To whom it may concern,

I hope this finds you well.

I understand that locations for USPTO satellite offices is being considered. With the amount of innovation that comes from the San Francisco area I would encourage you to consider locating an office in the immediate area. Having this resource available on a local basis will encourage more small businesses to seek these services that might not otherwise be able to afford them. I know that we have some ideas ourselves, and don't want to work with large law firms.

Thank you for your consideration.
