For Printed matter in the nature of books, pamphlets, brochures, manuals, booklets, leaflets, informational flyers, informational sheets, newsletters, periodicals, newspapers, journals, educational materials and informational folders in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales and network solutions for innovative business models; paper and cardboard; stationery and printed educational materials in the nature of books, booklets, textbooks in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales and network solutions for innovative business models; paper bags and articles in the nature of sheets and films for packaging, wrapping and storage of paper, cardboard or plastics; bookbinding material; printed photographs; typewriters, electric or non-electric; printed computer software operating manuals; catalogues in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales and network solutions for innovative business models; books in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales and network solutions for innovative business models; manuals in the nature of handbooks in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales and network solutions for innovative business models

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Education, teaching, entertainment and sport services, namely, conducting classes, seminars, conferences, workshops in the field of electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales, network solutions for innovative business models, teaching in business, industry and information technology; publishing of newspapers, books, e-books, magazines, web magazines, reviews, audio books, journals, software, games, music and electronic publications and reporting, namely, editorial reporting services, production of teaching reports, news reporting services in the field of data analytics, data protection, cybersecurity and artificial intelligence; translation and interpretation; education and instruction services, namely, conducting classes, seminars, conferences, workshops in the field of electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales, network solutions for innovative business models; coaching in the field of electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales, network solutions for innovative business models; organisation and conducting of educational conferences, exhibitions and competitions in the field of electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales, network solutions for innovative business models; arranging and conducting of seminars; arranging and conducting of training workshops in the field of electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales, network solutions for innovative business models; arranging and conducting of classes in the field of electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales, network solutions for innovative business models; provision of training courses in the field of electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales, network solutions for innovative business models; conducting of training courses in the field of electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales, network solutions for innovative business models; publication of printed matter, also in electronic form, except for advertising purposes; writing of texts, namely writing of articles for journals and periodicals other than for advertising or publicity; publishing of instructional books; conducting of training courses in the field of electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales, network solutions for innovative business models

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Business analysis, research and information services; business assistance, management and administrative services; advertising, marketing and promotional services; business management; business administration; office functions; updating and maintenance of data in computer databases; compilation and systemization of information into computer databases; computerized file management; business data analysis in the nature of data search in computer files for others; compilation of statistics; preparation of accounts in the nature of account auditing; commercial administration of the licensing of the goods and services of others; market research; conducting marketing studies; publication of printed matter for advertising purposes; product demonstration and presentation of goods on communication media, for retail purposes in the nature of marketing; presentation of goods and services, namely, marketing; business management consulting services in the field of information technology; advisory services relating to electronic data processing; advisory services relating to data processing; business consultancy relating to the administration of information technology; business advisory services relating to the use of computers; business consultancy services relating to data processing; business assistance, namely, outsourcing services

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Building, construction and demolition of buildings; installation, maintenance and repair of computer hardware and telecommunication apparatus; building construction services; installation, maintenance and repair of computer hardware; consultancy relating to the installation, maintenance and repair of computer hardware; installation and maintenance of hardware for computer networks and internet access; installation, repair and maintenance of computers and computer peripherals; interference suppression in electrical apparatus; maintenance of computer networking and telecommunications hardware; installation of computer hardware for information systems

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Scientific research and laboratory apparatus, namely lasers for scientific use, DNA chips, sensors for scientific use to gather biometric data; educational apparatus, namely audiovisual teaching apparatus, in the nature of electronic interactive whiteboards; simulators namely, simulators for simulating the effects of cyber-attacks, virtual reality motion simulators, weapon simulators, artificial intelligence simulators, simulators for driving or control of vehicles, simulators for the steering and control of vehicles, vehicle drive training simulators, flight instrumentation simulators; electronically recorded data, namely, electronic database in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales and network solutions for innovative business models recorded on computer media; information technology devices, namely, transparent electronic displays fixed at head-level or head-down positions for use in military and commercial aircrafts, vehicles and vessels for providing crew members with navigational and operational information, computers, TV monitors, Computer monitors, Video monitors, mobile hotspot devices, data storage devices in the nature of blank tapes for storage of computer data, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network, computer memory devices, computer peripheral devices, input devices for computers, computer network interface devices; audio-visual, multimedia devices, namely, LCD monitors, Tablet monitors, LED monitors, cameras, virtual reality glasses, virtual reality headsets, digital media streaming devices, apparatus for recording and reproduction of sound, images or data; photographic devices, namely, cameras; magnets, magnetizers and demagnetizers; measuring instruments, namely, height measuring instruments, resistance measuring

instruments, conductivity meters; speed indicators, wind indicators, automotive measuring instruments, namely, water temperature gauges, air fuel/ratio gauges, boost gauges, vacuum gauges and exhaust gas temperature gauges; detecting and monitoring instruments, namely, vehicle tracking devices, electronic tire pressure monitors, vehicle location detection system comprised primarily of display monitors, computers, image sensors, and video cameras, on-board vehicular surveillance systems comprised of cameras and monitors for exposing and eliminating the blind spots on both sides of the vehicle, safety and driving assistant systems for mobile vehicles and vessels comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors, indicators, namely electronic indicator panels, electronic indicator boards, speed indicators, wind indicators, temperature indicators, faulted circuit indicator, automatic altitude indicators, automatic indicators of low pressure in vehicle tires, level indicators for monitoring and controlling liquids in tanks and vessels and controllers, namely electrical controllers, electronic servo motor controllers, electronic speed controllers, cruise controls for vehicles and motorcycles, electrical integrated control systems for use in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales and network solutions for innovative business models; navigation, guidance, tracking, targeting and map making devices namely, electronic navigational and positioning apparatus and instruments, GPS tracking devices, GPS navigation devices, car navigation computers, satellite-aided navigation systems, navigation apparatus for vehicles in the nature of on-board computers, navigational apparatus for automobiles, heads-up displays (HUDs) in the nature of transparent electronic displays for the projection of data from a mobile device onto a vehicle windshield and for providing vehicles with navigational and operational information; optical devices and equipment, enhancers and correctors, namely telescopic aiming sights, apparatus for amplifying images, apparatus providing night vision in the nature of night vision goggles, distance measuring apparatus, fibre optic periscopes, image amplifiers, image intensifiers, instruments for amplifying images, telescopic sights, three dimensional viewers in the nature of 3D spectacles; safety, security, protection and signaling devices and equipment, namely, security control apparatus, holographic security apparatus, security surveillance apparatus, electronic security tags, security surveillance robots, cards encoded with security features for identification purposes, wireless controllers to remotely monitor and control the function and status of security systems, security tokens in the nature of encryption devices, security warning apparatus; scientific and laboratory devices for measurement of physical reaction using electricity, namely lasers for scientific use, DNA chips, sensors for scientific use to gather biometric data; software for use in displaying and analyzing data in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, security software, software for network and device security, software to control building environmental, access and security systems, software for ensuring the security of electronic mail, computer software for the remote control of security apparatus, artificial intelligence software for surveillance, artificial intelligence software for controlling vehicles, artificial intelligence and machine learning software for restricting unauthorized access to computer systems, artificial intelligence software for managing logistics, business intelligence software, artificial intelligence software for analysis of data; downloadable databases in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, artificial intelligence software for surveillance, artificial intelligence software for vehicles used for tracking vehicles, artificial intelligence and machine learning software for use in software development, artificial intelligence software for automated driving, artificial intelligence software for analysis of computer systems; recorded media

devices, namely, digital media streaming devices; audio and visual as well as photographic devices, namely, display monitors, touchscreen monitors, cameras, virtual reality glasses, virtual reality headsets, digital media streaming devices, apparatus for recording and reproduction of sound, images or data, cameras; data storage devices, namely, blank tapes for storage of computer data, computer storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; electrical and mechanical data processing devices and equipment as well as accessories in the nature of data processing apparatus; communications equipment, namely, electronic and optical communications instruments and components, namely, communication link testers for testing communication links, electronic and optical communications instruments and components, namely, digital transmitters, electronic and optical communications instruments and components, namely, optical transmitters, electronic and optical communications instruments and components, namely, optical receivers, communications computers, apparatus for transmission of communication; replicating apparatus, namely, digital color copiers; electrical and optical signal cables for IT, audio vision and telecommunication; alarms, namely, personal security alarms that connect to a wireless communications network and parts for anti-theft automotive alarms, namely, electronic sensors, remote control transmitters and receivers for remotely operating land vehicles; analytical testing apparatus not for medical use, namely, lasers for scientific use, sensors for scientific use to gather biometric data; electrical switching devices, namely, electric circuit switches; electronic display units, namely, LCD large screen displays; checking being supervision apparatus and instruments namely, for checking vehicle parameters; electronic monitoring instruments, other than for medical use, namely, vehicle tracking devices, electronic tire pressure monitors, vehicle location detection system comprised primarily of display monitors, computers, image sensors, and video cameras, on-board vehicular surveillance systems comprised of cameras and monitors for exposing and eliminating the blind spots on both sides of the vehicle, safety and driving assistant systems for mobile vehicles and vessels comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors, indicators, namely electronic indicator panels, electronic indicator boards, speed indicators, wind indicators, temperature indicators, faulted circuit indicator, automatic altitude indicators, automatic indicators of low pressure in vehicle tires, level indicators for monitoring and controlling liquids in tanks and vessels and controllers, namely electrical controllers, electronic servo motor controllers, electronic speed controllers, cruise controls for vehicles and motorcycles, electrical integrated control systems for use in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales and network solutions for innovative business models; measuring apparatus and instruments, namely, height measuring instruments, resistance measuring instruments, conductivity meters; speed indicators, wind indicators, automotive measuring instruments, namely, water temperature gauges, air fuel/ratio gauges, boost gauges, vacuum gauges and exhaust gas temperature gauges; electronic transistors; electricity anti-interference devices, namely, filters for radio interference suppression, conductive silicone packing for electro-magnetic interference; controllers the nature of remote controllers, motion controllers, electrical controllers, sensor controllers, communications controllers, digital electronic controllers, temperature controllers apparatus for use in vehicle heating systems; radio telephony sets; high-frequency apparatus, namely, high frequency switches, high frequency mobile and sea-based communication antennas, electronic frequency converters for high velocity electro motors; electronic navigating apparatus; radar apparatus; radio transmitters; transmitters of electronic signals; computer software for use in database management and electronic storage of data, downloadable virtual reality training simulation software in the field of computers, electronic systems, engineering,

transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing; downloadable software for monitoring and controlling communication between computers and automated machine systems; computers and computer hardware; computer programmes for data processing; computer operating systems; recorded computer operating programs; electric access and admission control devices, namely, electric locks; signaling apparatus and instruments, namely security control apparatus, holographic security apparatus, security surveillance apparatus, electronic security tags, security surveillance robots, cards encoded with security features for identification purposes, wireless controllers to remotely monitor and control the function and status of security systems, security tokens in the nature of a fob-like device used by an authorized user of a computer system to facilitate authentication, security warning apparatus; protective and safety equipment for vehicles, namely electronic deer alerts, electronic tire pressure monitors, back-up sensors and cameras, electronic vibration, shock, motion, angle, temperature and voltage monitors, on-board vehicular surveillance systems comprised of cameras and monitors for exposing and eliminating the blind spots on both sides of the vehicle, safety and driving assistant system for mobile vehicles and vessels comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors; alarms and warning equipment, namely, personal security alarms that connect to a wireless communications network and parts for anti-theft automotive alarms, namely, electronic sensors, remote control transmitters and receivers for remotely operating land vehicles; analytical testing apparatus not for medical use, namely, lasers for scientific use, sensors for scientific use to gather biometric data; monitoring instruments and apparatus, namely, vehicle tracking devices, electronic tire pressure monitors, vehicle location detection system comprised primarily of display monitors, computers, image sensors, and video cameras, on-board vehicular surveillance systems comprised of cameras and monitors for exposing and eliminating the blind spots on both sides of the vehicle, safety and driving assistant systems for mobile vehicles and vessels comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors, indicators, namely electronic indicator panels, electronic indicator boards, speed indicators, wind indicators, temperature indicators, faulted circuit indicator, automatic altitude indicators, automatic indicators of low pressure in vehicle tires, level indicators for monitoring and controlling liquids in tanks and vessels and controllers, namely electrical controllers, electronic servo motor controllers, electronic speed controllers, cruise controls for vehicles and motorcycles, electrical integrated control systems for use in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales and network solutions for innovative business models; sensors and detectors, namely radar, laser and ultrasonic object detectors for use on vehicles; testing and quality control devices namely, testing instrumentation for monitoring and detecting contamination, apparatus for testing vehicle brakes; measuring, counting, alignment and calibrating instruments namely, laser measuring systems, audio analyzers, tool measuring instruments, distance measuring apparatus, mechanical and electronic measuring machines for identifying and analyzing structural damage to vehicles, automotive measuring instruments, namely, water temperature gauges, air fuel/ratio gauges, boost gauges, vacuum gauges and exhaust gas temperature gauges, electronic instruments for use in remote inspection and measurement of industrial components using remote visual devices, calibration devices for calibrating optical emission spectrometers; computer applications for automotive control; computer programs for project management; artificial intelligence apparatus in the nature of humanoid robots with artificial intelligence, safety and driving assistant systems with artificial intelligence for mobile vehicles and vessels comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors; augmented reality software for use in

mobile devices for integrating electronic data with real world environments

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Safety and enforcement services for the protection of property and individuals, namely, security guard services, security screening of baggage, security threat analysis for protecting personal property and personal safety, security services, namely, monitoring of home security alarm systems, rental of security surveillance apparatus in the nature of security camera surveillance equipment, security surveillance robots, compiling crime occurrence data, analyzing data in computer databases for criminal activity, providing a web site featuring information on the development of privacy, security and data governance law; lifeguard services; security consultancy in the field of physical and personal security; security services for the protection of property and individuals, namely, security services for buildings in the nature of providing physical access to properties via a remote call-in locking device; licensing services, namely, legal administration of licenses, licensing of software in the framework of software publishing, consultancy relating to computer software licensing, consultancy relating to patent licensing, intellectual property licensing consultation in connection with electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales, network solutions for innovative business models; legal services in the nature of licensing of computer software; licensing of intellectual property

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For Telecommunication services, namely, telecommunication access services, electronic exchange of data stored in databases accessible via telecommunication networks, data transmission and reception services via telecommunication means, aeronautical telecommunication services, transmission of voice, audio, visual images and data by telecommunications networks, wireless communication networks, the Internet, information services networks and data networks, communications via multinational telecommunication networks; computer communication by computer terminals and providing internet access; provision of internet access services; provision of access to the internet for purposes of experiencing content, websites and internet portals; digital network telecommunications services; electronic network communications by fiber optic networks, digital communications networks, wireless communication networks, the Internet, information services networks and data networks; providing access to multimedia content online; e-mail data services, namely, providing electronic transmission of secure e-mail; consultancy in the field of telecommunications

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Scientific and technological services, namely, scientific and technological research and development in the field of electronic systems, cybersecurity, artificial intelligence, engineering, transportation, logistics, data analytics, automated driving and vehicle development, electric vehicles, digital marketing; design services for others in the field of electronic systems, engineering, transportation, logistics, data analytics, automated driving and vehicle development; information technology engineering; testing in the nature of material testing, product testing, testing of security systems, testing on civil engineering, testing the functionality of apparatus and instruments, testing of occupant protection systems for motor vehicles, testing of electronic components and electronic systems, automotive safety testing and consultation, namely, conducting crash tests and providing advice, information and reports, testing of vehicles to determine conformity with certification standards; authentication in the field of electric vehicles, automated driving, vehicle development and quality control for others;

industrial, scientific, technical, technological and engineering research services in the field of electronic systems, cybersecurity, artificial intelligence, engineering, transportation, logistics, data analytics, automated driving and vehicle development, electric vehicles, digital marketing; computer aided industrial analysis services, namely, computer aided designs of vehicles and vehicle components; provision of product research services; IT security services in the nature of protection and recovery of computer data; computer virus protection services; IT consultancy, advisory and information services; computer security consultancy; software development, programming and implementation; software development; software creation; computer software consultancy; writing of programs for data processing; computer hardware development; hosting services, namely, server hosting, cloud hosting provider services, hosting of digital content on the Internet, hosting computer software applications and websites of others in the field of electronic systems, cybersecurity, artificial intelligence, engineering, transportation, logistics, data analytics, automated driving and vehicle development, electric vehicles, digital marketing; software as a service (SaaS), namely, hosting software for use by others for use in database management and service desk management; consulting services in the field of software as a service, software as a service services featuring software for use in database management and service desk management; rental of software; electronic data duplication and conversion services, namely, duplication of computer applications, computer programs and software, data conversion of electronic information, computer code conversion for others, data and multimedia content conversion from and to different protocols, data coding services in the nature of computer code conversion for others; hosting computer sites in the nature of web sites; provision of security services for computer networks, computer access and computerized transactions, namely, restricting unauthorized network access by users without credentials, monitoring of computer systems for securing data and information from unauthorized access, computer security services for protection against illegal network access, computer security services in the nature of administering digital certificates, computer security threat analysis for protecting data, authentication services for computer security; computer project management in the field of EDP; monitoring technological functions of network systems; technical testing services in the nature of testing of electronic components and electronic systems, testing of occupant protection systems for motor vehicles, environmental automobile emission testing and inspection services, vehicle roadworthiness testing; computer aided testing services in the nature of testing of electronic components and electronic systems, testing of occupant protection systems for motor vehicles, environmental automobile emission testing and inspection services, vehicle roadworthiness testing; computer systems integration services in the nature of integration of computer software into multiple systems and networks, integration of private and public cloud computing environments; design of computer information systems; advisory services relating to computer based information systems; software engineering, namely, software development; IT project management; engineering project management services; consultancy in the field of security software; consultancy in the field of software design; research relating to technology, namely, technology research in the field of electronic systems, cybersecurity, artificial intelligence, engineering, transportation, logistics, data analytics, electric vehicles, automated driving, vehicle development, digital marketing; technical research, namely, technology research in the field of electronic systems, cybersecurity, artificial intelligence, engineering, transportation, logistics, data analytics, automated driving and vehicle development; integration of computer software; integration of computer systems and networks; consultancy and information services relating to computer system integration; design and development of computer software for logistics; design and development of computer software for logistics, supply chain management and e-business portals; technical support in the software area, namely, troubleshooting of computer software problems, remote administration and management of in-house and hosted datacenter devices, databases and software applications; provision of on-line support

services for computer program users, namely, troubleshooting of computer software problems, remote administration and management of in-house and hosted datacenter devices, databases and software applications; provision of technical support in the operation of computing networks, namely, troubleshooting of computer software problems, remote administration and management of in-house and hosted datacenter devices, databases and software applications

For Machines for treatment of materials and for manufacturing, in particular machines for metalworking and machines for plastics processing; machine tools as parts of multi-purpose steam cleaning machines and industrial cleaning machines for the cleaning and surface treatment of ceramic, plastic, glass and metal surfaces by means of high pressure water jetting and ultrasound; machines for treatment of surfaces by means of high pressure water jetting; machines and installations for cleaning of ceramic, plastic, glass and metal surfaces by means of high pressure water jetting and ultrasound; machines and apparatus for the industrial cleaning of parts of metal, plastic, glass or ceramic with the use of cleaning fluids and/or vapour therefrom or with the use of ultrasound; machines and apparatus for the cleaning and subsequent drying of parts of metal, plastic, glass or ceramic; steam cleaning machines and installations; machines for cleaning surfaces using high pressure water jets; electric cleaning apparatus for parts of ceramic, plastic, glass and metal; cleaning installations comprising spray chambers, in particular for cleaning and degreasing surfaces and workpieces; machines and electric apparatus for the reconditioning of cooling lubricants; machines and electric apparatus for applying cooling lubricants to parts of metal and/or plastic; dust exhausting installations for cleaning purposes; degreasing machines for use on ceramic, plastic, glass and metal surfaces for commercial and industrial purposes; compressed air machines; steam boilers for steam generating as parts of machines; air condenser installations; compressors, namely, electric compressors, air compressors; pumps for machines and as parts of machines; power-operated blowers; filtering machines, namely, filtering machines for chemical processing and for filtering cleaning solutions; filters as parts of machines, motors and engines, namely, air filters, liquid filters; separators, namely, oil separators, cyclone separators, centrifugal separators; sieves being machines or parts of machines; sliding valves and valves all as parts of machines; nozzles being parts of machines; power-operated sprayers; spray lances for attachment to pressure washing machines for cleaning purposes; taps and clack valves all being parts of machines, motors or engines; flange joints for piping

as parts of machines; industrial robots; conveyor devices and installations all being machines; roller tracks for use in roller conveyor apparatus and belt conveyor apparatus; machines and machinery equipment for transferring, turning, order picking, storing and sorting of industrially produced components; material handling machines, automatic; grabs being parts of machines, namely, buckets, grapples and forks in the nature of attachments of industrial robots; feeders for machines; motors and engines, other than for land vehicles; powertrains in the nature of power transmissions and gearing for industrial cleaning machines; driving motors, other than for land vehicles; transmission shafts, other than for land vehicles; hydraulic and pneumatic controls for machines, motors and engines; machine coupling and transmission components, other than for land vehicles; bearings as parts of machines; machine parts being machine housings; opening and closing mechanisms being parts of machines; pneumatic, electric and hydraulic control mechanisms for machines, engines or motors; regulators being parts of machines; brushes being parts of machines; boiler tubes being parts of machines; joints being parts of engines; clamping tools for holding piece parts during machining; tools as parts of multi-purpose steam cleaning machines and industrial cleaning machines for the cleaning and surface treatment of ceramic, plastic, glass, and metal surfaces by means of high pressure water jetting and ultrasound; holding devices for machine tools being machine tool holders; generators, namely, electric generators; turbines, other than for land vehicles; ball valves being parts of machines; control valves for regulating the flow of gases and liquids; electric ultrasonic cleaning instruments for the cleaning and surface treatment of ceramic, plastic, glass, and metal surfaces for industrial use; ultrasonic cleaning machines for the cleaning and surface treatment of ceramic, plastic, glass, and metal surfaces; heat exchangers being parts of machines; structural components and structural replacement parts for all of the aforesaid goods

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Regulating accessories for water or gas apparatus and pipes; industrial installations for filtering liquids, namely, water filtering apparatus, cleaning fluid filtering apparatus; filters for industrial and household use, namely, air filtering units, liquid filtering units; installations for the collection of liquids, namely, sustainable onsite water recycling and waste water treatment systems, waste water purification apparatus, waste water treatment tanks; heating, ventilating, and air conditioning apparatus and systems, namely, heating installations, heating boilers, ventilating exhaust fans, air conditioners; refrigerating appliances and installations; drying installations, namely, heaters for drying cleaned workpieces, industrial dryers for heating and dehumidifying; steam generating apparatus, machines and installations; distillation apparatus not for scientific purposes; heat regenerators; heat accumulators; taps being faucets; lighting apparatus, namely, lightning installations; electric lamps; pressure tanks for liquids being waste water treatment tanks; structural replacement parts for all of the aforesaid goods

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Installation, maintenance and repair of cleaning and surface treatment machines for the purpose of cleaning surfaces of plastic, metal, glass and ceramic; installation work in industrial plants, namely, installation of material working machines and cleaning machines in industrial plants; installation, maintenance and repair of machines and machine tools; repair information; degreasing, washing and cleaning services using solvent, water, and vapor technology for surfaces of plastic, metal, glass and ceramic

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Measuring, detecting and monitoring instruments, indicators and controllers, namely, gas meters, electric sensors, electrical controllers; optical devices, enhancers and correctors, namely, optical filters, optical condensers, optical sensors; apparatus, instruments and cables for electricity, namely, electricity limiters, electricity conduits; apparatus and instruments for conducting, switching, converting, storing, regulating and controlling electricity, namely, electric controlling devices, electric transformers, electrical adapters, electric limiters, electric switchgear, electric relays; safety, security, protection and signalling devices, namely, sound alarms, safety markers; recorded content, namely, recorded machine operating software programs for controlling operation of industrial cleaning machines and industrial surface treatment machines for the purpose of cleaning surfaces of parts of plastic, metal, glass, and ceramic; apparatus and instruments for weighing; material testing instruments, namely, electronic apparatus for cleanliness analysis of cleaned parts of plastic, metal, glass, and ceramic; inspecting apparatus and instruments, electric, namely, for measuring, testing, and checking the temperature, pressure, quantity, and concentration of gas and liquids; testing apparatus not for medical purposes, namely, voltage testers, apparatus for testing gas, liquids and solids; remote control apparatus, namely, remote controls for cleaning machines; electric installations for the remote control of industrial operations; electric and electronic control apparatus, namely, electric control panels; particle flow monitors, namely, flow-based analyzers providing cell and particle analysis, detection, or counting for scientific, laboratory, and general research uses; electric level regulators; dosimeters; ultrasonic oscillators; test apparatus and installations built thereof for condition-oriented machine maintenances, namely, testing equipment for measuring the temperature, pressure, position, or form of workpieces in a machine tool; vibro-acoustic test apparatus for cleaning machines; heat regulating apparatus, namely, temperature controllers for air heaters and liquid heaters; electrical power distribution units; electricity conduits; connections for electric lines; joining units being electrical contacts; electricity connectors; diagnostic apparatus, not for medical purposes, namely, sensors and instruments for measuring, testing, and checking temperature, pressure, quantity, and concentration of gas and liquids; optical, electrical, electromagnetic and mechanical switches for electricity; electric apparatus for commutation being commutators; circuit breakers; electrical plugs; electric couplings; magnets; sensors and detectors, namely, for measuring, testing, and checking temperature, pressure, quantity, and concentration of gas and liquids; electric sensors; optical sensors; liquid level sensors; pressure sensors; turbidity sensors for liquids; temperature sensors; leak detectors; level switches for monitoring and controlling liquids in tanks and vessels; alarm signals, luminous or mechanical; electric control valves for regulating the flow of gases and liquids; electrical and electronic controls for multi-purpose steam cleaning machines and industrial cleaning machines; electric valve actuators; electric, electronic or electromagnetic relays; thermometers, not for medical purposes; thermal sensors being thermostats; temperature indicating apparatus; water meters; rotary encoders; time switches, automatic; electrical switch cabinets; electric control panels; electricity distribution consoles; data processing apparatus and computers for use with industrial cleaning machines and industrial surface treatment machines for the purpose of cleaning surfaces of parts of plastic, metal, glass, and ceramic; computer peripherals for use with industrial cleaning machines and industrial surface treatment machines for the purpose of cleaning surfaces of parts of plastic, metal, glass, and ceramic; processors being central processing units; computer systems comprised of computers and computer hardware for use with industrial cleaning machines and industrial surface treatment machines for the purpose of cleaning surfaces of parts of plastic, metal, glass, and ceramic; data entry terminals in the nature of computer keyboards, mobile data terminals, touchscreens for use with industrial cleaning machines and industrial surface treatment machines for the purpose of cleaning surfaces of parts of

plastic, metal, glass, and ceramic; computer monitors for use with industrial cleaning machines and industrial surface treatment machines for the purpose of cleaning surfaces of parts of plastic, metal, glass, and ceramic; interfaces for computers for use with industrial cleaning machines and industrial surface treatment machines for the purpose of cleaning surfaces of parts of plastic, metal, glass, and ceramic; memory cards; integrated circuit cards; devices for wireless radio transmission; recorded and downloadable computer software to control and monitor industrial cleaning machines and industrial surface treatment machines for the purpose of cleaning surfaces of parts of plastic, metal, glass, and ceramic, namely, for controlling of and feedback on machines and industrial processes; regulating and control software, namely, downloadable software for regulating and controlling the operation of industrial cleaning machines and industrial surface treatment machines for the purpose of cleaning surfaces of parts of plastic, metal, glass, and ceramic; alarms, namely, acoustic alarms, smoke alarms, signalling alarms; safety devices in connection with the operation of machines, namely light barriers, switches and shielding caps for use with machines or apparatus to protect the service staff against accidents and injuries; structural components and structural replacement parts for all of the aforesaid apparatus

GOODS AND SERVICES INFORMATION

For Compilation of information into computer databases; compilation of statistics; management and compilation of computerized databases; business data analysis and business and technical data compilation, systematization, and processing services; data management, namely-database management; data acquisition processing service for data recorded during aircraft operations

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Electric and electronic apparatus and instruments for recording, storing and reproducing sound, images and/or data, namely apparatus for recording and reproduction of sound, images or data, blank flash drives, blank audio tapes, blank CD's and blank diskettes, blank computer hard-disk, electric sensors for capturing temperature, pressure, speed, hygrometry, position, acceleration, electronic sensors for sensing pressure, speed, hygrometry, position, acceleration, cameras, microphone, computer hardware; magnetic, optical and digital recording media, namely blank optical disks, blank optical data carriers, blank magnetic data carriers; blank CD-ROMs and DVDs; radio communication apparatus and instruments from aircraft or satellites, namely radio transmitters and receivers, electric or electronic sensors for capturing temperature, pressure, speed, hygrometry, position, acceleration, cameras, computer hardware, hard-disk drives; apparatus and instruments for generation, collection, recording, transmission and use of data from aircraft on the ground or in flight, namely computer hardware, apparatus for checking flight parameters, electric or electronic sensors for capturing temperature, pressure, speed, hygrometry, position, acceleration, cameras, hard-disk drives; downloadable and recorded software solution (API) providing aircraft friction information on a runway from aircraft braking data; apparatus and instruments for checking, control, monitoring, detection and measurement of radio frequency, location, telemetry and remote control for aeronautical and space vehicles,

namely, computer hardware, aeronautical radio communication machines and apparatus; downloadable and recorded software for checking, control, monitoring, detection and measurement of radio frequency, location, telemetry and remote control for aeronautical and space vehicles; data processing equipment; data banks, namely, blank magnetic optical data carriers, blank computer hard-disk, blank flash drives; data banks being pre-recorded magnetic data carriers, pre-recorded hard-disk drives, pre-recorded blank flash drives containing aircraft friction information on a runway and aircraft braking data; downloadable and recorded database management software; downloadable and recorded computer programs for accessing, browsing and searching online databases; downloadable and recorded software for calculation of aircraft performance; downloadable and recorded computer programs for data processing in connection with aircraft

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Provision of access to databases; secure aircraft flight data communication service, namely providing private and secure real time electronic communication over a computer network; telecommunication service, namely, transmission of information contained in a data bank, on a server via internet, and/or intranet access; provision of access to Internet web portals made available to airlines and/or airport managers

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Design and development of computer hardware and software; research and development, namely, engineering in the aeronautical field; analysis of technical data, namely technical analysis of aircraft friction information on a runway and aircraft braking data; operational engineering service, namely, engineering for airlines and/or airport managers; electronic data storage; software as a service [SaaS], namely, hosting software for use by others for use in database management, for use as a spreadsheet, for word processing, for simulation processing and for the aeronautical field maintenance and repair; software as a service [SaaS], namely, featuring software for use in database management, for service desk management, and for the aeronautical field maintenance and repair; testing, analysis and monitoring of aircraft navigation signals to improve runway condition assessment using the full potential of aircraft braking data; application service provider [ASP] for aircraft, namely, hosting computer software applications of others; application service provider [ASP] for aircraft, namely, featuring software for use in database management and to improve runway condition assessment; computer database development services; hosting of databases being digital content on the Internet; development, installation, maintenance and updating of database software; rental of computer database software; design, updating and maintenance of database software; design of computer programs and software relating to aircraft; design and development of computer software for evaluation and calculation of data in connection with aircraft; design and development of data processing systems in connection with aircraft; technical data analysis services relating to aircraft, namely technical engineering analysis, scientific research analysis of aircraft friction information on a runway and aircraft braking data

GOODS AND SERVICES INFORMATION

For Machines and machine tools for treatment of materials and for manufacturing, namely micro-material processing machines, thin-film materials manufacturing machines, electric welding machines, metal working machines, metal sawing machines, wood drilling machines, textile printing machines, conveyors, mine borers, packing machines, printing machines for commercial or industrial use, centrifugal separators, paper coating machines, packaging machines, vacuum pumps, polishing machines, mixing machines; machines for machining metals; machines for processing of wood, namely, wood drilling machines, wood sawing machines, wood milling machines; machines for glass processing, namely, glass-working machines; machines for stoneworking; machines for processing ceramics namely, milling machines for the treatment of ceramics; machines for processing plastics; industrial robots machines; industrial robots; chemical industry machinery, namely, dissolving machines for chemical processing, granulating machines for chemical processing, blending machines for chemical processing; machines for the raw material processing industry namely, industrial machine presses and numerically controlled machines and machine tools used for machining parts ; machines for mineral oil processing; machines for agriculture and forestry, namely, reapers, tilling machines, seed planting machines, namely, sowers; mining machines; machines for the textile industry, namely, textile washing machines; machines for preparing beverages, namely, beverage preparation machines, electromechanical, aerated beverage making machines; machines for the food industry namely, bottle washing machines, kneading machines, centrifugal milk separators, mixing machines, food peeling machines, food cutting machines, food chopping machines; machines for the furniture industry namely, drilling machines, wood drilling machines, wood milling

machines; machines for electrotechnical and electronics industry, namely, industrial machine presses and numerically controlled machines and machine tools used for machining parts; machines for the power generating industry, namely, electric power generators, industrial machine presses and numerically controlled machines and machine tools used for machining parts cleaning machines for power generation engines; machines for the paper, printing and publishing industries, namely, printing machines, textile printing machines, binding machines in the nature of document binding machines for industrial use, paper coating machines, paper cuffing machines, paper reeling machines, paper shredding machines; machinery for vehicle construction, automobile manufacture, the aviation industry and ship construction, namely, industrial machine presses and numerically controlled machines and machine tools used for machining parts; material production and processing machines, namely, machines for the production of biomedical systems, machines for the production of thin-film materials; machines and installations assembled therefrom for coating substrates or for the surface treatment of substrate, namely semiconductor substrates manufacturing machines; machines for transporting goods, namely conveyors, power-operated lifting machines; belts for conveyors; mechanical railed lifting conveyors; concrete construction machines; packaging machines; machine tools, namely, milling cutters, gear cutters, chasers, injection molding machines, power drills, electric planers, power-operated saws, power-operated polishers; motors, other than for land vehicles; machine coupling and transmission components, except for land vehicles; injectors for engines; crankcases for machines, motors and engines; hydraulic engines and motors; hydraulic controls for machines and motors; pistons for engines; connecting rods for machines, motors and engines; pneumatic controls for machines, for motors and for engines; pumps as parts of machines, motors and engines; mufflers for motors and engines; control mechanisms for machines, engines or motors, namely hydraulic controls for machines, motors and engines; carburetors; cylinders for motors and engines; cylinder heads for engines; sparking plugs for internal combustion engines; ignition magnetos for engines; and structural machine parts therefor; engine parts, namely, contact points, oil dipsticks, electronic fuel injection modules

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Education services, namely, providing courses of instruction at the primary, secondary and college level; leadership development training for educators, computer education training, sports training, medical training; entertainment services in the nature of organizing social entertainment events; providing information relating to organizing community sporting and cultural activities; advanced training , namely, leadership development training for educators, computer education training; organization, and arranging of instructional events and organizing and arranging training, seminars, workshops, symposia, congresses and conferences in the fields of surface technologies, laser technologies, biomedical systems, energy systems, industrial systems, software, cybersecurity, and digital media technologies; providing non-downloadable electronic publications in the nature of books, brochures, journals and magazines in the fields of surface technologies, laser technologies, biomedical systems, energy systems, industrial systems, software, cybersecurity, science, technology, engineering and digital media technologies; issue of publications, other than publicity texts, namely, publication of textbooks and scientific papers; publication of books, magazines, almanacs and journals; advisory services relating to publishing; publication of printed matter, including in electronic form, other than advertising; preparation of texts for publication, namely, written text editing; development of educational materials of others in the fields of surface technologies, laser technologies, biomedical systems, energy systems, industrial systems, software, cybersecurity, and digital media technologies ; organizing of exhibitions for educational purposes

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signaling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments, namely, calculators, X-ray producing apparatus and installations, other than for medical purposes, X-ray tubes other than for medical purposes, vacuum gauges as automotive measuring instruments, navigation apparatus for vehicles, video screens, video telephones, viewfinders, viscometers, silicon wafers, weighing apparatus and instruments, welding electrodes, transmitters of electronic signals, sound recording apparatus, sound reproduction apparatus, sound transmitting apparatus, spectrograph apparatus, spectroscopes, satellites for scientific purposes, blank smart cards, remote control apparatus for radios, televisions, stereos [excluding gaming apparatus], Roentgen apparatus other than for medical purposes, pressure gauges, pressure measuring apparatus, probes for scientific purposes, radiological apparatus for industrial purposes, observation instruments, namely, cameras, optical lenses, photovoltaic cells, measuring apparatus, namely, laser distance meters, measuring instruments , namely, distance measuring apparatus, lasers other than for medical purposes, integrated circuit cards, food analysis apparatus, namely, diagnostic apparatus for testing food, galvanic cells, galvanizing apparatus, namely, galvanic batteries, decompression chambers; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity, namely, electric current switches; transformers, electric connectors, electric relays, transistors; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; measuring, detecting and monitoring instruments, indicators and controllers, namely, electronic control systems for machines, power controllers and industrial automation controls; GPS navigation, guidance, GPS tracking, targeting and map making devices in the nature of directional compasses, surveying instruments, and GPS apparatus; recorded media, namely, blank USB flash drives, hard disk drives; downloadable computer software for operating laser machines, for audio and video coding; computer hardware; lasers for cutting, welding and surface treatment; apparatus and instruments for physics, namely, instruments for use in measuring velocity; chemistry apparatus and instruments, namely, laboratory glassware, laboratory centrifuges, hand operated laboratory tools for manipulating laboratory samples, laboratory filters or laboratory trays; scientific research and laboratory apparatus, educational apparatus and simulators, namely, calculators, blocks used as teaching aids for modeling of chemical compounds and math concepts; material testing instruments and machines for testing textile, plastic, concrete; safety, security, protection and signaling devices, namely, inflatable flotation device, portable LED safety lighting device; sensors and detectors, namely, carbon monoxide detectors, smoke detectors; data processing apparatus; humanoid robots with artificial intelligence; computers; computer peripheral devices; recorded content in the nature of recorded computer programs for use in database management, use as a spread sheet, word processing for operating laser machines, for audio coding multi media systems; downloadable databases in the fields of surface technologies, laser technologies, biomedical systems, energy systems, industrial systems, software, cybersecurity, and digital media technologies; downloadable electronic publications in the field of surface technologies, laser technologies, biomedical systems, energy systems, industrial systems, software, cybersecurity, and digital media technologies; DNA chips; microprocessors; electronic chips for the manufacture of integrated circuits; integrated circuits; electric apparatus for commutation, namely, electrical switches; light emitting diode (LED); parts and fittings for all of the aforesaid goods

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Telecommunication access services; providing access to platforms and portals on the internet; providing access to information on the internet; providing user access to computer programmes in data networks; providing access to databases

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Treatment of materials and processing, namely, recycling of waste and trash as well as waste sorting, waste processing, incineration and recycling; treatment of materials and processing, namely, coating and surface treatments of metal, glass, wood and plastic; treatment of materials and processing, namely, processing of glass, woodworking and preservation, ceramic processing, plastics processing; treatment of materials and processing, namely, food and drink processing; treatment of materials and processing, namely, air and water treatment, filtration and purification; treatment of materials and processing, namely, metalworking, paper treating, textile, leather and fur treatment; treatment of materials and processing, namely, processing of fuels, chemicals, gas, coal, hydrocarbons, hydrocarbon derivatives, plastics, mineral oil and hazardous substances, as well as catalytic conversion of chemical compounds; treatment of materials and processing, namely, metal, glass, wood and plastic etching, printing, water and organic solvent filtration, milling, galvanising, metal, glass, wood and plastic casting, laser processing, magnetisation, grinding, metal, glass, wood and plastic polishing, polymerisation, refining metal, glass, wood and plastic , sawing, forging metal, glass, wood and plastic, tailoring, welding, metal stamping, vulcanising and steel rolling; treatment of materials using chemicals, namely, chemical treatment of textiles, metals, ceramics, plastics and natural substances; custom manufacturing and fabrication services of semiconductor components, devices and circuits; generation of energy, heating and electricity

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Scientific and technological services and research and design relating thereto in the fields of engineering, automotive, image processing, digital cinema, eGovernment, energy, grid computing, high-performance ceramics, information and communication technology, life science, microelectronics, nanotechnology, numeric simulation, surface technology and photonics, optical-functional surfaces, photocatalysis, polymer surfaces, production, rapid prototyping, cleaning technology, traffic and transportation, security, materials and components, water, data processing, production automation and sensor technology, production technologies, raw materials, industrial process technology, energy and construction technology, environment and health, techno economical studies, coatings and laser applications, software engineering, laser technology, molecular biotechnology, digital media technology; industrial analysis services in the fields of engineering, automotive, image processing, digital cinema, eGovernment, energy, grid computing, high-performance ceramics, information and communication technology, life science, microelectronics, nanotechnology, numeric simulation, surface technology and photonics, optical-functional surfaces, photocatalysis, polymer surfaces, production, rapid prototyping, cleaning technology, traffic and transportation, security, materials and components, water, data processing, production automation and sensor technology, production technologies, raw materials, industrial process technology, energy and construction technology, environment and health, techno economical studies, coatings and laser applications, software engineering, laser technology, molecular biotechnology, digital media technology; industrial research in the fields of engineering, automotive, image processing, digital cinema, eGovernment, energy, grid computing, high-performance ceramics, information and communication technology, life science, microelectronics, nanotechnology, numeric simulation, surface technology and

photonics, optical-functional surfaces, photocatalysis, polymer surfaces, production, rapid prototyping, cleaning technology, traffic and transportation, security, materials and components, water, data processing, production automation and sensor technology, production technologies, raw materials, industrial process technology, energy and construction technology, environment and health, techno economical studies, coatings and laser applications, software engineering, laser technology, molecular biotechnology, digital media technology; scientific and industrial research in the fields of engineering, automotive, image processing, digital cinema, eGovernment, energy, grid computing, high-performance ceramics, information and communication technology, life science, microelectronics, nanotechnology, numeric simulation, surface technology and photonics, optical-functional surfaces, photocatalysis, polymer surfaces, production, rapid prototyping, cleaning technology, traffic and transportation, security, materials and components, water, data processing, production automation and sensor technology, production technologies, raw materials, industrial process technology, energy and construction technology, environment and health, techno economical studies, coatings and laser applications, software engineering, laser technology, molecular biotechnology, digital media technology ; scientific and technological consultancy in the fields of engineering, automotive, image processing, digital cinema, eGovernment, energy, grid computing, high-performance ceramics, information and communication technology, life science, microelectronics, nanotechnology, numeric simulation, surface technology and photonics, optical-functional surfaces, photocatalysis, polymer surfaces, production, rapid prototyping, cleaning technology, traffic and transportation, security, materials and components, water, data processing, production automation and sensor technology, production technologies, raw materials, industrial process technology, energy and construction technology, environment and health, techno economical studies, coatings and laser applications, software engineering, laser technology, molecular biotechnology, digital media technology; computer technological consultancy and preparation of reports relating to scientific research; consulting services for others in the field of technical and scientific project planning of scientific research, clinical trials, computer software testing; research and development with regard to new products, for others; architectural services; technical research in the fields of engineering, automotive, image processing, digital cinema, eGovernment, energy, grid computing, high-performance ceramics, information and communication technology, life science, microelectronics, nanotechnology, numeric simulation, surface technology and photonics, optical-functional surfaces, photocatalysis, polymer surfaces, production, rapid prototyping, cleaning technology, traffic and transportation, security, materials and components, water, data processing, production automation and sensor technology, production technologies, raw materials, industrial process technology, energy and construction technology, environment and health, techno economical studies, coatings and laser applications, software engineering, laser technology, molecular biotechnology, digital media technology; research in the field of mechanical engineering; research in the field of physics; chemical research; mathematical research services; technological research relating to computers namely, computer networking hardware and computer datacenter architecture; research relating to computer programs; research in the field of information technology; scientific research in the field of pharmaceuticals; medical research; biological research; construction drafting; computer programming services; engineering services; IT programming services, namely, computer programming; testing, authentication and quality control for others; materials testing; development of measuring and testing methods in the fields of engineering, automotive, image processing, digital cinema, eGovernment, energy, grid computing, high-performance ceramics, information and communication technology, life science, microelectronics, nanotechnology, numeric simulation, surface technology and photonics, optical-functional surfaces, photocatalysis, polymer surfaces, production, rapid prototyping, cleaning technology, traffic and transportation, security, materials and components, water, data processing, production automation and sensor technology,

production technologies, raw materials, industrial process technology, energy and construction technology, environment and health, techno economical studies, coatings and laser applications, software engineering, laser technology, molecular biotechnology, digital media technology; services of a technical measuring and testing laboratory in the field of engineering, automotive, image processing, digital cinema, eGovernment, energy, grid computing, high-performance ceramics, information and communication technology, life science, microelectronics, nanotechnology, numeric simulation, surface technology and photonics, optical-functional surfaces, photocatalysis, polymer surfaces, production, rapid prototyping, cleaning technology, traffic and transportation, security, materials and components, water, data processing, production automation and sensor technology, production technologies, raw materials, industrial process technology, energy and construction technology, environment and health, techno economical studies, coatings and laser applications, software engineering, laser technology, molecular biotechnology, digital media technology; chemical analysis; technical measurement and analysis in the fields of engineering, automotive, image processing, digital cinema, eGovernment, energy, grid computing, high-performance ceramics, information and communication technology, life science, microelectronics, nanotechnology, numeric simulation, surface technology and photonics, optical-functional surfaces, photocatalysis, polymer surfaces, production, rapid prototyping, cleaning technology, traffic and transportation, security, materials and components, water, data processing, production automation and sensor technology, production technologies, raw materials, industrial process technology, energy and construction technology, environment and health, techno economical studies, coatings and laser applications, software engineering, laser technology, molecular biotechnology, digital media technology; design and development of computer hardware and software; maintenance, implementation and installation of computer software; web site hosting services and software as a service (SAAS) services featuring software for use in database management, for service desk management, for cloud storage, and rental of computer software; IT consultancy, advisory and information services; Providing IT security, protection and maintenance of computer software, computer analysis and diagnostics; design of home pages and web pages; development, updating and maintenance of software and database systems; development and testing of computing methods, algorithms and software; Providing information and research in databases and on the internet, for scientific and research purposes in the fields of engineering, automotive, image processing, digital cinema, eGovernment, energy, grid computing, high-performance ceramics, information and communication technology, life science, microelectronics, nanotechnology, numeric simulation, surface technology and photonics, optical-functional surfaces, photocatalysis, polymer surfaces, production, rapid prototyping, cleaning technology, traffic and transportation, security, materials and components, water, data processing, production automation and sensor technology, production technologies, raw materials, industrial process technology, energy and construction technology, environment and health, techno economical studies, coatings and laser applications, software engineering, laser technology, molecular biotechnology, digital media technology; analysis of large amounts of data regarding the relationships between the data and data mining; cloud computing featuring software for use in database management, for cloud storage and for use in datamining

GOODS AND SERVICES INFORMATION

For Surgical apparatus and instruments; medical apparatus and instruments, namely, medical electrodes, medical ventilators, medical lasers, medical imaging apparatus, medical hearing instruments, thermometers for medical use, vacuum pumps for medical purposes, irrigators for medical use, ultrasonic medical diagnostic apparatus, nanorobots for medical purposes in the nature of surgical robots, telemetry apparatus for medical purposes, infrared lamps for medical use, electrophoresis apparatus for medical purposes, thermographic instruments for medical purposes, laser pointers for medical use, testing apparatus for medical purposes in the nature of blood testing apparatus, diagnostic apparatus for medical purposes in the nature of ultrasound diagnostic apparatus, oxygen inhalers for medical use sold empty, electronic muscle stimulators for medical use, analysers for bacterial identification for medical purposes, medical apparatus for introducing pharmaceutical preparations into the human body; dental apparatus and instruments, namely, dental drills; veterinary apparatus and instruments, namely, electrocardiographs for veterinary purposes, lasers for veterinary purposes; artificial limbs, eyes and teeth; orthopaedic articles, namely, orthopaedic implants made of artificial materials and orthopaedic joint prostheses; suture materials; massage apparatus

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Apparatus for locomotion by land, air or water, namely, automobiles, airplanes, boats, ships, bicycles, motorcycles, and helicopters

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Printed publications, namely, magazines, periodicals, newsletters, handbooks, manuals, newspapers, pamphlets, and prospectuses in the field of electronic components and the certification of conformity to standards relating to electronic components

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Machines, namely, agricultural machines being sowers, watering machines, tilling machines and reapers; air suction machines; bending machines; beverage preparation machines, electromechanical; industrial machinery, namely, electromechanical marking machines; bicycle assembling machines; bitumen making machines; bottle filling machines; bottle sealing machines; bread cutting machines; brewing machines in the nature of machine for making coffee beverages; butter machines; centrifugal machines; cigarette machines for industrial purposes; coal-cutting machines; electric and air compressors; belt and chain conveyors; crushing machines for industrial purposes; dairy machines being machines for udder cleaning and washing of dairy cows; drainage machines in the nature of drain jetters; drilling machines; engraving machines; filling machines; plywood and concrete finishing machines; glass-working machines; agricultural machines being harvesting machines; electric kitchen machines, namely, electric standing mixers; automatic industrial labeling machines for applying labels to containers and bottles; metalworking machines in the nature of boring, milling, grinding and bending machines for metalworking; mineworking machines; mixing machines; packaging machines; food peeling machines for commercial use; electric and sump pumps; rinsing machines in the nature of clothes washing machines featuring a rinse spray system; sealing machines for industrial purposes, automatic stamping machines; typographic machines being typesetting machines; woodworking machines, namely, sanding machines for woodworking; automated assembly machines for assembling automobiles, bicycles, motorcycles, helicopters, mine cars and electric cars; material production and processing machines for the product and processing of web products and structural parts thereof; extracting machines for chemical processing; manipulators machines for industrial use, namely, manipulator for forging presses and for forging machines; electric and gas welding machines; waste and trash separator machines; filtering machines for chemical processing; power-operated machine tools, namely, machine tools for drilling; electric drills for use on circuit boards; metal-working machine tools, namely, machine tools for forming, riveting, swaging and flaring of metal; rock drills; power-operated tools, namely, power-operated drilling tools and power operated cutting tools; motors and engines, except for land vehicles; machine coupling and transmission components, except for land vehicles; incubators for eggs; automatic vending machines; heat sinks for use in machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Apparatus for heating, namely, radiators; steam generators; apparatus for cooking, namely, cooking ovens and induction cookers; refrigerating cabinets; apparatus for drying, namely, industrial drying machines for dehumidifying and heating; ventilating apparatus, namely, air-conditioning, air cooling and ventilation apparatus and instruments, ventilating exhaust fans; apparatus for water supply, namely, water supply valves; apparatus for sanitary purposes, namely, taps for pipes and pipelines being parts of sanitary installations; LED lighting apparatus, namely, LED light fixtures, LED lamps, LED flashlights; LED light bulbs

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Education, namely, conducting classes, seminars, conferences, and workshops in the field of standards relating to electronic components and to the certification of conformity to standards for electronic components and supply of electronic components; provision of training in the field of standards relating to electronic components and to the certification of conformity to standards for electronic components and supply of electronic components, providing non-downloadable webinars in the field of standards relating to electronic components and to the certification of conformity to standards for electronic components and supply of electronic components; arranging and conducting of training workshops, educational colloquiums, educational conferences, educational congresses, seminars, and educational symposiums in the field of standards relating to electronic components and to the certification of conformity to standards for electronic components and supply of electronic components; providing online publication of electronic publications in the nature of non-downloadable electronic periodicals in the field of standards relating to electronic components and to the certification of conformity to standards for electronic components and supply of electronic components

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Testing to determine professional competency; testing to determine employment skills; employment counseling, namely, evaluation of personnel requirements; psychological testing for the selection of personnel; all the services mentioned above being aimed at determining a person's ability to perform certification of conformity for electronic components and for the services of providing electronic components; business monitoring services, namely, monitoring the internal compliance procedures of quality control of companies with respect to manufacturers of electronic components for business purposes; business monitoring services, namely, monitoring the compliance procedures put in place by companies relating to product manufacturing and distribution processes in order to detect counterfeits and avoid the recycling of used or obsolete parts in the selection and use of electronic components for business purposes; business monitoring services, namely, monitoring the compliance procedures of quality control of companies for business purposes with respect to service providers in the field of repair, maintenance and recycling of electronic components

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Electronic publications, namely, international standards guides, specifications sheets and manuals, corrigenda, interpretation sheets, technical reports, guides and articles in the field of electronic components and the certification of conformity to standards relating to electronic components, all recorded on optical discs; electronic publications, namely, international standards guides, specifications sheets and manuals, corrigenda, interpretation sheets, technical reports, guides and articles in the field of electronic components and the certification of conformity to standards relating to electronic

components, all recorded on digital computer recording media; downloadable electronic publications, namely, brochures and manuals detailing international standards guides, specifications sheets and manuals, corrigenda, interpretation informational sheets, technical reports, guides, written articles, newsletters, and books in the field of electronic components and the certification of conformity to standards relating to electronic components; downloadable computer software applications for mobile internet applications for reading a newsletter, magazine or a catalogue of certificates of conformity in the field of electronic components and the certification of conformity to standards relating to electronic components; recorded computer programs for use in database management, use in electronic storage of data in the field of electronic components and the certification of conformity to standards relating to electronic components; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity, namely, power distribution panels, electronic power transformers, power controllers, power connectors, electric connectors, power cables, power adaptors, high-voltage power supplies, distribution boxes for electrical power, electrical power supplies, power amplifiers, power switches, electrical switches, and power distribution or control machines and apparatus in the nature of electrical power distribution units and power controllers; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity for the nuclear industry, namely, power distribution panels, electronic power transformers, power controllers, power connectors, electric connectors, power cables, power adaptors, high-voltage power supplies, distribution boxes for electrical power, electrical power supplies, power amplifiers, power switches, electrical switches, and power distribution or control machines and apparatus in the nature of electrical power distribution units and power controllers; electronic components, namely, silicon chips; electronic components and optical electronic components in the nature of optical transmitters, optical receivers, optical transceivers, and digital transmitters; electronic components for integrated circuit cards; electronic components for the nuclear industry, namely, silicon chips, and electronic components and optical electronic components in the nature of optical transmitters, optical receivers, optical transceivers and digital transmitters; connectors for electronic circuits; electronic semi-conductors; electronic integrated circuits; electronic circuit cards; electronic circuit boards; electronic chips for the manufacture of integrated circuits; electronic cables; electronic components for computers; electronic circuits; blank electronic chip cards being blank smart cards; electronic memory devices, namely, electronic memory integrated circuit chips, computer memory devices; electronic connectors; blank electronic chip cards; large-scale integrated circuits; printed circuit boards incorporating integrated circuits; integrated circuits; cards with integrated circuits; materials for electricity mains in the nature of electric wires and cables; electric cables and wires; silicon wafers; downloadable computer security software for ensuring the security of electronic mail, network and infrastructure IT systems

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Telecommunication services, namely, transfer of data by telecommunications, telecommunication access services, transmission of voice, data, graphics, images, audio and video by means of telecommunications networks, wireless communication networks, and the Internet; providing on-line access to databases containing test certificates, certificates of conformity, training certificates, certificates of personnel competence as well as certificates of acceptance in connection with the supply of electronic components

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Packaging of goods, namely, merchandise packaging for others; packaging and packing services, namely, packing and packaging articles for transportation

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Testing, analysis and evaluation of the goods of others to assure compliance with industry standards in the nature of quality assessment specifications declared by manufacturers in the field of electronic components, including components, products and materials that assist in the construction, installation and use of electronic components; testing, analysis and evaluation of the services of others to determine conformity with certification standards in the field of verifying the use of hazardous substances, of production processes of products, including product design, purchasing, production lines, warehouses and dispatch; evaluation and auditing of manufacturing process for electronic components for quality control; quality control of electronic components; testing, analysis, and evaluation of the knowledge, skills and abilities of others in the field of standards for electronic components to determine conformity with certification standards; testing, analysis and evaluation of the goods of others to assure compliance with industry standards in the nature of factory surveillance allowing others to check that electronic components are being manufactured in accordance with applicable standards; testing, analysis and evaluation of the services of others to determine conformity with certification standards in the field of technical procedures applied by service providers in the field of repair, maintenance and recycling of electronic components; evaluation and auditing of repair, maintenance and recycling process of electronic components for quality control; data security consultancy services; Internet security consultancy services; design and development of Internet security programs; computer virus protection services; data encryption services; electronic monitoring of credit card activity to detect fraud via the Internet; monitoring of computer systems for detecting unauthorized access or data breach; evaluation of the services of others to determine conformity with certification standards in the field of technical competence of the personnel of service providers in the field of repair, maintenance and recycling of electronic components

GOODS AND SERVICES INFORMATION

For Land Vehicles; apparatus for locomotion by land, air or water, namely, automobiles, airplanes, boats, ships, bicycles, motorcycles, and helicopters; vehicles for mines, namely, mine cars; electric vehicles, namely, electric cars and electric trucks; all-terrain vehicles; mine cars; trucks, namely, elevating trucks, pickup trucks, and forklift trucks

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Printed publications, namely, periodicals, magazines, newsletters, handbooks, manuals, newspapers, pamphlets and prospectuses in the field of certification of conformity to standards relating to equipment and products for use in explosive atmospheres

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Machines, namely, oil refining machines; concrete construction machines; automated assembly machines for assembling automobiles, bicycles, motorcycles, helicopters, mine cars and electric cars; fluid absorbing machines for chemical processing; emulsifying machines for chemical processing, material production and processing machines, namely, chemical production and chemical processing machines; extracting machines for chemical processing; manipulators for industrial use, namely, manipulators for forging presses and for forging machines; electric and gas welding machines; centrifuges; waste and trash separator machines; filtering machines for chemical processing; oil separators; tunnel boring machines; excavating machines; rock drills; coal-cutting machines; earth moving machines, namely, shovel loaders, rock breaking machines; well drilling machines; oil-well pumping machines; machines for mineral processing; piercing machines being cutting machines; plugging machines being plug valves; rotating electrical machines; electrostatic coating machines; industrial printing machines; machines for use in the processing of water; power-operated machine tools, namely, machine tools for drilling; electric drills

for use on circuit boards drills; metal-working machine tools, namely, machine tools for forming, riveting, swaging and flaring of metal; power-operated tools, namely, power-operated drilling tools and power operated cutting tools; motors and engines, except for land vehicles; machine coupling and transmission components, except for land vehicles; incubators for eggs; automatic vending machines; industrial robots; robotic exoskeleton suits being machines, other than for medical use; Mining machines and apparatus, namely, rock drills, belt conveyors, mechanical shovels and hydraulic excavators; Mechanical reeling apparatus, namely, mechanical wire reeling machines, wire reels, and wire-reeling machines; mechanical mixing machines; mechanical engine parts for land vehicles; mechanical hoists; fixed and mobile mechanical and hydraulic lifts; electromechanical marking machines for the chemical industry; electromechanical marking machines for the agriculture industry; electromechanical marking machines for the textile industry; industrial machinery, namely, electromechanical machines for the application of paint and other surface coatings; electromechanical machines for the paper and pulp industry, namely, electromechanical marking machines; Power tools, namely, hammer drills and hammer drivers; turbines, other than for land vehicles

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Apparatus for lighting, namely, lighting installations; apparatus for heating, namely, radiators; steam generators; apparatus for cooking, namely, cooking ovens; refrigerating cabinets; apparatus for drying, namely, industrial drying machines for dehumidifying and heating; ventilating apparatus, namely, air-conditioning, air cooling and ventilation apparatus and instruments; regulating accessories for water supply, namely, metered valves; apparatus for sanitary purposes, namely, taps for pipes and pipelines being parts of sanitary installations; portable headlamps; water purification and filtration apparatus

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Educational services, namely, the provision of on-line training in the form of non-downloadable webinars in the field of certification of conformity to standards relating to equipment and products for use in explosive atmospheres; arranging and conducting of professional training workshops, colloquiums, conferences, congresses, seminars, symposiums for others in the field of certification of conformity to standards relating to equipment and products for use in explosive atmospheres; providing on-line non- downloadable electronic publications in the nature of non-downloadable electronic periodicals in the field of certification of conformity to standards relating to equipment and products for use in explosive atmospheres

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Testing to determine professional competency; testing to determine employment skills; Employment counseling, namely, evaluation of personnel requirements; psychological testing for the selection of personnel; all the services mentioned above being aimed at determining a person's ability to apply protective principles in explosive atmospheres and to perform certification of conformity to standards for equipment and products for use in explosive atmospheres; business monitoring services, namely, monitoring the compliance procedures of the quality control of companies with respect to providers of repair, maintenance and recycling services for equipment and products for use in explosive atmospheres, all for business purposes; business monitoring services, namely, monitoring the compliance procedures of quality control of companies for business purposes with respect to manufacturers of equipment and products for use in explosive atmospheres

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Building construction; repair of buildings; installation services of building scaffolds, working and building platforms

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Electronic publications in the nature of international standards guides, specifications sheets and manuals, corrigenda, interpretation sheets, technical reports, guides and articles in the field of certification of conformity to standards relating to equipment and products for use in explosive atmospheres, all recorded on computer media, namely, recorded on optical disks; electronic publications, namely, international standards guides, specifications sheets and manuals, corrigenda, interpretation sheets, technical reports, guides and articles featuring information regarding certification of conformity to standards relating to equipment and products for use in explosive atmospheres, all recorded on digital computer recording media; downloadable electronic publications in the nature of brochures and manuals detailing international standards guides, specifications sheets and manuals, corrigenda, interpretation informational sheets, technical reports, guides, written articles, newsletters, and books in the field of certification of conformity to standards relating to equipment and products for use in explosive atmospheres; downloadable computer software applications for mobile phones, namely, downloadable software applications for use in the certification of conformity to standards relating to equipment and products for use in explosive atmospheres; recorded computer program for use in the certification of conformity to standards relating to equipment and products for use in explosive atmospheres; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity, namely, power distribution panels, electronic power transformers for amplification, power controllers, power connectors, electric connectors, power cables, power adaptors, high-voltage power supplies, distribution boxes for electrical power, electrical power supplies, power amplifiers, power switches, electrical switches, power distribution or control machines and apparatus for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; measuring, signaling, detecting, testing, inspecting and life-saving apparatus and instruments in the nature of electric current meters; transmitters of electronic signals; electronic material testing instruments being electronic apparatus for testing compression, strength, hardness and tensile characteristics of industrial materials; electronic measuring sensors for detection and signaling of flammable or combustible materials; temperature measuring instruments for measuring the temperature of air and liquids; circuit testing instruments; gas testing instruments; gas leak testing apparatus; smoke hoods; electronic arc detection and suppressing device used in low voltage switchgear; electronic power transformers in the nature of electric transformers for amplification; power controllers; power connectors; electrical and electronic connectors; power cables; power adaptors; high-voltage power supplies; distribution boxes for electrical power; electrical power supplies; power amplifiers; power switches; electrical switches; power distribution or control machines and apparatus, namely, electrical power distribution units; light switches; high-frequency switches; electric batteries; rechargeable batteries; battery chargers; smoke detectors; fire detectors; flame detection apparatus in the nature of fire and smoke detectors; gas flow monitors; electrical cables; thermostats; electrical terminal blocks; electric coils; fire extinguishing systems; fire-extinguishing apparatus; electrical plugs and sockets; fire alarms; telecommunications transmitters; monitoring and electronic surveillance apparatus, other than for medical use, namely, television monitoring apparatus; electric voltage detection monitoring devices; video cameras adapted for monitoring purposes; computers and computer peripheral devices; sound measuring apparatus in the nature of sound level meters; protection devices for personal use against accidents,

namely, clothing for protection against accidents; clothing, footwear and headwear for protection against accidents, irradiation and fire; measurement apparatus sensors in the nature of ultrasonic sensors, other than for medical use; flowmeters; encoders; data processing equipment in the nature of scanners; luminous beacons; switchboxes

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Telecommunications for providing multiple-user access to a global computer network for the purpose of providing online access to databases on the Internet in the field of standards for explosive atmospheres

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Clothing, namely, hats, boots, coats and uniforms

International Classes 25 - Primary Classes **US Classes** 22, 39 **International Class Title** Clothing

For Testing, analysis and evaluation of the services of others to determine conformity with certification standards of the technical competence of the personnel of service providers in the field of repair, maintenance and recycling of equipment and products for use in explosive atmospheres; Testing, analysis and evaluation of the services of others to determine conformity with certification standards of the technical competence of the personnel working in explosive atmospheres, engaged in activities related to explosive atmospheres, or providing services for others in explosive atmospheres; Testing, analysis and evaluation of the services of others to assure compliance with industry standards, namely, the evaluation and auditing of the technical procedures applied by service providers in the field of repair, maintenance, recycling for the purpose of certification of conformity to standards relating to equipment and products for use in explosive atmospheres; Testing, analysis and evaluation of the services of others to assure compliance with industry standards, namely, the evaluation and auditing of repair, maintenance, recycling process of equipment and products for use in explosive atmospheres for quality control; Testing, analysis and evaluation of the services of others to assure compliance with industry standards, namely, the evaluation and auditing of manufacturing process of equipment and products for use in explosive atmospheres for quality control; testing, analysis and evaluation, for the purpose of determining conformity with certification standards of equipment and products for use in explosive atmospheres and of products and services of others in connection with explosive atmospheres; quality control of equipment and products for use in explosive atmospheres and services rendered in explosive atmospheres
