COMPLAINT REGARDING INVENTION PROMOTER

Instructions: Read the reverse side of this form before completing and submitting the form. Complete as much of the form as possible and return it to the U.S. Patent and Trademark Office, Office of Independent Inventor Programs, Box 24 Washington, D.C. 20231 or fax to (703) 306-5570. Please type or write clearly.

Invention Promoter's Name: INVENT-Tech
 Invention Promoter's Address: 2655 LEJEUNE Road / Suite 550
 City CORAL GABLES State FL Zip Code 33134-5846
 Complainant's Name: DARlene Covington
 Complainant's Address: 15443 Elm ST
 City Georgetown State IL Zip Code 601846
 Customer's Name: Darlene Covington

WHAT IS YOUR COMPLAINT?

Please be as specific as possible within the space provided

Name of mass media invention promoter advertised:

Cross light

Invention promotion services offered to be performed:

Explanation of complaint between customer and invention promoter:

I didnt have room to write on this paper so I did it on a nuther sheet of paper

Thank you

PS. I HAVE EVERY-thing in Black & white you can also check my phone records

OFFICE OF THE
COMMISSIONER FOR PATENTS

To whom it may concern,

My complaint with Invention Tech is, I sent them an idea of a cross light necklace, witch would light up. I was told it was a great idea; they did a search to see if there was any other product out there like that. When the search was complete the called me and informed me that there was no product out there like the cross light and that my idea was one of a kind.

The only problem I had at the time was they needed 2,000.00 dollars to get it started. They then pursued me calling me night and day, day and night saying time was money, money is time. These phone calls persisted from January of 2000 until June 2000 of 2001. The man making these phone calls was Ralph Regueiro from invention tech.

Ralph called me night and day telling me I need to get the money soon because it was such an unique idea. He told me not to let an opportunity like this slip out of my hands. I didn't have that kind of money! They said they were going to a trade show and they would like to take the cross light with them. But in order for them to do that they had to have the money. So one day I went and got a loan and sent them a total of 2,000.00 dollars. The day I did that they never called me back, they just sent me letters to send out to manufacturers. That's exactly what I did I sent the letters too many manufactures. To make a long story short, one day I came across my cross light for sale!! I called invention tech immediately and they said for every Pepsi there is a coke for every Hardees there is a McDonalds.

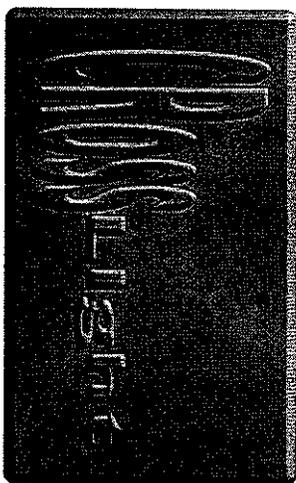

I took it upon myself and got an attorney. He did some research and to find out the cross light idea was already patent on May of 2001 but it was filed in January of 1999. I sent invention tech my idea for a cross light in on December 1, 1999. So as you can see invention tech lied to me from the beginning, by telling me there was nothing out there like the cross light and that it was an unique idea. When all they had to say was "Mrs. Covington you had a great idea, but there is already an idea out there like that.

I trusted them and with all due respect I want my money back in full and I want them to pay my attorney. I have everything in black and white and invention tech misrepresented me. My attorney's name is Michael Berns you can reach him at (217) 384-7111 and his fax is (217) 384-4206.

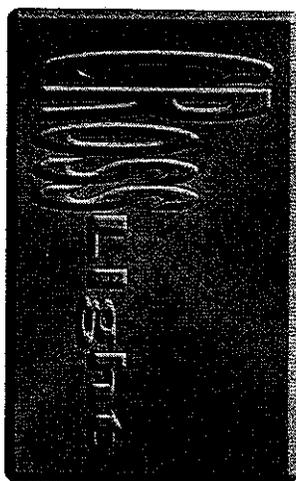

It only took Mr.Berns 30 minutes to find out that the cross light was already patent. Mr.Berns fee is 360.00 dollars witch I feel should be paid by invention tech I also feel invention tech should pay me my 2,000.00 dollars and then some; because I feel they took my hopes away. For two years I believed, waited, trusted, and put many hours into all of the letters I sent out and all the stamps I had to pay for. When in all reality this idea of the cross light was all along out there. You may check my phone records from January to June to see how much they pursued me. Enclosed is a copy of the letter they had me send to all of those manufactures.

Thank you,
Darlene Covington

INTRODUCING

*An Innovative New
Product For Your
Company...*

This product will be represented
at the following trade show
events:

World Exhibition of Invention
& Innovation

NIEX

Messe Frankfurt

Eureka

Genia - Patent World

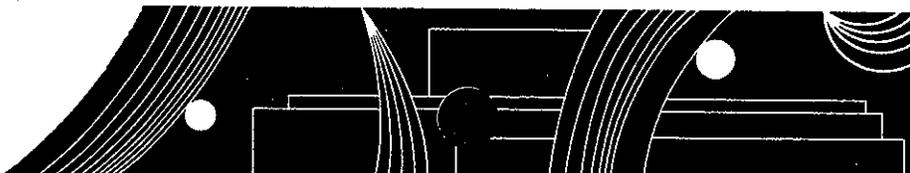

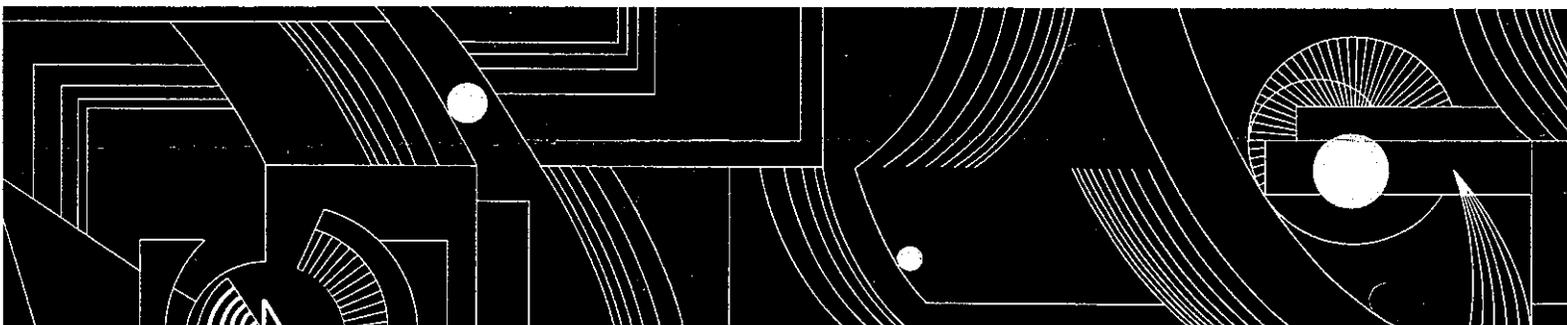

The London International
Inventions Fair

Salon International
Des Inventions

Invention Technologies, Inc.
2655 LeJeune Road, Ste. 550
Coral Gables, FL 33134-5846
Phone: 800.940.9020 Ext. 280
Fax: 800.810.9040

INVENTION TECHNOLOGIES, INC.

Why I've Contacted You:

I have invented a new product that I feel offers your company a unique opportunity to expand or diversify its current product line.

The following introductory description of my new product will explain its function and design features in very general terms in hopes of sparking your initial interest in my invention. I will be more than happy to provide more detailed product information upon your request. In fact, the primary purpose of this mailing is to seek your request for more information.

I have provided a reply card which I ask that you complete, tear off and return to me as soon as possible. There is absolutely no cost or obligation involved in returning this reply card. I will, however, ask for your firm's assurance of confidentiality.

I am certain that once my invention has been fully developed by a firm such as yours it will have the potential to become a successful, profitable new product. Your request for more information will be both welcomed and appreciated.

Very Truly Yours,

Inventor

Cross Light

Inventor(s): Darlene Covington

Designed as an innovative new religious product designed as an illuminated symbol to be worn as a bracelet or pendant.

Allows wearers to demonstrate their religious faith.

Illumination makes product visible in the dark.

Low manufacturing costs using existing assembly lines and production facilities make it simple to mass produce.

All production materials and components are readily available on the commercial level.

Attractive and tasteful.

Potential for use on T-shirts, home accessories and ornaments.

International Mass-Market appeal.

Can be sold at or made available through religious stores, jewelry stores and department stores.

Please Fill Out And Return This Card For More Information

I will send you much more detailed product and design information as well as a compilation of technical data to support the feasibility of my invention as soon as I receive your response. Please fill out this reply card and return it as soon as possible.
