optical instruments; viscosimeters; electric circuit closers; wavemeters; voltmeters; mechanical signs; signs, luminous; electric switchboxes; current rectifiers; gas testing instruments; gasometers in the nature of measuring instruments; galvanometers; hands-free kits for telephones; heliographic apparatus; hygrometers; hydrometers; magnifying peephole lenses for doors; hologram apparatus; plotters; depth gauges in the nature of sounding leads; plumb bobs; range finders for cameras; densimeters; densitometers not for medical use; smoke detectors; counterfeit false coin detectors; [joysticks for use with computers, other than for video games;] photographic transparencies; slide projectors; camera diaphragms for adjusting light; dictating machines; dynamometers; light-emitting diodes (LED); [blank floppy computer discs; blank computer discs for sound recording; blank magnetic discs; blank optical discs; circular slide rules; disc drives for computers; juke boxes for computers;] DNA chips; electronic notice boards; life jackets; reflective safety vests; identification threads for electric wires; nose clips for divers and swimmers; locks, electric; electric door bells; signal bells; acoustic conduits; inspection mirrors; road signs, luminous or mechanical; marine depth finders; probes for scientific purposes, namely, avalanche probes featuring sensors for measuring snow depth; electric buzzers; needles for record players; measures, namely, tire-pressure measures, spirit measures, pressure measuring apparatus; pressure measuring apparatus; simulators for the steering and control of vehicles; pressure indicators; temperature indicators; incubators for bacteria culture; cosmographic instruments, namely, astronometric measuring machines and instruments; mathematical instruments, namely, calculators, measuring rulers and measuring compasses for math classes; leveling instruments, namely, level gauges; instruments containing eyepieces, namely, microscopes, telescopes, photo and video cameras; surveying instruments; azimuth instruments, namely, compasses for measuring; [interfaces for computers;] ionization apparatus for scientific or laboratory use but not for the treatment of air or water; laboratory equipment and supplies, namely, calipers; slide calipers; screw-tapping gauges; calorimeters; calculating machines; pocket calculators; decompression chambers; cinematographic cameras; mouth guards for sports; life-saving capsules for natural disasters; [electronic pens;] holders for electric coils; identity cards, magnetic; [toner cartridges, unfilled, for printers and photocopiers; magnetically encoded charge cards;] slide film mounts, namely, carriers for dark plates; automated teller machines (ATM); cathodes; spools for cameras; coils, electric; electromagnetic coils; cinematographic film, exposed; [computer keyboards;] wire connectors; encoded key cards; electronic book readers; electronic agendas; push buttons sold as a component part of call bells; [mouse pads;] magnetic encoders; anti-glare visors in the nature of glasses; electric collectors in the nature of electric conductors; loudspeakers; protective suits for aviators; commutators; [compact discs featuring music, cartoons, TV shows and audio-visual entertainment content;] comparators; marine compasses; [computers; laptop computers; tablet computers; notebook computers;] contacts, electric; wind socks for indicating wind direction; safety traffic cones; electrical distribution boxes, namely, branch boxes; battery boxes; cabinets for loudspeakers; diving suits; reflecting discs for wear, for the prevention of traffic accidents; covers for electric outlets; measuring instruments, namely, log folding rulers; lasers, not for medical purposes; lactodensimeters; lactometers; vacuum tubes for radios; flashlights for use in photography; darkroom lamps for use in photography; thermionic tubes; amplifying tubes, namely, vacuum tubes for radios; head cleaning tapes for video recording; blank magnetic computer tapes; blank videotapes; surveying chains; safety equipment, namely, fire escape ladders; measuring rulers; slide-rules; optical condensers; contact lenses; contact lens; optical lenses; electricity conduits; measuring spoons; magnifying glasses; thread counters; magnets; decorative magnets; close-up lenses; crash test dummies; resuscitation mannequins; [computer mouse;] pressure gauges; divers' masks; protection masks; materials for electricity mains, namely, electric wire and cable; voting machines; money counting and sorting machines; furniture especially made for laboratories; megaphones; portable media players; acoustic diaphragms, namely, electroacoustic transducers; diaphragms for scientific apparatus, namely, electro-optic transducers; metal detectors for industrial or military purposes; metronomes; carpenters' rules; measuring rules; tape measures for dressmakers; mechanisms for coin-operated apparatus; coin-operated mechanisms for television sets;

shutter releases; micrometers; microprocessors; microscopes; microtomes; microphones; modems; lightning conductors; [computer monitors;] computer software to monitor and control factory manufacturing processes; monopods for handheld digital electronic devices, namely, cell phones, MP3 players, tablets; electrical terminators; junction sleeves for electric cables; teeth protectors in the nature of mouth guards for sports; temperature indicator labels, not for medical purposes; knee-pads for workers; headphones; surveyors' levels; blank magnetic data carriers; blank optical data carriers; computer software for watching video content, listening to audio content, recorded on data media; sheaths for electric cables; identification sheaths for electric wires; weighing machines; computer hardware; punched card machines for offices; shoes for protection against accidents, irradiation and fire; lenses for astrophotography; optical lenses; egg-candlers; fire extinguishers; electrified fences; electricity limiters; clothing for protection against accidents, irradiation and fire; clothing for protection against fire; asbestos clothing for protection against fire; protective clothing especially made for use in laboratories; ozonisers; octants; protective eyepieces; ohmmeters; wrist rests for use with computers; eyeglass frames; oscillographs; plumb lines; scientific and technical apparatus, namely, optical mirrors; eyeglasses; sunglasses; goggles for sports; electronic collars to train animals; radio pagers; pince-nez; electronic pocket translators; telecommunication transmitters; telephone transmitters; switches, electric; periscopes; gloves for divers in the nature of diving gloves; gloves for protection against accidents; gloves for protection against X-rays for industrial purposes; asbestos gloves for protection against accidents; furnaces for laboratory use; pipettes; pyrometers; planimeters; Surveying instruments, namely, plane tables; plates for batteries; wafers for integrated circuits; printed circuit boards; compact disc players; cassette players; protective films adapted for computer screens; X-ray films, exposed; life-saving rafts; laboratory trays; digital signs; semi-conductors; polarimeters; fire pumps; measuring glassware; life belts; fuses; circuit breakers; converters, electric; electrical components in the nature of telerupters; diagnostic apparatus for testing food; distance measuring apparatus; appliances for measuring the thickness of leather skins; teaching apparatus, namely, artificial limbs for medical instruction purposes; time recording apparatus; measuring apparatus, namely, bevels, angle finders; wire diameter measuring devices, electric; astronometric measuring machines and instruments; surveying apparatus and instruments; weighing apparatus and instruments; nautical and photographic apparatus and instruments, namely, underwater housings for cameras, underwater enclosures for cameras and underwater enclosures for photographic lenses; optical apparatus and instruments, namely, optical ports for underwater photography, dome ports for underwater photography, wet diopters, adapter lenses for underwater photography; apparatus and instruments for physics, namely, gravity measuring instruments, gas testing instruments; chemistry apparatus and instruments, namely, laboratory chemical reactors, pre-packed columns for use in chemical synthesis; meteorological instruments; observation instruments, namely, microscopes, telescopes, binoculars; [navigation apparatus for vehicles in the nature of on-board computers;] satellite navigational apparatus, namely, a global positioning system (GPS); precision measuring apparatus, namely, laser distance meters; audio- and video-receivers; prisms for optics purposes; downloadable software for use with mobile devices, computers, namely, application software for accessing TV shows, cartoons, videos, music for use in education and entertainment; computer printers for printing documents; laboratory equipment, namely, retort stands; apparatus for changing record player needles, namely, phonographic record cleaning kits comprised primarily of replacement stylus needles and also including cleaning solution and brushes; drainers for use in photography, namely, drying racks for photography; fire extinguishing apparatus, namely, fire beaters; telescopic sights for firearms; telescopic sights for artillery; laboratory equipment and supplies, namely, test tubes; pressure indicator plugs for valves; magnetic wires; telegraph wires; telephone wires; wires, electric; conductors, electric; copper wire, insulated; fuse wire; recorded computer programs for use with mobile devices, computers, namely, application software for accessing TV shows, cartoons, videos, music for use in education and entertainment; [downloadable computer programs for use with mobile devices, computers, namely, application software for accessing TV shows, cartoons, videos, music for use in education and entertainment; computer

operating programs, recorded; record players; downloadable electronic publications in the nature of e-books, magazines, newspapers in the field of family entertainment and education;] electricity distribution consoles; electric control panels; radar apparatus; masts for wireless aerials; telecommunication transmitting sets; radios; vehicle radios; sprinkler systems for fire protection; frames for photographic transparencies; flowmeters; walkie-talkies; voltage surge protectors; voltage regulators for vehicles; electronic regulating and control devices for the operation of light emitting diodes in stage lighting apparatus; light dimmers, electric; speed regulators for record players; electric switches, namely, cell switches; washing trays specially adapted for photography usage; marking gauges joinery purposes; time switches, automatic; relays, electric; X-ray photographs, other than for medical purposes; rheostats; respirators for filtering air; retorts for use in high temperature chemical reactions; refractometers; refractors in the nature of telescopes; grids for batteries; speaking tubes; horns for loudspeakers; saccharometers; optical fibers; traffic-light apparatus; dog whistles; signaling whistles; sextants; electrical inductors; safety nets; nets for protection against accidents; fire alarms; luminous or mechanical road signs; sirens; [scanners; integrated circuit cards in the nature of smart cards; wearable computer peripherals worn as glasses; smartphones; smartwatches;] connections for electric lines; couplings, electric; electrical connectors; sonars; lighting ballasts; resistances, electric; spectrograph apparatus; spectroscopes; speed indicators; alcoholmeters; satellites for scientific purposes; protection devices for personal use against accidents, namely, nets, gloves, footwear for protection against accidents; audiovisual teaching apparatus, namely, multimedia projectors, microphones, sound mixers, audio speakers, electronic display interfaces, video screens; radiotelegraphy sets; radiotelephony sets; spectacle lenses; anti-glare glasses; optical glasses; personal stereos; stereoscopes; stands for photographic apparatus; stroboscopes; fire boats; sulfitometers; [bags adapted for laptops;] drying racks for photography; spherometers; integrated circuits; printed circuits; geiger counters; parking meters; kilometer recorders for vehicles; revolution counters, namely, counters for use during sporting activities; abacuses; egg timers; taximeters; ear plugs for divers; tachometers; television apparatus for projection purposes; telegraphs; telescopes; teleprompters; teleprinters; cordless telephones; cellular phones; theodolites; thermometers, not for medical purposes; thermostats; thermostats for vehicles; laboratory equipment, namely, crucibles; tone arms for record players; calculating machines, namely, totalizators; electronic components in the nature of transistors; transponders; protractors; step-up transformers; electronic components in the nature of transformers; vehicle breakdown warning triangles; triodes; battery starter cables for motors; discharge tubes, electric, other than for lighting; glass tubes for scientific purposes, namely, capillary tubes; neon signs; pitot tubes; X-ray tubes not for medical purposes; telephone receivers; quantity indicators, namely, water level indicators; automatic indicators of low pressure in vehicle tires; gasoline gauges; water level indicators; light-emitting electronic pointers, namely, laser pointers; slope indicators; spirit levels; mercury switches; amplifiers; particle accelerators; electric installations for the remote control of industrial operations; [baby monitors;] balances; [video recorders; sound reproduction apparatus;] calculating machines for invoicing; tape recorders; [data processing apparatus;] electric theft prevention installations, namely, theft alarms; film cutting apparatus, namely, editing machines for movie films; drying apparatus for photographic prints; optical character readers; centering apparatus for photographic transparencies, namely, frames for photographic transparencies; dosage dispensers, namely, machines for dispensing pre-determined dosages of medication; chargers for electronic cigarettes; acoustic alarms; sounding apparatus and machines, namely, alarm installations and alarms; editing appliances for cinematographic films; data processing equipment, namely, couplers; wearable activity trackers; anti-theft warning apparatus, namely, burglar alarms; [computer peripheral devices;] anti-interference devices, namely, filters for radio interference suppression; demagnetizing apparatus for magnetic tapes; [acoustic couplers;] personal security alarms; fog signals, non-explosive; whistle alarms; adding machines; [bar code readers;] photocopiers; [downloadable ring tones for mobile phones; downloadable image files containing photos and pictures in the field of entertainment; downloadable music files;] video discs with recorded animated cartoons; filters for non-medical respiratory masks;

filters for ultraviolet rays, for photography; [blank USB flash drives;] magic lanterns; optical signal lanterns; optical lamps; cameras; glazing apparatus for photographic prints, namely, frames for photographic transparencies; camera shutters; photometers; flash-bulbs; digital photo frames; enlarging apparatus, namely, magnifying lenses; photovoltaic cells; containers for contact lenses; eyeglass cases; cases for smartphones; cases especially made for photographic apparatus and instruments; chromatography apparatus for laboratory use; chronographs for use as specialized time recording apparatuses; laboratory centrifuges; eyeglass chains; cyclotrons; compasses for measuring; frequency meters; time clocks; petri dishes; [sleeves for laptops;] covers for smartphones; fire blankets; electronic chips for the manufacture of integrated circuits; jiggers; pedometers; meteorological balloons; asbestos safety screens for firemen; fire hose; head guards for sports; cell phone straps; eyeglass cords; tripods for cameras; switchboards; electrical distribution systems, namely, power distribution panels; workmen's protective face-shields; projection screens; fluorescent screens; exposure meters for photographic devices; electrical ducts; galvanic cells; epidiascopes; ergometers not for medical purposes; armatures for use in electrical apparatus

CLASS 16: fountain pens; aquarelles; albums, namely, coin albums, photo albums, stamp albums; almanacs; document laminators for office use; mimeograph apparatus and machines; atlases; posters; paper bows for gift wrap; table linen of paper; tickets, namely, price tickets, printed tickets, printed raffle tickets, printed movie tickets; forms, printed; announcement cards; note books; pads, namely, writing pads, paper pads, score pads; drawing pads; loose-leaf binders; wristbands for the retention of writing instruments; pamphlets in the field of education and entertainment; booklets in the field of education and entertainment; paper sheets for note taking; waxed paper; paper for recording machines; paper for radiograms; electrocardiograph paper; drawer liners of paper, perfumed or not; wood pulp paper; carbon paper; copying paper; parchment paper; writing paper; luminous paper; Xuan paper for Chinese painting and calligraphy; toilet paper; wrapping paper; filter paper; paper; blotters; printed newsletters in the field of education and entertainment; rollers for typewriters; house painters' rollers; printers' type setting block in the nature of composing sticks; modeling wax, not for dental purposes; signboards of paper or cardboard; printed sewing patterns; newspapers; electrotypes; hectographs; modeling clay; terrestrial globes; painting sets for children; print engravings; slate pencils; pencil leads; document holders; pencil holders; holders specially adapted for holding chalk; checkbook holders; sealing stamps; engraving plates; writing slates; blackboards; printers' galley racks; drawing boards; printed advertising boards of cardboard and paper; rotary duplicators; office hole punchers; cream colored paper containers; magazines in the field of education and entertainment; money clips; tags for index cards; pen clips; bookmarkers; etching needles; tracing needles for drawing purposes; printed periodicals in the field of education and entertainment; printed publications, namely, books, handouts, workbooks, leaflets, magazines, newspapers in the fields of education and entertainment; paper shredders for office use; graphic representations; credit card imprinters, non-electric; graining combs; drawing instruments; calendars; tracing paper; tracing cloth; printed tracing patterns for dressmaking; gum arabic glue for stationery or household purposes; lithographic stones; ink stones; pencils; pencil lead holders; charcoal pencils; pictures; decalcomanias in the nature of transfers; paintings pictures, framed or unframed; cardboard; hat boxes of cardboard; document files; cards, namely, greeting cards, note cards, business cards; index cards; geographical maps; paper tapes and cards for the recordal of computer programs; trading cards, other than for games; perforated cards for jacquard looms; catalogs in the field of education and entertainment; spools for inking ribbons; covers of paper for flower pots; paintbrushes; painters' brushes; writing brushes; typewriter keys; glue for stationery or household purposes; adhesives for stationery or household purposes, namely, gluten in the nature of glue; starch paste adhesive for stationery or household purposes; printing blocks; books in the field of education and entertainment; manifold paper; comic books; drawing pins; cigar bands; envelopes; stamp cases; boxes of paper or cardboard; paint boxes for use in school; correction fluids for documents; stencils; French curves; paper ribbons; typewriter ribbons; gummed tape for stationery or household use; adhesive bands for stationery or household purposes; correcting tapes;

inking ribbons; inking ribbons for computer printers; adhesive tapes for stationery or household purposes; self-adhesive tapes for stationery or household purposes; drawing rulers; square rulers for drawing; absorbent sheets of paper or plastic for foodstuff packaging; humidity control sheets of paper or plastic for foodstuff packaging; viscose sheets for wrapping; sheets of reclaimed cellulose for wrapping; plastic bubble packs for wrapping or packaging; printers' type, namely, steel letters; printers' type, namely, numerals and letters; lithographs; paint trays; architects' models; postage stamps; modeling compounds, namely, plastics for use by children; graphic prints; modeling materials for use in making cast paper sculptured flowers; teaching materials, namely, printed teaching materials in the field of math, science, chemistry, languages, art, music, literature, physics, history, biology, geography, economics, civics, astronomy; sealing compounds for stationery purposes; adhesive glues for stationery or household purposes; bookbinding material; packaging material made of starches, namely, packaging and containers comprised of starch-based materials in the nature of a paper substitute for food, beverages and consumer products; addressing machines; pencil sharpening machines, electric or non-electric; bookbinding apparatus, namely, cords, tape, wire and bookbinding machines for office use; typewriters, electric or non-electric; folders; franking machines for office use; chalk for lithography; writing chalk; tailors' chalk; marking chalk; plastic or paper bags for merchandise packaging; garbage bags of paper or of plastics; painters' easels; paintbrush rests for painters; stationery cases for writing; bibs of paper; stickers; finger-stalls; cords for bookbinding; paper knives; numbering machines; bottle envelopes of paper or cardboard; sealing compounds for stationery purposes, namely, sealing wafers; covers, namely, book covers, document covers, notebook covers; passport holders; plastic cling film, extensible, for palletization; embroidery design patterns; handwriting specimens for copying, namely, drawing templates; oleographs; musical greeting cards; greeting cards; postcards; etchings; conical paper bags; bags for microwave cooking; palettes for painters; ink sticks; drawing instruments, namely, pantographs; folders for papers; papier mâché; pastels crayons; modeling paste; pen cases; pens; office perforators; pen nibs of gold; pen nibs; steel pens; drawing pens; song books; clipboards; address plates for addressing machines; handkerchiefs of paper; plastic film for wrapping; desk mats; letter trays; trays for sorting and counting money; coasters of paper; bookends; stamp stands; mats for beer glasses, namely, coasters made of cardboard; stands for pens and pencils; photograph stands; inking pads; stamp pads; binding strips; towels of paper; inking sheets for document reproducing machines; bookbinding cloth; gummed cloth tape for stationery purposes; printers' blankets, not of textile; portraits; paperweights; writing stencil cases; inkstands; office requisites, namely, finger-stalls, franking machines, electric paper hole punches, except furniture; writing implements; writing instruments; drawing materials for blackboards; school supplies, namely, pens, pencils, glue for stationery use, erasers, file folders, pencil sharpeners, markers, highlighter pens, correction fluids and tapes, chalk, drawing rulers, drawing crayons, stencils, painting sets for children, water colors for finished painting, paint brushes, pencil cases; adhesive tape dispensers; hand-held labeling devices; printed matter, namely, written articles in the field of education and entertainment; lithographic works of art; printed timetables; ledger books; printers' reglets; telephone indexes; rubber erasers; elastic bands for offices; t-squares for drawing; graphic art reproductions; penholders; marking pens; tissues of paper for removing make-up; face towels of paper; table napkins of paper; place mats of paper; tablemats of paper; tablecloths of paper; paper clasps in the nature of paper clips; erasers for offices; paper-clips; staples for offices; erasing products, namely, wet erase paper labels, whiteboard erasers; biological samples for use in microscopy, namely, histological sections for teaching purposes; steatite tailor's chalk; writing board erasers; composing frames specially adapted for use with printers type; sealing wax; printed charts, namely, arithmetical tables; placards of paper or cardboard; writing or drawing books; fabrics for bookbinding; stationery; pencil sharpeners, electric or non-electric; plastic transparencies; stencil plates; cardboard tubes; Indian inks; finger moisteners; moisteners in the nature of hand held devices for wetting stamps, envelopes, and gummed paper surfaces; squares for drawing; chart pointers, non-electronic; bottle wrappers of paper or cardboard; envelope sealing machines for offices; sealing machines for offices; vignetting apparatus, namely, photographic

croppers; apparatus for mounting photographs, namely, photograph mounts; stapling presses; printed matter, namely, manuals in the field of education and entertainment; papier mache figurines; paper coffee filters; flags of paper; informational flyers featuring education and entertainment matters; silver paper; molds for modeling clays; photo-engravings; photographic prints; stencil cases; canvas for painting; chromolithographs; compasses for drawing; printers' type, namely, numbers; artists' watercolor saucers; correcting ink; ink for pens; inkwells; blueprints; erasing templates; balls for ball-point pens; desktop stationery cabinets; printing type; address stamps; drawing shields; labels of paper or cardboard

CLASS 28: arcade video game machines; video game machines; gaming machines for gambling; amusement machines, automatic and coin-operated; toy vehicles; play swimming pools; trampolines; novelties for parties and dances; scratch cards for playing lottery games; starting blocks for sports; bodyboards; skating boots with skates attached; dolls' feeding bottles; stationary exercise bicycles; fishing creels; shuttlecocks; jigsaw puzzles; clay pigeons; punching bags; bite sensors; hang gliders; flying discs; discuses for sports; dolls' houses; dominoes; swimming kick boards; surfboards; spring boards; skateboards; sailboards; chessboards; checkerboards; darts; Christmas trees of synthetic material; cups for dice; swimming jackets; ascenders being mountaineering equipment; kites; toys, namely, bath toys, bendable toys, action figure toys, art and crafts paint kits, toy animals, dolls, puzzles, toy robots, water toys, toy vehicles, puppets, novelty toy items in the nature of artificial plush animal tails, toy mascots in the nature of dolls; toys for pets; stuffed toys; plush toys; toy mobiles; toy practical jokes, namely, whoopee cushions; parlor games; board games; ring games; games, namely, backgammon games, arcade games, puzzles; building games; kaleidoscopes; bladders of balls for games; rosin used by athletes; edges of skis; bingo cards; playing cards; fairground ride apparatus, namely, amusement park rides; reels for fishing; rocking horses; swings; skittles; billiard cues; golf clubs; hockey sticks; coverings for skis, namely, seal skins; bells for Christmas trees; dolls' rooms; controllers for game consoles; paintball guns; toy air pistols; confetti; explosive bonbons in the nature of Christmas crackers; ice skates; roller skates; in-line roller skates; dice; ski bindings; dolls' beds; roulette wheels; fish hooks; toy building blocks; dolls; flippers for swimming; fishing lines; gut for fishing; bows for archery; skis; waterskis; surf skis; mah-jong; hunting game calls; puppets; carnival masks; theatrical masks; fencing masks; masts for sailboards; teddy bears; chalk for billiard cues; targets; electronic targets for games and sports; scale model kits; scale model vehicles; balls for games; artificial fishing bait; billiard table cushions; knee guards for athletic use; billiard cue tips; elbow guards for athletic use; dolls' clothes; fencing weapons; twirling batons; paragliders; pachinkos; baseball gloves; boxing gloves; golf gloves; gloves for games, namely, softball, swimming, golf, soccer, boxing, rugby, football, paintball, handball, basketball, hockey; batting gloves; fencing gauntlets; pinatas; toy pistols; toys, namely, percussion caps; toy cap pistols; Baby rattles; horseshoe games; candle holders for Christmas trees; Christmas tree stands; sole coverings for skis; water wings; floats for fishing; portable games with liquid crystal displays; swimming belts; decoys for hunting or fishing; scent lures for hunting or fishing; archery implements; kite reels; bubble making wand and soap solution sets; golf divot repair tools; billiard markers; protective padding for playing softball, swimming, golf, soccer, boxing, rugby, football, paintball, handball, basketball, hockey; rackets; surfboard leashes; harness for sailboards; weight lifting belts; sling shots; rollers for stationary exercise bicycles; scuba equipment, namely, spearfishing harpoon guns; toy scooters; sleds; bob-sleighs; butterfly nets; landing nets for anglers; nets for sports; tennis nets; bite indicators; slot machines; appliances for gymnastics; quoits; bar-bells; climbers' harness; fishing tackle; artificial snow for Christmas trees; snowshoes; snowboards; clay pigeon traps; billiard tables; coin-operated billiard tables; tables for table tennis; tables for table football; strings for rackets; gut for rackets; bags specially designed to hold cricket equipment; golf bags, with or without wheels; playground slides; radio-controlled toy vehicles; body-building apparatus; machines for physical exercises; backgammon games; men's athletic supporters; rods for fishing; ornaments for Christmas trees, except illumination articles and confectionery; tennis ball throwing apparatus; conjuring apparatus, namely, magic tricks; apparatus for games, namely,

bases, bats, and balls for playing indoor and outdoor games, hockey sticks, golf clubs; bowling apparatus and machinery; counters for games; chips for gambling; bags especially designed for skis and surfboards; marbles for games; billiard balls; play balls; play balloons; paintballs; snow globes; chess games; checkers; poles for pole vaulting; paper party hats; shin guards for athletic use; camouflage screens; chest expanders

CLASS 41: modeling for artists; academic enrichment programs in the fields of history, literature, biology, chemistry, science, math, civics, history, economics, geography, languages, art, music; rental of sports grounds; rental of tennis courts; lending library services; booking of seats for shows; videotaping; discotheque services; animal training; dubbing; gambling services; publication of books; providing information about education; recreation information; entertainment information; movie studio services; night club services; layout services, other than for advertising purposes; microfilming; videotape editing; production of radio and television programs; presentation of variety shows; music composition services; providing on-line electronic publications in the nature of books, magazines, leaflets, newspapers in the field of education and entertainment; educational services, namely, conducting classes, seminars, conferences, workshops in the field of religion; gymnastic instruction; correspondence schools; Practical training in the field of welding; organization of balls; organization of exhibitions for cultural or educational purposes; providing recreation facilities; arranging and conducting of educational colloquiums in the field of media and entertainment; arranging and conducting of educational congresses in the field of media and entertainment; arranging and conducting of educational conferences in the field of media and entertainment; arranging and conducting of concerts; arranging and conducting of workshops in the field of education, media and entertainment; arranging and conducting of seminars in the field of education, media and entertainment; arranging and conducting of symposiums in the field of education, media and entertainment; organization of sports competitions; arranging of beauty contests; organization of lotteries; organization of fashion shows for entertainment purposes; organization of cultural shows; vocational guidance; amusement park services; sign language interpretation; entertainment in the nature of ongoing television programs in the field of news, comedy, variety, documentary and non-fiction, cartoons, family animation, drama; mobile library services; providing golf facilities; providing sports facilities; providing amusement arcade services; cinema theaters; presentation of live show performances; theatre productions; educational examination; film production, other than advertising films; rental of audio equipment; rental of video cameras; rental of video cassette recorders; rental of videotapes; rental of show scenery; rental of sound recordings; toy rental; rental of motion pictures; games equipment rental; rental of stadium facilities; rental of lighting apparatus for theatrical sets or television studios; rental of radio and television sets; rental of skin diving equipment; rental of sports equipment, except vehicles; rental of stage scenery; electronic desktop publishing; on-line publication of electronic books and journals; publication of texts, other than publicity texts; radio entertainment services, namely, radio programs featuring performances by a fictional character, radio personality, TV personality, Internet personality; Entertainment services, namely, live, televised and movie appearances by a professional entertainer; entertainment services, namely, booking of entertainment halls, custom art drawing for others, distribution of motion picture films, organizing family festivals and party events for cultural purposes; zoological garden services; news reporters services; party planning; subtitling; holiday camp services; disc jockey services; providing casino facilities; calligraphy services; club services, namely, golf club services; providing museum facilities; teaching at elementary schools; orchestra services; translation; scriptwriting, other than for advertising purposes; ticket agency services for entertainment events; coaching in the field of education, career; recording studio services; language interpreter services; education services provided by schools, namely, providing classes, seminars, workshops, lectures in the fields of math, science, chemistry, languages, art, music, literature, physics, history, biology, geography, economics, civics, astronomy; nursery schools; photography; photographic reporting; presentation of circus performances; boarding school education; production of television shows, radio shows, online video shows

The color(s) blue, black, and white is/are claimed as a feature of the mark.

The mark consists of the stylized wording "F.A.S.T." in shades of blue in which it appears lighter around the edges. The wording has black shadowing. The white in the background is a feature of the mark.

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*
What and When to File:

- ***First Filing Deadline:*** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.

- ***Second Filing Deadline:*** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*
What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see http://www.wipo.int/madrid/en/.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at http://www.uspto.gov.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at http://www.uspto.gov.
