Trademark

Principal Register

CANON KABUSHIKI KAISHA (JAPAN CORPORATION)
30-2, Shimomaruko 3-chome,
Ohta-ku Tokyo 146-8501
JAPAN

CLASS 9: Document printers; photo-copying machines; * blueprinting machines; digital copying machines; * electrostatic copying machines; multi-functional electronic devices that combine document printing, photo-copying, facsimile and scanning capabilities; downloadable and recorded computer software for controlling and operating printers; downloadable and recorded computer software for electrostatic copying machines; downloadable and recorded computer software for controlling and operating multi-functional devices that combine printing, copying, facsimile and scanning capabilities; document printers, photo-copying machines, facsimile machines, scanners, and multi-functional electronic devices that combine the aforementioned capabilities that can be connected to cloud computing services; downloadable and recorded computer software for use in managing and maintaining cloud computing services; downloadable and recorded computer software platforms for connecting and integrating software and multi-functional devices that combine printing, copying, facsimile and scanning capabilities over the cloud computing services; downloadable and recorded computer software to enable connection to public cloud computing environments; downloadable and recorded computer software for use in collecting, analyzing, storing, transmitting and retrieving data, images, text and photographs; downloadable and recorded computer software for use in processing of scanned documents, document management and document workflows; downloadable and recorded computer software for use in management, accounting and security of printers, copying machines, facsimile machines, scanners, and multi-functional devices that combine the aforementioned capabilities; downloadable and recorded computer software for use with mobile printing, namely, computer software for use in the remote operation of and management of printers and multi-functional devices that combine printing, copying, facsimile and scanning capabilities; downloadable and recorded computer software for print security, namely, computer software for use in allowing a user to securely send documents to, and print documents on, printers, copying machines, facsimile machines, scanners, and multi-functional devices that combine the aforementioned capabilities from a remote location; downloadable and recorded computer software for usage volume analysis, cost reduction and cost recovery for printers, copying machines, facsimile machines, scanners, and multi-functional devices that combine the aforementioned capabilities; downloadable and recorded computer software, namely, computer software for printing solution for implementing cost monitoring and creating customizable reports for printers, copying machines, facsimile machines, scanners, and multi-functional devices that combine the aforementioned capabilities; downloadable and recorded computer software for controlling, regulation and monitoring of printers, copying machines, facsimile machines, scanners, and multi-functional devices that combine the aforementioned capabilities

Katherine Kelly Vidal

Director of the United States
Patent and Trademark Office

CLASS 37: Repair and maintenance of printers, copying machines, facsimile machines, scanners and multi-functional devices that combine the aforementioned capabilities; providing information regarding the repair and maintenance of printers, copying machines, facsimile machines, scanners and multi-functional devices that combine the aforementioned capabilities

CLASS 42: Design, development, installation, maintenance, repair of computer software; design and development of operating software for accessing and using a cloud computing network; providing non-downloadable computer software on data networks for use in database management; cloud computing featuring software for use in database management; providing temporary use of online non-downloadable computer software for use in database management in the field of data-processing; technical assistance and support services, namely, troubleshooting in the nature of diagnosing computer software problems in the field of data-processing; technical support services, namely, installation, administration, and troubleshooting of computer software in the field of data-processing; design, development, installation, repair and upgrading of computer software for use in management, accounting and security of printers, copying machines, facsimile machines, scanners, and multi-functional devices that combine the aforementioned capabilities; design, development, installation, repair and upgrading of computer software for print and document management; cloud printing services, namely, providing online non-downloadable computer software that permits a user to securely print documents on printers, copying machines, facsimile machines, scanners, and multi-functional devices that combine the aforementioned capabilities from a remote location; cloud computing featuring computer software that allows users to upload, download, and manage scanned documents; providing online non-downloadable operating software for accessing and using a cloud computing network; computer services, namely, updating and maintaining the software configurations and firmware * expansion and addition of functions * of printers, copying machines, facsimile machines, scanners and multi-functional devices that combine the aforementioned capabilities through on-line updates, enhancements and patches for others; providing online non-downloadable computer software for usage volume analysis, cost reduction and cost recovery for printers, copying machines, facsimile machines, scanners, and multi-functional devices that combine the aforementioned capabilities; providing online non-downloadable computer software, namely, providing online non-downloadable computer software for printing solution for implementing cost monitoring and creating customizable reports for printers, copying machines, facsimile machines, scanners, and multi-functional devices that combine the aforementioned capabilities; monitoring of computer systems including printers, copying machines, facsimile machines, scanners and multi-functional devices that combine the aforementioned capabilities by remote access to ensure proper functioning; monitoring of printers, copying machines, facsimile machines, scanners and multi-functional devices that combine the aforementioned capabilities connected to computer networks, intranets and the Internet by remote access to ensure proper functioning; providing online non-downloadable computer software for controlling, regulation and monitoring of printers, copying machines, facsimile machines, scanners and multi-functional devices that combine the aforementioned capabilities

SER. NO. 79-291,671, FILED 03-02-2020

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*
What and When to File:

- ***First Filing Deadline:*** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.

- ***Second Filing Deadline:*** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*
What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see http://www.wipo.int/madrid/en/.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at http://www.uspto.gov.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at http://www.uspto.gov.
