

Patent Center - eGrant

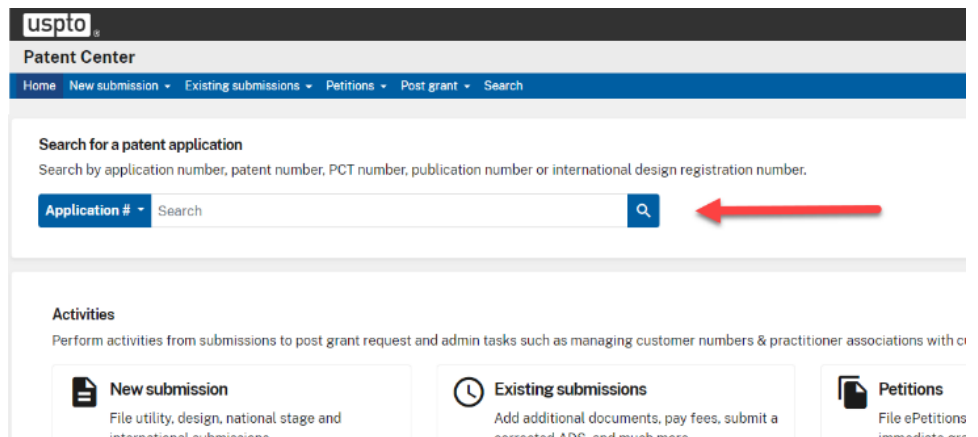

Quick Reference Guide | April 2023

Patents with the issue date of April 18, 2023 onwards will be issued as an electronic patent grant (eGrant), available through Patent Center on the issue date. Patent Center unregistered and registered users will be able to download a PDF of the grant and print an unlimited number of official grant copies at any time.

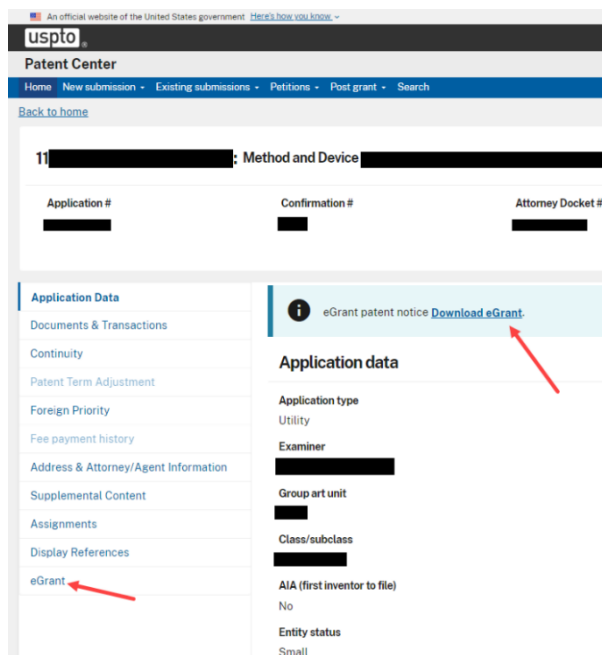

Step 1: Retrieve the application

To retrieve an application file, Patent Center users may select and enter the patent number, application number, publication number, or international design registration number in the search box.

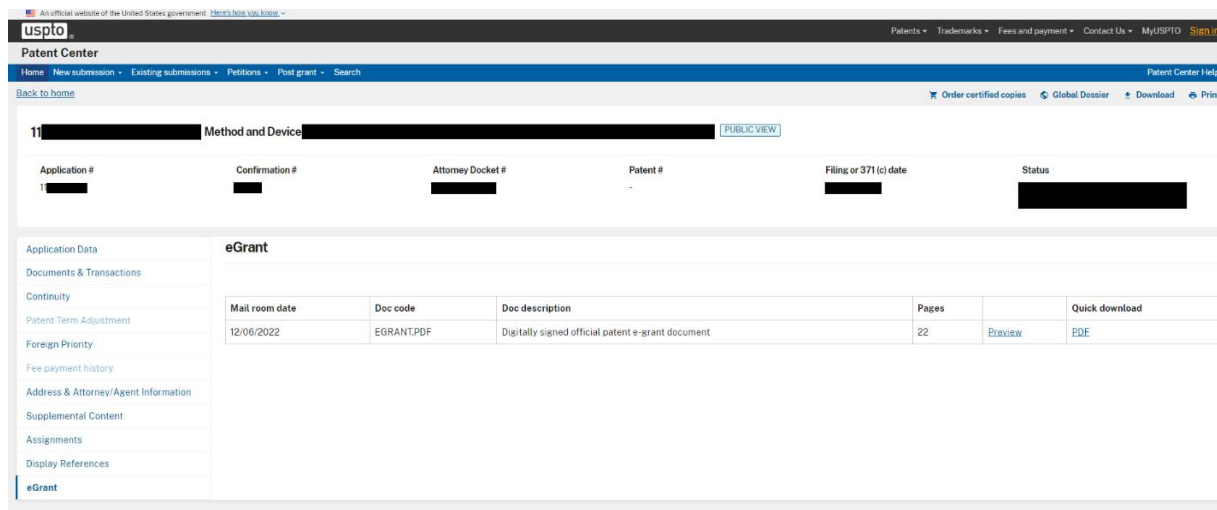

Step 2: Determine if an eGrant is available

Users will be able to determine if an eGrant is available, by observing one of two visual indicators: (1) an active link in the left-hand panel of tabs labeled eGrant; (2) a banner with an informational icon noting the availability of the eGrant with a direct link to download the eGrant immediately.

Step 3: Preview or download the eGrant

Additional information about the eGrant can be accessed by selecting the active link in the left-hand panel. Information about the eGrant including mail room date and the number of pages is displayed. The eGrant may be accessed as a preview or as a quick download. The quick download PDF link will download the eGrant to the user's Downloads Folder and also open a copy within the browser. eGrants can be printed from the downloaded copy or within the browser (preview and quick download).

The downloaded eGrant will be in PDF format. The USPTO seal on an electronic patent grant (eGrant) represents the digital signature. This signature ensures the authenticity of the eGrant by digitally signing the file, which informs the user that the eGrant was created by the USPTO and has not been altered. To fully view and see the digital signature properties and additional details, please download the eGrant file to your computer and open with a PDF-viewing application.

Note: For patents that contain bulk sequence listing(s) or large table(s), users will be able to access it via a link within the eGrant. Users can directly click on the link or right-click to copy and paste the hyperlink into a web browser.

For technical issues or troubleshooting with accessing eGrants, please contact the Patent Electronic Business Center at ebc@uspto.gov or 866-217-9197, Monday - Friday, 6 a.m. - midnight, ET.
