

1	COMBINED DIVERSE-TYPE TUNERS	37	..Glow discharge
2	.With plural diverse disk or plural diverse cylinder-type turret tuners	38	WITH REACTOR ELEMENT WINDING AND UNWINDING COMBINED
3	.With mutual tuning element	39	COMBINED
4	MAGNETIC FIELD-RESPONSIVE TUNER	40	SENSITIVITY OR "Q" ADJUSTMENT MEANS IN TUNED CIRCUITRY
5	CONDITION-RESPONSIVE (E.G., TEMPERATURE COMPENSATION)	41	WITH RESONANT LINE ELEMENTS
6	.With condition-responsive inductor or capacitor	42	.Plural-operated tuning units
7	PUSH BUTTON AND/OR LEVER-TYPE MECHANICALLY OPERATED TUNER	43	..With shaft operator
8	REMOTELY CONTROLLED TUNER	44	.Deformable
9	.With electromagnetic operator	45	.With lumped capacitor in tuned circuit
10	..Solenoid or relay operator	46	WITH COMPRESSIBLE OR DEFORMABLE-TYPE TUNER
11	TUNER UNIT DIRECTLY RESPONSIVE TO VOLTAGE AND/OR CURRENT VARIATION	47	WITH SWITCHING MEANS
12	.Saturable core-type inductor	48	.Tuner switch rockable for fine tuning
13	..Automatic frequency-centering circuit	49	.Disk-type turret tuner
14	.Reactance tuning	50	.Drum or cylinder-type turret tuner
15	..Semiconductor reactance circuit	51	..With vernier tuning means
16	..Automatic frequency-centering circuit	52	.Switch operated by variable tuning means
17	TUNER UNIT WITH ELECTROMAGNETIC OPERATOR	53	..Rectilinearly operated switch
18	.Band scanning or selector circuit	54	.Rectilinearly operated switch
19	..Solenoid or relay-operated tuner means	55	.Capacitor only modified or substituted by switching
20	..Motor-operated	56	.Inductor only modified or substituted by switching
21	...Predetermined frequency selector	57	..With vernier tuning means
22	...With reversing means	58	...Variable capacitor
23	...Clutch means	59	.Tuned transformer circuit substituted by switching
24	...Relay-controlled	60	..Tuned circuit shorted by switch
25	...Plural relays	61	MUTUAL INDUCTANCE VARIABLE MEANS
26	.Automatic frequency-centering circuit	62	.Variometer
27	..Tool-driven aligning apparatus	63	.Plural coils having common adjustable core
28	..Plural signal sources	64	SERIES TUNED CIRCUIT
29	.Predetermined center frequency selector (e.g., push-button control)	65	INDUCTOR AND CAPACITOR BOTH VARIABLE
30	WITH RESONANCE INDICATOR	66	.With variable inductor and capacitor structure in common
31	.Meter type	67	..Butterfly-type tuner
32	..With optical and/or shading device	68	..Rectilinearly movable reactance adjusting elements
33	.Cathode ray type	69	.Inductor and capacitor simultaneously varied
34	..Magic eye	70	..Core tuned inductor
35	...Plural shadows	71	VARIABLE INDUCTOR TUNED
36	.Lamp type	72	.Movable contact adjustable over length of inductor
		73	..With capacitor-type contact

- 74 .Adjustable core type
- 75 ..With inductor wound in particular shape
- 76 ..With particular shape and/or type of core
- 77 ..Gang-operated
- 78 **VARIABLE CAPACITOR TUNED**
- 79 .Straight-line frequency type
- 80 .With variable spacing between plates
- 81 .Rectilinearly sliding plates
- 82 .With particular shape and/or arrangement of plates
- 83 .Gang-operated capacitors
- 84 .Capacitor drive means
- 85 **WITH SHIELDING OR HOUSING MEANS**
- 86 **WITH INDICATOR**
- 87 .Band-switching
- 88 **WITH STOP OR POSITIONING MEANS**
(E.G., DETENTS)
- 89 **MISCELLANEOUS**
