TIMEC

Reg. No. 6,175,572

Registered Oct. 13, 2020

Corrected Mar. 14, 2023

Int. Cl.: 37, 40, 42

Service Mark

Principal Register

TIMEC OIL AND GAS, INC. (DELAWARE CORPORATION)
2510 E. Sam Houston Pkwy S.
Pasadena, TEXAS 77503

CLASS 37: Building construction services; repair services of equipment, facilities, and infrastructure, namely, buildings and industrial equipment in the fields of business management, business procurement, commercial and public road, rail, air, and sea transport, chemical processing, construction, defense, detention, education, emission reduction, energy production and distribution, industrial and commercial drilling, logistics, manufacturing, materials planning, medicine, mineral and gas exploration, mining, personnel and subcontractor management, project management, property and housing, recycling and waste management, safety and risk management, telecommunications, water treatment and distribution; installation services of equipment, namely, office equipment, heating equipment, ventilating equipment, air conditioning equipment, industrial equipment, security surveillance equipment in the fields of business management, business procurement, commercial and public road, rail, air, and sea transport, chemical processing, construction, defense, detention, education, emission reduction, energy production and distribution, industrial and commercial drilling, logistics, manufacturing, materials planning, medicine, mineral and gas exploration, mining, personnel and subcontractor management, project management, property and housing, recycling and waste management, safety and risk management, telecommunications, water treatment and distribution; maintenance, installation and repair of electric items and equipment, namely, motors, generators, lighting panels, fuses and circuit breakers and construction equipment, namely, overhead cranes and hoists; construction, installation, and maintenance of facilities and infrastructure, namely, buildings, environmental containment systems, industrial equipment, roads, railways and bridges for use in the fields of business management, business procurement, commercial and public road, rail, air, and sea transport, chemical processing, construction, defense, detention, education, emission reduction, energy production and distribution, industrial and commercial drilling, logistics, manufacturing, materials planning, medicine, mineral and gas exploration, mining, personnel and subcontractor management, project management, property and housing, recycling and waste management, safety and risk management, telecommunications, water treatment and distribution; mining extraction; building construction and construction project management services; drilling services, namely, drilling services for oil, gas, water, and minerals, namely, oil well drilling, water well drilling horizontal drilling, wireline diamond coring, reverse circulation drilling, air core drilling, air and mud rotary

Katherine Kelly Vidal

Director of the United States
Patent and Trademark Office

drilling, production drilling, water bore drilling, coal seam gas drilling, hydrogeological drilling, exploration drilling; underground construction of underground structures, namely, tunnels, mining facilities, and bunkers; real estate and real property development services including building, construction supervision, construction management, refurbishment and renovation services; Construction property development project management services; cleaning services of structures and construction equipment, materials, buildings and vehicles; rental of construction and cleaning apparatus; provision of information relating to the aforesaid services; drilling of metals; housekeeping services, namely, cleaning of residential houses

FIRST USE 2-1-1971; IN COMMERCE 2-1-1971

CLASS 40: Treatment of materials, namely, treatment of common metals, treatment of precious metals, treatment of metallic ores, treatment of petroleum, treatment of gas, treatment of coal, treatment of industrial oils, treatment of crude oil, treatment of metal alloys and treatment of chemicals; coppersmithing, namely, treatment of copper; electroplating; gilding; gold-plating; laser scribing of gems; precious gem cutting; grinding and polishing of common metals, precious metals, gems and stones; silverplating; material treatment information supplied on-line or by any other means; custom manufacture of jewelry; processing and treatment of ores and metals, namely, obtaining metals from native earth materials and treatment of metals, namely, extraction of metals from minerals; processing and refining of oil and gas; freezing of gases for others; separating and fractioning liquids for natural gas; liquefaction of natural gas; technical consulting in the field of treatment of materials, processing of ores and metals, treatment of ores and metals, processing of petroleum, treatment of petroleum, processing of coal, treatment of coal, processing of industrial oils, treatment of industrial oils, processing of crude oil, treatment of crude oil, processing of metal alloys, treatment of metal alloys, processing of chemicals and treatment of chemicals; dry-rot treatment of timbers; generation of electricity; gas processing services; refining of gas and oil; purification of materials, namely, metals, waste materials, and water; provision of materials treatment, purification, refining and processing information in the fields of mining, water production, and energy resources; provision of information relating to the aforesaid services; custom fabrication services, namely, custom fabrication of solar panels, transportable buildings, industrial water tanks of metal, waste water treatment tanks, drainage water treatment tanks, water purification tanks in the fields of resources, energy, industrial, infrastructure, property, and defense

FIRST USE 2-1-1971; IN COMMERCE 2-1-1971

CLASS 42: Calibration services and testing services, namely, monitoring and measuring of pressure, humidity, temperature, and other environmental conditions; scientific and technological services, namely, computer system administration for others, scientific laboratory services, and research and design relating thereto; industrial analysis of maintenance processes and maintenance performance including productivity, quality and cost and industrial research services in the field of business management, business procurement, commercial and public road, rail, air, and sea transport, chemical processing, construction, defense, detention, education, emission reduction, energy production and distribution, industrial and commercial drilling, logistics, manufacturing, materials planning, medicine, mineral and gas exploration, mining, personnel and subcontractor management, project management, property and housing, recycling and waste management, safety and risk management, telecommunications, water treatment and distribution; design and development of computer hardware and software; engineering; engineering project management services; civil engineering services for the design of facilities and infrastructure used in the field of business management, business procurement, commercial and public road, rail, air, and sea transport, chemical processing, construction, defense, detention, education, emission reduction, energy production and distribution, industrial and commercial drilling, logistics, manufacturing, materials planning, medicine, mineral and gas exploration, mining, personnel and subcontractor management, project management, property and housing, recycling and waste management, safety and risk management, telecommunications, water treatment

and distribution; industrial design services in the field of business management, business procurement, commercial and public road, rail, air, and sea transport, chemical processing, construction, defense, detention, education, emission reduction, energy production and distribution, industrial and commercial drilling, logistics, manufacturing, materials planning, medicine, mineral and gas exploration, mining, personnel and subcontractor management, project management, property and housing, recycling and waste management, safety and risk management, telecommunications, water treatment and distribution; engineering research services; provision of engineering reports; architectural services; architectural project management services; advisory and consultancy services in the field of environmental assessment and planning with respect to environmental sustainability, pollution and protection; environmental monitoring services, namely, monitoring and measuring of pressure, humidity, temperature, and other environmental conditions; provision of information relating to the aforesaid services; design of telecommunications networks; civil engineering services; construction engineering services; commercial administration services, namely, administration of facilities and infrastructure being remote and on-site infrastructure management services for monitoring, administration and management of public and private cloud computing IT and application systems in the fields of business management, business procurement, commercial and public road, rail, air, and sea transport, chemical processing, construction, defense, detention, education, emission reduction, energy production and distribution, industrial and commercial drilling, logistics, manufacturing, materials planning, medicine, mineral and gas exploration, mining, personnel and subcontractor management, project management, property and housing, recycling and waste management, safety and risk management, telecommunications, water treatment and distribution; technical consulting in the fields of oil exploration and gas exploration

FIRST USE 2-1-1971; IN COMMERCE 2-1-1971

THE MARK CONSISTS OF STANDARD CHARACTERS WITHOUT CLAIM TO ANY PARTICULAR FONT STYLE, SIZE OR COLOR

SER. NO. 87-714,539, FILED 12-09-2017

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*
What and When to File:

- ***First Filing Deadline:*** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.

- ***Second Filing Deadline:*** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*
What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see http://www.wipo.int/madrid/en/.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at http://www.uspto.gov.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at http://www.uspto.gov.
