medical purposes; optical scanners for medical inspection purposes; optical sensors for water level detection in humidification chambers for medical respiratory apparatus for medical use; electrodes for medical use with medical apparatus; electrodes for medical use; electrodes for picking up biological parameters for medical use; non-selective electrodes being chemically sensitive probes for medical use; electrocardiography (ECG) electrodes for medical purposes; disposable and reusable electrocardiography (ECG) cables for medical use; neuromuscular transmission (NMT) adapters for medical purposes; neuromuscular transmission (NMT) electrode cables for medical purposes; medical respiratory apparatus for use in non-invasive ventilation and expiratory positive airway pressure therapy, namely, nasal cannulae; portable nebulizers for medical purposes, namely, portable nebulizers for administering medication in the form of a mist inhaled into the lung for treatment of respiratory diseases; vacuum pumps for medical purposes; compressors for medical use, namely surgical and respiratory apparatus compressors; filters for medical purposes for purifying breathing air; membranes for filtration for medical use, namely, filter membranes for anesthetic and filter membranes for use with medical ventilators and apparatus for artificial respiration; filters for medical purposes, namely, bacteria filters; water traps being parts and accessories specially adapted for medical apparatus for medical use; mechanical filters for respiration apparatus; airway adapters being parts of medical and surgical apparatus for medical purposes; filters for respiration systems for medical purposes; connectors for filters for respiration systems for medical use; tube extensions for breathing tubes for medical use; breathing bags, namely, medical bags designed as an apparatus for artificial respiration; test lung for testing, setting and gauging medical ventilators for medical purposes; manual respiration bags, namely, medical bags designed as an apparatus for artificial respiration; humidification chambers for breathing tube systems for medical purposes; tube heaters being being part of medical respirators for medical purposes; adapters for tube heaters being part of medical apparatus, namely, adapters for tube heaters being part of breathing tubes for use in apparatus for artificial respiration; tube clips being part of medical apparatus, namely, tube clips for use with breathing tubes for use in apparatus for artificial respiration; tube connections being part of medical apparatus, namely, tube connections for use with breathing tubes for use in apparatus for artificial respiration; compressed air installations and systems for medical purposes, consisting of apparatus and fixed devices for preparing, checking and providing medical compressed air; gas supply installations and systems for medical purposes, consisting of apparatus and fixed devices for preparing, checking and providing gases for medical purposes; vacuum regulators for medical purposes; spirometers for medical use; medical tubing, namely, medical ventilator tubing for use with cannulas and tubing for use with catheters; compressed air tubes for medical purposes for use with apparatus for artificial respiration and medical ventilators; tube systems, consisting of tubes tube adapters, tube connections and valves for ventilators and anesthesia machines for use in patient care and respiratory tube adapters, tube connections and valves for respirators for artificial respiration, and tubes for medical suction in the nature of a sound suction apparatus; surface-heated respiratory tube systems, namely, wall-heated breathing circuits; filters for medical use, namely, air filters for medical ventilators; pipetting instruments for medical use, namely, micropipettes, multichannel pipettes, hand dispensers and dropping pipettes for medical purpose; medical syringes; apparatus for use in medical analysis for conducting analyses on blood of human origin; measuring devices for medical use, namely, medical devices for measuring and displaying lung capacity, inspiration and expiration flow rates and volumes, temperature and CO2 concentration of inhaled and exhaled air; measuring instruments adapted for medical use, namely, medical instruments for measuring and displaying lung capacity, inspiration and expiration flow rates and volumes, temperature and CO2 concentration of inhaled and exhaled air; apparatus for measuring cardiac, circulatory, aspiratory and pulmonary functions for medical use; sphygmomanometers; blood pressure monitors; heart rate monitors for medical purposes; heart rate counters for medical purposes; manual probe

heads for medical purposes, namely, probe heads for cardiac probes, surgical probes and urethral probes; medical apparatus and instruments for primary care and stabilization of newborns, namely, incubators and respirators for the artificial respiration of newborns; air temperature sensors for incubators for medical purposes; air inlet filters for incubators for medical purposes; oxygen (O2) distributors for incubators for medical purposes; dispensers for administering and selecting reagent instruments for medical use; patient monitoring instruments, namely, medical apparatus for monitoring vital signs of patients; patient monitoring alarms and patient monitoring sensors, all for medical purposes; apparatus and instruments for monitoring patients, in particular medical apparatus for monitoring vital signs of patients and patient monitoring sensors and alarms; medical alarm management systems for patient monitoring, consisting of medical apparatus for monitoring vital signs of patients, patient monitoring alarms and operational software for patient monitoring apparatus and patient monitoring alarms; gas emergency signal monitors for monitoring medical gases and gas installations in hospitals for use as a safety device for respirators and medical ventilators, all for medical purposes; clinical information systems for monitoring patients, consisting of medical apparatus for monitoring vital signs of patients and patient monitoring alarms; systems for monitoring patient data, consisting of medical apparatus for monitoring vital signs of patients and patient monitoring alarms; medical imaging apparatus; monitor holders adapted as accessories for medical apparatus and medical furniture; precision instruments for medical purposes namely, surgical instruments, medical instruments for cutting tissue, and containers especially made for medical waste; containers especially adapted for the disposal of medical instruments, syringes and other contaminated medical waste; heating plates for humidifiers for use with medical respiratory apparatus for medical use; probes for medical purposes; parts and accessories for all the aforesaid goods, included in this class and all the aforesaid goods for medical use

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Printed matter, namely, books, manuals, curricula, newsletters, informational cards and brochures for use in the field of medical respiration; Printed matter, namely, prospectuses in the field of medical respiration; Printed matter, namely, operating manuals for apparatus for artificial respiration and medical ventilators; technical writing and drawing books in the field of respiratory and pulmonary medicine

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Machines, namely, machines for washing laboratory apparatus; machines for sealing containers; machines for filling containers; drain cocks; compressors for gases; air condensers being parts of machines; water-cooled condensers being parts of machines; evaporative condensers being parts of machines; separators in the nature of separating machines for chemical processing; waste compactors; stacking apparatus, namely, stacking machines; vibrating screen separators in the nature of vibratory screen separators; blowing machines for the compression, exhaustion and transport of gases; hand-held filtering units all being parts of machines; motor and engines except for land vehicles; machine coupling and transmission components except for land vehicles; compressors, namely, compressors for machines and air compressors; robotic filling machines; pumps for machines; valves as machine components in the nature of valves operated by changes in pressure; valves as machine components in the nature of valves operated automatically by hydraulic control; Valves as machine components in the nature of power operated valves; valves as machine components in the nature of mechanical valves for regulating fluid flow; valves as machine parts in the nature of clack valves; valves as machine components in the nature of valves operated automatically by pneumatic control; valves for pumps; blowing machines for the compression, exhaustion and transport of gases; parts and accessories for all the aforesaid goods, included in this class

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Advertising, marketing and promotional services; business management; business administration; business management consulting; advice relating to the organization and management of business; business consultancy services relating to manufacturing; business analysis, namely, business data analysis, business management analysis and statistical analysis and reporting services for business services, business research and information services; business merchandising display services; organization of exhibitions and trade fairs for business and promotional purposes; product demonstrations and presentations, including via the internet, in the nature of product demonstration and organization and conducting of product presentation; commercial services and consumer information, namely, organizing business contacts, procurement services, for others, negotiation and conclusion of commercial transactions for third parties, in the nature of procuring contracts for purchase and sale of goods; compilation and systemization of data and information into electronic databases, namely, computer databases; business project management; customer relationship management, namely, receiving, recording and forwarding customer queries or customer complaints, electronically or by telephone; wholesale and retail store services, on-line retail and wholesale store services and mail order services featuring diagnostic preparations, pharmaceutical preparations, chemical preparations for medical or pharmaceutical purposes, reagents for providing diagnosis in medicine or veterinary medicine, adhesive tapes for medical purposes, medical diagnostic test strips, medical diagnostic reagents and tests for testing bodily fluids, reagents for in-vitro laboratory tests for medical and veterinary purposes, electrolyte solutions for medical use, sterile solutions for medical purposes, machines and machine tools, motors and engines except for land vehicles, machine coupling and transmission components except for land vehicles, compressors, robotic apparatus, robotic filling machines, vacuum controllers, pumps, pumps being machine parts, valves operated by changes in pressure, hydraulically controlled automatic valves, power-operated valves, mechanical valves for regulating fluid flow, motorized valves, pneumatically controlled automatic valves, valves for pumps, blowing machines for the compression, exhaustion and transport of gases, self-regulating pumps, other than for dispensing fuels at service stations, fittings and accessories for all the aforesaid goods, included in this class, apparatus, instruments and cables for electricity, measuring, detecting and monitoring instruments, devices and regulators, electric apparatus for controlling, electrical controllers for robots, electronic control apparatus, control units and timing systems, scientific, optical, analytical, measuring, dosing, diagnostic and checking apparatus and instruments, scientific, optical, analytical, measuring, dispensing, diagnostic and checking apparatus and instruments for use in laboratories, scientific research and laboratory apparatus for the purpose of storing, transporting and managing biological, clinical, chemical, forensic and biopharmaceutical substances and samples, temperature regulating and temperature monitoring instruments, temperature display apparatus, temperature regulating apparatus, temperature recording apparatus, temperature measuring apparatus for scientific purposes, temperature measuring apparatus for scientific use, temperature feedback units, digital cameras, wireless and wired transmitters for use with laboratory equipment, wireless and wired receivers for use with laboratory equipment, interfaces for computers, apparatus and instruments for use in clinical, analytical and biopharmaceutical laboratories, life-saving apparatus, life-saving apparatus and equipment, calculating machines, data recording and processing apparatus, printers, computer, tablet computers, mobile computers, micro-pumps, analyzers for liquids, barcode readers, electrodes, electrodes for sensors, cathodes, sensors and detectors, sensors for measuring instruments, sensors for touch screens, optical sensors, electro-optical sensors, optical fiber sensors, optical sensors for water level detection, water level detection apparatus, water gauges, water level indicators, electronic sensors, housings for measuring equipment and sensors, holding devices for measuring

equipment and sensors, protective sleeves and protective films for measuring devices and sensors, protective cases and protective films for electric touchpads, electronic touchpads, computer touchpads, computer touchscreens, screens, displays, monitors for computers, touchscreen monitors, diaphragms for scientific apparatus, programmes, software for medical purposes, data processing equipment for medical use, electronic controls for automatic valves, laboratory apparatus for collecting, dispensing, transporting and positioning objects and substances in solid, liquid or gas form, apparatus and instruments for checking respirators for artificial respiration, analysis robots not for medical purposes, apparatus for recording, transmission and reproduction of sound, images and data, data carriers for recording images, sound and data, computer network apparatus, computer networking equipment, computer networking hardware for use with laboratory equipment and for medical use, WLAN apparatus, hand-held digital electronic devices for data processing, information processing, storing and displaying data, transmitting and receiving data, transmission of data between computers, and software related thereto, blank computer storage media, USB keys, USB cables, USB card readers, readers for memory cards, adapter for memory card, memory card readers, optical memory cards, flash memory cards, secure digital storage cards, recorded data, audio-visual and information technology equipment, electronic devices for processing data, processing information, storing and displaying data, transmitting and receiving data, and transmitting data between computers, electric control panels, power supply aggregates, electric mains apparatus, cables for data synchronization, cables for data transmission, cables for electric signal transmission, connections for electric cables, technical medical apparatus for the electronic recording, transforming, displaying, accumulating, transmitting and printing of data, in particular, customer data, software, software for monitoring and controlling respirators and respiratory support apparatus, computer software for wireless and wired network communications, computer software for wireless and wired content transmission, computer software and computer firmware, namely, operating system programs and data synchronization programs, database synchronization software, computer software for the synchronization of data between a remote station or device and a fixed or remote station or device, USB operating software, software and hardware for telephone-based information queries, application software, application software for mobile telephones, application software for wireless and wired apparatus, downloadable software applications for use with mobile and wired apparatus, data processing equipment, computer peripherals, wired and wireless computer peripherals, electric touchpads, electronic touchpads, computer touchpads, computer touchscreens, screens, displays, monitors for computers, touchscreen monitors, medical, dental, veterinary, medical electric and surgical apparatus and instruments, medical respiratory apparatus, anesthetic apparatus, respirators for artificial respiration, respiratory apparatus for patients, respiratory apparatus for intensive care units, respiratory apparatus for newborns for prevention of asphyxiation, humidifiers for respiration, humidification chambers for respiratory apparatus, connectors for humidifiers, humidification chambers and nebulizers being parts for medical apparatus, fasteners for humidifiers and nebulizers being parts of medical apparatus, humidifiers for medical purposes and medical treatments, humidifiers for use with respiratory apparatus, humidifiers for medical treatments, humidifiers for use with respiratory therapy apparatus, water refill tubes for humidification chambers for medical purposes and medical treatments, water refill tubes for humidifiers for use with respiratory treatment apparatus, artificial noses for medical purposes, protective nose masks for medical purposes, nasal cannulas for medical purposes, nose masks for artificial respiration for medical purposes, respiratory masks for artificial respiration, respiratory masks for respiratory assistance for medical purposes, masks for non-invasive respiration, anesthesia face masks, nasal prongs for newborns and adults, face masks for medical purposes, sets of respiratory tubes for respiratory apparatus, single-use sets of respiratory tubes for respiratory apparatus, autoclavable sets of respiratory tubes, breathing tubes, in particular tubes being accessories for respiration and anesthesia, respiratory tubes, surface-heated respiratory tubes, endotracheal tube cuffs for medical purposes, inflatable endotracheal tube

cuffs for artificial respiration for medical purposes, cuff pressure monitors, apparatus and equipment for measuring, monitoring and adjustment of pressure in endotracheal tube cuffs for medical purposes, apparatus and devices for measuring and monitoring transpulmonary pressure, soda lime cartridges, heat and moisture filters for respiratory apparatus, valves for respiratory apparatus, expiration valves in the form of parts for medical apparatus, expiration valves for medical respiratory apparatus, expiration valves for maintaining lung pressure, PEEP activators in the form of parts for respiratory apparatus for maintaining pressure, pressure reducers for medical purposes, pressure reducers for medical respirators, measuring cuvettes for medical purposes for determining the carbon dioxide content of the air exhaled by a human, and for analysis of the air flow, sensors for medical purposes, sensors for measuring respiratory flow and breath pressure, sensors for measuring oxygen saturation in the blood, CO2 sensors for medical purposes, FiO2 sensors, SpO2 sensors for medical purposes, flow sensors for medical purposes, NMT sensors for medical purposes, sensors for respiratory mechanisms, sensors for measuring the pressure in inflatable endotracheal tube cuffs for artificial respiration for medical purposes, sensors for measuring transpulmonary pressure for medical purposes, temperature indicators for medical purposes, temperature measuring apparatus for medical purposes, temperature scanners for medical purposes, temperature monitors for medical purposes, electronic temperature monitors for medical purposes, electronic temperature recorders for medical purposes, temperature regulation instruments for medical purposes, temperature sensors for medical purposes, medical skin sensors and disposable sensors for temperature measurement, sensors for measuring the temperature of breathing air for use in medical respiratory apparatus, temperature probes for medical purposes, sensors for measuring the humidity of breathing air for use in medical respiratory apparatus, optical temperature measuring instruments for medical examination purposes, optical fiber temperature probes for medical diagnostic purposes, temperature-sensitive test instruments and test apparatus for medical purposes, optical scanners for medical examination purposes, optical sensors for water level detection in humidification chambers for medical respiratory apparatus, electrodes for medical apparatus, electrodes for medical use, electrodes for recording biological parameters, non-selective electrodes as chemically sensitive probes for medical purposes, ECG electrodes, disposable and reusable ECG cables, NMT adapters for medical purposes, NMT electrode cables for medical purposes, nasal cannulae, sprayers for medical purposes, portable nebulizers for medical purposes, pumps for medical use, compressors for medical purposes, filters for medical purposes for purifying breathing air, medical filtering membranes, bacterial filters, water traps being parts and accessories for medical apparatus, mechanical filters for respiratory apparatus, airway adapters, filters for respiration systems, connectors for filters for respiratory systems, tube extensions for breathing tubes, breathing bags, test lungs, manual respiration bags, humidification chambers for breathing tube systems, tube heaters in the form of parts for medical apparatus, tube heater adapters in the form of parts for medical apparatus, tube clips in the form of parts for medical apparatus, tube connectors in the form of parts for medical apparatus, compressed air installations and systems for medical purposes, consisting of apparatus and fixed devices for processing, monitoring and providing medical compressed air, gas supply installations and systems for medical purposes, consisting of apparatus and fixed devices for preparing, checking and providing gases for medical purposes, vacuum regulators for medical purposes, spirometers for medical purposes, spirometry apparatus, tubing for medical purposes, medical compressed air tubes, tube systems consisting of tubes for medical purposes, in particular tubes for anesthesia, respiratory tubes and tubes for medical suction, tube adapters, valves, connectors and accessories, surface-heated respiratory tube systems, filters for medical purposes, pipettes for medical purposes, syringes for medical purposes, medical syringe needles, syringe pumps for medical purposes, septa for medical purposes, apparatus for use in medical analysis, apparatus for use in medical analysis for conducting analyses on blood of human origin, spirometers, measuring devices for medical

purposes, measuring instruments adapted for medical use, devices for measuring cardiac, circulatory, respiratory and pulmonary functions, testing instruments for medical purposes, sphygmo-tensiometers, blood pressure monitoring devices, heart rate monitors for medical purposes, heart rate counters for medical purposes, manual probe heads for medical purposes, medical apparatus and instruments for primary care and stabilization of newborns, air temperature sensors for incubators, air inlet filters for incubators, O2 distributors for incubators, dispensers for administering and selecting reagent instruments for medical use, apparatus for measuring body signals in connection with patient analysis, patient monitoring apparatus, patient monitoring alarms, apparatus and instruments for monitoring patients, namely, medical alarm management systems for patient monitoring used in connection with medical ventilators, consisting of medical apparatus for monitoring vital signs of patients, patient monitoring alarms and operational software for patient monitoring apparatus and patient monitoring alarms, gas emergency signal monitors for monitoring medical gases and gas installations in hospitals, clinical information systems for monitoring patients, consisting of patient monitoring apparatus and patient monitoring alarms, systems for monitoring patient data, consisting of patient monitoring apparatus and patient monitoring alarms, test systems, consisting of testing apparatus for testing the function of medical apparatus and analysis or diagnostic apparatus for medical apparatus, medical analysis apparatus for use in laboratories, medical imaging devices, monitor holders being accessories for medical apparatus and medical furniture, precision instruments for medical purposes, analysis robots for medical purposes, containers for medical waste, containers especially designed for disposing of medical instruments, syringes and other contaminated medical waste, heating plates for humidifiers for use with medical respiratory apparatus, probes for medical use, freezing installations for medical purposes, printed matter, writing supplies, sanitary pads, books, newsletters, magazines, pamphlets, and brochures, greeting cards, prospectuses, operating instructions and technical documentation, garbage bags of paper or of plastics, valves, not of metal, containers, and closures and holders therefor, not of metal, containers for storage purposes, other than for household or kitchen use, flexible containers of plastic for storing and transporting liquids, stackable filing boxes of plastic, drains of plastic, fixing materials, connectors and holders for tubes, not of metal, sharing, accessories and replacement parts for the aforesaid goods

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Installation, maintenance and repair of respiratory apparatus

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Medical services in the fields of lung diseases and respiratory conditions; medical consultations in the field of medical and artificial respiration; medical services for the diagnosis of conditions of the human body, namely, in the field of lung diseases and respiratory conditions; provision of pharmaceutical information in the nature of provision of medical information; pharmacy advice, namely, pharmaceutical consultation; medical and pharmaceutical consultancy relating to biopharmaceutical products and information relating to the diagnostic, prophylactic and therapeutic properties of biopharmaceuticals; medical diagnostics, namely conducting of medical tests and medical analysis for diagnostic or treatment purposes in the field of treatment of pulmonary and respiratory conditions and diseases; rental of medical equipment, machines and apparatus

International Classes 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

For Research and development in the medical and pharmaceutical sector; scientific research for medical purposes in the field of pulmonary diseases; scientific research for medical purposes in the field of artificial respiration; engineering, for others, in relation to medical respiratory apparatus, and parts and fittings therefor; engineering services, namely, technical planning and consultancy in the field of engineering services in relation to medical respiratory apparatus, and parts and fittings therefor; engineering project management services; engineering project management services in relation to the installation, use and maintenance of medical respiratory apparatus, and parts and fittings therefor; engineering consultancy relating to data-processing; computer software technical support services, namely, troubleshooting of computer software for use with respirators for artificial respiration and medical ventilation; IT services, namely development, programming services, installation, implementation, updating, maintenance and repair of software for use with respirators for artificial respiration and medical ventilation; development and implementation of computer hardware for use with respirators for artificial respiration and medical ventilation; software for use with respirators for artificial respiration and medical ventilation as a service [SaaS] for use in the operation and maintenance of medical respiration apparatus in the field of pulmonary and respiratory medicine; rental of computer software for use with respirators for artificial respiration and medical ventilation; information technology [IT] consultancy; computer IT security information services in the nature of recovery of computer data and computer virus protection services, all in the field of medical and artificial respiration; data duplication and conversion services both in the nature of media duplication of data and digital information, all in the field of medical and artificial respiration; data coding services and data analysis, all in the field of medical and artificial respiration; computer analysis and diagnostics in the nature of computer system analysis and computer diagnostic services, all in the field of medical and artificial respiration; research and development, and implementation of software for computers and computer systems all in the field of medical and artificial respiration; computer programming in the field of medical and artificial respiration; computer project management all in the field of medical and artificial respiration; development, updating and maintenance of software for use with respirators for artificial respiration and medical ventilation and database systems in the field of medical and artificial respiration; data migration services in the field of medical and artificial respiration; research and development of new products and technologies, for others, in the field of medical and artificial respiration; scientific research in the field of physics and in relation to medical respiratory apparatus, and parts and fittings therefor; product development for medicine goods; technical consultancy in relation to technical research in the field of product development for medical products; medical laboratory services

CASE IDENTIFIERS

Serial Number 79264799 **Application Filing Date** Mar. 06, 2019 **Register** Principal **Mark Type** Service Mark Trademark **Publication Date** Dec. 29, 2020

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the stylized wording "GENETYPE" to the right of a stylized design of an oblong shape, similar to the numeral "8". There is a single dot above and to the right of the oblong shape. **Color Claimed** Color is not claimed as a feature of the mark.

RELATED PROPERTIES INFORMATION

International Registration 1481587 **International Registration Date** Mar. 06, 2019

GOODS AND SERVICES INFORMATION

For Pharmaceutical and veterinary preparations for the treatment of a wide variety of diseases, and diagnostic kits consisting primarily of primers, probes, buffers, and reagents for use in genetic testing for medical purposes; diagnostic preparations and reagents for medical use; diagnostic test kits comprised primarily of reagents and assays for medical use

International Classes 5 - Primary Classes **US Classes** 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

For Diagnostic preparations and reagents for scientific use; diagnostic preparations and reagents for scientific laboratory use; diagnostic test kits comprised primarily of reagents and assays for scientific use

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Apparatus and instruments, namely, DNA genotyping arrays, DNA sequencing instruments, computer hardware, recorded computer programs, and downloadable software all featuring proprietary algorithms to analyse DNA; scientific and teaching apparatus and instruments, namely, downloadable electronic publications in the nature of books, pamphlets, brochures, newsletters, journals, magazines and periodicals in the field of risk assessment testing; recorded computer software and downloadable computer software to analyse and record the results of DNA testing; equipment to analyse and record the results of DNA testing, namely, laboratory devices for detecting genetic and protein substances, DNA genotyping arrays, DNA sequencing instruments, and recorded software for scientific analysis of genetic and protein sequences, assessment kits comprised primarily of laboratory swabs and also containing bar-coded specimen envelope, instruction sheet, specimen information form, and pre-paid mailing envelope

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Medical diagnostic services, namely, reagent sample testing and diagnostic services for others in the fields of science and medical research; genetic testing for medical purposes, namely, genome mapping, genome analysis, and genome scanning; provision of medical services, veterinary services, genetic testing for medical purposes and forensic biological screening of DNA for medical purposes; providing medical diagnostic services and veterinary diagnostic services

International Classes 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

For Biotechnology research and development services for others, including genetic association studies, genome mapping, genome analysis and genome scanning, pharmaceutical drug and therapeutics development; product development, including consumer health product development and consultation in the field of genomics and pharmaceutical drug development; provision of scientific and medical research in the fields of DNA typing and profiling; computer programming services for DNA typing and profiling for use in medical research

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Casting machines; Machines for treating used foundry sand for reuse, namely, foundry sand cleaning machines; Air blasting machines to blast particulate abrasive medium using compressed air or jet stream; Barrel polishing machines; Brush polishing machines for metal working; Machine parts, namely, molds for forming synthetic resins for use in the manufacture of foundry equipment; dust collectors for industrial use, namely, industrial dust collecting machines especially adapted for use in industrial plants; Shot blasting machines for cleaning, grinding, strengthening, processing, adjusting and polishing objects; Foundry molding machines, namely, foundry compression molding machines, foundry injection molding machines and foundry extrusion molding machines; Machines and instruments for metal working, namely, metal working machines; Machines for producing semiconductors, namely, semiconductor manufacturing machines; 3D printers

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Air cleaners for industrial purposes, namely, air purifying apparatus and machines and air filtering units for industrial purposes; Air deodorizing devices for industrial purposes, namely, air deodorizing devices by exhaust gas purification

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Shot abrasives, namely, shot blasting abrasive preparations blasted from shot blasting machines for shot blasting processing or shot peening processing; Shot abrasives, namely, shot blasting abrasive preparations ejected from air blasting machines for blasting processing or shot peening processing; Abrasives for barrel polishing machines, namely, abrasive preparations for use in barrel polishing; Polishing medium for barrel polishing machines comprising abrasive grains bound by binder

International Classes 3 - Primary Classes **US Classes** 1, 4, 6, 50, 51, 52 **International Class Title** Cosmetics and Cleaning Preparations

For Repair or maintenance of shot blasting machines; Repair or maintenance of foundry molding machines; Repair or maintenance of machines and instruments for metal working; Repair or maintenance of industrial furnaces; Repair or maintenance of water purifying plant; Repair or maintenance of waste compacting machines; Repair or maintenance of waste crushing machines; Providing information related to the repair and maintenance of casting machines; Providing information related to the repair and maintenance of machines and instruments for metal working; Providing information related to the maintenance of casting equipment in the nature of operating the casting equipment during maintenance; Providing information related to the maintenance of casting equipment; Repair or maintenance of measuring machines and instruments

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Semiconductor parts made of ceramics, namely, ceramic semiconductor lead frames; Electronic components for measuring, inspecting, testing and detecting machines; Measuring machines and instruments, namely, coordinate measuring machines for measuring coordinate of electric parts; electric, electronic magnetic, electronic chemical, motion, vibration, and optical sensors for precision measuring machines and instruments for inspection, namely, non-destructive inspection equipment for inspecting metal parts processed by shot peening treatment and metal parts processed by heat treatment, their structural parts and fittings; electric, electronic magnetic, electronic chemical, motion, vibration, and optical sensors for measuring machines and instruments used in foundry installation; electric, electronic magnetic, electronic chemical, motion, vibration, and optical sensors for measuring machines and instruments, namely, electric, electronic magnetic, electronic chemical, motion, vibration, and optical sensors for coordinate measuring machines for measuring coordinate of electronic parts; Inspection apparatus for inspecting static and dynamic characters of semiconductors; Recorded computer programs for managing inside information and production information of equipment

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Treatment of materials in the nature of ceramics and plastics by means of surface processing; Processing for ceramic, namely, ceramic processing

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Providing advice, proposal and information related to the engineering of industrial plants or industrial machines for energy saving; providing advice, proposal and information relating to manufacturing technology for manufacturing casting products in foundry in order to improve its quality for quality control purposes; Providing information on quality control inspections of casting equipment

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Pneumatic control devices, namely, pneumatic control devices for pressurized control panels; pneumatic controls for motors and engines; pneumatic controls for machines; gear boxes, other than for land vehicles; agricultural, earthmoving, construction, oil and gas extraction and mining equipment, namely, power-operated shears, continuous miner, road header, belt conveyor and chain conveyor, machine crushers for industrial and commercial applications, high pressure pumps for mine de-watering, dewatering pumps; electric motors, other than for land vehicles; electric motors for machines; electric motors for machines with a digital servo drive controller; electric motors for doors; electric motors with gears, other than for land vehicles; submersible electric motors, other than for land vehicles

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Lamp housings; electric heating cables; electric heating systems comprised of electric heating cables, power connection and termination kits, power junction boxes with optional thermostats; heating apparatus comprised of heater plates and pads, not for medical purposes with optional thermostats, or heating apparatus comprised of heating coils with enclosures; heating systems for hot water supply pipes, comprised of electric heating cable, power connection and termination kits and thermostats; heating, ventilation and air conditioning systems comprised of heating units for industrial purposes and chilling units in the nature of refrigerating machines and thermostat; heating installations; heating systems for liquids, comprised of electric heating cables, power connection and termination kits, power junction boxes with optional thermostats; heating systems for gas, comprised of electric heating cables, power connection and termination kits, power junction boxes with optional thermostats; heating systems for commercial purposes, comprised of electric heating cables, power connection and termination kits, power junction boxes with optional thermostats; heating systems for nitrate solutions, comprised of electric

heating cables, power connection and termination kits, power junction boxes with optional thermostats; heating systems with closed loop, comprised of electric heating cables, power connection and termination kits, power junction boxes with integrated control system; heating apparatus and systems comprised of electric heating cables, power connection and termination kits, power junction boxes with optional thermostats; heating devices for commercial purposes comprised of electric heating cables, power connection and termination kits, power junction boxes; heating devices for residential premises, comprised of electric heating cables, power connection and termination kits, power junction boxes ; radiators; industrial heating systems comprised of electric heating cables, power connection and termination kits, power junction boxes with optional thermostats; combined heating and air conditioning devices comprised of heater and chiller unit, enclosure and thermostat; radiators for heating; skin effect heating systems comprised of skin effect electric heating cable, pull- and splice-boxes, power connection and end termination boxes and medium-voltage substations; control devices being thermostatic valves for heating systems; control units being thermostatic valves for heating systems; environmentally friendly flat heaters with automatic temperature regulation; lighting for use with safety systems; LED safety lamps; lights for safety purposes; safety lighting; safety lamps; safety light with integrated motion sensors; safety lamps for underground use; lighting systems comprised of different types of light-sources, namely, electric light bulbs, LED light bulbs, halogen light bulbs, fluorescent light bulbs, lighting tubes, mechanical guard protection being housings, incorporated battery backup, lighting poles and mechanical mounting aids for display purposes; portable hand lamps for lighting purposes; portable lamps for lighting

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Provision of information on the repair or maintenance of electric motors; cleaning of electric motors; repair or maintenance of electric motors; heating equipment installation and repair; installation of heating apparatus; installation of skin effect heating systems; installation, maintenance and repair of heating, ventilation and air conditioning systems; retrofitting of heating installations in buildings; retrofitting of heating, ventilation and air conditioning installations in buildings; repair of heating systems; routine servicing of heating apparatus, being maintenance of heating apparatus; maintenance and repair of heating systems; maintenance and repair of heating systems; advisory service relating to the installation of security and safety equipment; providing information relating to the installation of security systems; installation of a safety system; installation of security systems; installation of security and safety equipment; maintenance and repair of safety systems; construction of oil pipelines; pipeline construction and maintenance; repair and maintenance of electronic display panels; repair of cameras; installation of mobile phone systems; installation of data network devices; servicing and repair of data communication networks; servicing of data processing devices; repair and maintenance of hardware for data processing devices; maintenance of data processing devices; servicing and repair of communications systems; maintenance of communications equipment

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Electrical control cabinets specially adapted for control equipment, for use in hazardous areas; computer casings, namely, casings and casing parts for electrical equipment; casings for measuring devices, namely, casings and casing parts for electrical equipment, in the nature of mobile computer, cameras, mobile phones, mobile tablets, mobile personal computer and limit switches; housings for electrical apparatus, namely, electric junction box housings; housings for electric switches; cable glands, namely, cable connectors; electrical control devices for heating management; technical thermometers not for medical purposes; thermometers not for medical purposes; thermometers for laboratory purposes; electrical sensors; electronic sensors;

temperature sensors; optical sensors; electro-optical sensors; photoelectrical sensors; fibre optic sensors; sensors for meteorology; motion sensors; sensors and detectors units for the use in controlling or monitoring of gas moisture, trace moisture, process temperatures; sensors for motor control; electrical control devices for sensors; chromatogram analysers for scientific or laboratory purposes; petrochemical analysers; physical analysers, namely, for the measurement of distillation point, boiling curve, vapor pressure, viscosity flash point, fast process control, determination of the pour point, cloud point, freeze point and cold filter plugging point, near-infrared (NIR) absorption spectra via chemometric models not for medical purposes; photoelectronic spectroscopy analysers not for medical purposes; photometric analysers not for medical purposes; electronic apparatus for measuring air humidity; instruments for measuring physical data; instruments for measuring milk quality parameters; electric process control units; electric process control apparatus; electronic process control devices; electric process control devices; electronic process control units; electric process control devices; process computers, namely, central processing units; process control apparatus being electronic; process control units being electronic; process control instruments being electronic; downloadable process control software; temperature indicators having a display; electronic temperature monitoring devices, except for medical purposes; temperature indicators; electronic instruments for temperature control and temperature monitoring; temperature limiters; temperature display devices; temperature limiter for machines; temperature measurement devices being measuring hoses; temperature control circuits being electrical circuits; temperature control circuits being thermostats; temperature measuring instruments and apparatus for measuring pipe and vessel temperatures in trace heating applications; temperature signalling devices; temperature sensors; temperature switches; temperature controllers for monitoring and control of pipe and vessel temperatures in trace heating applications; temperature control devices for machines; temperature control devices for trace heating applications to maintain pipe and vessel temperatures in their dedicated range; temperature control apparatus for machines; electric safety monitoring apparatus; electric safety relays; electric audible safety signals, except for vehicles; wireless controllers to remotely monitor and control the function and status of security systems; illuminated safety signalling systems comprised of indicator lights, electric warning lights, light emitting diodes, fluorescent lamps, or halogen lights, protective covers and battery backup; flashing safety lights; safety alarms, namely, personal security alarms; safety alarms, except for vehicles, namely, personal security alarms; safety apparatus to prevent accidents or injuries, namely, flashing safety lights; security cameras, namely, mobile video cameras, wearable cameras, digital cameras, remotely controlled wireless cameras, security cameras that can transmit video and pictures via a security camera protocol, mobile thermal imaging camera; downloadable computer software for checking the climate, access and safety systems in rooms; seismic detectors; seismographic equipment, namely, seismometers; scientific apparatus for determining the water content in petroleum products; vibration detectors being meters; vibration sensors; displays, electronic, being human-machine interfaces (HMI), touch screens and visualization devices in the nature of electric luminescent display panels and touch panels; indicator lights for control panels; indicator lights for telecommunication apparatus; backlit signs; digital display monitors; digital display panels for signage; digital display units for signage; digital display panels for signs; electric display units for signage; light emitting diode [LED] displays; optical flat panel display screens; connections for electric lines; electrical circuit breakers; heat-resistant electrical wiring; couplings for electrical wiring; action cameras; digital cameras; cameras; mobile computers; protective cases for laptops; battery chargers for tablet computers; docking stations for tablet computers; protective cases for tablet computers; supports for tablet computers, namely, leather cases with flipstands; covers for tablet computers; wireless headsets for tablet computers; leather carrying cases for tablet computers; tablet computers; battery chargers for mobile phones; mounts adapted for mobile phones; digital mobile phones; docking stations for mobile phones; wireless headsets for use with mobile phones; hands-free headsets for mobile phones; mounts for mobile phones; headsets for mobile phones; covers

for mobile phones; mobile data communication equipment, namely, mobile hot spot devices; mobile data devices, namely, receivers, RFID tags and readers, NFC tags and readers, wireless communication tags and readers; mobile communications terminals; mobile telecommunications equipment, namely, antennas, receivers and terminals; mobile telecommunications handsets; mobile phones; cellular phones; mobile phone batteries; mobile phones for vehicles; mobile phone cases made of fabric or textiles; mobile phone covers made of leather or imitation of leather; cell phone straps; holsters for mobile phones; carry cases for mobile phones; electric controllers; electric control systems for machines; electric control apparatus for machines; electric control devices for machines; electronic controllers; Ethernet controllers; data transmission devices, namely, data exchange devices, apparatus for transmitting data, apparatus for data transfer, data input devices, data terminals; data logging apparatus for measuring the volume of liquids pumped into and out of tank trucks, data output devices in the nature of data processors with and without printing cability, remote data transmission apparatus, remote data transmission devices, data communication apparatus, data communication receivers, data communication equipment, data transmission apparatus, data processing terminals, data processing apparatus, data processing devices and equipment as well as accessories, electric and mechanical, electronic data processing devices, devices for data communication, devices for recording data, devices for data processing; devices for data storage; devices for transmitting sound, data or images; hardware for data communication all of which being telecommunications and data networking hardware for use across multiple network infrastructures and communication protocols; wireless communication equipment for transmitting sound, data or images; mobile data receivers; scanners for data processing; scanners being data processing devices; wireless two-way communication systems comprised of industrial tablet computers and wireless telephones; electric communication equipment comprised of computer hardware and recorded software for the transmission of data between two points; electronic communication systems comprised of computer hardware and recorded software for the transmission of data between two points; handsets for communication; wireless communication equipment for transmitting multimedia content; communication systems for helmets comprised of wireless headsets, ear sets, and cameras; communications computers; communication equipment for telecommunications, communication transmission devices, point-to-point communication equipment, ship-to-shore communication equipment, portable communication equipment all of which being broadband wireless equipment, namely, telecommunications base station equipment for cellular and fixed networking communications applications; electronic scanners; optical scanners; scanners; portable scanners; antennae for wireless communication apparatus; wireless audio and video receivers; wireless receivers; wireless transmitters and receivers; wireless telephones; devices for wireless radio transmission; digital media devices for streaming media content via local wireless networks; computers worn on armbands; leather protective cases for cellular phones; mobile digital electrical equipment to provide access to the internet, namely, industrial tablet computers and wireless telephones; mobile phone displays; mobile communication equipment in the form of watches; mobile phone monitors; mobile personal computers; mobile phone test equipment; mobile smartphones; mobile telecommunications apparatus; mobile electric phonographs; mobile sound reproducing apparatus; walkie-talkies; barcode scanners

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Personal security consultancy; physical security consultancy; consultancy services relating to integrity and safety being in the field of public safety; consultancy services relating to safety in the field of safety needs of commercial and industrial companies; safety assessments being consulting services in the fields of hazard assessments and abatement procedures; monitoring of security alarm systems; inspection of factories for safety purposes

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For Programming of electronic control systems; technical consulting in the field of design of heating systems; analysis and test services in the area of oil exploration; analysis and test services in the area of oil production; analysis services relating to determining the bacterial content of liquids; analysis services relating to identifying the chemical ingredients in liquids; analysis services relating to determining the chemical ingredients in liquids; analysis services relating to checking the chemical ingredients in liquids; analysis services relating to checking the bacterial content of liquids; analysis services relating to identifying the bacterial content of liquids; calibration of analysers; technological analysis services in the field of physical properties and characteristics of hydrocarbons; technical measuring and testing services in the field of electrical distribution systems and electrical heating systems; research and development services relating to measuring and regulating technology; measurement of the environment in buildings and civil engineering works; design and development of computer software for process control; process monitoring for quality assurance in the field of hydrocarbonates and gases; advisory relating to safety of the environment; research relating to safety; technical advisory in the field of electrical safety; recording and analysis of seismic data; geo-seismic survey; technical advice for the petrochemicals industry; analysis and test services for the oil industry; technical advice for the oil refining industry; oil well testing; conducting of environmental testing relating to vibrations; consultancy services in the area of control technology; development of data transmission systems; design and creation of programs for data processing; design and creation of data processing programs; design and creation of software for data processing; maintenance and updating of software for communications systems

For Recorded sales and consultancy software for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded sales and consultancy software for installations, equipment, apparatus, filters, separators, extraction and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; recorded sales and consultancy software for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular fans, blowing machines and compressors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; recorded sales and consultancy software for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air

purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; recorded sales and consultancy software for producing product security means, authentication features, security features, security labels, securities, banknotes and components therefor; recorded sales and consultancy software for applying product security means, authentication features, security features, security labels and components therefor; recorded sales and consultancy software for packaging product security means, authentication features, security features, security labels, securities, banknotes and components therefor; recorded sales and consultancy software for product security means, authentication features, security features, security labels, securities, banknotes and components therefor; recorded sales and consultancy software for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded sales and consultancy software for installations, equipment, apparatus, filters, separators, suction and conveying devices for the air-technology cleaning, dust removal and air separation of machines and rooms equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; recorded sales and consultancy software for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; recorded sales and consultancy software ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; recorded sales and consultancy software for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; recorded sales and consultancy software for machines for applying product security means, identification features, security features, security labels and components therefor; recorded sales and consultancy software for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; recorded sales and consultancy software for product security means, identification features, security features, security labels, securities, banknotes and components therefor; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines

for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for applying product security means, identification features, security features, security labels and components therefor; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; recorded consultancy software and recorded sales software for electric and electronic measuring and testing apparatus and instruments for adjusting and pre-adjusting subassemblies and parts for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded consultancy software and recorded sales software for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; recorded consultancy software and recorded sales software for electric

and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; recorded consultancy software and recorded sales software for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; recorded consultancy software and recorded sales software for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; recorded consultancy software and recorded sales software for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for applying product security means, identification features, security features, security labels and components therefor; recorded consultancy software and recorded sales software for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; recorded consultancy software and recorded sales software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating ink slides, ink rollers, damping rollers, register adjustment devices in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software and recorded sales software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for transporting and storing printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded consultancy software and recorded sales software for the remote control, remote operation, remote monitoring,

control and regulating of devices for the changing and transporting and storage of printing plates; recorded consultancy software and recorded sales software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for cleaning rollers in inking apparatus or damping units and cylinders and inkjet print heads and laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software and recorded sales software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for storing and adjusting rollers in inking apparatus or damping units and cylinders and inkjet print heads and laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software and recorded sales software for the remote control, remote operation, remote monitoring, control and regulating of inking apparatus and damping units and printer engine cylinders in printer engines; recorded consultancy software and recorded sales software for the remote control, remote operation, remote monitoring, control and regulation of devices for tempering of inking apparatus or damping units and cylinders and inkjet print heads and laser systems in printer engines; recorded consultancy software and recorded sales software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating cutting equipment and cutting cylinders in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software and recorded sales software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating registers and register marks in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines

and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software and recorded sales software for remote control, remote operation, remote monitoring, control and regulation for the purposes of quality control in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software and recorded sales software for remote control, remote operation, remote monitoring, control and/or regulating, for quality control in installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; recorded consultancy software and recorded sales software for remote control, remote operation, remote monitoring, control and/or regulating, for quality control in ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; recorded consultancy software and recorded sales software for remote control, remote operation, remote monitoring, control and regulating, for quality control in drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; recorded consultancy software and recorded sales software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating web tension settings in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software, recorded sales software, software for data processing devices for pre-press, for printing printed matter, for production control, for production planning; recorded consultancy software, recorded sales software, software for data processing devices for printing machines, for printing printed matter, for production control, for production planning; recorded consultancy software and recorded sales software for interfaces and data transfer, for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for

use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor; recorded consultancy software and recorded sales software for interfaces and data transfer for installations, equipment, apparatus, filters, separators, suction and conveying devices for air-technology cleaning, dust removal and air separation from machines and rooms equipped therewith, air filters, fans, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing of particles, dust and fibres separated from machines; recorded consultancy software and recorded sales software for interfaces and data transfer, for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and de-aerating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular fans, blowers and compactors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; recorded consultancy software and recorded sales software for interfaces and data transfer, drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; recorded consultancy software and recorded sales software for interfaces and data transfer, for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; recorded consultancy software and recorded sales software for interfaces and data transfer, for machines for applying product security means, identification features, security features, security labels and components therefor; recorded consultancy software and recorded sales software for interfaces and data transfer, for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; recorded software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for transporting and storing printed matter or printing materials or printed material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded software for the transport, packaging and storage of remote controls, remote operators, remote monitoring apparatus, controllers and regulators for devices for the transport, packaging and storage of printed matter or printing materials or printing

material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded electronic data carriers containing product security means, identification features, security features, security labels, securities, banknotes; recorded magnetic data carriers containing product security means, identification features, security features, security labels, securities, banknotes; RFID tags and readers; encoded identification chips and cards; apparatus for the payment of goods and/or services and/or bills, in particular for enabling customers to pay by themselves, in particular by payment means in the form of banknotes and/or coins and/or tokens of value and/or cashless payment by debit, credit and/or loyalty cards, in particular contactless and/or contact cards and/or NFC (near field communication) apparatus, including in particular with return of change; automated teller machines (ATM); money-receiving apparatus; money-dispensing and -receiving apparatus; fittings for the aforesaid apparatus, included in this class, namely, cartridges for collecting payment means, in particular bank notes and/or coins and/or tokens of value; electric apparatus, namely, data processing equipment for communication with recording media, in particular for communication with recording media with integrated circuits and recording media with contactless interfaces, and in particular data processing equipment for writing data in or on recording media, for reading data from or on recording media and for displaying data from recording media on a display; data processing equipment for personalising recording media; machine-readable recording media, in particular recording media with integrated circuits for storing, encrypting and decrypting, processing and providing data and programs; cards having an integrated circuit (chip cards), in particular cards having microprocessors for communication with external data processing devices or with mobile radio terminals; coded prepaid telecommunication cards; coded and uncoded digital recording media with contactless interfaces; integrated circuits with characteristic physical properties for protection against forgery; memories for data processing installations, in particular non-volatile memories being digital storage media; digital recording media containing memories, in particular non-volatile memories being digital storage media; electric apparatus for processing, in particular encryption and decryption, data for both online and offline operation; recorded software for managing computer network applications, in particular for internet, intranet and extranet applications; recorded data processing software, in particular for telecommunications with chip card-activated mobile telephones and in particular for associated chip cards and mobile telephones, and computer programs for activating, modifying, testing and displaying data and software structures stored in these telecommunications cards; recorded software for the encryption and decryption and the signing of data; recorded operating system software and application software for digital recording media with integrated circuits, in particular for hardware tokens and chip cards, and for data processing equipment for communication with these digital recording media; recorded computer programs for the development, management and maintenance of all the aforesaid types of software; prerecorded digital recording media featuring telecommunications data processing software; electronically and optically stored pre-recorded advertising and communications media, included in this class, in particular films, videos, included in this class;

inkjet printers for documents, in particular with one or more inkjets, single-colour or multi-colour inkjet printers; accessories, namely, unfilled printer ink cartridges, for the aforesaid inkjet printers, in particular having one or more inkjets, single-colour or multi-colour inkjet printers; encoding machines, in particular for the graphics sector, the packaging sector and data processing; parts for the aforesaid goods and accessories for the aforesaid goods, namely, cables and hubs; none of the aforesaid goods in relation to typeface or font software or software for creating, uploading, downloading, using and displaying typographical fonts, alphanumerical characters and typographical symbols

GOODS AND SERVICES INFORMATION

For Printing machines; offset printers; web fed rotary printing machines; sheet fed rotary printing machines; screen printing machines; pad printing machines; central-cylinder flexographic printing machines; flexographic printing machines; intaglio printing machines; printing machines for use on sheet metal; printing machines for use on cans; printing machines for use on hollow bodies; printing machines for corrugated cardboard; industrial inkjet printing machines and apparatus; laser marking machines and apparatus; laser printing machines and apparatus; marking machines; lacquering machines; packing machines; laminating machines; coating machines, in particular working rotationally, for web-type and separate materials; digital printing and marking machines based on electrophotography, magnetography, xerography, ink jet; exposure apparatus, being parts for printing machines for contact printing or creating circuit and print templates; imprinting and marking machines, in particular for the graphics sector, the packaging sector and data processing; labelers being machines; engraving machines; machines for handling sheets and plates of metal; foodstuff distribution machines; machines and apparatus for the surface treatment of metals; hot stamping machines and apparatus; thermal transfer machines and apparatus; rotary die-cutters for punching of printed matter or paper or plastics; sheet metal punches for stamping printed matter or paper or plastics; marking machines for printed matter; printing plates; flexographic printing plates; accessories, namely, printing plates, for the aforesaid printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and apparatus, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines; machines and mechanical apparatus for storing printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials

for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and apparatus, industrial inkjet printers, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; conveyors being machines, belts for conveyors, conveying apparatus for conveying printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and apparatus, industrial inkjet printers, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; machines and mechanical apparatus for the folding of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; machines and mechanical devices for changing and bending and punching printing plates and flexographic printing plates; machines and mechanical apparatus for the storing of printing plates for printing machines; conveying machines, conveyor belts, conveying apparatus for conveying printing plates for printing machines; machines and mechanical apparatus for cleaning rollers in inking apparatus or damping units and cylinders and lacquering units and inkjet print heads and laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and apparatus, industrial inkjet printers, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; machines and mechanical apparatus for storing and adjusting rollers in inking apparatus or damping units and cylinders and lacquering units and inkjet printing modules and laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and apparatus, industrial inkjet printers, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; machines and mechanical apparatus for adjustment, for inking apparatus and damping units and printer engine cylinders and for lacquering units in printer engines and in lacquering units and for industrial inkjet printing modules and laser systems; parts, namely, rollers and plates for inking

apparatus and damping units and industrial inkjet printing modules and laser systems and cylinders in tempering machines, included in this class; machines and mechanical apparatus for adjusting cutting equipment and cutting cylinders in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and apparatus, industrial inkjet printers, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; machines and mechanical apparatus for adjusting registers and register marks in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and apparatus, industrial inkjet printers, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; mechanical control machines and apparatus for printing machines, offset printing machines, web fed rotary printing machines, sheet fed rotary printing machines, screen printing machines, pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and apparatus, industrial inkjet printers, in particular with one or more inkjets, single colour or multiple colour industrial inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, painting machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; machines and mechanical apparatus for adjusting web tension settings in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and apparatus, industrial inkjet printers, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; filters being parts of machines or engines; separators; suction machines and conveyors for ventilating purification, dust removing and air separation of machines; filters for cleaning cooling air, for engines; blowing engines; fibre separators being machines; air compressors and air ejectors for machines; collecting machines for compacting, filling and pressing of particles, dust and fibres separated from machines; blowing machines; air compressors; accessories, namely, plates and rollers, for the aforesaid printing machines, offset printing machines, web fed rotary printing machines, sheet fed rotary printing machines, screen printing machines, pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing

machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and apparatus, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, painting machines, packaging machines, coating machines, digital printing and machines for marking, labellers being machines, engraving machines, machines for handling sheets, feeders, machines and apparatus for the surface treatment of metals, hot die-stamping machines and apparatus, thermal transfer machines and apparatus; accessories, included in this class, for the aforesaid filters, separators, suction machines and conveyors for ventilating purification, dust removing and air separation of machines, air filters, blowers, fibre separators, air compressors and air ejectors for machines, collecting machines for compacting, filling and pressing machine-separated particles, dust and fibres; machines and mechanical apparatus for producing security labels, securities, banknotes and components therefor; machines and mechanical apparatus for applying security labels and components therefor; machines and mechanical apparatus for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; mechanical control machines and apparatus for machines for producing security labels, securities, banknotes, and components therefor; mechanical control machines and apparatus for machines for applying security labels, and components therefor; mechanical control machines and apparatus for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; mechanical control machines and apparatus for machines used with security labels, securities, banknotes, and components therefor; parts for the aforesaid goods and accessories for the aforesaid goods, namely, replacement parts for the aforesaid goods

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Recorded sales and consultancy software for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded sales and consultancy software for installations, equipment, apparatus, filters, separators, extraction and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; recorded sales and consultancy software for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular fans, blowing machines and compressors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; recorded sales and consultancy software for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air

purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; recorded sales and consultancy software for producing product security means, authentication features, security features, security labels, securities, banknotes and components therefor; recorded sales and consultancy software for applying product security means, authentication features, security features, security labels and components therefor; recorded sales and consultancy software for packaging product security means, authentication features, security features, security labels, securities, banknotes and components therefor; recorded sales and consultancy software for product security means, authentication features, security features, security labels, securities, banknotes and components therefor; recorded sales and consultancy software for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded sales and consultancy software for installations, equipment, apparatus, filters, separators, suction and conveying devices for the air-technology cleaning, dust removal and air separation of machines and rooms equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; recorded sales and consultancy software for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; recorded sales and consultancy software ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; recorded sales and consultancy software for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; recorded sales and consultancy software for machines for applying product security means, identification features, security features, security labels and components therefor; recorded sales and consultancy software for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; recorded sales and consultancy software for product security means, identification features, security features, security labels, securities, banknotes and components therefor; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines

for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for applying product security means, identification features, security features, security labels and components therefor; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; recorded consultancy software and recorded sales software for electric and electronic measuring and testing apparatus and instruments for adjusting and pre-adjusting subassemblies and parts for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded consultancy software and recorded sales software for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; recorded consultancy software and recorded sales software for electric

and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; recorded consultancy software and recorded sales software for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; recorded consultancy software and recorded sales software for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; recorded consultancy software and recorded sales software for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for applying product security means, identification features, security features, security labels and components therefor; recorded consultancy software and recorded sales software for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; recorded consultancy software and recorded sales software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating ink slides, ink rollers, damping rollers, register adjustment devices in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software and recorded sales software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for transporting and storing printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded consultancy software and recorded sales software for the remote control, remote operation, remote monitoring,

control and regulating of devices for the changing and transporting and storage of printing plates; recorded consultancy software and recorded sales software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for cleaning rollers in inking apparatus or damping units and cylinders and inkjet print heads and laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software and recorded sales software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for storing and adjusting rollers in inking apparatus or damping units and cylinders and inkjet print heads and laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software and recorded sales software for the remote control, remote operation, remote monitoring, control and regulating of inking apparatus and damping units and printer engine cylinders in printer engines; recorded consultancy software and recorded sales software for the remote control, remote operation, remote monitoring, control and regulation of devices for tempering of inking apparatus or damping units and cylinders and inkjet print heads and laser systems in printer engines; recorded consultancy software and recorded sales software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating cutting equipment and cutting cylinders in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software and recorded sales software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating registers and register marks in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines

and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software and recorded sales software for remote control, remote operation, remote monitoring, control and regulation for the purposes of quality control in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software and recorded sales software for remote control, remote operation, remote monitoring, control and/or regulating, for quality control in installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; recorded consultancy software and recorded sales software for remote control, remote operation, remote monitoring, control and/or regulating, for quality control in ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; recorded consultancy software and recorded sales software for remote control, remote operation, remote monitoring, control and regulating, for quality control in drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; recorded consultancy software and recorded sales software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating web tension settings in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software, recorded sales software, software for data processing devices for pre-press, for printing printed matter, for production control, for production planning; recorded consultancy software, recorded sales software, software for data processing devices for printing machines, for printing printed matter, for production control, for production planning; recorded consultancy software and recorded sales software for interfaces and data transfer, for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for

use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor; recorded consultancy software and recorded sales software for interfaces and data transfer for installations, equipment, apparatus, filters, separators, suction and conveying devices for air-technology cleaning, dust removal and air separation from machines and rooms equipped therewith, air filters, fans, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing of particles, dust and fibres separated from machines; recorded consultancy software and recorded sales software for interfaces and data transfer, for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and de-aerating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular fans, blowers and compactors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; recorded consultancy software and recorded sales software for interfaces and data transfer, drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; recorded consultancy software and recorded sales software for interfaces and data transfer, for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; recorded consultancy software and recorded sales software for interfaces and data transfer, for machines for applying product security means, identification features, security features, security labels and components therefor; recorded consultancy software and recorded sales software for interfaces and data transfer, for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; recorded software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for transporting and storing printed matter or printing materials or printed material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded software for the transport, packaging and storage of remote controls, remote operators, remote monitoring apparatus, controllers and regulators for devices for the transport, packaging and storage of printed matter or printing materials or printing

material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded electronic data carriers containing product security means, identification features, security features, security labels, securities, banknotes; recorded magnetic data carriers containing product security means, identification features, security features, security labels, securities, banknotes; RFID tags and readers; encoded identification chips and cards; apparatus for the payment of goods and/or services and/or bills, in particular for enabling customers to pay by themselves, in particular by payment means in the form of banknotes and/or coins and/or tokens of value and/or cashless payment by debit, credit and/or loyalty cards, in particular contactless and/or contact cards and/or NFC (near field communication) apparatus, including in particular with return of change; automated teller machines (ATM); money-receiving apparatus; money-dispensing and -receiving apparatus; fittings for the aforesaid apparatus, included in this class, namely, cartridges for collecting payment means, in particular bank notes and/or coins and/or tokens of value; electric apparatus, namely, data processing equipment for communication with recording media, in particular for communication with recording media with integrated circuits and recording media with contactless interfaces, and in particular data processing equipment for writing data in or on recording media, for reading data from or on recording media and for displaying data from recording media on a display; data processing equipment for personalising recording media; machine-readable recording media, in particular recording media with integrated circuits for storing, encrypting and decrypting, processing and providing data and programs; cards having an integrated circuit (chip cards), in particular cards having microprocessors for communication with external data processing devices or with mobile radio terminals; coded prepaid telecommunication cards; coded and uncoded digital recording media with contactless interfaces; integrated circuits with characteristic physical properties for protection against forgery; memories for data processing installations, in particular non-volatile memories being digital storage media; digital recording media containing memories, in particular non-volatile memories being digital storage media; electric apparatus for processing, in particular encryption and decryption, data for both online and offline operation; recorded software for managing computer network applications, in particular for internet, intranet and extranet applications; recorded data processing software, in particular for telecommunications with chip card-activated mobile telephones and in particular for associated chip cards and mobile telephones, and computer programs for activating, modifying, testing and displaying data and software structures stored in these telecommunications cards; recorded software for the encryption and decryption and the signing of data; recorded operating system software and application software for digital recording media with integrated circuits, in particular for hardware tokens and chip cards, and for data processing equipment for communication with these digital recording media; recorded computer programs for the development, management and maintenance of all the aforesaid types of software; prerecorded digital recording media featuring telecommunications data processing software; electronically and optically stored pre-recorded advertising and communications media, included in this class, in particular films, videos, included in this class;

inkjet printers for documents, in particular with one or more inkjets, single-colour or multi-colour inkjet printers; accessories, namely, unfilled printer ink cartridges, for the aforesaid inkjet printers, in particular having one or more inkjets, single-colour or multi-colour inkjet printers; encoding machines, in particular for the graphics sector, the packaging sector and data processing; parts for the aforesaid goods and accessories for the aforesaid goods, namely, cables and hubs; none of the aforesaid goods in relation to typeface or font software or software for creating, uploading, downloading, using and displaying typographical fonts, alphanumerical characters and typographical symbols

GOODS AND SERVICES INFORMATION

For Printing machines; offset printers; web fed rotary printing machines; sheet fed rotary printing machines; screen printing machines; pad printing machines; central-cylinder flexographic printing machines; flexographic printing machines; intaglio printing machines; printing machines for use on sheet metal; printing machines for use on cans; printing machines for use on hollow bodies; printing machines for corrugated cardboard; industrial inkjet printing machines and apparatus; laser marking machines and apparatus; laser printing machines and apparatus; marking machines; lacquering machines; packing machines; laminating machines; coating machines, in particular working rotationally, for web-type and separate materials; digital printing and marking machines based on electrophotography, magnetography, xerography, ink jet; exposure apparatus, being parts for printing machines for contact printing or creating circuit and print templates; imprinting and marking machines, in particular for the graphics sector, the packaging sector and data processing; labelers being machines; engraving machines; machines for handling sheets and plates of metal; foodstuff distribution machines; machines and apparatus for the surface treatment of metals; hot stamping machines and apparatus; thermal transfer machines and apparatus; rotary die-cutters for punching of printed matter or paper or plastics; sheet metal punches for stamping printed matter or paper or plastics; marking machines for printed matter; printing plates; flexographic printing plates; accessories, namely, printing plates, for the aforesaid printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and apparatus, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines; machines and mechanical apparatus for storing printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials

for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and apparatus, industrial inkjet printers, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; conveyors being machines, belts for conveyors, conveying apparatus for conveying printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and apparatus, industrial inkjet printers, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; machines and mechanical apparatus for the folding of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; machines and mechanical devices for changing and bending and punching printing plates and flexographic printing plates; machines and mechanical apparatus for the storing of printing plates for printing machines; conveying machines, conveyor belts, conveying apparatus for conveying printing plates for printing machines; machines and mechanical apparatus for cleaning rollers in inking apparatus or damping units and cylinders and lacquering units and inkjet print heads and laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and apparatus, industrial inkjet printers, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; machines and mechanical apparatus for storing and adjusting rollers in inking apparatus or damping units and cylinders and lacquering units and inkjet printing modules and laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and apparatus, industrial inkjet printers, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; machines and mechanical apparatus for adjustment, for inking apparatus and damping units and printer engine cylinders and for lacquering units in printer engines and in lacquering units and for industrial inkjet printing modules and laser systems; parts, namely, rollers and plates for inking

apparatus and damping units and industrial inkjet printing modules and laser systems and cylinders in tempering machines, included in this class; machines and mechanical apparatus for adjusting cutting equipment and cutting cylinders in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and apparatus, industrial inkjet printers, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; machines and mechanical apparatus for adjusting registers and register marks in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and apparatus, industrial inkjet printers, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; mechanical control machines and apparatus for printing machines, offset printing machines, web fed rotary printing machines, sheet fed rotary printing machines, screen printing machines, pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and apparatus, industrial inkjet printers, in particular with one or more inkjets, single colour or multiple colour industrial inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, painting machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; machines and mechanical apparatus for adjusting web tension settings in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and apparatus, industrial inkjet printers, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; filters being parts of machines or engines; separators; suction machines and conveyors for ventilating purification, dust removing and air separation of machines; filters for cleaning cooling air, for engines; blowing engines; fibre separators being machines; air compressors and air ejectors for machines; collecting machines for compacting, filling and pressing of particles, dust and fibres separated from machines; blowing machines; air compressors; accessories, namely, plates and rollers, for the aforesaid printing machines, offset printing machines, web fed rotary printing machines, sheet fed rotary printing machines, screen printing machines, pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing

machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and apparatus, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, painting machines, packaging machines, coating machines, digital printing and machines for marking, labellers being machines, engraving machines, machines for handling sheets, feeders, machines and apparatus for the surface treatment of metals, hot die-stamping machines and apparatus, thermal transfer machines and apparatus; accessories, included in this class, for the aforesaid filters, separators, suction machines and conveyors for ventilating purification, dust removing and air separation of machines, air filters, blowers, fibre separators, air compressors and air ejectors for machines, collecting machines for compacting, filling and pressing machine-separated particles, dust and fibres; machines and mechanical apparatus for producing security labels, securities, banknotes and components therefor; machines and mechanical apparatus for applying security labels and components therefor; machines and mechanical apparatus for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; mechanical control machines and apparatus for machines for producing security labels, securities, banknotes, and components therefor; mechanical control machines and apparatus for machines for applying security labels, and components therefor; mechanical control machines and apparatus for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; mechanical control machines and apparatus for machines used with security labels, securities, banknotes, and components therefor; parts for the aforesaid goods and accessories for the aforesaid goods, namely, printing plates and rollers

For Recorded sales and consultancy software for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded sales and consultancy software for installations, equipment, apparatus, filters, separators, extraction and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; recorded sales and consultancy software for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular fans, blowing machines and compressors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; recorded sales and consultancy software for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air

purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; recorded sales and consultancy software for producing product security means, authentication features, security features, security labels, securities, banknotes and components therefor; recorded sales and consultancy software for applying product security means, authentication features, security features, security labels and components therefor; recorded sales and consultancy software for packaging product security means, authentication features, security features, security labels, securities, banknotes and components therefor; recorded sales and consultancy software for product security means, authentication features, security features, security labels, securities, banknotes and components therefor; recorded sales and consultancy software for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded sales and consultancy software for installations, equipment, apparatus, filters, separators, suction and conveying devices for the air-technology cleaning, dust removal and air separation of machines and rooms equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; recorded sales and consultancy software for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; recorded sales and consultancy software ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; recorded sales and consultancy software for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; recorded sales and consultancy software for machines for applying product security means, identification features, security features, security labels and components therefor; recorded sales and consultancy software for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; recorded sales and consultancy software for product security means, identification features, security features, security labels, securities, banknotes and components therefor; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines

for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for applying product security means, identification features, security features, security labels and components therefor; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; recorded consultancy software and recorded sales software for electric and electronic measuring and testing apparatus and instruments for adjusting and pre-adjusting subassemblies and parts for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded consultancy software and recorded sales software for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; recorded consultancy software and recorded sales software for electric

and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; recorded consultancy software and recorded sales software for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; recorded consultancy software and recorded sales software for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; recorded consultancy software and recorded sales software for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for applying product security means, identification features, security features, security labels and components therefor; recorded consultancy software and recorded sales software for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; recorded consultancy software and recorded sales software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating ink slides, ink rollers, damping rollers, register adjustment devices in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software and recorded sales software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for transporting and storing printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded consultancy software and recorded sales software for the remote control, remote operation, remote monitoring,

control and regulating of devices for the changing and transporting and storage of printing plates; recorded consultancy software and recorded sales software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for cleaning rollers in inking apparatus or damping units and cylinders and inkjet print heads and laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software and recorded sales software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for storing and adjusting rollers in inking apparatus or damping units and cylinders and inkjet print heads and laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software and recorded sales software for the remote control, remote operation, remote monitoring, control and regulating of inking apparatus and damping units and printer engine cylinders in printer engines; recorded consultancy software and recorded sales software for the remote control, remote operation, remote monitoring, control and regulation of devices for tempering of inking apparatus or damping units and cylinders and inkjet print heads and laser systems in printer engines; recorded consultancy software and recorded sales software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating cutting equipment and cutting cylinders in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software and recorded sales software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating registers and register marks in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines

and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software and recorded sales software for remote control, remote operation, remote monitoring, control and regulation for the purposes of quality control in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software and recorded sales software for remote control, remote operation, remote monitoring, control and/or regulating, for quality control in installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; recorded consultancy software and recorded sales software for remote control, remote operation, remote monitoring, control and/or regulating, for quality control in ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; recorded consultancy software and recorded sales software for remote control, remote operation, remote monitoring, control and regulating, for quality control in drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; recorded consultancy software and recorded sales software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating web tension settings in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software, recorded sales software, software for data processing devices for pre-press, for printing printed matter, for production control, for production planning; recorded consultancy software, recorded sales software, software for data processing devices for printing machines, for printing printed matter, for production control, for production planning; recorded consultancy software and recorded sales software for interfaces and data transfer, for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for

use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor; recorded consultancy software and recorded sales software for interfaces and data transfer for installations, equipment, apparatus, filters, separators, suction and conveying devices for air-technology cleaning, dust removal and air separation from machines and rooms equipped therewith, air filters, fans, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing of particles, dust and fibres separated from machines; recorded consultancy software and recorded sales software for interfaces and data transfer, for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and de-aerating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular fans, blowers and compactors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; recorded consultancy software and recorded sales software for interfaces and data transfer, drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; recorded consultancy software and recorded sales software for interfaces and data transfer, for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; recorded consultancy software and recorded sales software for interfaces and data transfer, for machines for applying product security means, identification features, security features, security labels and components therefor; recorded consultancy software and recorded sales software for interfaces and data transfer, for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; recorded software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for transporting and storing printed matter or printing materials or printed material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded software for the transport, packaging and storage of remote controls, remote operators, remote monitoring apparatus, controllers and regulators for devices for the transport, packaging and storage of printed matter or printing materials or printing

material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, document inkjet printing machines and apparatus, document inkjet printers, in particular with one or more inkjets, single-colour or multi-colour document inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded electronic data carriers containing product security means, identification features, security features, security labels, securities, banknotes; recorded magnetic data carriers containing product security means, identification features, security features, security labels, securities, banknotes; RFID tags and readers; encoded identification chips and cards; apparatus for the payment of goods and/or services and/or bills, in particular for enabling customers to pay by themselves, in particular by payment means in the form of banknotes and/or coins and/or tokens of value and/or cashless payment by debit, credit and/or loyalty cards, in particular contactless and/or contact cards and/or NFC (near field communication) apparatus, including in particular with return of change; automated teller machines (ATM); money-receiving apparatus; money-dispensing and -receiving apparatus; fittings for the aforesaid apparatus, included in this class, namely, cartridges for collecting payment means, in particular bank notes and/or coins and/or tokens of value; electric apparatus, namely, data processing equipment for communication with recording media, in particular for communication with recording media with integrated circuits and recording media with contactless interfaces, and in particular data processing equipment for writing data in or on recording media, for reading data from or on recording media and for displaying data from recording media on a display; data processing equipment for personalising recording media; machine-readable recording media, in particular recording media with integrated circuits for storing, encrypting and decrypting, processing and providing data and programs; cards having an integrated circuit (chip cards), in particular cards having microprocessors for communication with external data processing devices or with mobile radio terminals; coded prepaid telecommunication cards; coded and uncoded digital recording media with contactless interfaces; integrated circuits with characteristic physical properties for protection against forgery; memories for data processing installations, in particular non-volatile memories being digital storage media; digital recording media containing memories, in particular non-volatile memories being digital storage media; electric apparatus for processing, in particular encryption and decryption, data for both online and offline operation; recorded software for managing computer network applications, in particular for internet, intranet and extranet applications; recorded data processing software, in particular for telecommunications with chip card-activated mobile telephones and in particular for associated chip cards and mobile telephones, and computer programs for activating, modifying, testing and displaying data and software structures stored in these telecommunications cards; recorded software for the encryption and decryption and the signing of data; recorded operating system software and application software for digital recording media with integrated circuits, in particular for hardware tokens and chip cards, and for data processing equipment for communication with these digital recording media; recorded computer programs for the development, management and maintenance of all the aforesaid types of software; prerecorded digital recording media featuring telecommunications data processing software; electronically and optically stored pre-recorded advertising and communications media, included in this class, in particular films, videos, included in this class;

inkjet printers for documents, in particular with one or more inkjets, single-colour or multi-colour inkjet printers; accessories, namely, unfilled printer ink cartridges, for the aforesaid inkjet printers, in particular having one or more inkjets, single-colour or multi-colour inkjet printers; encoding machines, in particular for the graphics sector, the packaging sector and data processing; parts for the aforesaid goods and accessories for the aforesaid goods, namely, cables and hubs; none of the aforesaid goods in relation to typeface or font software or software for creating, uploading, downloading, using and displaying typographical fonts, alphanumerical characters and typographical symbols
