Reg. No. 6,959,300

Registered Jan. 24, 2023

Corrected May 30, 2023

**Int. Cl.: 6, 7, 9, 16, 20, 35, 37,
40, 41, 42**

Service Mark

Trademark

Principal Register

Phoenix Contact GmbH & Co. KG (GERMANY GmbH & Co. KG)
Flachsmarktstr. 8
32825 Blomberg
FED REP GERMANY

CLASS 6: Metal hardware, namely, fastening clips; metal nuts; bolts of metal; metallic mounting brackets; labels of metal; all the abovementioned goods exclusively for use [with] * in building * industrial control cabinets used in controlling the electronic processes of other finished machines, but not including agricultural use

CLASS 7: Industrial robots; machines and machine tools for building industrial control cabinets; machines and machine tools for treatment of materials *, including surfaces * ; printing machines for commercial or industrial use; electrostatic coating machines, all the above-mentioned goods exclusively for use in the manufacturing of industrial control cabinets used in controlling the electronic processes of other finished machines

CLASS 9: Downloadable and recorded computer software for use in designing industrial control cabinets which are used in controlling the electronic processes of other finished machines; Downloadable and recorded application software for use in designing industrial control cabinets which are used in controlling the electronic processes of other finished machines; Downloadable and recorded artificial intelligence software for use in designing industrial control cabinets which are used in controlling the electronic processes of other finished machines; Downloadable and recorded artificial intelligence and machine learning software for use in designing industrial control cabinets which are used in controlling the electronic processes of other finished machines; Downloadable and recorded software featuring databases of information on the design of industrial control cabinets; Downloadable and recorded firmware for use in designing industrial control cabinets which are used in controlling the electronic processes of other finished machines; Downloadable and recorded virtual and augmented reality software for use in designing industrial control cabinets which are used in controlling the electronic processes of other finished machines; Downloadable and recorded web application and server software for use in designing industrial control cabinets which are used in controlling the electronic processes of other finished machines; image scanning apparatus, namely, image scanners; document printers; data processing equipment; computers; computer hardware; computer peripheral devices; data processing apparatus; Downloadable and recorded computer programmes for data processing; optical enhancers, namely, optical lamps and optical readers; lasers for industrial use; light sensors; illuminated signs; digital signage display panels; Downloadable and recorded e-commerce and e-payment software, namely, for use in processing e-payments and e-commerce transactions; image capturing and developing devices, namely, cameras and video cameras; all the above-mentioned goods exclusively for use [with] * in building * industrial control cabinets used in controlling

Katherine Kelly Vidal

Director of the United States
Patent and Trademark Office

the electronic processes of other finished machines

CLASS 16: Labels, not of textile, namely, labels of cardboard; labels of paper, all the above-mentioned goods exclusively for use [with] * in building * industrial control cabinets used in controlling the electronic processes of other finished machines

CLASS 20: Labels of plastic; non-metallic threaded fasteners * for use in switch cabinets, especially for mounting rails *, plaques made of plastics; furniture, namely, showcases, display stands; signboards of wood or plastics; nameplates, not of metal, all the above-mentioned goods exclusively for use [with] * in building * industrial control cabinets used in controlling the electronic processes of other finished machines

CLASS 35: Business management of the wholesale and retail outlets of others; business consultancy and advisory services; business analysis and information services, and market research, all the above-mentioned services exclusively for use in the field of * building * industrial control cabinets used in controlling the electronic processes of other finished machines

CLASS 37: Machinery installation, maintenance and repair; computer hardware and telecommunication apparatus installation, maintenance and repair; rental of machines, tools and apparatus for building construction, all the above-mentioned services exclusively for use in the field of * building * industrial control cabinets used in controlling the electronic processes of other finished machines

CLASS 40: Rental of printing machines and equipment for the custom manufacturing of industrial control cabinets used in controlling the electronic processes of other finished machines; providing information relating to the treatment of materials in the field of * building * industrial control cabinets used in controlling the electronic processes of other finished machines * ; all the above-mentioned services exclusively in the field of control cabinet building *

CLASS 41: Arrangement of conferences for educational purposes, namely, in the field of electrical control cabinet design and manufacturing; arrangement of seminars for educational purposes, namely, in the field of electrical control cabinet design and manufacturing; educational services, namely, teaching and training in the field of electrical control cabinet design and manufacturing; arranging, conducting and organisation of educational conferences in the field of electrical control cabinet design and manufacturing; arranging, conducting and organisation of seminars in the field of electrical control cabinet design and manufacturing; arranging of exhibitions for educational purposes, namely, for training in the field of electrical control cabinet design and manufacturing; arranging and presenting of live performances, namely, live lectures in the field of electrical control cabinet design and manufacturing; presentation of live performances, namely, lectures in the field of electrical control cabinet design and manufacturing; organisation of live performances, namely, lectures in the field of electrical control cabinet design and manufacturing; all the aforementioned services only in relation to industrial applications, process control and automation, [especially] *, namely, for * electrical panels and * control * cabinets

CLASS 42: Scientific and technological services, namely, new product development in the field of electrical panels and cabinets; engineering services; product quality testing; authentication of digital certificates; quality control for others; information technology [IT] consultancy services; IT consultancy, advisory and information services; software development, programming and implementation; testing the functionality of machines; testing the functionality of apparatus and instruments; rental of measuring apparatus; rental of data processing apparatus and computers; rental of science and technology equipment, namely, electrical panels and cabinets, all the above-mentioned services exclusively for use in the field of * building * industrial control cabinets used in controlling the electronic processes of other finished machines

THE MARK CONSISTS OF STANDARD CHARACTERS WITHOUT CLAIM TO

ANY PARTICULAR FONT STYLE, SIZE OR COLOR

EXPIRES 01-04-2031

SER. NO. 79-316,158, FILED 01-04-2021

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
