(iii) where a correct element or part furnished under [Rule 20.5 bis](#) to correct an erroneously filed element or part is added to the international application, the sheets of the correct element or part shall be numbered without taking into account the sheets of the erroneously filed element or part, and no action referred to in paragraph (i) need be taken with respect to the sheets of the erroneously filed element or part, either when they are removed from the international application under [Section 309\(c\)\(iv\)](#) or [310\(b\)\(iv\)](#), or when they are moved to the end of

(b) Where, under [Rule 3.3\(b\)](#), the receiving Office itself completes the check list, that Office shall enter, in the margin, the words “COMPLETED BY RO” or their equivalent in the language of

Each category and each relevant claim or group of claims may be separated by a line.

The following example illustrates the situation where a document is of particular relevance under [Section 505\(b\)](#) as to claims 1 to 3 and under [Section 505\(c\)](#) as to claim 4, and indicates the general state of the art under [Section 507\(c\)](#) as to claims 11 and 12:

evidence is submitted indicating to the satisfaction of the International Preliminary Examining Authority that in fact, an applicant had, on the date on which the demand was received, the right to file the demand with that Authority, the International Preliminary Examining Authority shall regard the requirements under [Article 31\(2\)\(a\)](#) as having been fulfilled on the date of actual receipt of the demand.

705 bis Processing in Electronic Form of International Applications Filed on Paper

(a) Where an international application is filed on paper, it may, subject to this Part, be scanned into electronic form as a complete and accurate copy ("scanned copy") and processed on the basis of the scanned copy.

(b) Pursuant to paragraph (a) and for the purposes of [Article 12](#), the receiving Office, the International Bureau and the International Searching Authority may prepare a scanned copy of the international application and keep it as the home copy, the record copy or the search copy, as the case may be.

(c) Where a scanned copy of the international application is kept as the record copy under paragraph (b), the original of the international application as filed on paper shall be kept, for a period of at least 5 years from the international filing date, by the International Bureau or, where so agreed by the receiving Office and the International Bureau, by the receiving Office on behalf of the International Bureau. The original shall be marked with the words "INTERNATIONAL APPLICATION—ORIGINAL AS FILED ON PAPER (SECTION 705 bis)" or their equivalent in the language of publication of the international application on the bottom of the first page of the request and of the first page of the description.

(d) Where, before the expiration of the period referred to in paragraph (c), the International Bureau finds, upon request for correction made by the applicant or otherwise, that a scanned copy of the international application kept as the record copy under paragraph (b) is not in fact a complete and accurate copy of the original kept under paragraph (c), it shall correct the record copy so as to bring it into conformity with the original. If the receiving

Office, the International Searching Authority, the International Preliminary Examining Authority or a designated or elected Office considers that the International Bureau should make a finding under the first sentence of this paragraph, it shall call the relevant facts to the attention of the International Bureau.

(e) Where the International Bureau has corrected the record copy in accordance with paragraph (d), it shall promptly notify the applicant, publish the corrected international application together with a revised front page, and publish a notice of this fact in the Gazette. [Section 422\(a\)\(i\) to \(v\)](#) shall apply *mutatis mutandis* with regard to the notification of the receiving Office, the International Searching Authority, the International Preliminary Examining Authority and the designated and elected Offices.

705 *ter* Processing of International Applications Filed in or Scanned into Electronic Form in a Converted Electronic Format

(a) Where an international application is filed in electronic form, or filed on paper and scanned into electronic form under [Section 705 bis\(a\)](#), it may, subject to this Part, be converted from the initial or scanned electronic format into another electronic format permitted for this purpose as a complete and accurate copy (“converted copy”) and processed on the basis of the converted copy.

(b) The electronic format into which an international application may be converted for the purpose of paragraph (a) shall be XML format as referred to in section 3.1.1.1 of [Annex F](#).

(c) Pursuant to paragraph (a) and subject to the agreement between the relevant Offices, for the purposes of [Article 12](#), the receiving Office, the International Bureau and the International Searching Authority may prepare a converted copy of the international application and keep it as the home copy, the record copy or the search copy, as the case may be.

(d) Notwithstanding [Section 705 bis\(c\)](#), where a converted copy of the international application is kept under paragraph (c) as the home copy, the record copy or the search copy, the copy in the initial or scanned electronic format shall be kept in the file of the international application in accordance with [Rule 93](#).

(e) [Section 705 bis\(d\)](#) and (e) shall apply *mutatis mutandis* with respect to corrections of any inconsistencies in the converted copy with the copy in the initial or scanned electronic format kept under paragraph (d).

706 Documents in Pre-Conversion Format

(a) Where, for the purposes of filing the international application in electronic form, the document making up the international application has been prepared by conversion from a different electronic document format (“pre-conversion format”), the applicant may, if the receiving Office so permits and the pre-conversion format is accepted for that purpose by that Office, submit, together with the international application, the document in the pre-conversion format, in which case:

(i) the document in the pre-conversion format shall be identified as such and shall be accompanied by a statement by the applicant that the international application as filed in electronic form is a complete and accurate copy of the document in the pre-conversion format;

(ii) the request shall preferably contain an indication that the document in the pre-conversion format is submitted under [Section 706](#) together with the international application.

(b) Where it is found that the international application as filed in electronic form is not in fact a complete and accurate copy of the document in the pre-conversion format submitted under paragraph (a), the applicant may, within 30 months from the priority date, request the receiving Office to correct the international application so as to bring it into conformity with the document in the pre-conversion format. [Rule 26.4](#) shall apply *mutatis mutandis* to the manner in which corrections under paragraph (b) shall be requested.

(c) Where the receiving Office, the International Searching Authority, the International Preliminary Examining Authority or the International Bureau discover what appears to be a correctable defect under paragraph (b), that Office, Authority or Bureau, as the case may be, may bring such defect to the attention of the applicant, drawing attention to the correction procedure under paragraph (b).

(d) The applicant and, if copies of the international application have already been sent to the International Bureau and the International Searching Authority, that Bureau and that Authority shall be promptly notified by the receiving Office of any correction under paragraph (b). If required, the International Bureau shall notify the International Preliminary Examining Authority accordingly. Where a correction is made after the completion of the technical preparations for international publication, the International Bureau shall promptly publish any international application as so corrected together with a revised front page.

(e) A correction under paragraph (b) shall be taken into account by the International Searching Authority for the purposes of the international search and the establishment of the written opinion, and by the International Preliminary Examining Authority for the purposes of international preliminary examination, if it is notified to that Authority before it has begun to draw up the international search report, the written opinion or the international preliminary examination report, as applicable, in which case the said report or opinion shall so indicate.

(f) Paragraphs (a) to (e) shall apply *mutatis mutandis* to any document making up any element of the international application referred to in [Article 3\(2\)](#).

707 Calculation of International Filing Fee and Fee Reduction

(a) Where an international application is filed in electronic form, the international filing fee shall, subject to paragraph (a-*bis*), be calculated on the basis of the number of sheets that the application would contain if presented as a print-out complying with the physical requirements prescribed in [Rule 11](#).¹

(a-*bis*) Where the international application as filed contains an electronic file appearing to be a sequence listing in a file format compliant with WIPO Standard ST.26, the calculation of the international filing fee shall, in the calculation of the

number of sheets, not take into account any material contained in such an electronic file.

(b) Item 4(b), (c) and (d) of the Schedule of Fees annexed to the Regulations shall apply to reduce the fees payable in respect of an international application filed in electronic form with a receiving Office which has notified the International Bureau under [Section 710\(a\)](#) that it is prepared to receive international applications in electronic form or which has decided to receive such an application in accordance with [Section 703\(d\)](#).

708 Special Provisions Concerning Legibility, Completeness, Infection by Viruses, Etc.

(a) Where an international application is filed in electronic form, the receiving Office shall promptly check whether the application is legible and whether it appears to have been fully received. Where the Office finds that all or part of the international application is illegible or that part of the application appears not to have been received, the international application shall be treated as not having been received to the extent that it is illegible or, where transmitted by electronic means, that the attempted transmission failed, and the Office shall, if practicable having regard to the indications furnished by the applicant, promptly notify the applicant accordingly.

(b) Where a purported international application is received in electronic form, the receiving Office shall promptly check it for infection by viruses and other forms of malicious logic. Where the Office finds that the purported application is so infected:

(i) the Office is not required to disinfect the purported application and may, under [Section 703\(e\)](#), refuse to receive it;

(ii) if the Office decides under [Section 703\(e\)](#) to receive the purported application, the Office shall use means reasonably available under the circumstances to read it, for example, by disinfecting it or preparing a backup copy under [Section 706](#), and to store it in such a way that its contents may be ascertained if necessary;

¹ *Editor's Note: Noting that [Rule 11](#) leaves some flexibility as to the margins of the sheets (see [Rule 11.6](#)) and the size of the characters (see [Rule 11.9\(d\)](#)), the international filing fee should be calculated on the basis of the number of sheets that the application would contain if presented as a print-out complying with the minimum margin and character size requirements. In practice, however, the receiving Office should not print-out the international application but rather rely on the number of pages of the international application as calculated by the electronic filing software and indicated in the request.*

(iii) if the Office finds that it is able to read and store the purported application as mentioned in item (ii), it shall determine whether an international filing date should be accorded;

(iv) if the Office accords an international filing date to the application, it shall, if possible having regard to the indications furnished by the applicant, promptly notify the applicant and, if necessary, invite the applicant to submit a substitute copy of the application free of infection;

(v) if the Office accords an international filing date to the application, it shall prepare the home copy, the record copy and the search copy on the basis of the disinfected application, the backup copy or the substitute copy referred to in items (ii) or (iv), as applicable, provided that the application shall be stored by the Office, as referred to in item (ii), for the purposes of [Rule 93.1](#).

709 Means of Communication with the Applicant

(a) The receiving Office shall, if it provides for such a service, send any notifications, invitations and other correspondence ("documents") to the applicant by electronic means in accordance with [Annex F](#), unless the applicant requests to receive them by other means offered by the Office.

(b) Where it appears to the receiving Office that a document sent to the applicant by electronic means was not successfully transmitted, the Office shall promptly resend the document by the same or another means.

(b-bis) Where the receiving Office provides for such a service and the applicant so requests, the receiving Office may, instead of directly transmitting a document to the applicant, make it available for retrieval by the applicant in an electronic system in accordance with the standard set forth in section 5.1ter of [Annex F](#). In this case, the document shall be considered to have been transmitted to the applicant on the day when it was made available for retrieval by the applicant in that electronic system. The receiving Office shall promptly alert the applicant by electronic means whenever a new document has been made available, unless the applicant requests otherwise.

(c) At times when the electronic systems of the receiving Office are not available for the filing or

retrieval of documents in electronic form or by electronic means, the Office shall, if possible, promptly publish information to that effect by reasonably means.

(d) Where agreed between the receiving Office and the International Bureau, the Office may furnish an electronic copy of a document to the International Bureau for transmission by electronic means to the applicant on its behalf.

710 Notification and Publication of Receiving Offices' Requirements and Practices

(a) A notification by a receiving Office to the International Bureau under [Rule 89 bis.1\(d\)](#) and [Section 703\(a\)](#) that it is prepared to receive international applications in electronic form shall indicate, where applicable:

(i) the electronic document formats (including, where applicable, the versions of such electronic document formats), means of transmittal, types of electronic packages, electronic filing software and types of electronic signature specified by it under [Section 703\(b\)\(i\)](#) to [\(iv\)](#) and [\(c\)](#), and any options specified by it under the basic common standard;

(ii) the conditions, rules and procedures relating to electronic receipt, including hours of operation, choices for processes to verify or acknowledge receipt, choices for electronic communication of invitations and notifications, any methods of online payment, details concerning any help desks, electronic and software requirements and other administrative matters related to the filing in electronic form of international applications and related documents;

(iii) the kinds of documents which may be transmitted to or by the Office in electronic form;

(iv) whether and under what conditions the Office accepts the filing, under [Section 706\(a\)](#) and [\(f\)](#), of documents in pre-conversion formats and the electronic document format(s) (including, where applicable, the versions of such electronic document format(s)) accepted by it under that Section;

(v) procedures for notification of applicants and procedures which applicants may follow as alternatives when the electronic systems of the Office are not available;

(vi) the certification authorities that are accepted by the Office, and the electronic addresses of the certificate policies under which certificates are issued;

(vii) the procedures relating to access to the files of international applications filed or stored in electronic form.

(b) The receiving Office shall notify the International Bureau of any change in the matters previously indicated by it in a notification under paragraph (a) of this Section.

(c) The International Bureau shall promptly publish in the Gazette any notification received by it under paragraph (a) or (b) of this Section.

(d) The effective date of any change notified under paragraph (b) shall be as specified by the receiving Office in the notification, provided that any change which restricts filing options shall not be effective earlier than two months after the date of publication of the notification of the change in the Gazette.

711 Electronic Records Management

(a) Records, copies and files in electronic form in relation to international applications shall be processed and, for the purposes of [Rule 93](#), kept in accordance with the requirements of authentication, integrity, confidentiality and non-repudiation, and having due regard to the principles of electronic records management, set out in [Annex F](#).

(b) Upon request by the applicant or other interested party in relation to a particular international application, the receiving Office shall, subject to any restrictions applicable under the Treaty as to access by third parties,¹ certify that any electronic records relating to that application are maintained and stored by it in accordance with paragraph (a).

712 Access to Electronic Records

Access permitted by the Treaty, the Regulations or these Administrative Instructions to documents contained in the file of an international application filed, processed or kept in electronic form may, at the option of the national Office or

intergovernmental organization concerned, be provided by electronic means or in electronic form, having due regard to the need to ensure the integrity and where applicable confidentiality of data, the principles of electronic records management set out in [Annex F](#), and the need to ensure security of the electronic networks, systems and applications of the Office or organization.

713 Application of Provisions to International Authorities and the International Bureau, and to Notifications, Communications, Correspondence and Other Documents

(a) The provisions of this Part, other than [Sections 703\(c\)](#), [704\(c\) to \(g\)](#), [707](#), [708\(b\)\(iii\) to \(v\)](#), [710\(a\)\(iv\)](#) and [714\(b\)](#), shall, if they are capable of applying but do not expressly apply to the International Searching Authorities, the International Preliminary Examining Authorities and the International Bureau, apply *mutatis mutandis* to those Authorities and that Bureau.

(b) The provisions of this Part, other than [Sections 703\(c\)](#), [704\(c\) to \(f\)](#), [705](#), [707](#), [708\(b\)\(iii\) to \(v\)](#) and [710\(a\)\(iv\)](#), shall, if they are capable of applying but do not expressly apply to notifications, communications, correspondence or other documents relating to international applications that are filed, processed or communicated in electronic form, apply *mutatis mutandis* to such notifications, communications, correspondence or other documents relating to international applications.

714 Furnishing by the International Bureau of Copies of Documents Kept in Electronic Form; Designated Offices' Signature Requirements

(a) Where any International Searching Authority, International Preliminary Examining Authority or designated Office has not notified the International Bureau in accordance with [Rule 89 bis.1\(d\)](#) that it is prepared to process international applications in electronic form, the International Bureau shall furnish to that Office or Authority a copy on paper of any document which is kept by the International Bureau in electronic form and which that Office or Authority is entitled to receive. The International

¹ Editor's Note: Articles 30 and 38 and Rule 94 restrict access.

Bureau may also, upon request by the Authority or Office concerned, furnish such copy in electronic form.

(b) Any designated Office may require that any document or correspondence submitted to it by the applicant in electronic form be signed by the applicant using a type of electronic signature specified by it in accordance with [Annex F](#).

715 Availability of Priority Documents from Digital Libraries

(a) For the purposes of [Rules 17.1\(b- bis\)](#), [17.1\(d\)](#) (where appropriate, as applicable by virtue of [Rules 17.1\(c\)](#) and [82 ter.1\(b\)](#)), [66.7\(a\)](#) (where appropriate, as applicable by virtue of [Rule 43 bis.1\(b\)](#)) and [91.1\(e\)](#), a priority document shall be considered to be available from a digital library to the International Bureau, a designated Office, the International Searching Authority or the International Preliminary Examining Authority, as the case may be:

(i) if the Office or Authority concerned has notified the International Bureau, or the International Bureau has declared, as the case may be, that it is prepared to obtain priority documents from that digital library; and

(ii) the priority document concerned is held in that digital library and the applicant has, to the extent required by the procedures for accessing the relevant digital library, authorized the Office or Authority concerned or the International Bureau, as the case may be, to access that priority document.

(b) A notification to the International Bureau under paragraph 12 of the Framework Provisions for the Digital Access Service for Priority Documents¹ by

(i) the International Bureau; or

(ii) an Office in its capacity as designated Office, International Searching Authority or International Preliminary Examining Authority,

that it is prepared to obtain priority documents via the Digital Access Service shall be taken as a declaration or notification under paragraph (a)(i) that the International Bureau or Office acting in the

relevant capacity will obtain priority documents through the Digital Access Service from any digital library which has been the subject of a notification in accordance with paragraph 10 of the Framework Provisions, including libraries for which such a notification is subsequently made with effect prior to the date on which the Office or Bureau is requested to retrieve the priority document.

(c) An Office or Authority which has given a notification to the International Bureau under paragraph (a)(i) or (b) shall notify the International Bureau of any change in the information so notified.

(d) The International Bureau shall promptly publish in the Gazette any notification received by it under paragraph (a)(i) or (b) of this Section, any declaration made by it under paragraph (a)(i) or (b), and any change in the information so declared.

(e) The effective date of any change published under paragraph (d) shall be as specified by the Office or Authority concerned or by the International Bureau, as the case may be, provided that any change which restricts the ability of the applicant to request the Office, the Authority or the International Bureau to obtain a priority document from the digital library shall, except in the case where priority documents are no longer held in the digital library, not be effective earlier than two months after the date of publication of the change in the Gazette.

716 Request that Priority Document Be Obtained from a Digital Library under Rule 17.1(b- bis)

(a) Any request under [Rule 17.1\(b- bis\)](#):

(i) shall identify the priority document concerned in accordance with [Rule 4.10\(a\)](#); and

(ii) shall, where required, include the access code provided to the applicant by the International Bureau or by the Office with which the earlier application was filed.

(b) Where the applicant, in accordance with [Rule 17.1\(b- bis\)](#) and paragraph (a) of this Section, requests the International Bureau to obtain a priority document which, in accordance with [Section 715\(a\)](#), is considered to be available from a digital library to it, but the International Bureau finds that the priority document is in fact not available to it, the

¹ *Editor's Note* : Established by the International Bureau on 31 March 2009 and available from the WIPO website at: www.wipo.int/das/en/documentation.html.

International Bureau, shall notify the applicant, giving the opportunity to furnish the priority document to it, or to ensure that the document is made available to it from a digital library, within a time limit of not less than two months from the date of the notification or within the time limit specified in [Rule 17.1\(a\)](#), whichever time limit expires later. Where the priority document is furnished or becomes available to the International Bureau within that time limit, the requirements of [Rule 17.1\(b-bis\)](#) shall be considered to have been met. If the priority document is not so furnished or does not become available

within that time limit, the request that the document be obtained from a digital library shall be considered not to have been made.

(c) Where the applicant requests the International Bureau under [Rule 17.1\(b-bis\)](#) to obtain a priority document from a digital library but that request does not comply with the requirements of that Rule and paragraph (a) of this Section, or the priority document concerned is not considered to be available to it in accordance with [Section 715\(a\)](#), the International Bureau shall promptly inform the applicant accordingly.

PART 8

INSTRUCTIONS RELATING TO OBSERVATIONS BY THIRD PARTIES

801 Third Party Observation System

(a) The International Bureau shall provide an electronic system for third parties to make observations referring to prior art which they believe to be relevant to the question of whether the invention claimed in the international application is new and/or involves an inventive step (“third party observation system”).

(b) The third party observation system:

(i) shall provide a third party with the option to remain anonymous;

(ii) shall allow observations to include a brief explanation of the relevance of each prior art document referred to in the observation and to include a copy of the prior art document;

(iii) may limit the number of prior art documents which may be referred to in one observation; and

(iv) may limit the number of observations permitted to be made in relation to one international application, per third party and in total.

(c) The International Bureau shall take technical steps to prevent abuse of the third party observation system.

(d) The International Bureau may temporarily or indefinitely suspend the use of the third party observation system if it considers it necessary to do so.

802 Filing of a Third Party Observation

(a) An observation by a third party made in relation to an international application shall:

(i) be submitted to the International Bureau through the third party observation system as provided in [Section 801](#);

(ii) be submitted between the date of international publication and 28 months from the priority date of the international application indicated;

(iii) be in a language of publication, with the exception that copies of submitted prior art documents may be in any language;

(iv) relate to the international application indicated;

(v) refer to prior art;

(vi) be free of viruses or other forms of malicious logic;

(vii) be free of comments or other matter not relevant to the question of novelty or inventive step of the invention claimed in the international application; and

(viii) be free of comments or other matter which are an abuse of the third party observation system.

(b) Any purported observation by a third party which, in the view of the International Bureau, appears not to be in compliance with paragraph (a) shall not be treated as a third party observation. The

International Bureau shall inform the third party accordingly, unless the purported observation appears to be a clear attempt at abuse of the system. The purported observation shall not be open to public inspection and shall not be communicated to the applicant, any International Authority or any designated Office.

803 Availability of an Observation and Related Information

(a) Any third party observation shall be promptly made available for public inspection, with the exception that copies of prior art documents uploaded through the system shall be made available only to the applicant, competent International Authorities and designated Offices.

(b) Where the third party requests the International Bureau to remain anonymous as provided in [Section 801\(b\)](#), the International Bureau shall not reveal any details of the third party to the public, the applicant, any International Authority or any designated Office.

804 Notification of Receipt of an Observation to the Applicant and Comments by the Applicant in Response to an Observation

(a) The International Bureau shall notify the applicant when the first third party observation is received in relation to an international application. If further observations are received, the International Bureau shall notify the applicant of the receipt of all further observations promptly after the expiration of 28 months from the priority date.

(b) The applicant may, within 30 months from the priority date, submit comments in response to any third party observation which has been received. The comments shall be submitted in English, French or the language of publication of the international application, at the choice of the applicant, and shall be promptly made available for public inspection.

805 Communication of Observations and Comments to International Authorities and Designated Offices

(a) The International Bureau shall communicate any third party observation and any comment by the applicant promptly to the International Searching Authority specified to carry out the international

search, the International Searching Authority specified to carry out the supplementary international search and the International Preliminary Examining Authority specified to carry out the international preliminary examination, unless the international search report, the supplementary international search report or the international preliminary examination report, respectively, has already been received by the International Bureau.

(b) Promptly after the expiration of 30 months from the priority date, the International Bureau shall communicate any third party observation and any comment by the applicant to all designated Offices, subject to [Rule 93 bis](#). The designated Offices shall not be obliged to take either the observations or any comments into account during national processing.

Annex B

UNITY OF INVENTION

(a) **Unity of Invention.** [Rule 13.1](#) deals with the requirement of unity of invention and states the principle that an international application should relate to only one invention or, if there is more than one invention, that the inclusion of those inventions in one international application is only permitted if all inventions are so linked as to form a single general inventive concept.

(b) **Technical Relationship.** [Rule 13.2](#) defines the method for determining whether the requirement of unity of invention is satisfied in respect of a group of inventions claimed in an international application. Unity of invention exists only when there is a technical relationship among the claimed inventions involving one or more of the same or corresponding “special technical features”. The expression “special technical features” is defined in [Rule 13.2](#) as meaning those technical features that define a contribution which each of the inventions, considered as a whole, makes over the prior art. The determination is made on the contents of the claims as interpreted in light of the description and drawings (if any).

(c) **Independent and Dependent Claims.** Unity of invention has to be considered in the first place only in relation to the independent claims in an international application and not the dependent claims. By “dependent” claim is meant a claim which

contains all the features of another claim and is in the same category of claim as that other claim (the expression “category of claim” referring to the classification of claims according to the subject matter of the invention claimed for example, product, process, use or apparatus or means, etc.).

(i) If the independent claims avoid the prior art and satisfy the requirement of unity of invention, no problem of lack of unity arises in respect of any claims that depend on the independent claims. In particular, it does not matter if a dependent claim itself contains a further invention. Equally, no problem arises in the case of a genus/species situation where the genus claim avoids the prior art. Moreover, no problem arises in the case of a combination/subcombination situation where the subcombination claim avoids the prior art and the combination claim includes all the features of the subcombination.

(ii) If, however, an independent claim does not avoid the prior art, then the question whether there is still an inventive link between all the claims dependent on that claim needs to be carefully considered. If there is no link remaining, an objection of lack of unity a *posteriori* (that is, arising only after assessment of the prior art) may be raised. Similar considerations apply in the case of a

genus/species or combination/subcombination situation.

(iii) This method for determining whether unity of invention exists is intended to be applied even before the commencement of the international search. Where a search of the prior art is made, an initial determination of unity of invention, based on the assumption that the claims avoid the prior art, may be reconsidered on the basis of the results of the search of the prior art.

(d) **Illustrations of Particular Situations.** There are three particular situations for which the method for determining unity of invention contained in [Rule 13.2](#) is explained in greater detail:

- (i) combinations of different categories of claims;
- (ii) so-called “Markush practice”; and
- (iii) intermediate and final products.

Principles for the interpretation of the method contained in [Rule 13.2](#), in the context of each of those situations are set out below. It is understood that the principles set out below are, in all instances, interpretations of and not exceptions to the requirements of [Rule 13.2](#).

Examples to assist in understanding the interpretation on the three areas of special concern referred to in the preceding paragraph are set out below.

(e) **Combinations of Different Categories of Claims.** The method for determining unity of invention under [Rule 13.2](#) shall be construed as permitting, in particular, the inclusion of any one of the following combinations of claims of different categories in the same international application:

- (i) in addition to an independent claim for a given product, an independent claim for a process specially adapted for the manufacture of the said product, and an independent claim for a use of the said product, or
- (ii) in addition to an independent claim for a given process, an independent claim for an apparatus or means specifically designed for carrying out the said process, or
- (iii) in addition to an independent claim for a given product, an independent claim for a process specially adapted for the manufacture of the said

product and an independent claim for an apparatus or means specifically designed for carrying out the said process,

it being understood that a process is specially adapted for the manufacture of a product if it inherently results in the product and that an apparatus or means is specifically designed for carrying out a process if the contribution over the prior art of the apparatus or means corresponds to the contribution the process makes over the prior art.

Thus, a process shall be considered to be specially adapted for the manufacture of a product if the claimed process inherently results in the claimed product with the technical relationship being present between the claimed product and claimed process. The words “specially adapted” are not intended to imply that the product could not also be manufactured by a different process.

Also an apparatus or means shall be considered to be “specifically designed for carrying out” a claimed process if the contribution over the prior art of the apparatus or means corresponds to the contribution the process makes over the prior art. Consequently, it would not be sufficient that the apparatus or means is merely capable of being used in carrying out the claimed process. However, the expression “specifically designed” does not imply that the apparatus or means could not be used for carrying out another process, nor that the process could not be carried out using an alternative apparatus or means.

(f) **“Markush Practice.”** The situation involving the so-called “Markush practice” wherein a single claim defines alternatives (chemical or non-chemical) is also governed by [Rule 13.2](#). In this special situation, the requirement of a technical interrelationship and the same or corresponding special technical features as defined in [Rule 13.2](#), shall be considered to be met when the alternatives are of a similar nature.

(i) When the Markush grouping is for alternatives of chemical compounds, they shall be regarded as being of a similar nature where the following criteria are fulfilled:

- (A) all alternatives have a common property or activity, and

(B)(1) a common structure is present, i.e., a significant structural element is shared by all of the alternatives, or

(B)(2) in cases where the common structure cannot be the unifying criteria, all alternatives belong to a recognized class of chemical compounds in the art to which the invention pertains.

(ii) In paragraph (f)(i)(B)(1), above, the words “significant structural element is shared by all of the alternatives” refer to cases where the compounds share a common chemical structure which occupies a large portion of their structures, or in case the compounds have in common only a small portion of their structures, the commonly shared structure constitutes a structurally distinctive portion in view of existing prior art, and the common structure is essential to the common property or activity. The structural element may be a single component or a combination of individual components linked together.

(iii) In paragraph (f)(i)(B)(2), above, the words “recognized class of chemical compounds” mean that there is an expectation from the knowledge in the art that members of the class will behave in the same way in the context of the claimed invention. In other words, each member could be substituted one for the other, with the expectation that the same intended result would be achieved.

(iv) The fact that the alternatives of a Markush grouping can be differently classified shall not, taken alone, be considered to be justification for a finding of a lack of unity of invention.

(v) When dealing with alternatives, if it can be shown that at least one Markush alternative is not novel over the prior art, the question of unity of invention shall be reconsidered by the examiner. Reconsideration does not necessarily imply that an objection of lack of unity shall be raised.

(g) **Intermediate and Final Products.** The situation involving intermediate and final products is also governed by [Rule 13.2](#).

(i) The term “intermediate” is intended to mean intermediate or starting products. Such products have the ability to be used to produce final products through a physical or chemical change in which the intermediate loses its identity.

(ii) Unity of invention shall be considered to be present in the context of intermediate and final products where the following two conditions are fulfilled:

(A) the intermediate and final products have the same essential structural element, in that:

(1) the basic chemical structures of the intermediate and the final products are the same, or

(2) the chemical structures of the two products are technically closely interrelated, the intermediate incorporating an essential structural element into the final product, and

(B) the intermediate and final products are technically interrelated, this meaning that the final product is manufactured directly from the intermediate or is separated from it by a small number of intermediates all containing the same essential structural element.

(iii) Unity of invention may also be considered to be present between intermediate and final products of which the structures are not known — for example, as between an intermediate having a known structure and a final product the structure of which is not known, or as between an intermediate of unknown structure and a final product of unknown structure. In order to satisfy unity in such cases, there shall be sufficient evidence to lead one to conclude that the intermediate and final products are technically closely interrelated as, for example, when the intermediate contains the same essential element as the final product or incorporates an essential element into the final product.

(iv) It is possible to accept in a single international application different intermediate products used in different processes for the preparation of the final product, provided that they have the same essential structural element.

(v) The intermediate and final products shall not be separated, in the process leading from one to the other, by an intermediate which is not new.

(vi) If the same international application claims different intermediates for different structural parts of the final product, unity shall not be regarded as being present between the intermediates.

(vii) If the intermediate and final products are families of compounds, each intermediate

compound shall correspond to a compound claimed in the family of the final products. However, some of the final products may have no corresponding compound in the family of the intermediate products so that the two families need not be absolutely congruent.

(h) As long as unity of invention can be recognized applying the above interpretations, the fact that, besides the ability to be used to produce final products, the intermediates also exhibit other possible effects or activities shall not affect the decision on unity of invention.

(i) [Rule 13.3](#) requires that the determination of the existence of unity of invention be made without regard to whether the inventions are claimed in separate claims or as alternatives within a single claim.

(j) [Rule 13.3](#) is not intended to constitute an encouragement to the use of alternatives within a single claim, but is intended to clarify that the criterion for the determination of unity of invention (namely, the method contained in [Rule 13.2](#)) remains the same regardless of the form of claim used.

(k) [Rule 13.3](#) does not prevent an International Searching or Preliminary Examining Authority or an Office from objecting to alternatives being contained within a single claim on the basis of considerations such as clarity, the conciseness of claims or the claims fee system applicable in that Authority or Office.

(l) Examples giving guidance on how these principles may be interpreted in particular cases are set out in the PCT International Search and Preliminary Examination Guidelines.

[Annex C follows]

Annex C

INSTRUCTIONS RELATING TO THE PRESENTATION OF NUCLEOTIDE AND AMINO ACID SEQUENCE LISTINGS IN INTERNATIONAL PATENT APPLICATIONS UNDER THE PCT

INTRODUCTION

1. In accordance with [Rule 5.2\(a\)](#), where the international application contains disclosure of nucleotide and/or amino acid sequences that, pursuant to the Administrative Instructions, are required to be included in a sequence listing, the description shall include a sequence listing part of the description complying with the standard provided for in the Administrative Instructions. In accordance with [Section 208](#), any sequence listing, whether forming part of the international application or not forming part of the international application, shall comply with Annex C (this Annex).

2. This Annex provides the Instructions referred to above in relation to the filing and processing of sequence listings, whether forming part of an international applications or not forming part of an international application.

DEFINITIONS

3. For the purposes of these Instructions:

(a) the expressions “sequence listing”, “nucleotide” and “amino acid” have the same meaning as in WIPO Standard ST.26;

(b) the expression “sequence listing forming part of the international application” means a sequence listing contained in the international application as filed, including any sequence listing which:

(i) is included in the international application under [Rule 20.5\(b\)](#) or [\(c\)](#) or [Rule 20.5 bis\(b\)](#) or [\(c\)](#),

(ii) is considered to have been contained in the international application under [Rule 20.6\(b\)](#),

(iii) has been corrected under [Rule 26](#), rectified under [Rule 91](#) or amended under [Article 34\(2\)\(b\)](#), or

(iv) is included in the international application by way of an amendment under [Article 34\(2\)\(b\)](#) of the description in relation to sequences contained in the international application as filed but not originally included in a sequence listing;

(c) the expression “sequence listing not forming part of the international application” means a sequence listing that does not form part of the international application but is furnished for the purposes of the international search or international preliminary examination.

RELATIONSHIP WITH WIPO STANDARD ST.26

4. The sequence listing part of the description shall comply with WIPO Standard ST.26. Subject to the specific requirements set out in this Annex, that Standard shall apply to any nucleotide or amino acid sequence disclosure in an international application, notably with regard to:

(a) whether such disclosure is to be included in a sequence listing;

(b) the manner in which disclosures are to be presented;

(c) the qualifiers for which “free text” is permitted as a value and the identification of those qualifiers for which such free text is considered language-dependent; and

(d) the Document Type Definition (DTD) for a sequence listing in XML (eXtensible Markup Language).

5. Following any revision of WIPO Standard ST.26, the Director General shall decide a date from which the revised version of that Standard shall apply to international applications and publish that information in the Gazette, together with any transitional provisions concerning the furnishing on or after that date of sequence listings related to international applications filed prior to that date.

SEQUENCES REQUIRED TO BE PRESENTED IN A SEQUENCE LISTING

6. In accordance with WIPO Standard ST.26, a sequence required to be included in a sequence listing for the purposes of [Rule 5.2](#) is one that is disclosed anywhere in an international application by enumeration of its residues and can be represented as:

(a) an unbranched sequence or a linear region of a branched sequence containing ten or more specifically defined nucleotides, wherein adjacent nucleotides are joined by:

(i) a 3' to 5' (or 5' to 3') phosphodiester linkage; or

(ii) any chemical bond that results in an arrangement of adjacent nucleobases that mimics the arrangement of nucleobases in naturally occurring nucleic acids; or

(b) an unbranched sequence or a linear region of a branched sequence containing four or more specifically defined amino acids, wherein the amino acids form a single peptide backbone, that is, adjacent amino acids are joined by peptide bonds.

7. In accordance with WIPO Standard ST.26, a sequence listing must not include, as a sequence assigned its own sequence identification number, any sequences having fewer than ten specifically defined nucleotides or fewer than four specifically defined amino acids.

PRESENTATION OF SEQUENCES IN THE INTERNATIONAL APPLICATION

8. Where sequences are included in a sequence listing, Offices may not require that the sequences also appear in the main part of the description. However, in specific cases, the applicant may have valid reasons for setting out some sequences from the sequence listing in the main part of the description, claims or drawings. Where any sequences are presented within the main part of description, claims or drawings, they may be set out in the manner considered most appropriate to present the information for the relevant purpose. In the description, claims or drawings of the application, the sequences included in the sequence listing shall be referred to by the sequence identifier preceded by “SEQ ID NO:”, even if the sequence is also embedded in the description, claims or drawings. Similarly, sequences too short to be included in the sequence listing may be presented in the manner considered most appropriate by the applicant.

LANGUAGE-RELATED REQUIREMENTS

9. WIPO Standard ST.26 prescribes the use of “controlled vocabulary” that must be used when describing the features of a sequence, that is, annotations of regions or sites of interest as set out in Annex I to the Standard.

10. Under the Standard, “qualifiers” are used to supply certain information about features in addition to that conveyed by the feature key and feature

location. There are several types of permitted “value formats” to accommodate different types of information conveyed by qualifiers, namely controlled vocabulary, enumerated values (for example, a number or date), “free text” and sequences.

11. The vocabulary set out in Annex I of the Standard that is not language-dependent shall be presented only in conformance with the requirements of WIPO Standard ST.26 and must not be translated. This includes:

(a) the nucleotide symbols set out in Section 1 and the amino acid symbols set out in Section 3;

(b) the abbreviations for modified nucleotides set out in Section 2 and the abbreviations for modified amino acids set out in Section 4 as the only permitted values for the certain qualifiers;

(c) the feature key names set out in Sections 5 and 7, and the qualifier names set out in Sections 6 and 8, notwithstanding that many of the allowed names of feature keys and qualifiers are in English or are English abbreviations (see, for example, feature keys 5.1 “C-region” and 7.18 “MOD_RES” (abbreviation of “modification of a residue”); and qualifiers 6.5 “cell_type” and 8.3 “organism”);

(d) all “value formats” set out in Sections 6 and 8 allowed to be used to accommodate different types of information conveyed by qualifiers other than “free text” (that is, controlled vocabulary, enumerated values like a number or date, and sequences), notwithstanding that many of these allowed “value formats” contain elements in English or English abbreviations or are recognizably derived from English or Latin words (see, for example, qualifier 6.15 “direction”, with the value format: “left”, “right” or “both”); and

(e) “free text” qualifier values other than those identified in the Standard as language-dependent.

12. The language-dependent free text must be provided in a language which the receiving Office accepts for that purpose. WIPO Standard ST.26 allows language-dependent free text to be provided in either one or two languages within the same sequence listing: English (in the INSDQualifier_value element) and/or another specified language (in the NonEnglishQualifier_value element). The language

or languages permitted or required to be used in any particular case are considered in paragraphs 16 to 19.

13. The language of any free text included in the NonEnglishQualifier_value element shall be indicated in the nonEnglishFreeTextLanguageCode attribute. The same language shall be used for the contents of all NonEnglishQualifier_value elements in a sequence listing. Where language-dependent free text is provided for any INSDQualifier_value or NonEnglishQualifier_value element, it shall be provided in the relevant language for all such elements.

14. The language considered to be the original language of all of the language-dependent free text, being the language, or one of the languages, of the language-dependent free text in the sequence listing furnished at the time of filing, shall preferably be indicated using the originalFreeTextLanguageCode attribute of the ST26SequenceListing element. The indicated language may be used in the international phase to assist the assessment and, where relevant, rectification of discrepancies found between an INSDQualifier_value element and a NonEnglishQualifier_value element for a language-dependent free text qualifier included in the sequence listing as filed. For national phase processing, the relevance of the indicated original language in cases where more than one language version of free text was included on the international filing date shall be a matter of national law.

15. WIPO Standard ST.26 requires that the name of the first mentioned applicant be provided in the language of filing. Where the name of the first mentioned applicant is not provided in Latin characters, a transliteration or translation must also be provided in Latin characters, irrespective of the language of the sequence listing otherwise. The title of the invention must be provided in the language of filing and may also be provided in additional languages. In any sequence listing translation submitted to the receiving Office, the International Bureau, the International Searching Authority or the International Preliminary Examining Authority, the applicant may add these items in the language of the translation, but shall not be required to do so.

Languages of the Sequence Listing as Filed

16. [Rule 12.1\(d\)](#) allows receiving Offices to specify the language or languages that may be used for language-dependent free text in a sequence listing forming part of the international application as filed. The Office may allow or require the language-dependent free text to be submitted in a language either the same as or different to that of the main body of the international application. The receiving Office may also permit, but may not require the sequence listing as filed to include language-dependent free text in a second language in accordance with WIPO Standard ST.26. This allows the language-dependent free text to be submitted simultaneously in the language of the main body of the international application as filed and in a different language required for the purposes of the international search or international publication under [Rule 12.3](#) or [12.4](#). In this case, it is not required to submit the translation of the main body of the international application at the same time as the sequence listing; the translation of the main body may be provided at a later date and the translation as a whole will be considered as received on the date on which the final part of the translation is received.

Translations of the Sequence Listing

Where a translation of the language-dependent free text in the sequence listing of the international application or of an earlier application is required as part of a translation under [Rule 12.3](#), [12.4](#), [12 bis.2\(a\)\(ii\)](#), [20.6\(a\)\(iii\)](#), [45 bis.1\(c\)\(i\)](#), [49.5](#) or [55.2\(a\)](#), that translation shall be provided in the form of a new sequence listing containing all of the language-dependent free text in the required language, either in addition to or replacing languages in the sequence listing from which the text is being translated. The remainder of the sequence listing shall remain unchanged, save for:

(a) the appropriate attributes of ST26SequenceListing describing the content, notably including the productionDate and, where relevant, nonEnglishFreeTextLanguageCode;

(b) preferably, including the application identification details (IP Office code, international application number and international filing date) if these have been accorded and notified to the applicant, as well as, where applicable, updating any of the other elements of the general information part that have been modified since the international application was filed, or translating them into the

language of the translated language-dependent free text. The receiving Office or International Authority shall not require correction or updating of any elements in the general information part solely because there are differences from the corresponding details in the remainder of the international application or the element details have changed between the international filing date and the date on which the translation is submitted, nor require translation of such elements.

18. The originalFreeTextLanguageCode attribute shall continue to indicate the original language, irrespective of whether that language version is included in the translated sequence listing.

Languages of Sequence Listings Not Forming Part of the International Application

19. Where a sequence listing is furnished under [Rule 13 ter.1](#) or [13 ter.2](#) for the purposes of the international search or the international preliminary examination, the language-dependent free text shall be provided in one of the languages accepted by the International Searching Authority or the International Preliminary Examining Authority, normally the same language as that used for the main part of the description. The sequence listing may also include the language-dependent free text in a second language, normally either the language of filing or English.

FILING AN INTERNATIONAL APPLICATION CONTAINING A SEQUENCE LISTING OR FURNISHING A SEQUENCE LISTING AFTER FILING

20. The requirement that a sequence listing be presented as an XML file under WIPO Standard ST.26 means that it can only be filed or furnished in electronic form. An application containing sequences as described in paragraph 6 without such a sequence listing is defective and may be difficult to correct at a later stage. It is strongly recommended that the sequence listing be prepared using WIPO SEQUENCE or equivalent software, which validates the form and aspects of the content of the sequence listing.

21. Where an international application containing a sequence listing is filed in electronic form, whether transmitted by electronic or physical means, the sequence listing should preferably form part of a package filed in accordance with [Annex F](#),

with the sequence listing indexed in accordance with the standards set out in that Annex.

22. Notwithstanding paragraph 21, any receiving Office may accept an electronic file appearing to contain a sequence listing submitted separately from the main package on the date of filing and should accept such a separate electronic file in any case where it is not practical for the applicant to include the sequence listing as part of the main package, for example, because the file size is too large to be handled by the software used for preparing or receiving the remainder of the international application. If the receiving Office is not able to process such an application, the application shall be considered to have been received by that Office on behalf of the International Bureau as receiving Office in accordance with [Rule 19.4\(a\)\(ii- bis\)](#).

SEQUENCE LISTING FILED ON SEPARATE PHYSICAL MEDIA

23. Any physical medium containing a sequence listing filed separately from a package as referred to in paragraph 21 or where the remainder of the international application is filed on paper, shall be clearly labeled “Sequence Listing” or its equivalent in the language of publication, to which the Office to which the sequence listing is submitted shall add the international application number. Where the sequence listing is submitted after the international filing date, the Office shall also indicate the nature of the sequence listing in accordance with the appropriate one of Sections [309](#) to [310ter](#), [325](#), [511](#), [513](#), [607](#) or [610](#). Preferably, the physical medium used for the transmittal of the sequence listing shall be of a type accepted by both the receiving Office and the International Searching Authority chosen to carry out the international search.

24. Where the file size of a sequence listing is too large to be included on a single physical medium, it shall be split such that the files can be rejoined to form one single contiguous file without any missing or repeating contents in accordance with the procedures set out in paragraphs 2(c) and (c- bis) of Appendix IV to [Annex F](#) of these Administrative Instructions. In addition to the labeling referred to in paragraph 23, the physical media shall each be numbered, for example “DISK 1/3”, “DISK 2/3”, “DISK 3/3”.

SEQUENCE LISTING IN ELECTRONIC FORM WITH THE REMAINDER OF THE INTERNATIONAL APPLICATION FILED ON PAPER

25. Applicants are strongly discouraged from filing international applications with the main body on paper and the sequence listing separately in electronic form. Nevertheless, in accordance with [Section 703](#) paragraphs (d) and (e), any receiving Office may accept an international application filed in that way and should do so if it is apparent that it would not have been practical for the applicant to file the application with the receiving Office in any other way. If the receiving Office is not able to process such an application, the application shall be considered to have been received by that Office on behalf of the International Bureau as receiving Office in accordance with [Rule 19.4\(a\)\(ii- bis\)](#).

RECEIVING AND PROCESSING AN INTERNATIONAL APPLICATION CONTAINING A SEQUENCE LISTING

CHECKING BY THE RECEIVING OFFICE

Electronic File Appearing to Be a Sequence Listing

26. The receiving Office shall treat any electronic file appearing to be a sequence listing in WIPO Standard ST.26 XML format as a sequence listing forming part of the international application if it is received on or before the date on which the receiving Office determines that the papers purporting to be an international application fulfill all of the requirements under [Article 11\(1\)](#), whether or not that listing is referred to in the main part of the description or in the request, even if it is not correctly marked as such, except for the case where a second sequence listing is provided as part of a translation for international search under [Rule 12.3](#) or international publication under [Rule 12.4](#). This is independent of the question whether or not the electronic file purporting or appearing to be a sequence listing is in fact compliant with WIPO Standard ST.26 (which is not required to be checked by the receiving Office but only by the International Searching Authority). Where the receiving Office finds that a separate electronic file disclosing sequences appears to be in a format other than in WIPO Standard ST.26 XML format, it shall seek clarification from the applicant on whether the content of the file is intended to form part of the

description and invite the applicant to furnish the content in the format accepted for the main part of the description if necessary. For this purpose, the receiving Office may require a statement from the applicant that the content of the document resubmitted in the accepted format is identical to that of the electronic file originally submitted. Alternatively, the receiving Office may convert the file to that format on agreement from the applicant.

Checking for Compliance with WIPO Standard ST.26 and for Other Defects

27. The receiving Office shall not be required to perform automated validations to check whether a sequence listing is compliant with WIPO Standard ST.26 or otherwise to check whether its contents are compliant with the requirements of the Rules and these Administrative Instructions. However, where the Office becomes aware of a defect, for example, because its online filing processes or other Office procedures check the sequence listing file using the validation tool provided for the purpose by the International Bureau, the Office may notify the applicant accordingly.

28. Where the receiving Office identifies a discrepancy between any of the information in the general information part of the sequence listing and the corresponding information in the request or application body, the receiving Office may draw the fact to the applicant's attention. The applicant may correct the discrepancy within the time limit provided for in [Rule 26.2](#) but shall not be required to do so. The international application shall be processed on the basis of the indications made in the request.

Calculation of International Filing Fee

29. In accordance with [Section 707\(a-bis\)](#), where the international application as filed contains an electronic file appearing to be a sequence listing in WIPO Standard ST.26 XML format, the calculation of the international filing fee shall, in the calculation of the number of sheets, not take into account any material contained in such an electronic file. However, where the electronic file is in any other format, or it is obviously not a sequence listing, for example, the main part of the description, claims or drawings mislabeled as a sequence listing, such a file should be taken into account in the calculation of the number of sheets.

Processing of a Sequence Listing Submitted After the International Filing Date

30. Where a sequence listing is received after the international filing date under any of Rules [12.3](#) (translation for the purposes of international search), [12.4](#) (translation for the purposes of international publication) or [26.4](#) (correction of a defect), the receiving Office shall forward a copy of the sequence listing to the International Searching Authority and to the International Bureau together with any replacement sheets also submitted for the relevant purpose, in accordance with [Section 305 bis](#) or [325](#), as applicable under [335\(a\)](#).

31. Where a sequence listing is received after the international filing date under [Rule 13ter](#) (sequence listing for the purposes of international search, not forming part of the international application), the receiving Office shall forward it to the International Searching Authority.

CHECKING BY THE INTERNATIONAL SEARCHING AUTHORITY OR THE INTERNATIONAL PRELIMINARY EXAMINING AUTHORITY

32. The International Searching Authority or the International Preliminary Examining Authority shall check that any sequence listing received as part of the search copy, or of a copy of the international application provided for the purposes of international preliminary examination, is compliant with the requirements of WIPO Standard ST.26 and that the language-dependent free text meets the language requirements of the Authority. Where the sequence listing contains defects, or where the international application contains sequences that should have been included in a sequence listing but were not, the Authority may invite the applicant to submit a sequence listing under [Rule 13 ter.1](#) for the purposes of international search or [13 ter.2](#) for the purposes of international preliminary examination.

CORRECTION, RECTIFICATION AND AMENDMENT OF A SEQUENCE LISTING

33. Any correction under [Rule 26](#), rectification under [Rule 91](#) or amendment under [Article 34\(2\)\(b\)](#) of the description submitted in relation to a sequence listing forming part of the international application as filed and any sequence listing included in the international application by way of an amendment under [Article 34\(2\)\(b\)](#) of the description in relation

to sequences contained in the international application as filed shall be made by submitting a complete new sequence listing compliant with WIPO Standard ST.26 including the relevant correction, rectification or amendment. The nature of the correction, rectification or amendment shall be clearly explained in an accompanying letter.

34. In compliance with WIPO Standard ST.26, any sequence listing referred to in paragraph 33 shall, where possible, maintain the original numbering of the sequences in the application as filed, representing any “intentionally skipped sequence” as prescribed by WIPO Standard ST.26, where necessary. Otherwise, the sequences shall be numbered in compliance with that Standard in the order in which they appear in the international application.

35. Where the sequence listing referred to in paragraph 33 as proposed to be corrected, rectified or amended is presented on physical media, the media shall be labeled “Sequence Listing – Correction”, “Sequence Listing – Rectification” or “Sequence Listing – Amendment”, as the case may be, or the equivalents in the language of publication, together with the international application number.

36. Where the new sequence listing is received by the receiving Office, that Office shall not be required to check the content of the sequence listing. The Office may simply check that it has received an electronic file that appears to be a sequence listing, together with an accompanying letter and then forward these items to the International Searching Authority and International Bureau, together with any accompanying corrected, rectified or amended sheets of the main body of the international application.

INCORPORATION BY REFERENCE; MISSING AND ERRONEOUSLY FILED PARTS

37. A sequence listing missing from the international application as filed may be included into the international application under [Rule 20.5](#), or a sequence listing erroneously filed may be removed and replaced under [Rule 20.5 bis](#). Where relevant, the appropriate sequence listing may be confirmed as incorporated by reference under [Rule 20.6](#).

38. In accordance with [Section 335](#), the procedures for such arrangements are equivalent to those for other parts of the description. Where the

sequence listing is not incorporated by reference and the international filing date is corrected, there is no need to compare the newly provided sequence listing to that from the earlier filed application and the receiving Office need only tag the sequence listing in the appropriate manner and proceed as in [Sections 310](#) and [310 bis](#). Where the sequence listing is incorporated by reference, the procedure in [Section 309](#) applies, in which case the receiving Office shall make the appropriate marking in the filename or metadata of the XML file containing the respective sequence listing. The receiving Office is recommended to seek guidance from the International Bureau if assistance is required in the comparison of sequence listings provided for confirmation of incorporation by reference with the sequence listing from an earlier application.

SEQUENCE LISTING NOT FORMING PART OF THE INTERNATIONAL APPLICATION

39. Any sequence listing furnished under [Rule 13 ter.1](#), [13 ter.2](#) and [45 bis.5\(c\)](#) to an International Authority for the purposes of international search or preliminary examination shall not form part of the international application, pursuant to [Rule 13 ter.1\(e\)](#) (where applicable, by virtue of [Rules 13 ter.2](#) and [45 bis.5\(c\)](#)). Any such sequence listing submitted shall be accompanied by a statement to the effect that the sequence listing does not go beyond the disclosure in the international application as filed.

40. Paragraphs 4 to 20 and 24 of this Annex shall apply mutatis mutandis to any such sequence listing. Such a sequence listing shall contain all sequences disclosed in the international application as filed that meet the criteria referred to in paragraph 6. In compliance with WIPO Standard ST.26, such a sequence listing shall, where possible, maintain the original numbering of the sequences in the application as filed, representing any “intentionally skipped sequence” as prescribed by WIPO Standard ST.26, where necessary. Otherwise, the sequences shall be numbered in compliance with that Standard in the order in which they appear in the international application.

41. Where such a sequence listing is furnished on physical media, the media shall be labeled “Sequence Listing Not Forming Part of the International Application”, or its equivalent in the language of publication or of international

preliminary examination, together with the international application number.

TRANSMISSION OF SEQUENCE LISTINGS BETWEEN OFFICES

42. Where a sequence listing is to be transmitted between any of the receiving Office, the International Bureau, the International Searching Authority, the International Preliminary Examining Authority and a designated or elected Office, it shall be sent with the file contents unchanged from the version received from the applicant. Where the sequence listing is transmitted online, the international application number and type of sequence listing (as filed, corrected, for purpose of international search, etc.) shall be encoded in the filename, referencing XML or equivalent metadata appropriate to the means of online transmission.

43. Where a sequence listing was received on a physical medium, the sequence listing may be transmitted online, in which case, the international application number and type of sequence listing should be encoded in the filename or associated metadata in the same way as if the sequence listing had been received online. If the sequence listing is transmitted on a physical medium, the medium should be physically labelled as indicated in the relevant paragraphs above, without changing any of the content on the medium.

PROCEDURE BEFORE DESIGNATED AND ELECTED OFFICES

44. Rules [13 ter.3](#) and [76.5](#) require that no designated or elected Office shall require the applicant to furnish to it a sequence listing other than a sequence listing complying with the standard provided for in the Administrative Instructions. Where no sequence listing complying with the standard and containing the language-dependent free text in the language required for national processing is available to the designated or elected Office, that Office may require the applicant to furnish a translation under [Rule 49.5](#) in the form of a new sequence listing according to paragraphs 17 and 18, within a time limit which shall be reasonable in the circumstances.

45. The designated or elected Office shall not require a new sequence listing as part of a translation under [Rule 49.5](#) solely because a sequence listing already provided as part of the international application contains language-dependent free text in a second language in addition to that required for national processing or because the sequence listing does not contain national application identifiers in the general information part of the sequence listing.

NOTIFICATION OF RECEIPT AND TRANSFER OF FEES

I. INTRODUCTION

1. Pursuant to Rules [96.2\(b\)](#) and [96.2\(c\)](#) and [Section 114](#) of the PCT Administrative Instructions, the notification of receipt of fees and the transfer of fees collected by one Office for the benefit of another Office shall be carried out in accordance with the provisions set out in this Annex.

2. This Annex provides the Instructions referred to above in relation to the filing and processing of sequence listings, whether forming part of an international applications or not forming part of an international application.

II. AGREEMENTS AND TIMETABLES

II.1 AGREEMENT TO PARTICIPATE IN THE WIPO FEE TRANSFER SERVICE

3. An Office (“participating Office”) may agree with the International Bureau to participate in the WIPO process for exchanging fees via the International Bureau (“WIPO Fee Transfer Service”) for PCT purposes by:

(a) transferring some or all fees collected by it for the benefit of another participating Office to that other participating Office via the International Bureau in accordance with the provisions set out in this Annex; and

(b) having some or all fees collected by another participating Office for its benefit transferred to it via the International Bureau in accordance with the provisions set out in this Annex.

4. Where a collecting Office and the corresponding beneficiary Office have agreed to participate in the WIPO Fee Transfer Service, the transfer of

(a) international filing fees under [Rule 15.2\(c\)](#) or [\(d\)](#) collected by the Office in its capacity as a receiving Office for the benefit of the International Bureau;

(b) search fees under [Rule 16.1\(c\)](#) or [\(d\)](#) collected by the Office in its capacity as a receiving Office for the benefit of a participating Office in its capacity as an International Searching Authority;

(c) supplementary search fees under [Rule 45 bis.3\(b\)](#) collected by the International Bureau for

the benefit of a participating Office in its capacity as an Authority specified for supplementary search;

(d) handling fees under [Rule 57.2\(c\)](#) or [\(d\)](#) collected by an International Preliminary Examining Authority for the benefit of the International Bureau; and

(e) differences under [Rule 16.1\(e\)](#) relating to search fees received by the Office in its capacity as an International Searching Authority in a currency other than its fixed currency; from the collecting office to the International Bureau for further transfer to the beneficiary Office shall be considered to be the transfer of said fee in accordance with [Rule 15.2\(c\)](#) or [\(d\)](#), [Rule 16.1\(c\)](#) or [\(d\)](#), [Rule 45 bis.3\(b\)](#), [Rule 57.2\(c\)](#) or [\(d\)](#), or [Rule 16.1\(e\)](#), as applicable and shall not be considered a payment by the collecting office to a third party. The transfer shall be carried out promptly in accordance with a timetable for such transfers agreed between the Offices concerned and/or the International Bureau. The Office carrying out the transfer (including, where applicable, the International Bureau) shall bear all bank charges for the transfer of the fees.

5. A participating Office, in its capacity as an International Searching Authority, may agree with the International Bureau that some or all of the transfers of fees by it under paragraph 3(a) and the transfer of fees to it under paragraph 3(b) shall be subject to netting in accordance with the provisions set out in this Annex (“fee transfer subject to netting”).

6. The agreement shall specify the formats referred to in paragraphs 10 and 14, below, in which notifications of fee payments and lists of fees to be transferred shall be exchanged.

7. The International Bureau shall publish a list of the PCT fee transfers that are part of the WIPO Fee Transfer Service for each participating Office in the PCT Gazette.

II.2 COMMON TIMETABLE FOR FEE LISTS AND FEE TRANSFERS

8. The International Bureau shall, following consultation with participating Offices and taking into account dates when Offices are closed or bank transfers may not be possible, annually establish a

timetable (“the common timetable”) specifying the latest dates each month by which lists should be established under paragraphs 13 and 14, below, and transfer of fees made to and from the International Bureau under paragraphs 19 to 23, below. The timetable and any subsequently required modifications shall be transmitted to each participating Office and published in the PCT Gazette.

III. NOTIFICATION AND TRANSFER OF FEES VIA THE INTERNATIONAL BUREAU

III.1 NOTIFICATION OF THE RECEIPT OF FEES

Notification to the International Bureau by a Collecting Office

9. In accordance with [Rule 96.2\(b\)](#), a collecting Office shall promptly notify the International Bureau of each fee received in full by the Office for the benefit of the International Bureau or to be transferred to a beneficiary Office via the International Bureau. It shall preferably also promptly notify the International Bureau of other fees received, whether for the benefit of itself or of other beneficiary Offices in their role as receiving Office, International Searching Authority, Authority specified for supplementary search or International Preliminary Examining Authority.

10. A notification of a fee received by a collecting Office according to paragraph 9 shall be made to the International Bureau in a format agreed between the collecting Office and the International Bureau. The notification shall contain sufficient information to make clear the relevant international application and the type of fee paid and shall preferably be made using XML conforming to a DTD published for the purpose in Appendix I to [Annex F](#).

11. In the case where an overpayment has been received, the fee shall be promptly notified as having been paid in the proper amount, without waiting for any refunds to be made.

Notification to the Beneficiary Office by the International Bureau

12. Where a notification under [Rule 96.2\(b\)](#) relates to a fee for a beneficiary Office other than the International Bureau, the International Bureau

shall promptly inform the Office concerned. Where the search copy is transmitted to the International Searching Authority by the International Bureau on behalf of the receiving Office, information that the search fee has been paid may take the form of the transmission of the search copy and, where necessary, be delayed until the other requirements for such transmission have been met.

III.2 TRANSMISSION OF INFORMATION BY PARTICIPATING OFFICES TO THE INTERNATIONAL BUREAU CONCERNING MONTHLY OR OTHER PERIODIC FEE TRANSFERS

Transmission of fee transfer information by the Collecting Office

13. A participating collecting Office shall establish and transmit to the International Bureau, in accordance with the common timetable, a list of:
