Dear all,

Please do not begin to charge for letters of protest. Those are the only way our voices can be heard against business bullies who try (and succeed) to trademark common words and phrases like Dogs, I Love My Wife, and Duh!

Business bullies should not be able to keep super common words like the above examples to themselves. Please don't let them win even more by charging for Letters of Protest. I beg you to let the protests continue to be free of charge.

Thank you so much! Appreciate it!
