; assembly, installation and technical conversion for performance enhancement, functional expansion and alternative operating methods for machines, installations and components, in particular for the chemical industry, the refinery sector, physical installation construction and nuclear technology; remote maintenance of gas and diesel engines, power plant installations and turbomachines

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Process computers and computer programs and software therefor recorded on data media, all the aforesaid in particular for diesel engines, turbomachines; computer programs and computer programs stored on data carriers in the field of engineering, in particular for the construction, production planning and manufacture of mechanical engineering products; regulating, protection and monitoring apparatus for machines, namely, reactor systems for catalytic gas phase reactions; hydrotreaters; electronic materials testing instruments and machines for drive technology for vehicles, air travel and railway engineering

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Rental of diesel engines for generating electricity

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Clothing, namely, shirts, shorts, hats and caps; footwear

International Classes 25 - Primary Classes **US Classes** 22, 39 **International Class Title** Clothing

For Technical preparation of operating manuals for the use of EDP programs, including in electronic form, in the field of engineering, namely, for the construction, work preparation and manufacture of mechanical engineering products; technical consultancy, in particular relating to the use of data processing installations, equipment and programs in the field of engineering; material testing; computer programming; services of physicists; engineering services; conducting technical tests and checks, technical measurements and scientific investigations; research and development in the field of technology and mechanical engineering; physics research, in particular in the field of nuclear fusion, nuclear particle acceleration and nuclear technology; installation of software; configuring computer networks by means of software; material testing and quality control; engineering, in particular technical project planning of industrial installations for steel, metal and aluminium manufacturing and processing, for refineries and for petrochemistry; technical data analysis of gas and diesel engines, power plant

installations and turbomachines for the remote maintenance of gas and diesel engines, power plant installations and turbomachines

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 2 - AN ILLUSTRATION DRAWING WITHOUT ANY WORDS(S)/ LETTER(S) **Description of the Mark** The mark consists of a 3D design of a hand-operated kitchen appliance, wherein the appliance has a rounded shape with a base that includes a series of vertical grooves extending into the bottom, which are spaced from the upper rim. Circumferential bands extend between each of the groove pairs at the bottom edge of the base. The upper rim of the base flares out to a larger diameter, creating a cylindrical rim echoing the bands at the bottom. The cover at its lower edge includes a lower rim that is cylindrical and a match for the rim of the base. Above this lower rim, the cover flares inward in a manner mirroring and exaggerating the flaring on the base. The cover is shallower than the base, and terminates at a shallow dome. The inward flared portion of the cover forms a continuous toroidal groove about the cover, and mounted within this groove is the handle. The handle is elongated laterally and is curved and sized to conform to and be held within the toroidal groove surrounding the cover. **Color Claimed** Color is not claimed as a feature of the mark. **Acquired Distinctiveness** In whole
