MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of an orange setting sun image with a black silhouette of an RV in the center of the sun. On either side of the RV are black silhouettes of palm trees, one bigger and one smaller on either side. Above the taller palm tree on the left side are three black, flying bird silhouettes. Below the RV image is a black rectangular shape with the word "CAMPER'S" in all capital letters, gradient colored, going from orange on either end, to yellow in the center of the phrase. Below the word "CAMPER'S" is the word "PARADISE", in white, cursive style letters, with a black outline around the letters, and the letter "P" capitalized. The word "PARADISE" is positioned at a slight angle, and slightly overlaps the letters "ER" and "S" of the previous word. Around the black rectangular shape which holds the phrase "CAMPER'S" are various circular designs of different sizes, resembling fireworks, also in black. They are visible all around the rectangle, except the top center portion where the RV image is. The white behind the mark merely represents background and is not claimed as a feature of the mark. **Color Drawing** Yes **Color Claimed** The color(s) black, orange, white, and yellow is/are claimed as a feature of the mark. **Disclaimer** "CAMPER'S"

GOODS AND SERVICES INFORMATION

For Stickers, paper labels, stamps, vignettes, packaging covers and packaging sheaths of paper or synthetic plastics; packaging materials of paper or plastics, namely, pouches, foils, sheaths and jackets, all the aforementioned goods containing encoding devices and/or optical diffraction structures and/or holographic structures; sheets, covers, cards and sheaths all primarily made of paper or plastic for packaging, all the aforementioned goods containing encoding devices and/or optical diffraction structures and/or holographic structures; stamping foils, namely, hot stamping foils and cold stamping foils, primarily of paper, for decoration as well as for identification devices or authentication devices or money replacement means or for use for bank notes, bills or payment means; stickers, stamping foils, transfer foils and laminating foils as well as foil strips all primarily made of paper or made of plastic for packaging; paper with UV-curable adhesives for cold stamping; labels of paper or primarily of paper; vignettes primarily consisting of paper; identification devices, authentication devices and money replacement means, namely, non-electronic unencoded paper data carriers in form of tokens, cards, discs, tags and bands of paper and sheets and foils of paper or plastics; stamping foils and transfer foils for packaging purposes, namely, foils consisting of a carrier film primarily manufactured of plastics and at least one transfer layer which is removable from the carrier film and can be applied to a substrate; unencoded stamping foils primarily made of paper and unencoded stamping foils primarily made of plastic, for packaging purposes, namely, hot stamping foils and cold stamping foils, consisting of a carrier film primarily of plastics and a consumption layer which can be detached from the carrier film during stamping for application to a substrate; markings, labels, stamps, seals, bands as well as sheets and foils of paper as identification devices, authentication devices and money replacement means; unencoded stamping foils primarily made of paper and unencoded

stamping foils primarily made of plastic, for packaging purposes for these identification devices, authentication devices and money replacement means; packaging materials of paper, synthetic plastic materials or plastics as far as contained in this class, namely, bags, pouches, envelopes, covers, sheets and foils; self-adhesive paper foils for packaging purposes, laminates of synthetic plastic materials or primarily of synthetic plastic materials, stamping foils of paper; paper, cardboard and goods of these materials, as far as not contained in other classes, namely, covers, boxes, envelopes, pouches and wrappers; printed matter, namely, catalogues, brochures, books, manuals, charts, leaflets, flyers and hand-outs, in the field of foil technology and foil application and foil processing, plastics and paper processing, product design and decoration, product and document security, operation of machines and of computer software and hardware; book binding material; photographs, stationery; adhesives for paper and stationery or for household purposes; paint brushes; printed instructional and teaching materials in the field of plastics and paper processing, product design and decoration, product and document security, operation of machines and of computer software and hardware; plastic materials for packaging as far as not contained in other classes, namely, plastic foils, plastic wrap, plastic bags, plastic pouches and plastic packaging covers; printers' type; printing blocks; matrices for use in printing, stamping and embossing

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Stamping tools, embossing rollers, stamping dies, embossing matrices as machine parts; matrices as machine parts; tools for printing as machine parts; machine-driven apparatus for stamping, particularly hot stamping or cold stamping; machines for plastics processing, paper processing and foil processing; foil overlaying machines for covering the surfaces of articles or substrates with foils with patterns, decors, structures and/or functional surface structures; stamping dies and small stamping plates being machine parts

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Collecting, arranging, systematizing, updating and maintenance of data and information in computer databases, particularly of data for checking of the stock, the authenticity of goods and documents, for tracking and tracing of goods and documents as well as for authentication validation and identity validation; computer-based organizational and business-management data verification and data analysis; file management by means of computers; provision of commercial information about movement of goods, also by means of databases and by means of an Internet portal; provision of commercial information about the movement and the stock of goods for the purpose of tracking and tracing (shipment tracking) of shipments and goods, also by means of databases and by means of an Internet portal; electronic data processing consultancy concerning data processing

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Magnetic, optical or electronic information carriers in form of foil strips, stickers, labels, vignettes, bands, tokens, coins, discs, cards and plates; all afore-mentioned goods containing encoding devices, optical diffraction structures, holographic structures or combinations thereof, for use as identification means, authentication means or money replacement means or for use for banknotes, bills or payment means; encoded identification devices and authentication devices, namely, foil sheetings and foil bands, stickers, labels, bands, threads, discs, cards or plates with magnetic, optical or electrically conductive structures for storing, processing and/or display of information; electric and/or electronic and/or optical and/or opto-electronic circuits,

particularly in form of foil sheetings and foil bands, stickers, labels, bands, threads, discs, cards or plates, each with microprocessors, printed coils and printed circuits, each for application in the field of passive labelling, tracking and tracing of goods or identification of persons and objects; optical diffraction structures, holographic structures or combinations thereof for use in the creation of identification devices or authentication devices; optical security features in form of encoded information carriers for banknotes; integrated circuits and electronic components, namely, printed circuits, foil sheetings and foil bands, stickers, labels, bands, threads, discs, cards or plates, of polymers, carrying or intended to contain magnetically, optically, or electronically recorded or encoded information; opto-electronic energy converters, solar cells, light-emitting diodes or laser diodes; antennas; optical display devices, namely, LCD-displays and organic light-emitting diodes; all afore-mentioned goods also encodable as well as with optically active interference layers, polarization layers and/or liquid crystal layers and/or with optically active spatial structures; magnetic, optical, electric and electronic parts and components in form of foil sheetings and foil bands, stickers, labels, bands, threads, discs, cards or plates that are encoded or provided with optical structures, for storing, processing and/or display of information; identification devices, authentication devices and money replacement means, namely, data carriers in form of chips, cards, discs, magnetic plates, stamps, plates, tokens, bands as well as sheets and foils of plastic, synthetic materials, paper or metal, that are encoded or provided with optical structures; stamping dies, sheets and foils of metal, that are encoded or provided with optical structures, as identification devices, authentication devices and money replacement means; covers and sheaths, inherently stable sheaths of plastic, except for packaging purposes, stamping foils, namely, hot stamping foils and laminating foils, also in form of bands, except for packaging purposes, all afore-mentioned goods containing encoding devices, optical diffraction structures, holographic structures or combinations thereof, for use as identification devices, authentication devices or money replacement means or for use for banknotes, bills or payment means; electronic security tags/labels for goods; electric and optical data processing apparatus; apparatus for checking the authenticity of banknotes; programmable electronic controls, electric control units for security systems, electric components as far as contained in this class, namely, electric, optical and electronic switches, sensors, integrated circuits, capacitors, inductors, resistors, diodes, memory chips, data storage chips, transponder chips, electric and optical data carriers, solar cells; blank magnetic data carriers and data carriers prerecorded with identification information and authentication information; computer hardware; peripheral devices for computers; portable mini-computers, mobile telephones, personal digital assistants (PDA); portable data processing apparatus and checking/testing devices, namely, checking and testing devices for optically variable devices, optical structures, diffractive structures, electric and electronic signals and magnetic structures; electronic databases in the field of product and document validation and authentication, tracking and tracing of goods and documents and identity validation and authentication, recorded on computer media, and computer databases, namely, computer software for creating searchable databases of information and data; computer software, particularly computer database software and client software for use in gaining access to computer databases; computer software for checking/validating the authenticity of goods and documents, for tracking and tracing of goods and documents as well as for authentication validation and identity validation; computer software for database administration and database management; computer software for encryption and decryption of information and data; downloadable electronic documentations in the field of product and document authentication, in the field of securing products and documents against falsification/counterfeiting, in the field of product design and plastics processing, and downloadable electronic publications in the nature of books, manuals and newsletters in these aforementioned fields; electric equipment for the controlling, remote-control and supervision of industrial installations and machines, namely, electric control panels, electrical controllers, computer hardware for controlling, remote-controlling and supervision of industrial installations and machines

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Telecommunication services, namely, transmission or transfer of data by means of telecommunications networks, wireless communication networks, and the Internet, transmission and reception of database information via telecommunication networks; providing of and providing access to electronic communication networks and electronic databases, particularly to databases for checking the stock, the authenticity of goods and documents, for tracking and tracing of goods and documents as well as for authentication validation and identity validation; communication services for electronic data transmission and for the access to databases for acquiring information; data transmission on the Internet; providing temporary access to non-downloadable software by means of computer networks, Intranets and the Internet for tracking and tracing, management of deliveries and commodity flows as well as for checking the stock, the authenticity of goods and documents, for tracking and tracing of goods and documents as well as for authentication validation and identity validation; rental of access time to data processing apparatus

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Providing transport information; consulting services related to the transport and the storage of goods; providing transport information, namely, collecting and providing information on storage and transport of goods; consulting services related to the transport and the storage of goods, namely, consulting related to providing information on storage and transport of goods; providing transport information, namely, computer-aided provision of real-time information on storage and transport of goods; providing transport information, namely, computer-aided services of providing instructions concerning storage, transport and delivery of goods and stock inventories

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Laminating foils, namely, plastic laminating foils consisting of a carrier film for lamination onto a substrate, the carrier film being provided with decoration elements, identification elements and/or authentication elements; stamping foils, transfer foils and laminating foils as well as foil strips, primarily consisting of plastics; transfer foils, namely, plastic foils consisting of a carrier film primarily of plastics and at least one transfer layer that can be detached from the carrier film and applied onto a substrate; semi-finished goods of plastics, namely, self-adhesive foils, sheets, plastic laminates, laminating foils, stamping foils, for surface decoration as well as for identification devices, authentication devices and money replacement means or for use for banknotes, bills or payment means; security threads of plastics in form of narrow stamping foils, transfer foils or laminating foil strips; laminating foils primarily of plastics with or without a metal layer for application onto a substrate; foils primarily of plastics for use as optical security devices; bands as well as sheets and foils of plastics for identification devices, authentication devices and money replacement means; semi-finished goods, namely, self-adhesive foils, plastic laminates, stamping foils for further manufacture of identification devices, authentication devices and money replacement means; semi-worked synthetic plastic as semi-finished products in the form of self-adhesive foils, laminates, and stamping foils particularly for use in further manufacturing data carriers and information carriers, identification or authentication devices, payment means or money replacement means

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Technological consultancy related to the technology field of surface decoration and/or surface coating by means of stamping foils, transfer foils and laminating foils; technological consultancy in the technology field of processes and machines for the transfer of patterns, decors, structures and/or functional surface structures; technological consultancy in the technology field of materials, processes and machines for the application of security elements in form of identification devices, authentication devices and money replacement means, particularly of data carriers and data media in form of foil strips, foil sheetings and foil bands, stickers, markers, labels, threads, plates, chips, tokens, stamps, seals, cards, discs, tags, bands as well as sheets and foils of plastics, paper or metal onto goods and its packaging; technological consultancy in the field of selecting, designing and developing goods suitable for their intended uses as well as using such goods for identification and authentication purposes, namely, concerning possibilities of use and application of security elements in form of foil strips, foil sheetings and foil bands, stickers, labels, threads, tokens, bands, sheets and foils of plastics, paper or metal on goods, bank notes, bills or payment means, particularly for increasing security against forgery; technological consultancy concerning the possibilities of using money replacement means, namely, data carriers, like chips, tokens, cards, discs, bands, sheets and foils of plastics, paper, metal or glass; technical planning of security systems by using of optical devices for authentication of products; technological consultancy for the use of identification devices, authentication devices and money replacement means, namely, data carriers like chips, tokens, bands, sheets as well as foils of synthetic materials, paper or metal; technical planning of security systems for access control, for authentication checks of documents, of money and commercial papers as well as for data protection; computer-based technical data analysis and data conversion; computer consulting regarding hardware and software and IT consulting services; data warehousing services, namely, electronic storage services for archiving electronic data, and electronic data storage; services for updating of information via computers, namely, updating of database software; development and creation, update and maintenance of computer programs for data processing, particularly with respect to databases; development of hardware and software systems for data processing, data storage and data transmission, particularly with respect to databases; encryption, decryption and authentication of information and data; technological consultancy concerning computer security and data protection; electronic data storage; leasing of computing capacity for data processing
