MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of an abstract drawing of an aerial land mass represented as a three dimensional square tile laying on its side. It is divided into three segments. The upper right segment is grey, it is slightly disjointed and raised to allow the empty space between the disjoint in combination with that raised segment to give the appearance of a stylized land mass hill or terrace that curves and slopes downward towards a massive lake which appears in red as the middle segment. The lower left segment is grey. The stylized wording "THE STONELAKE GROUP LLC". appears in grey and sits below the three dimensional tile. The word "THE" sits atop the letter "S" in "STONELAKE". The words "GROUP LLC". appear under the letters "AKE". The letter "L" in "LAKE" is longer than the rest of the text. Beneath all of this wording is the stylized wording "THINKERS TINKERS RENEGADES," in black, with a red dot in between "THINKERS" and "TINKERS" and another red dot in between "TINKERS" and "RENEGADES". **Color Drawing** Yes **Color Claimed** The color(s) red, grey, and black is/are claimed as a feature of the mark. **Disclaimer** "GROUP LLC"

regulatory requirements, for use in identity and access management software for computer and mobile device user identity authentication and management, password authentication, sign-on control, intrusion prevention and for governing, authenticating, enforcing, restricting, controlling and managing access privileges of users to data, managed workspaces and privileged access management, software applications and cloud, mobile and network resources, for automating authentication and governance of identity over the internet and other computer networks, all in foregoing in the fields of systems development; Application service provider (ASP), namely, hosting computer software applications of others; Application service provider featuring application programming interface (API) software; Application service provider featuring application programming interface (API) software for integration of digital content into websites; Application service provider, namely, hosting, managing, developing, analyzing, and maintaining applications, software, and web sites, of others in the fields of advertising and marketing; Application service provider, namely, hosting, managing, developing, analyzing, and maintaining applications, software, and web sites, of others in the fields of healthcare, benefits programs, employee productivity, risk management; Authenticating antiques; Authenticating banknotes; Authenticating coins; Authenticating diamonds; Authenticating semi-precious gemstones; Authentication in the field of digital government, digital commerce and digital finance; Authentication, issuance and validation of digital certificates; Biomedical research services; Biotechnology research; Business card design; Business technology software consultation services; Calibration; Cartography and mapping; Charitable services, namely, providing computer software for those in need; Cloud storage services for electronic data; Cloud storage services for electronic files; Coin grading services; Computer code conversion for others; Computer compatibility services, namely, data mapping; Computer diagnostic services; Computer disaster recovery planning; Computer forensic services; Computer monitoring service which tracks application software performance, performs periodic maintenance and provides reports and alerts concerning such performance; Computer monitoring service which tracks hardware performance and processes and sends out historical reports and alerts; Computer network design and computer software design for the field of conformity science; Computer network design for others; Computer programming and rental of computer programs; Computer programming consultancy; Computer programming in the medical field; Computer programming of computer games; Computer programming of video games; Computer programming services for creating augmented reality videos and games; Computer programming services for customers that enables the customer's digital devices to process natural language queries from end users; Computer programming services for others in the field of software configuration management; Computer programming services, namely, content creation for virtual worlds and three dimensional platforms; Computer project management services; Computer security consultancy; Computer security consultancy in the field of scanning and penetration testing of computers and networks to assess information security vulnerability; Computer security consultancy in the field of conformity science; Computer security service, namely, hard drive erasure; Computer security service, namely, restricting access to and by computer networks to and of undesired web sites, media and individuals and facilities; Computer security services in the nature of providing authentication, issuance, validation and revocation of digital certificates; Computer security services, namely, enforcing, restricting and controlling access privileges of users of computing resources for cloud, mobile or network resources based on assigned credentials; Computer security services, namely, restricting unauthorized network access by users without credentials; Computer security threat analysis for protecting data; Computer services in the nature of customized web pages and other data feed formats featuring user-defined information; Computer services, namely, cloud hosting provider services; Computer services, namely, computer system administration for others; Computer services, namely, creating an on-line community for registered users to participate in discussions, get feedback from their peers, form virtual communities, and engage in social networking services in the field of conformity science, governance, management,

operations management and finance; Computer services, namely, creating an on-line community for registered users to participate in discussions, get feedback from their peers, form virtual communities, engage in social networking, engage in peer-to-peer commerce and engage in Peer-to-Peer (P2P), Private, Crypto, Secret, Shadow finance in the nature of providing temporary use of online non-downloadable software for processing electronic payments collected from corporations, organizations and individuals; Computer services, namely, creating computer network-based indexes of information, websites and resources; Computer services, namely, domain forwarding services; Computer services, namely, electronic detection of plagiarized content; Computer services, namely, encrypted data recovery services; Computer services, namely, filtering of unwanted e-mails; Computer services, namely, hosting on-line web facilities for others for organizing and conducting online meetings, gatherings, and interactive discussions; Computer services, namely, integration of computer software into multiple systems and networks; Computer services, namely, integration of private and public cloud computing environments; Computer services, namely, interactive hosting services which allow the users to publish and share their own content and images on-line; Computer services, namely, managing on-line waitlists and automating the on-line waitlist process for others; Computer services, namely, monitoring and reporting on the performance, availability, and errors of web sites of others; Computer services, namely, monitoring the web sites of others to improve their scalability and performance; Computer services, namely, monitoring, testing, analyzing, and reporting on the Internet traffic control and content control of the web sites of others; Computer services, namely, on-line scanning, detecting, quarantining and eliminating of viruses, worms, trojans, spyware, adware, malware and unauthorized data and programs on computers and electronic devices; Computer services, namely, providing a web site for others that automates party and entertainment events management information consisting of guest information; Computer services, namely, providing an interactive web site featuring technology that allows users to collect, store, manage, deliver and showcase electronic and paper-based content; Computer services, namely, providing an interactive web site featuring technology that allows users to create their own books; Computer services, namely, providing virtual and non virtual application servers, web servers, file servers, co-location servers, load balancing servers, redundancy servers, media servers and database servers of variable capacity to third party computing and data storage facilities; Computer services, namely, redirecting electronic mail to changed personal electronic address; Computer site design; Computer software consultation; Computer software design for others; Computer software design, computer programming, and maintenance of computer software; Computer software development and computer programming development for others; Computer system analysis; Computer system design; Computer systems analysis; Computer systems integration services; Computer technical support services, namely, 24/7 service desk or help desk services for IT infrastructure, operating systems, database systems, and web applications; Computer technology consultancy; Computer technology support services, namely, help desk services; Computer virus protection services; Conducting of feasibility studies in the field of new technologies; Conducting scientific feasibility studies; Conducting worksite surveys to determine if worksites meet employee health condition requirements and standards; Consultancy in the design and development of computer hardware; Consultancy with regard to webpage design; Consultation about the maintenance and updating of computer software; Consulting in the field of information technology; Consulting in the field of telecommunications technology; Consulting in the field of virtualization technologies for enterprises and businesses; Consulting in the field of BlockChain engineering; Consulting services in the design and implementation of computerbased information systems for businesses; Consulting services in the field of cloud computing; Consulting services in the field of design and development of engineering processes; Consulting services in the field of environmental assessment and planning; Consulting services in the field of graphic design of advertising materials; Consulting services in the field of home

automation; Consulting services in the field of quantum computing; Consulting services in the field of software as a service (SAAS); Consulting services in the field of testing of electronic components and electronic systems; Consulting services in the fields of energy measurement to improve energy efficiency; Consumer product safety testing consultation; Conversion of data or documents from physical to electronic media; Copying of computer software; Creating an on-line community for users to participate in discussions, get feedback from their peers, form virtual communities, engage in social networking, engage in peer-to-peer commerce and engage in Peer-to-Peer (P2P), Private, Crypto, Secret, Shadow finance in the nature of providing temporary use of online non-downloadable software for processing electronic payments collected from corporations, organizations and individuals; Creating and designing website based indexes of information for others using information technology; Creating and maintaining blogs for others; Creating and maintaining web sites for others; Creating, maintaining, and modernizing computer software; Creation of control programs for automated measurement, assembly, adjustment, and related visualisation; Cross-platform conversion of digital content into other forms of digital content; Custom design of computer software; Customizing computer software; Customizing computer software by adding custom fields and custom rules; Cybersecurity services in the nature of restricting unauthorized access to computer systems; Data automation and collection service using proprietary software to evaluate, analyze and collect service data; Data conversion of electronic information; Data decryption services; Data encryption and decoding services; Data encryption services; Data mining; Data security consultancy; Data warehousing; Design and development of computer game software; Design and development of computer game software and virtual reality software; Design and development of computer software for management of BlockChain-based systems and technology; Design and development of computer software in the field of tablet applications; Design and development of computer-modeled versions of human beings using computer animation for use in movies, television, internet and other applications; Design and development of computers and programs for computers; Design and development of electronic data security systems; Design and development of virtual reality software; Design and development of visualization technologies for advertisement of real-estate, commercial product and business of others; Design and implementation of software and technology solutions for the purpose of product and document authentication and tracking, and brand monitoring and protection, to protect against counterfeiting, tampering, and diversion, and to ensure the integrity of genuine products and documents; Design and maintenance of computer sites for third parties; Design and testing for new product development; Design and writing of computer software; Design for others in the field of computer networks, software, and engineering for the public administration industry sector, defense industry sector, finance industry sector, legal industry sector; Design of computer databases; Design of computer hardware, integrated circuits, communications hardware and software and computer networks for others; Design of computer networks and software for others for the field of conformity science; Design of computers for others; Design of customized books; Design of home pages and web sites; Design of unified communications services; Design, development and implementation of software; Designing and creating web sites for others; Designing and developing computer game software and video game software for use with computers, video game program systems and computer networks; Designing and developing websites in the field of finance for investors, borrowers and intermediaries; Designing computer software for controlling self-service terminals; Designing, creating, maintaining and hosting online retail and electronic commerce websites for others; Developing accreditation standards for universities, colleges, high schools; government services, finance services, management services, legal services, regulatory services to the order and specification of others; Developing and hosting a server on a global computer network for the purpose of facilitating e-commerce via such a server; Developing customized web pages and other data feed formats featuring user-defined information; Developing of driver and operating system software; Developing quality control standards for governance,

management and operations of BlockChain-based systems, technology, services and products in the nature of electronic books, magazines, brochures, journals, articles and manuals; Development and implementation of software, hardware and technology solutions for the purpose of testing of electronic components and electronic systems; Development of computer platforms; Development of customized software for others for use in risk assessment, information security, business analysis, audit and audit planning, and sales management; Development of new technology for others in the field of governance, management and operations of BlockChain-based systems, technology, services and products; Development of security systems and contingency planning for information systems; Development of software for secure network operations; Development of voluntary standards for governance, management and operations of BlockChain-based systems and technology; Development, design and updating of home pages; Development, updating and maintenance of software and database systems; Computer Diagnostic services in the field of computer hardware, tablet computers, cell phones, data processors, computer software and industrial automation machinery and equipment governance, management and operations of BlockChain-based systems, technology, services and products, governance, management and in the field of operations of BlockChain-based systems, technology, services and products, governance, and in the field of management and operations of BlockChain-based systems, technology, services and products, governance, management and operations of BlockChain-based systems, technology, services and products; Digital compression of computer data; Digital watermarking; Digitization of documents; Displaying the web sites and images of others on a computer server; Document reproduction in the nature of digitization of documents; Domain name search services, namely, conducting online computerized searches for the availability of domain names; Domain registry operator services; E-mail system design and implementation for others; Electronic data back-up services; Electronic data storage; Electronic document and e-mail time-stamping services; Electronic monitoring of credit card activity to detect fraud via the internet; Electronic monitoring of personally identifying information to detect identity theft via the internet; Electronic site authoring; Electronic storage of cryptocurrency for others; Electronic storage of documents and archived e-mails; Electronic storage of electronic media, namely, images, text and audio data; Electronic storage of files and documents; Electronic storage of personally identifiable information (PII) and commercially confidential information (CCI); Electronic storage services for archiving databases, images and other electronic data; Electronic storage services for archiving electronic data; Energy auditing; Engineering; Engineering design services; Engineering drawing services; Engineering services for building and property condition assessment; Engineering services for building and property condition assessment, facility management, repair and restoration and building instrumentation; Engineering services, namely, engineering for the construction and defense sector; Engineering services, particularly technical project planning and design engineering of lines for the processing of web products; Evaluating organizations to determine whether the organizations conform to an established accreditation standard; Evaluation of the home building and remodeling services of home builders and remodelers to determine conformity with certification standards other than for governmental regulatory purposes during construction; File sharing services, namely, providing a website featuring technology enabling users to upload and download electronic files; Forensic analysis of surveillance video for forensic research purposes; Franchising services, namely, planning and design of information technology systems for business franchises; Graphic design of advertising banners and signs; Graphic design of advertising brochures for others; Graphic design of advertising flyers for others; Graphic design of business surveys; Graphic design of insurance policies for others; Graphic design of internet advertising; Graphic design of marketing materials; Graphic design of marketing surveys; Graphic design of promotional materials; Graphic design of public opinion surveys; Handwriting analysis; Home inspection services for purposes of home repair and restoration; Home inspections; Hosting of digital content on the

Internet; Hosting on-line web facilities for others for conducting interactive discussions, sharing on-line content; Hosting the software, websites and other computer applications of others on a virtual private server; Hosting the web sites of others on a computer server for a global computer network; Information technology consulting services; Infrastructure as a service (IAAS) services, namely, hosting servers for use by others; Innovation consulting services, namely, advising others in the areas of product development; Inspecting buildings for the existence of mold; Inspection of organizations and individuals in the nature of developing quality control standards for trademark application and prosecution services, and central banking services, non-central banking services, and financial services in the nature of currency, loans and mortgages, and investment security and records management for quality control purposes; Installation and maintenance of computer software; Installation of computer software; Installation, maintenance and repair of software for computer systems; Installation, repair and maintenance of computer software; Integration of computer systems and networks; Intelligent natural language understanding services using cloud-based software technology; Intelligent voice recognition services using cloud-based software technology; Internet Protocol (IP) address verification services; Internet security consultancy; Internet-based application service provider, namely, hosting, managing, developing, analyzing, and maintaining the code, applications, and software for web sites of others; Internet-based service for the secure electronic storage of multi-lingual documents featuring an ability to track and report all user interactions with the service; Land title surveying; Land use planning services; Layout design services for clean room environments; Leasing computer facilities; Leasing of computers; Letterhead design services; Maintenance assessment of the performance and reliability of alarm systems; Maintenance of computer software relating to computer security and prevention of computer risks; Mapping services; Monitoring of computer systems by remote access to ensure proper functioning; Monitoring of computer systems for detecting unauthorized access or data breach; Monitoring of computer systems to detect breakdowns; Monitoring organizations and individuals in the nature of developing quality control standards for trademark application and prosecution services, and central banking services, non-central banking services, and financial services in the nature of currency, loans and mortgages, and investment security and records management for quality control; Networking of home controls, namely, wireless and wired lighting controls, thermostat and heating controls, rolling shutters and door controls, appliance controls, namely, oven, washer, dryer, refrigerator, dishwasher, lawn and garden irrigation controls, home audio and video controls; New product design services; Off-site data backup; On-line batch computer services, namely, configuration of multiple files into a single group; Online computer services, namely, providing spam filtering services to protect websites and online applications from receiving unsolicited messages; Online plagiarism detection services, namely, electronic detection of plagiarized content via the Internet; Outsource service provider in the field of information technology consulting; Outsource service providers in the field of information technology; Parking domain names for others, namely, providing computer servers for electronic storage of domain name addresses; Peer-to-browser photo sharing services, namely, providing a website featuring technology enabling users to upload, view, and download digital photos; Periodic upgrading of computer software for others; Photo scanning services; Planning and development of electronic communications networks; Planning, design and management of information technology systems; Planning, design, development and maintenance of online websites for third parties; Platform as a service (PAAS) featuring computer software platforms for use in database management, for use as a spreadsheet, for word processing, for dynamic provisioning, for virtualization and consumption metering of computer resources, for moving virtual machines into Infrastructure as a Service (IaaS) environments in a private, public or hybrid cloud environment, for management of user identity authentication and access privileges to aid in compliance with regulatory and industry data protection requirements, for user provisioning, role management, policy automation, access certification short message service (SMS), and voice one time password (OTP), design of biometric software and hardware for

providing computer and mobile device user identity authentication, for monitoring and improving the security of, and detecting, reporting, analyzing and protecting against cyber-attacks and threats directed at computers, computer systems, networks, computer and network hardware, software applications, digital devices, digital data, and mobile devices, for providing operational intelligence, business analytics, security information, troubleshooting, and monitoring of network security, for producing reports, dashboards, metrics and alerts related to computer, network and data security incidents, for risk, quality and compliance management, enterprise and operational risk management, internal audit management, automating business continuity, crisis management and disaster recovery planning and execution, managing technology and security related risks, cataloging third parties, contracts, engagements and related risks, and managing regulatory, governmental and corporate compliance, for electronic fraud and identity theft detection and prevention, for detecting, monitoring, managing and preventing fraud, financial crime, cybercrime, cyber threats, cyber-attacks, security attacks and intrusions, for real-time internet, mobile and e-commerce fraud detection, protection, management, analytics and reporting; managing user identity authentication and access privileges to aid in compliance with regulatory requirements, for identity and access management software for computer and mobile device user identity authentication and management, password authentication, sign-on control, intrusion prevention and for governing, authenticating, enforcing, restricting, controlling and managing access privileges of users to data, managed workspaces and privileged access management, software applications and cloud, mobile and network resources, for automating authentication and governance of identity over the internet and other computer networks, all in the fields of BlockChain-based governance, management and operations management systems, technology, services and products; Preparation, update, installation and maintenance of computer software; Product development for others; Product failure analysis services; Product quality evaluation; Product quality testing; Product quality testing services; Product research; Product safety testing; Professional computer services, namely, network analysis, LAN and WAN design, wireless engineering, virtualization and computer project management; Programming of multimedia applications; Programming virtual assets and financial instruments for use in online virtual worlds; Providing a secure, web-based service featuring technology that enables individuals to remotely create and manage their own accounts so that whatever private content they upload now can be encrypted, then delivered to their intended recipients, at the time and in the manner requested; Providing a secured-access, members only website featuring technology that gives members the ability to engage in business with one another; Providing a social networking website which features technology that enables users to give charitable financial gifts to others; Providing a web site allowing users to upload online videos for sharing with others for motivational and inspirational purposes; Providing a web site featuring technology that enables companies and organizations to administer and manage employee incentive award programs and to promote employee productivity, performance, recognition and morale; Providing a web site featuring technology that enables internet users to create, bookmark, annotate, and publicly share data; Providing a web site featuring technology that enables internet users to share documents, images and videos; Providing a web site featuring technology that enables internet users to submit comments of personal recognition; Providing a web site featuring technology that enables physicians to generate, manage and exchange medical information and documents regardless of medical organization or geographic location; Providing a web site featuring technology that enables recruiters and hiring managers to manage the entire candidate attraction and selection process, the administration of background checks, assessments and skills tests, as well as compiling data that facilitates the continuous improvement of the process; Providing a web site featuring technology that enables users to request and record ideas, suggestions, and comments from other users in any field of business or general interest; Providing a web site featuring technology that enables users to share, bookmark,

index, store, collect and showcase content, articles, images, calendars, products, projects, and other information resources in electronic form in the nature and field of conformity science and BlockChain-based systems, technology, services and products; Providing a web site that gives computer users the ability to upload and share user-generated videos, essays and articles on a wide variety of topics and subjects; Providing a web site that gives computer users the ability to upload and share video-based scientific protocols and other scientific-based videos; Providing a web site that gives computer users the ability to upload and share videos providing inspiration and motivation for women; Providing a web site that gives multiple computer users simultaneously the ability to upload, create and edit documents, printed publications, online publications, photographs, product packaging and advertisements; Providing a web-based service featuring technology that enables users to manage the production and publication of electronic books (e-books) and related digital content and offer them for sale to the general public; Providing a website featuring a media aggregator and search engine for internet content; Providing a website featuring information about green architecture, interior design, sustainable community planning and infrastructure development; Providing a website featuring non-downloadable software using artificial intelligence for systems learning; Providing a website featuring resources, namely, a website featuring non-downloadable software for customer relationship management, management of operations and processes for conformity to statutory and regulatory requirements, customer records, for use in database management, for use as a spreadsheet, for word processing, for dynamic provisioning, for virtualization and consumption metering of computer resources, for moving virtual machines into Infrastructure as a Service (IaaS) environments in a private, public or hybrid cloud environment, for management of user identity authentication and access privileges to aid in compliance with regulatory and industry data protection requirements; for user provisioning, role management, policy automation, access certification short message service (SMS), and voice one time password (OTP), design of biometric software and hardware for providing computer and mobile device user identity authentication, for monitoring and improving the security of, and detecting, reporting, analyzing and protecting against cyber-attacks and threats directed at computers, computer systems, networks, computer and network hardware, software applications, digital devices, digital data, and mobile devices, for providing operational intelligence, business analytics, security information, troubleshooting, and monitoring of network security, for producing reports, dashboards, metrics and alerts related to computer, network and data security incidents, for risk, quality and compliance management, enterprise and operational risk management, internal audit management, automating business continuity, crisis management and disaster recovery planning and execution, managing technology and security related risks, cataloging third parties, contracts, engagements and related risks, and managing regulatory, governmental and corporate compliance, for electronic fraud and identity theft detection and prevention, for detecting, monitoring, managing and preventing fraud, financial crime, cybercrime, cyber threats, cyber-attacks, security attacks and intrusions, for real-time internet, mobile and e-commerce fraud detection, protection, management, analytics and reporting, for managing user identity authentication and access privileges to aid in compliance with regulatory requirements, for identity and access management software for computer and mobile device user identity authentication and management, password authentication, sign-on control, intrusion prevention and for governing, authenticating, enforcing, restricting, controlling and managing access privileges of users to data, managed workspaces and privileged access management, software applications and cloud, mobile and network resources, for automating authentication and governance of identity over the internet and other computer networks, for BlockChain-based systems, technology, services and products; Providing a website featuring technology enabling users to remotely view, monitor, program, operate and control large and small appliances, electrical systems and security systems in homes, offices and vehicles; Providing a website featuring technology that enables subscribers to transfer files to and from a file transfer protocol server; Providing a website featuring technology that enables

users to generate printable cryptocurrency wallets; Providing a website featuring technology that enables users to organize and manage postmarked e-mails; Providing a website featuring technology that enables users to upload, organize, store, manage, share and search for information; Providing a website that features technology that enables the secure exchange of information by users; Providing a website that gives computer users the ability to subscribe to online publications permitting searches of building codes and standards; Providing a website that gives users the ability to create customized web pages featuring user-defined information; Providing a website that gives users the ability to purchase downloadable music; Providing a website that gives users the ability to review various print, photographic, graphic image, and audio and video content and utilize a custom template to provide input, likes, dislikes, edits, changes, modifications, opinions, suggestions, and comments and engage in social, business and community networking; Providing an interactive website featuring technology that allows users to enter, access, and synthesize information and generate reports for use in consulting with executives and businesses; Providing an interactive website featuring technology that allows users to upload, download, share and sell custom and branded digital publications; Providing an Internet website portal in the fields of technology and software development; Providing an on-line network environment featuring technology that enables users to share data in the field of conformity science; Providing an on-line network environment that features technology that enables users to share data; Providing an online non-downloadable Internet-based system application featuring technology enabling users to create, test, manage and commercialize BlockChain-based systems, technology, services and products; Providing computer programming services to customers that enables them to provide video and audio content on their web sites; Providing customer defined generated content and content of others automatically selected and customized based on the known or estimated geographical location of an Internet, mobile telephone or other wired or wireless digital network based customer; Providing customized computer searching services, namely, searching and retrieving information at the customer's specific request via the Internet; Providing customized on-line web pages and data feeds featuring user-defined information, which includes blog posts, new media content, other on-line content, and on-line web links to other websites; Providing customized on-line web pages featuring user-defined information, which includes search engines and on-line web links to other websites; Providing electronic verification of on-line orders of digital content and generating electronic permission codes which then allow users to access said digital content; Providing graphic and multimedia design services for the purpose of promoting the goods and services of others; Providing information in the fields of technology and software development via an on-line website; Providing information on the subject of scientific research in the field of biochemistry and biotechnology; Providing information relating to computer technology and programming via a website; Providing information relating to electronic data storage services; Providing information relating to on-line non-downloadable software to facilitate electronic communication between individuals provided via the Internet; Providing internet based data capture services that enable the exchange of information via the internet from residential mortgage borrowers to institutions for use in loan workouts; Providing on-line non-downloadable computer software for use as a cryptocurrency wallet; Providing on-line non-downloadable software for computing energy savings; Providing on-line non-downloadable software for generating cryptographic keys for receiving and spending cryptocurrency; Providing on-line non-downloadable software using artificial intelligence for systems learning; Providing online research and reference services via an on-line computer network by librarians and reference service specialists; Providing periodic updates to subscribers of web feeds pulled from websites selected by the subscriber by means of electronic mail; Providing planning and engineering services in the field of information and communications networks; Providing quality assurance services in the field of conformity science and BlockChain-based systems, technology, services and products; Providing quality control services for

the mortgage industry; Providing scientific information in the field of climate change; Providing scientific information in the field of global warming; Providing scientific information, advice and consultancy relating to carbon offsetting; Providing technical information updates of industrial process control computer software via the global computer network; Providing technological and scientific information about environmentally-conscious and green innovations; Providing technology consulting in the field of social media; Providing technology information in the field of cryptocurrency; Providing technology information in the field of conformity science and BlockChain-based systems, technology, services and products; Providing technology information updates for home security systems via the global computer network; Providing temporary use of non-downloadable cognitive stimulation computer programs that help maintain an active brain and thus improve memory, speed of processing, and that provide a variety of cognitive benefits that positively impact quality of life; Providing temporary use of non-downloadable computer anti-virus software; Providing temporary use of non-downloadable computer software for preparing invoices over computer networks, intranets and the internet; Providing temporary use of nondownloadable computer software for shipment processing over computer networks, intranets and the internet; Providing temporary use of non-downloadable computer software for tracking documents over computer networks, intranets and the internet; Providing temporary use of non-downloadable computer software for tracking packages over computer networks, intranets and the internet; Providing temporary use of non-downloadable software for selecting electronic cards, personalizing them with users own messages and sending them via e-mail; Providing temporary use of non-downloadable web-based decentralized applications (DApps) for customer relationship management, management of operations and processes for conformity to statutory and regulatory requirements, customer records, for use in database management, for use as a spreadsheet, for word processing, for dynamic provisioning, for virtualization and consumption metering of computer resources, for moving virtual machines into Infrastructure as a Service (IaaS) environments in a private, public or hybrid cloud environment, for management of user identity authentication and access privileges to aid in compliance with regulatory and industry data protection requirements, for user provisioning, role management, policy automation, access certification short message service (SMS), and voice one time password (OTP), design of biometric software and hardware for providing computer and mobile device user identity authentication, for monitoring and improving the security of, and detecting, reporting, analyzing and protecting against cyber-attacks and threats directed at computers, computer systems, networks, computer and network hardware, software applications, digital devices, digital data, and mobile devices, for providing operational intelligence, business analytics, security information, troubleshooting, and monitoring of network security, for producing reports, dashboards, metrics and alerts related to computer, network and data security incidents, for risk, quality and compliance management, enterprise and operational risk management, internal audit management, automating business continuity, crisis management and disaster recovery planning and execution, managing technology and security related risks, cataloging third parties, contracts, engagements and related risks, and managing regulatory, governmental and corporate compliance, for electronic fraud and identity theft detection and prevention, for detecting, monitoring, managing and preventing fraud, financial crime, cybercrime, cyber threats, cyber-attacks, security attacks and intrusions, for real-time internet, mobile and e-commerce fraud detection, protection, management, analytics and reporting; managing user identity authentication and access privileges to aid in compliance with regulatory requirements, for identity and access management software for computer and mobile device user identity authentication and management, password authentication, sign-on control, intrusion prevention and for governing, authenticating, enforcing, restricting, controlling and managing access privileges of users to data, managed workspaces and privileged access management, software applications and cloud, mobile and network resources, for automating authentication and governance of identity over the internet and other computer networks, all of the foregoing for BlockChain-

based, crypto-commerce, governance and finance, systems, technology, services and products; Providing temporary use of on-line non-downloadable cloud computing software using artificial intelligence for customer relationship management, management of operations and processes for conformity to statutory and regulatory requirements, customer records, for use in database management, for use as a spreadsheet, for word processing, for dynamic provisioning, for virtualization and consumption metering of computer resources, for moving virtual machines into Infrastructure as a Service (IaaS) environments in a private, public or hybrid cloud environment, for management of user identity authentication and access privileges to aid in compliance with regulatory and industry data protection requirements, for user provisioning, role management, policy automation, access certification short message service (SMS), and voice one time password (OTP), design of biometric software and hardware for providing computer and mobile device user identity authentication, for monitoring and improving the security of, and detecting, reporting, analyzing and protecting against cyber-attacks and threats directed at computers, computer systems, networks, computer and network hardware, software applications, digital devices, digital data, and mobile devices, for providing operational intelligence, business analytics, security information, troubleshooting, and monitoring of network security, for producing reports, dashboards, metrics and alerts related to computer, network and data security incidents, for risk, quality and compliance management, enterprise and operational risk management, internal audit management, automating business continuity, crisis management and disaster recovery planning and execution, managing technology and security related risks, cataloging third parties, contracts, engagements and related risks, and managing regulatory, governmental and corporate compliance, for electronic fraud and identity theft detection and prevention, for detecting, monitoring, managing and preventing fraud, financial crime, cybercrime, cyber threats, cyber-attacks, security attacks and intrusions, for real-time internet, mobile and e-commerce fraud detection, protection, management, analytics and reporting, for managing user identity authentication and access privileges to aid in compliance with regulatory requirements, for identity and access management software for computer and mobile device user identity authentication and management, password authentication, sign-on control, intrusion prevention and for governing, authenticating, enforcing, restricting, controlling and managing access privileges of users to data, managed workspaces and privileged access management, software applications and cloud, mobile and network resources, for automating authentication and governance of identity over the internet and other computer networks, all of the foregoing for BlockChain-based, cryptocommerce, governance and finance, systems, technology, services and products; Providing temporary use of on-line nondownloadable computer software for use as a digital wallet; Providing temporary use of on-line non-downloadable firmware for customer relationship management, management of operations and processes for conformity to statutory and regulatory requirements, customer records, for use in database management, for use as a spreadsheet, for word processing, for dynamic provisioning, for virtualization and consumption metering of computer resources, for moving virtual machines into Infrastructure as a Service (IaaS) environments in a private, public or hybrid cloud environment, for management of user identity authentication and access privileges to aid in compliance with regulatory and industry data protection requirements, for user provisioning, role management, policy automation, access certification short message service (SMS), and voice one time password (OTP), design of biometric software and hardware for providing computer and mobile device user identity authentication, for monitoring and improving the security of, and detecting, reporting, analyzing and protecting against cyber-attacks and threats directed at computers, computer systems, networks, computer and network hardware, software applications, digital devices, digital data, and mobile devices, for providing operational intelligence, business analytics, security information, troubleshooting, and monitoring of network security, for producing reports, dashboards, metrics and alerts related to computer, network and data security

incidents, for risk, quality and compliance management, enterprise and operational risk management, internal audit management, automating business continuity, crisis management and disaster recovery planning and execution, managing technology and security related risks, cataloging third parties, contracts, engagements and related risks, and managing regulatory, governmental and corporate compliance, for electronic fraud and identity theft detection and prevention, for detecting, monitoring, managing and preventing fraud, financial crime, cybercrime, cyber threats, cyber-attacks, security attacks and intrusions, for real-time internet, mobile and e-commerce fraud detection, protection, management, analytics and reporting, for managing user identity authentication and access privileges to aid in compliance with regulatory requirements, for identity and access management software for computer and mobile device user identity authentication and management, password authentication, sign-on control, intrusion prevention and for governing, authenticating, enforcing, restricting, controlling and managing access privileges of users to data, managed workspaces and privileged access management, software applications and cloud, mobile and network resources, for automating authentication and governance of identity over the internet and other computer networks, all of the foregoing for BlockChain-based, cryptocommerce, governance and finance, systems, technology, services and products; Providing temporary use of on-line nondownloadable software and applications using artificial intelligence for customer relationship management, management of operations and processes for conformity to statutory and regulatory requirements, customer records, for use in database management, for use as a spreadsheet, for word processing, for dynamic provisioning, for virtualization and consumption metering of computer resources, for moving virtual machines into Infrastructure as a Service (IaaS) environments in a private, public or hybrid cloud environment, for management of user identity authentication and access privileges to aid in compliance with regulatory and industry data protection requirements, for user provisioning, role management, policy automation, access certification short message service (SMS), and voice one time password (OTP), design of biometric software and hardware for providing computer and mobile device user identity authentication, for monitoring and improving the security of, and detecting, reporting, analyzing and protecting against cyber-attacks and threats directed at computers, computer systems, networks, computer and network hardware, software applications, digital devices, digital data, and mobile devices, for providing operational intelligence, business analytics, security information, troubleshooting, and monitoring of network security, for producing reports, dashboards, metrics and alerts related to computer, network and data security incidents, for risk, quality and compliance management, enterprise and operational risk management, internal audit management, automating business continuity, crisis management and disaster recovery planning and execution, managing technology and security related risks, cataloging third parties, contracts, engagements and related risks, and managing regulatory, governmental and corporate compliance, for electronic fraud and identity theft detection and prevention, for detecting, monitoring, managing and preventing fraud, financial crime, cybercrime, cyber threats, cyber-attacks, security attacks and intrusions, for real-time internet, mobile and e-commerce fraud detection, protection, management, analytics and reporting, for managing user identity authentication and access privileges to aid in compliance with regulatory requirements, for identity and access management software for computer and mobile device user identity authentication and management, password authentication, sign-on control, intrusion prevention and for governing, authenticating, enforcing, restricting, controlling and managing access privileges of users to data, managed workspaces and privileged access management, software applications and cloud, mobile and network resources, for automating authentication and governance of identity over the internet and other computer networks, all of the foregoing for BlockChain-based, crypto-commerce, governance and finance, systems, technology, services and products; Providing temporary use of on-line non-downloadable software development tools; Providing temporary use of on-line non-downloadable software for medical billing; Providing temporary use of on-line nondownloadable software for retirement planning; Providing temporary

use of online non-downloadable middleware for providing an interface between web browser and legacy systems; Providing user authentication services using biometric hardware and software technology for e-commerce transactions; Providing user authentication services using biometric hardware and software technology for BlockChain-based, crypto-commerce, governance and finance, systems, technology, services and products; Providing user authentication services using blockchain-based software technology for cryptocurrency transactions; Providing user authentication services using single sign-on technology for online software applications; Providing user authentication services using single sign-on technology, biometric hardware and software technology for e-commerce transactions; Providing virtual computer systems and virtual computer environments through cloud computing; Provision of Internet search engines; Psychological research; Public document retrieval; Quality control for others; Quality control of goods and services; Quality control of services; Quality management services, namely, quality evaluation and analysis, quality assurance, and quality control, in the field of conformity science and Blockchain-based, crypto-commerce, governance and finance, systems, technology, services and products in the nature of planning, design, management, and implementation of securities tokens and utility tokens and policy making, testing, accreditation, licensure, regulation and regulatory services of securities tokens and utility tokens, and trademark application and prosecution services, and central banking services, non-central banking services, financial services, namely, currency, loans and mortgages, and investment security and records management, retention and distribution services; Quality management services, namely, quality evaluation and analysis, quality assurance, and quality control, in the field of conformity science and Blockchainbased, crypto-commerce, governance and finance, systems, technology, services and products in the nature of planning, design, management, and implementation of securities tokens and utility tokens and policy making, testing, accreditation, licensure, regulation and regulatory services of securities tokens and utility tokens, and trademark application and prosecution services, and central banking services, non-central banking services including, financial services, namely, currency, loans and mortgages, and investment security and records management, retention and distribution services; Reconstruction of database systems for others; Recovery of computer data; Remote monitoring of printers for others; Rental of computers relating to computer security and prevention of computer risks; Rental of server memory space; Repair of computer software; Scientific Research and development and consultation related thereto in the field of conformity science and Blockchain-based, crypto-commerce, governance and finance, systems, technology, services and products in the fields of planning, design, management, and implementation of securities tokens and utility tokens and policy making, testing, accreditation, licensure, regulation and regulatory services of securities tokens and utility tokens, and trademark application and prosecution services, and central banking services, non-central banking services, and financial services, namely, currency, loans and mortgages, and investment security and records management, retention and distribution services; Scientific research and development in the field of conformity science and Blockchain-based, crypto-commerce, governance and finance, creation, management, operations and conformity systems, technology, services and products in the nature of planning, design, management, and implementation of securities tokens and utility tokens and policy making, testing, accreditation, licensure, regulation and regulatory services of securities tokens and utility tokens, and trademark application and prosecution services, and central banking services, non-central banking services, financial services, namely, currency, loans and mortgages, and investment security and records management, retention and distribution services; Research and development of advanced learning technologies and teaching methods; Research and development of computer software; Research and development of new products; Research and development of new products for others; Scientific Research and development of technology in the field of conformity science and Blockchain-based, crypto-commerce, governance and finance, management, operations and

conformity systems, technology, services and products in the nature of planning, design, management, and implementation of securities tokens and utility tokens and policy making, testing, accreditation, licensure, regulation and regulatory services of securities tokens and utility tokens, and trademark application and prosecution services, and central banking services, non-central banking services, financial services, namely, currency, loans and mortgages, and investment security and records management, retention and distribution services; Research in the field of artificial intelligence; Research in the field of building construction; Research in the field of telecommunications technology; Scientific research in the field of conformity science and Blockchain-based, crypto-commerce, governance and finance, management, operations and conformity systems, technology, services and products in the nature of planning, design, management, and implementation of securities tokens and utility tokens and policy making, testing, accreditation, licensure, regulation and regulatory services of securities tokens and utility tokens, and trademark application and prosecution services, and central banking services, non-central banking services, financial services, namely, currency, loans and mortgages, and investment security and records management, retention and distribution services; Scientific research in the field of conformity science and Blockchain-based, crypto-commerce, governance and finance, management, operations and conformity systems, technology, services and products in the nature of planning, design, management, and implementation of securities tokens and utility tokens and policy making, testing, accreditation, licensure, regulation and regulatory services of securities tokens and utility tokens, and trademark application and prosecution services, and central banking services, non-central banking services, financial services, namely, currency, loans and mortgages, and investment security and records management, retention and distribution services; Research in the reduction of carbon emissions; Residential insurance inspections featuring property condition reports; Retrieving public documents; Safety auditing to improve safety of construction workers on residential construction sites; Scientific and technological research relating to patent mapping; Scientific and technological services, namely, research and design in the field of integrated system architecture that allows for the rapid development of highly interactive and customizable learning applications; Scientific and technological services, namely, research and design in the field of conformity science and Blockchain-based, crypto-commerce, governance and finance, management, operations and conformity systems, technology, services and products in the nature of planning, design, management, and implementation of securities tokens and utility tokens and policy making, testing, accreditation, licensure, regulation and regulatory services of securities tokens and utility tokens, conformity assessment services of securities tokens and utility tokens, and trademark application and prosecution services, and central banking services, non-central banking services, financial services, namely, currency, loans and mortgages, and investment security and records management, retention and distribution services; Scientific research; Scientific research and development; Scientific research in the field of conformity science and Blockchain-based, crypto-commerce, governance and finance, management, operations and conformity systems, technology, services and products in the nature of planning, design, management, and implementation of securities tokens and utility tokens and policy making, testing, accreditation, licensure, regulation and regulatory services of securities tokens and utility tokens, conformity assessment services of securities tokens and utility tokens, and trademark application and prosecution services, and central banking services, non-central banking services, financial services, namely, currency, loans and mortgages, and investment security and records management, retention and distribution services; Scientific study and research in the field of conformity science and Blockchain-based, crypto-commerce, governance and finance, management, operations and conformity systems, technology, services of planning, design, management, and implementation of securities tokens and utility tokens and policy making, testing, accreditation, licensure, regulation and regulatory services of securities tokens and utility tokens, conformity assessment services of securities tokens and utility tokens, and trademark application and prosecution services, and central

banking services, non-central banking services, financial services, namely, currency, loans and mortgages, and investment security and records management, retention and distribution services; Searching and retrieving information, sites, and other resources available on computer networks for others; Server hosting; Services for reproducing computer programs; Social bookmarking website services, namely, providing a website featuring technology that enables users to organize, store, manage, share and search for bookmarks of resources online; Software as a service (SAAS) services featuring software using artificial intelligence for use as a spreadsheet, for word processing, for dynamic provisioning, for virtualization and consumption metering of computer resources, for moving virtual machines into Infrastructure as a Service (IaaS) environments in a private, public or hybrid cloud environment, for management of user identity authentication and access privileges to aid in compliance with regulatory and industry data protection requirements, for user provisioning, role management, policy automation, access certification short message service (SMS), and voice one time password (OTP), design of biometric software and hardware for providing computer and mobile device user identity authentication, for monitoring and improving the security of, and detecting, reporting, analyzing and protecting against cyber-attacks and threats directed at computers, computer systems, networks, computer and network hardware, software applications, digital devices, digital data, and mobile devices, for providing operational intelligence, business analytics, security information, troubleshooting, and monitoring of network security, for producing reports, dashboards, metrics and alerts related to computer, network and data security incidents, for risk, quality and compliance management, enterprise and operational risk management, internal audit management, automating business continuity, crisis management and disaster recovery planning and execution, managing technology and security related risks, cataloging third parties, contracts, engagements and related risks, and managing regulatory, governmental and corporate compliance, for electronic fraud and identity theft detection and prevention, for detecting, monitoring, managing and preventing fraud, financial crime, cybercrime, cyber threats, cyber-attacks, security attacks and intrusions, for real-time internet, mobile and e-commerce fraud detection, protection, management, analytics and reporting, for managing user identity authentication and access privileges to aid in compliance with regulatory requirements, for identity and access management software for computer and mobile device user identity authentication and management, password authentication, sign-on control, intrusion prevention and for governing, authenticating, enforcing, restricting, controlling and managing access privileges of users to data, managed workspaces and privileged access management, software applications and cloud, mobile and network resources, for automating authentication and governance of identity over the internet and other computer networks, all in the foregoing in the fields of conformity science systems management, quality management, and risk management for conformity science and Blockchain-based, cryptocommerce, governance and finance, management, operations and conformity systems, and technology; Software authoring; Software design and development; Software development for others in the field of software configuration management; Software development in the framework of software publishing; Software porting; Technical advice relating to operation of computers; Technical consultation in the field of environmental science, engineering services, design for others in the field of energy engineering, designing and testing of energy products for others; Technical consultation in the field of environmental science, engineering services, design for others in the field of environmental engineering, designing and testing of new environmentally friendly products for others; Technical support services, namely, 24/7 monitoring of network systems, servers and web and database applications and notification of related events and alerts; Technical support services, namely, remote and on-site infrastructure management services for monitoring, administration and management of public and private cloud computing IT and application systems; Technical support services, namely, technical administration of servers for others and troubleshooting in the nature of diagnosing server

problems; Technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; Technical support services, namely, troubleshooting of computer software problems; Technical support services, namely, troubleshooting of industrial process control computer software problems; Technical support, namely, providing backup computer programs and facilities; Technical support, namely, providing computer facilities for the electronic storage of digital data; Technical writing; Technical writing for others; Technological consulting in the field of cryptocurrency; Technological research in the field of conformity science and Blockchain-based, crypto-commerce, governance and finance, management, operations and conformity systems, technology, services and products in the nature of planning, design, management, and implementation of securities tokens and utility tokens and policy making, testing, accreditation, licensure, regulation and regulatory services of securities tokens and utility tokens, conformity assessment services of securities tokens and utility tokens, and trademark application and prosecution services, and central banking services, non-central banking services, financial services, namely, currency, loans and mortgages, and investment security and records management, retention and distribution services; Technology advice provided to Internet users by means of a support hotline; Technology consultation in the field of cybersecurity; Technology specification, namely, analyzing technology requirements and developing recommendations for the computer software and systems and other technology needed to meet those requirements, in the field of conformity science and BlockChain-based, crypto-commerce, governance and finance, management, operations and conformity systems, technology, services and products in the nature planning, design, management, and implementation of securities tokens and utility tokens and policy making, testing, accreditation, licensure, regulation and regulatory services of securities tokens and utility tokens, conformity assessment services of securities tokens and utility tokens, and trademark application and prosecution services, and central banking services, non-central banking services, financial services, namely, currency, loans and mortgages, and investment security and records management, retention and distribution services; Telecommunications technology consultancy; Telephone number mapping services for unifying the telephone number system with Internet addressing and identification systems; Temporary electronic storage of information and data; Testing and evaluating accreditation standards for government organizations, non-government organizations, universities, colleges, technical institutes, schools and vocational education institutions to the order and specification of others; Testing of computer programs; Testing of computer software; Testing of computers; Testing of computers for effective BlockChain-based algorithms; Testing of security systems; Testing, analysis and evaluation of service providers to determine conformity with established accreditation standards; Testing, analysis and evaluation of the goods and services of others to determine conformity with certification standards; Testing, analysis and evaluation of the goods of others to determine conformity with certification standards; Testing, analysis and evaluation of the services of others to determine conformity with certification standards; Testing, analysis and evaluation of government organizations, non-government organizations, universities, colleges, technical institutes, schools and vocational education institutions to determine conformity with established accreditation standards; Testing, analysis, and evaluation of goods or services of others to the order and specification of accrediting bodies, certification boards; Testing, analysis, and evaluation of the goods of others to assure compliance with industry standards; Testing, analysis, and evaluation of the knowledge, skills and abilities of others in the field of conformity science and BlockChain-based, crypto-commerce, governance and finance, management, operations and conformity systems, technology, services and products in the nature of planning, design, management, and implementation of securities tokens and utility tokens and policy making, testing, accreditation, licensure, regulation and regulatory services of securities tokens and utility tokens, conformity assessment services of securities tokens and utility tokens, and trademark application and prosecution services, and central banking services, non-central banking services, financial services, namely, currency, loans and mortgages,

and investment security and records management, retention and distribution services to determine conformity with certification standards; Testing, analysis, and evaluation of the knowledge, skills and abilities of others in the field of forensic document examination to determine conformity with certification standards; Testing, analysis, and evaluation of the knowledge, skills, and abilities of others to the order and specification of accrediting bodies or certification boards; Testing, analysis, and evaluation of traditional and BlockChain-based, systems, technology, services and goods of others to assure compliance with industry standards; Testing, analysis, and evaluation of systems, technology, services and goods of others to assure compliance with BlockChain industry standards; Testing, analysis, and evaluation of the goods and services of others for BlockChain-based systems and technology to determine conformity with certification standards; Think tank services, namely, providing new ideas and concepts for web-based applications for others; Tracking and reporting of online website performance to determine the technological effectiveness of the websites for non-business purposes; Up-dating of computer software; Updating and maintaining cloud-based computer software through on-line updates, enhancements and patches; Updating and rental of software for data processing; Updating of computer programs for third parties; Updating of computer software relating to computer security and prevention of computer risks; Updating of home pages for computer networks; User authentication services using single sign-on technology for online software applications; User authentication services using technology for e-commerce transactions; Virtual testing of new product designs using computer simulations; Web publishing, namely, creating a website and uploading it onto an Internet server; Website load testing services; Writing and updating computer software; BlockChain-based, systems, technology, service and product engineering, all of the foregoing as engineering

Mark Literal(s) DJARUM BLACK MENTHOL

CASE IDENTIFIERS

Serial Number 76710193 **Application Filing Date** Jan. 06, 2012 **Registration Number** 4508453 **Registration Date** Apr. 08, 2014 **Register** Principal **Mark Type** Trademark **Date Cancelled** Nov. 13, 2020 **Publication Date** Jun. 26, 2012

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the word "DJARUM" in a stylized gold font above the word "BLACK". The letters "B", "L", "C" and "K" in the word "BLACK" are in a stylized white font. The "A" in the word "BLACK" is a stylized solid green triangle ("A"). Below this appears the word "MENTHOL" in a different stylized gold font. All of the aforementioned are on a black background which is trimmed in green and dark green. Above the aforementioned words "DJARUM BLACK MENTHOL" is a circle which contains a needle design. The circle and the needle design are in gold on the same black background. **Color Drawing** Yes **Color Claimed** The colors gold, white, green, dark green and black are claimed as a feature of the mark. **Disclaimer** "BLACK MENTHOL" **Translation** The English translation of "DJARUM" in the mark is "Needle".
