# OCIO IT highlights

- OCIO Data Center moves
  - Phase 1 – Boyers to Manassas successfully completed - 922 pieces of IT equipment supporting 62 IT systems moved over six days
  - Phase 2 – Shutdown and move the Alexandria Data Center to Manassas VA (January 2022 – April 2023)
- Improved the conversion of TEAS PDF files into JPG files for use by internal systems
  - Deployed a new Content Management System service to replace existing one
- Continued rolling out Agile infrastructure improvements
  - Added new DevSecOps Pipelines and Blue/Green environments, and all remaining components projected to complete by the end of October 2021

*DevSecOps Pipelines = faster deployments*  
*Blue/Green environments = increased availability*
