

Dear Ms. Tyson,

Hello, my name is Ken Waite. You and I have spoken by phone before regarding a patent term extension when I worked with Barnes & Thornburg. You were very helpful, and I thank you for that. I hope this message finds you happy and healthy.

Down to business: I have looked over the proposed changes to the online Official Gazette portions, and I think they would be quite helpful. I would suggest implementing the changes. These alterations could potentially save patent practitioners a lot of time, and they may also save them some money. Anyway, I just wanted to provide some feedback, as the announcement of these changes indicated that a lack of feedback could be used as a justification for not making the changes.

Best regards,

Ken Waite
