access control devices; online retail store services featuring electronic access control devices; retail store services featuring data loggers and recorders; wholesale store services featuring data loggers and recorders; online retail store services featuring data loggers and recorders; retail store services featuring electrical and mechanical data processing equipment and accessories; wholesale store services featuring electrical and mechanical data processing equipment and accessories; online retail store services featuring electrical and mechanical data processing equipment and accessories; retail store services featuring image capturing and developing devices; wholesale store services featuring image capturing and developing devices; online retail store services featuring image capturing and developing devices; retail store services featuring cameras for photography; wholesale store services featuring cameras for photography; online retail store services featuring to cameras for photography; retail store services featuring camcorders; wholesale store services featuring camcorders; online retail store services featuring camcorders; retail store services featuring surveillance cameras; wholesale store services featuring surveillance cameras; online retail store services featuring surveillance cameras; retail store services featuring alarms and warning equipment; wholesale store services featuring alarms and warning equipment; online retail store services featuring alarms and warning equipment; retail store services featuring audio-visual and photographic devices; wholesale store services featuring audio-visual and photographic devices; online retail store services featuring audio-visual and photographic devices; retail store services featuring communications equipment; wholesale store services featuring communications equipment; online retail store services featuring communications equipment; retail store services featuring computer networking and data communications equipment; wholesale store services featuring computer networking and data communications equipment; online retail store services featuring computer networking and data communications equipment; retail store services featuring computer operating systems; wholesale store services featuring computer operating systems; online retail store services featuring computer operating systems; retail store services featuring computers and computer hardware; wholesale store services featuring computers and computer hardware; online retail store services featuring computers and computer hardware; retail store services featuring distance and dimension measuring instruments; wholesale store services featuring distance and dimension measuring instruments; online retail store services featuring distance and dimension measuring instruments; retail store services featuring firmware; wholesale store services featuring firmware; online retail store services featuring firmware; retail store services featuring image scanners; wholesale store services featuring image scanners; online retail store services featuring image scanners; retail store services featuring information technology and audiovisual equipment; wholesale store services featuring information technology and audiovisual equipment; online retail store services featuring information technology and audiovisual equipment; retail store services featuring monitoring instruments in the nature of cameras and motion sensors; wholesale store services featuring monitoring instruments in the nature of cameras and motion sensors; online retail store services featuring monitoring instruments in the nature of cameras and motion sensors; retail store services featuring navigation, guidance, tracking, targeting and map making devices; wholesale store services featuring navigation, guidance, tracking, targeting and map making devices; online retail store services featuring navigation, guidance, tracking, targeting and map making devices; retail store services featuring peripherals adapted for use with computers; wholesale store services featuring peripherals adapted for use with computers; online retail store services featuring peripherals adapted for use with computers; retail store services featuring safety, security, protection and signalling devices; wholesale store services featuring safety, security, protection and signalling devices; online retail store services featuring safety, security, protection and signalling devices; retail store services featuring scientific research and laboratory apparatus, educational apparatus and simulators; wholesale store services featuring scientific research and laboratory apparatus, educational apparatus and simulators; online retail store services featuring scientific research and laboratory apparatus, educational apparatus and simulators; retail store services featuring signal cables for information technology (IT), audio-visual (AV) and telecommunication devices; wholesale store services featuring signal cables for

information technology (IT), audio-visual (AV) and telecommunication devices; online retail store services featuring signal cables for information technology (IT), audio-visual (AV) and telecommunication devices; retail store services featuring speed measuring instruments; wholesale store services featuring speed measuring instruments; online retail store services featuring speed measuring instruments; retail store services featuring temperature measuring instruments; wholesale store services featuring temperature measuring instruments; online retail store services featuring temperature measuring instruments; retail store services featuring time measuring instruments, not including clocks and watches; wholesale store services featuring time measuring instruments, not including clocks and watches; online retail store services featuring time measuring instruments, not including clocks and watches; retail store services featuring broadcasting equipment; wholesale store services featuring broadcasting equipment; online retail store services featuring broadcasting equipment; retail store services featuring games software; wholesale store services featuring games software; online retail store services featuring games software; retail store services featuring point-to-point communications equipment; wholesale store services featuring point-to-point communications equipment; online retail store services featuring point-to-point communications equipment * ; all the aforementioned services not related to organization of trade fairs *

CLASS 39: Vehicle parking and vehicle storage; providing information relating to vehicle parking services; provision of information relating to the transportation of passengers; consultancy for travel planning of routes; consultancy services relating to transportation; provision of information relating to methods of transport; GPS navigation services, namely, positioning, and route and course plotting; transport by land; transportation and delivery of goods; vehicle routing by computer on data networks; traffic information services; providing road and traffic information; traffic information; information services relating to traffic; information services relating to traffic congestion; ground traffic control services for aircraft; management of vehicular traffic flow through advanced communications network and technology; provision of information to travelers relating to timetables; rental of vehicles for transportation; transport of travelers; passenger transportation; rescue services; vehicle breakdown towing services; automobile salvage services; physical storage of electronically stored data, documents, digital photographs, music, images, video, and computer games; providing information relating to marine transport services; passenger ship transport; provision of berthing facilities; provision of information relating to transportation at ports of entry

CLASS 42: Software as a service (SAAS) services featuring software for use in database management; web site hosting services; software as a service (SAAS) services featuring software for traffic management; rental of computer software; platform as a service (PAAS) featuring computer software platforms for use in database management; shopping centre design; design services in the field of urban design; architectural design services in the fields of traffic and transportation; development and testing of software for computing methods and algorithms; research in the field of artificial intelligence; software as a service (SAAS) services featuring software using artificial intelligence for use in urban city planning; providing on-line non-downloadable computer programs using artificial intelligence on data networks for traffic flow surveillance and trend analysis; architectural and urban design planning services; computer software development, and implementation and programming of computer software for others; development and creation of computer programming for data processing; electronic storage of digital video files; hosting a website for the electronic storage of digital photographs and videos; Media duplication of data and digital information; data conversion of electronic information; data encryption services; information technology (IT) consultancy, advisory and information services; computer programming services, namely, computer programming services for commercial analysis and reporting; computer services, namely, data recovery services; scientific and technology services, namely, scientific research, analysis and testing in the field of urban planning and traffic flow management; rental of computer hardware; rental of space in a computer co-

location facility for containerized data centers of others; cloud storage services for electronic data; research and development services in the field of natural science; medical and pharmacological research services; computer hardware development; engineering services; research and development services in the field of earth science

SER. NO. 79-324,186, FILED 01-18-2021

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*
What and When to File:

- ***First Filing Deadline:*** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.

- ***Second Filing Deadline:*** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*
What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see http://www.wipo.int/madrid/en/.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at http://www.uspto.gov.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at http://www.uspto.gov.
