GOODS AND SERVICES INFORMATION

For Machines for processing a raw material, in particular a powder material, namely, metal powder, ceramic powder, plastic powder or composite material powder; laser sintering machines for processing raw materials, namely, powder materials, namely, metal powders and/or composite material powders; machine tools for the processing of the aforementioned raw materials, namely, metalworking machine tools; machines for processing a raw material using a laser, namely, metal powder, ceramic powder, plastic powder or composite material powder; casting machines, in particular vacuum casting machines or investment casting machines; 3D-printing machines; metal working machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Online retail and wholesale store services featuring computer software designed for use in manufacturing, computer-aided manufacturing software, software; retail and wholesale store services featuring computer software designed for use in manufacturing, computer-aided manufacturing software, software

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Machinery installation, maintenance and repair, including provision of related repair information; installation, cleaning and repair of three dimensional workpieces of complex shapes, made of metal, ceramic, plastic and/or composite material by a laser sintering or layering process; installation, cleaning, repair and maintenance of laser melting machines for processing raw materials, namely, powder materials, namely, metal powders, ceramic powders, plastic powders and/or composite material powders; installation, cleaning, repair and maintenance of casting machines, namely vacuum casting machines, adhesive casting machines; installation, cleaning, repair and maintenance of laser sintering machines for processing raw materials,

namely, powder materials; installation, cleaning, repair and maintenance of optic control devices for guiding and focusing a path of a laser beam; installation, cleaning, repair and maintenance of measuring devices, namely, scientific, electric or optic measuring devices for use in machines for processing raw materials, namely, powder materials; installation, cleaning, repair and maintenance of scientific devices, namely, measuring and signaling devices for measurement and quality control of material processing by laser; construction consultancy

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Automatic, electric and electronic control devices, in particular scientific or optic control devices in the nature of electronic control systems for machines, namely for controlling machines for processing a raw material, in particular a powder material, in particular a metal powder, a ceramic powder, a plastic powder or a composite material powder, or machines for processing a raw material using a laser, or casting machines, in particular vacuum casting machines or investment casting machines; measuring devices, in particular scientific, electric or optic measuring devices in the nature of testing equipment for measuring the temperature, pressure, position, form, velocity, mass, radiation or humidity of process workflows and workpieces for use in 3D printing-machines or metal working machines for processing a raw material, in particular a powder material, in particular a metal powder, a ceramic powder, a plastic powder or a composite material powder, or machines for processing a raw material using a laser, or casting machines, in particular vacuum casting machines or investment casting machines; recorded and downloadable computer software for controlling machines for processing a raw material, in particular a powder material, in particular a metal powder, a ceramic powder, a plastic powder or a composite material powder, for controlling machines for processing a raw material using a laser, or for controlling casting machines, in particular vacuum casting machines or investment casting machines; recorded and downloadable computer software for controlling machines based on 3D CAD data; digital data carriers such as hard drives, optical data carriers, magnetic data carriers, flash memory featuring computer software for controlling machines for processing a raw material, in particular a powder material, in particular a metal powder, a ceramic powder, a plastic powder or a composite material powder, for controlling machines for processing a raw material using a laser, for controlling casting machines, in particular vacuum casting machines or investment casting machines, or for controlling machines based on 3D CAD data; recorded and downloadable computer software designed for use in manufacturing, namely, for use in metal based 3D-printing; recorded and downloadable computer-aided manufacturing software for use in metal based 3D-printing; recorded and downloadable software for use in metal based 3D-printing

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Customised contract manufacturing of three-dimensional workpieces with complex shapes made of metal, ceramics, plastic and/or composite materials by a laser sintering or laser layering process; rental of laser melting machines for processing raw materials, namely, powder materials, namely, metal powders, ceramic powders, plastic powders and/or composite material powders; rental of casting machines, namely, vacuum casting machines, adhesive casting machines; rental of laser sintering machines for processing raw materials, namely, powder materials

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Installation, rental and maintenance of computer software for controlling machines for the processing of raw materials, namely, powder materials, for laser melting and laser sintering machines for the processing of raw materials, and for casting machines; installation, rental and maintenance of computer software for controlling machines based on 3D CAD data (computer aided design); engineering and designing of laser melting machines for processing raw materials, namely, powder materials, namely, metal powders, ceramic powders, plastic powders and/or composite material powders; engineering, designing, initiation in the nature of implementation and maintenance services relating to computer software for controlling machines; services related to the development and support of computer software, namely, software development, software upgrading and troubleshooting computer software problems all related to software for controlling machines for processing a raw material, in particular a powder material; scientific research and industrial research in the field of 3D-printing and additive manufacturing; computer-aided engineering design and drawing services relating to electronic construction drawings and electronic technical drawings; creation and editing of computer files in the nature of electronic construction drawings and electronic technical drawings for use with 3D printers and metalworking machines; rental of optical control devices being computer peripheral devices for guiding and focusing a laser beam; rental of measuring devices, namely scientific, electrical or optical measuring devices for use in machines for processing raw materials, namely powder materials; rental of scientific devices, namely measuring and signalling instruments for measuring and quality control of material processing by laser **International Classes** 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

Mark Literal(s) MHFM MUSICIANS HALL OF FAME & MUSEUM BACKSTAGE VAULT SERIES

CASE IDENTIFIERS

Serial Number 90271917 **Application Filing Date** Oct. 22, 2020 **Registration Number** 6868650 **Registration Date** Oct. 11, 2022 **Register** Principal **Mark Type** Service Mark Trademark **Publication Date** Jul. 26, 2022

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the gray, stylized wording "MHFM MUSICIANS HALL OF FAME & MUSEUM BACKSTAGE VAULT SERIES" appearing on an overall gray, triangular design. The outline of the mark is created by a gray, triangular-shaped border with circles resembling rivets along the edges. The upper-most portion of the border features curved edges with a rounded arc in the center. Immediately underneath the rounded arc is a black oval with a black and gray border containing the gray letters "MHFM". Two gray lines appear on either side of the oval, extending to the left and right, respectively. The upper-most gray lines follow the curved edges of the border until intersecting with the lower gray line, which extends in a straight line from the oval to the triangular shaped border on the left and right, respectively. A black background appears above, between, and below the gray lines. The gray wording "MUSICIANS HALL OF FAME & MUSEUM" appears below the lower gray line on a black background. A gray, six-spoke vault handle on top of two gray concentric circles partially obscures the letter "F" in "OF" and "USEU" in "MUSEUM". Below the 6-spoke vault handle is a gold banner with the gray wording "BACKSTAGE". The lower most spokes partially obscure the letters "ST" and "G" in "BACKSTAGE" and the lower portion of the concentric circles covers the top-center portion of the gold banner. The background of the gold banner is black and a black line traces the outside of the gold banner, following the gold banner's contours. Below the gold banner, and partially overlapping the lower portion of the letters "ACK" in "BACKSTAGE", is a gray rectangular-shaped border with circles resembling rivets along the edges. The gray wording "VAULT SERIES" appears within the rectangular shape on a black background. To the left of the gold banner is a filmstrip design depicted with black rectangles in the center, separated by gray lines, and a gray border on either side that features small black dots. The filmstrip descends in a switchback path toward the bottom of the mark. A portion of the filmstrip is obscured by the rectangular-shape. The color white is used on the letters, the triangular and rectangular borders, and the vault handle, giving the appearance of reflected light. The color black is used as background throughout the mark. Black lines appear on the letters in "BACKSTAGE" "VAULT" and "SERIES" giving the letters an appearance of being stenciled. **Color Drawing** Yes **Color Claimed**

The color(s) black, white, gray, and gold is/are claimed as a feature of the mark. **Disclaimer** "SERIES"

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a design of the unbalanced scales of justice in shades of gold and bronze. At the top of the pole stand is a fleur de lis with a thick bar beneath it and second thick line that widens up as a shooting bar similar to a shooting star beneath that initial bar. The end of the second thick line tapers off. The unbalanced scales have the left scale higher than the right. The scales arms are attached curving inward toward the balance beam that is extending from pole stand. Between the left pole stand bar and the scale is a small bar attached the balance beam. Between the right pole stand bar and the scale is a smaller bar attached to the balance beam. This bar is smaller than the bar small bar on the left side as the right side is weighted by the contents on the scale. The left scale has a triangle top and a semi-circle bottom for the base of the scale. The right scale which is lowered accounting for the imbalance has the capital letters "GT" inside of partial triangle and partial semi-circle base. The bottom of the "G" in "GT" is attached to the top of the "T" in "GT" forming a single conjoined yet complete capital letter "G" and "T". The pole stand forms a column centered in between the two unbalanced scales outlined by two solid bronze and gold bars. The words "GEAUX TUTORING" are centered beneath the tipped scales image in all capital letters. All of the wording and design elements in the mark appear in a combination of gold and bronze shading. White appearing in the mark is background and not claimed as a feature of the mark. **Color Drawing** Yes **Color Claimed** The color(s) bronze and gold are claimed as a feature of the mark. **Disclaimer** "TUTORING"
