KITZ

Reg. No. 3,807,122

Registered Jun. 22, 2010

Amended Apr. 18, 2023

Int. Cl.: 6, 7, 11, 12, 17, 20, 37

Service Mark

Trademark

Principal Register

KITZ CORPORATION (JAPAN CORPORATION)

10-1, Nakase 1-chome, Mihama-ku;

Chiba-shi, Chiba-ken

261-8577, JAPAN

CLASS 6: Irons and steels; copper, lead, zinc, tin, magnesium, nickel and their alloys; iron ores and copper ores; metal materials for building and construction, namely, water pipes, hinges, bars for railings, wall panels, ceiling panels, doors, beams, windows, gates, floor boards, window shutters, tiles and handles for doors; prefabricated metal buildings; loading and unloading pallets of metal; artificial fish reefs of metal; poultry cages of metal; paint spraying booths of metal; metal moulds for forming cement products; metal pulleys; metal springs; metal valves not being parts of machines; metal junctions for pipes; metal flanges; door hardware, namely, keys for locks; cotter pins; railway points; road signs of metal; reservoirs of metal; anchors; mooring bitts of metal; mooring bollards of metal; containers of metal for transport; anvils; swage blocks; metal hardware, namely, nuts, washers, gaskets, metal packings for valves, and metal packings for couplings; wire ropes; wire nets and gauzes; industrial packaging containers of metal; metal nameplates and door nameplates; metal chains for dogs; metal stepladders and ladders; letter boxes of metal; hat-hanging hooks of metal; money boxes of metal; water tanks of metal for household purposes; tool boxes of metal sold empty; towel dispensers of metal; metal joinery fittings; safes; upright signboards of metal; transportable greenhouses of metal for household use; metal tombs and metal tomb plaques; ferrules of metal for canes and walking-sticks; sculptures of metal

CLASS 7: Metalworking machines and metalworking machine tools; mining machines, namely, coal-cutting machines, oil-well pumping machines, rock drills, well drilling machines, mining drill sharpeners, mine borers, and truck mills for mining purposes; construction machines, namely, excavating machines, foundation work machines, ground surface finishing and compacting machines, concrete placing machines, concrete vibrators, concrete paving machines, concrete mixers, asphalt paving machines, and dredging machines; loading and unloading machines; fishing machines and instruments, namely, net hauling machines, and trawl winches; chemical processing machines, namely, separating and granulating machines, adsorbing machines, mixing machines, sorting machines for chemical processing, separating machines for chemical processing, air filters for mechanical purposes, fuel filters, and oil filters; textile machines, namely, scutching machines, silk yarn re-reeling machines, silk yarn bundling machines, silk yarn reeling machines, chemical fiber drying machines, staple fiber cutting machines, chemical fiber spinning machines, yarn singeing machines, yarn winding machines, yarn reeling machines, fiber blowing and scutching machines, yarn warping machines, yarn slivering and combing machines, roving machines, carding machines, yarn twisting machines, automatic looms, power looms, embroidery machines, hosiery looms, lace

Katherine Kelly Vidal

Director of the United States
Patent and Trademark Office

making machines and structural parts therefor, felt milling machines, felt carding machines, spray damping machines for textile treatment, wet decatizing machines, dip-dyeing machines, textile washing machines for industrial purposes, printing machines for textile, textile tentering machines, continuous scouring and bleaching machines, and rotary presses for textile; food and beverage processing machines, namely, rice or barley polishing machines, barley splitting machines, cheese making machines, butter machines, sausage machines, machines for flaking dried fish meat, fish paste making machines, canning machines, root slicing machines, vegetable grating machines, aerated beverage making machines, brewing machines and apparatus, soy sauce making machines and apparatus, miso making machines and apparatus, and mineral water making machines; lumbering, woodworking, veneer and plywood making machines, namely, lumbering band saws, chain saws, saw-tooth setting machines for lumbering or woodworking saws, circular saws for woodworking, sanding machines for woodworking, wood planing machines, wood milling machines, wood drilling machines, wood sawing machines, woodworking saw-tooth setting machines, plywood finishing machines, plywood drying machines, plywood presses, plywood clipping machines, plywood jointing machines, and plywood gluing machines; pulp making, papermaking and paper-working machines, namely, wood grinding machines, wood chipping machines, barking machines, pulping machines, wood beating machines, pulp refining machines, paper coating machines, paper cutting machines, corrugated paperboard making machines, and paper bag making machines; printing and bookbinding machines, namely, intaglio printing machines, phototypesetting or composing machines, photo-engraving machines, bookbinding machines, and planographic printing machines; sewing machines; agricultural machines and agricultural implements, namely, cultivators, disk harrows, seeders, stubble cutting machines, ploughs, power tillers, reapers, harvest drying machines, threshing machines, straw bale tightening machines, corn husking machines, rice grain sorting machines, hay binding machines, rice huskers, ramie brushing machines, ramie barking machines, agricultural machinery and attachments, namely, fertilizer spreaders; machines for making shoes; leather tanning machines; painting machines; packaging machines and wrapping machines; power-operated potters' wheels; plastic processing machines, namely, compression moulding machines, extrusion moulding machines, and injection moulding machines; semiconductor manufacturing machines; machines for manufacturing rubber goods, namely, rubber mixing machines, and rubber forming machines; goods not for land vehicles, namely, gasoline engines, mufflers for motors and engines, diesel engines, steam engines, jet engines, and turbines; pneumatic and hydraulic machines, namely, pumps, vacuum pumps, power operated blowers, air compressors, pneumatic valve actuators and hydraulic valve actuators; adhesive tape dispensing machines; automatic stamping machines; dish washing machines for household purposes; electric wax-polishing machines for household purposes; clothes washing machines for household purposes; vacuum cleaners for household purposes; electric food blenders for household purposes; vehicle washing installations; power-operated sprayers for disinfecting, spraying insecticides and spraying deodorants not for agricultural purposes; machine parts not for land vehicles, namely, shafts, axles, spindles, bearings, shaft couplings, connectors, power transmissions and gearing for machines, shock absorbers for machines, springs, brakes, and valves; lawnmowers; waste compacting machines; waste crushing machines; starters for motors and engines; AC motors and DC motors for driving valves, excluding structural parts for land vehicles; AC generators and alternators; DC generators; dynamo brushes; electric metal cutting machines

CLASS 11: Toilet units consisting of toilet bowl and seat; bath installations; recuperators for chemical processing; electric steamers for chemical processing; evaporators for chemical processing; distillers for chemical processing; heat exchangers for chemical processing; milk sterilizers; industrial furnaces; nuclear reactors; industrial boilers; air-conditioning apparatus for industrial purposes; freezing machines; electric laundry dryers for industrial purposes; towel steamers for hairdressing purposes; hair drying machines for beauty salon use; hair steamers for beauty salon use; shampoo basins for barber's shop use; cooking equipment for industrial purposes, namely,

industrial deep fryers, industrial rice cookers, electromagnetic induction cookers for industrial purposes, electric roasters, and industrial cooking ovens; industrial dish drying apparatus and installations; dish disinfectant apparatus for industrial purposes; tap water faucets; water level controlling valves for tanks; pipe line cocks; waste water treatment tanks for industrial purposes; septic tanks for industrial purposes; garbage incinerators; solar water heaters; water purifying apparatus; electric lamps; household electrothermic appliances, namely, humidifiers for household purposes, dehumidifiers for household purposes, electric coffee makers for household purposes, electric cooking ovens for household purposes, and air purifiers for household purposes; microwave ovens for cooking, and electromagnetic induction cookers for household purposes; gas water heaters for household use; non-electric cooking heaters for household purposes, namely, gas cooking ovens, Japanese kitchen furnaces, Japanese charcoal cooking stoves, oil cooking stoves, baking ovens, and barbecue grills; kitchen sinks; ice chests for household purposes; ice-cooling refrigerators for household purposes; household tap-water filters; bathtubs; standing paper lanterns; portable paper lanterns; gas lamps; oil lamps; lamp chimneys; non-electric warming pans for beds; non-electric pocket warmers, namely, chemically-activated heating packets for warming hands; hot water bottles for warming one's feet in bed; toilet stool units incorporating water squirters; disinfectant dispensers for toilets; toilet bowls; waste water treatment tanks for household purposes; septic tanks for household purposes; heating and cooling packs filled with chemical substances ready to react when required

CLASS 12: Pusher cars for mining; puller cars for mining; non-electric prime movers for land vehicles not including structural parts therefor, namely, internal combustion engines, steam engines for land vehicles, jet engines for land vehicles, air turbines for land vehicles; structural parts for land vehicles, namely, shaft couplings and connectors; brakes for land vehicles; parachutes; anti-theft alarms for vehicles; wheelchairs; vessels and structural parts therefor; aircraft and structural parts therefor; railway rolling stock and structural parts therefor; automobiles and structural parts therefor; two-wheeled motor vehicles, bicycles and structural parts therefor, namely, two-wheeled motor vehicles, bicycles, air pumps, bells, saddles, stands, spokes, tires, drive chains, inner tubes, mudguards, baskets adapted for bicycles, pannier bags, handlebar grips, luggage racks, wheel hubs, handlebars, frames, pedals, front fork joints, wheel rims; baby carriages; rickshaws; wheelbarrows; carts; horse drawn carriages; bicycle trailers; adhesive rubber patches for repairing tubes or tires

CLASS 17: Mica; valves of rubber or vulcanized fiber; non-metal gaskets for valves and non-metal gaskets for couplings, not for vehicle engines; non-metal junctions for fluid supply and exhaust pipes; non-metal asbestos and graphite packing for valves and asbestos and graphite packing for couplings; fire hoses; asbestos fire curtains; floating anti-pollution barriers; electrical insulating materials; washers of rubber or vulcanized fiber; chemical fiber not for textile use; asbestos; [rock wool;] *insulating materials of mineral wool;* slag wool for use as a building insulator; rubber thread and covered rubber yarn not for textile use; chemical fiber yarn and thread not for textile use; asbestos yarn; asbestos fabrics; asbestos felt; insulating gloves; rubber cords and laces; asbestos cords and strings; asbestos nets; industrial packaging containers of rubber; rubber stoppers; rubber lids and caps for industrial packaging containers; plastic sheeting for agricultural purposes; condenser paper; asbestos paper; vulcanized fiber; synthetic plastic as semi-finished products in the form of plastic plates, plastic pipes for plumbing purposes, adhesive-coated plastic sheets, plastic sheets used for dust proofing caps for valves and couplings, plastic film for commercial and industrial use, and plastic rods and bars; rubber; soundproofing materials of [rock wool] *mineral wool;* asbestos boards; asbestos powder

CLASS 20: Meerschaum; yellow amber; non-metal loading pallets; beehives; hairdressers' chairs; barbers' chairs; valves of plastic being other than machine parts; non-metal storage tanks; non-metal containers for transport; curtain rods, rollers and hooks; container closures of plastic; furniture fittings, not of metal; non-metal fasteners, namely, nails, wedges, nuts, screws, tacks, bolts, rivets and casters; washers of plastic

for valves, and washers of plastic for couplings; non-metal and non-electric locks; furniture cushions; Japanese floor cushions; pillows; mattresses; drinking straws; embroidery frames; non-metal nameplates and door nameplates; flagpoles; hand-held flat fans; hand-held folding fans; non-metal garden stakes for plants or trees; beds for household pets; dog kennels; non-metal step ladders and ladders; non-metal or masonry letter boxes; non-metal hat-hanging hooks; water tanks of plastic for household purposes; non-metal tool boxes; fixed towel dispensers not of metal; furniture; indoor window blinds; blinds of reed, rattan or bamboo; bead curtains for decoration; oriental single panel standing partitions; oriental folding partition screens; benches; advertising balloons; upright signboards of wood or plastics; artificial model food samples in the nature of imitation foods for display made of plastic materials, namely imitation desserts, imitation candy, imitation cakes; funerary urns; cradles; infant walkers; mannequins; costume display stands; picture frames; plaster sculptures; plastic sculptures; wooden sculptures; bamboo unworked or partly worked material; bamboo skins unworked or partly worked material; rattan unworked or partly worked material; reeds raw or partly worked material; onigaya hay; sedge unworked or partly worked material; tusks; whalebone; sea shells and crustacean shells; artificial horns; ivory; animal horns; animal teeth; tortoiseshell; animal bone; coral; kitchen worktops; non-metal joinery fittings; bathroom stools; wind chimes; Japanese cloth screens with black-and-white stripes; Japanese cloth screens with red-and-white stripes

CLASS 37: Construction services, namely, construction of buildings, underwater dredging, road paving, masonry, glass glazing, steel structure construction works, plastering, carpentry, tile laying, bricklaying or block laying, joinery, building reinforcing, painting, scaffolding, earthworks or concrete construction, building damp-proofing, roofing services, plumbing, machinery installation, telecommunication wiring, installation and maintenance of solar thermal installations, water meter unit installation, vent valve installation, gas plumbing, water feed pipe plumbing, water drainage pipe plumbing, hot water plumbing under floor, and residential fuel cell installation; construction consultancy; repair or maintenance of building equipment, vessels, aircraft, automobiles, railway rolling stock, two-wheeled motor vehicles, cinematographic machines and apparatus, optical machines and instruments, photographic machines and apparatus, loading-unloading machines and apparatus, fire alarms, office machines and apparatus, air-conditioning apparatus for industrial purposes, industrial burner, commercial burner, domestic burner, boilers for vehicles, boilers for vessels, boilers for land, centrifugal pump, rotary pump, reciprocating pump, freezing machines and apparatus, electronic control machines for operating valves, telecommunication machines and apparatus, construction machines and apparatus, consumer electric appliances, electric lighting apparatus, power distribution or control machines and apparatus, power generators, electric motors, laboratory apparatus and instruments, precision measuring machines and instruments for fluid control, automatic adjusting and regulating machines and instruments for fluid control, material testing machines and instruments for fluid control, surveying machines and instruments for fluid control, medical machines and apparatus, firearms, printing or bookbinding machines and apparatus, chemical processing machines and apparatus, glassware manufacturing machines and apparatus, fishing machines and instruments, metalworking machines and tools, machines and apparatus for use in shoe production, industrial furnaces, mining machines and apparatus, machines and apparatus for manufacturing rubber goods, machines and systems for manufacturing integrated circuits, semiconductor manufacturing machines and systems, machines and apparatus for processing foods or beverages, machines and apparatus for lumbering, woodworking, or veneer or plywood making, textile machines and apparatus, tobacco processing machines, painting machines and apparatus, agricultural machines and implements, machines and apparatus for pulp-making, paper-making or paper-working, plastic processing machines and apparatus, packing or wrapping machines and apparatus, sewing machines, storage tanks, gasoline station equipment, mechanical parking systems, bicycle parking apparatus, industrial dish washing machines, cooking apparatus for industrial purposes, industrial washing machines, vehicle washing installation, vending machines, power-driven floor cleaning machines, machines and apparatus for use in beauty salons or

barbers' shops, water pollution control equipment, water purifying apparatus, waste compacting machines and apparatus, waste crushing machines and apparatus, nuclear power plants, chemical plants, musical instruments, safe, clock and watch, gas water heaters, non-electric cooking heaters, cooking pots and pans, signboards, and bathtubs; repair of bicycles, umbrella, shoe, bags or pouches, personal ornaments, toys or dolls, sports equipment, billiard equipment, toilet stool units with washing water squirters, fishing tackle, spectacles, clothing, and tatami mats; cleaning of building exterior surfaces, window, carpet and rug, septic tank, bathtub and bath boiler, street, and storage tank; rental of construction machines and apparatus, floor cleaning machines, mops, car-washing apparatus, electric washing machines, laundry dryers, spin dryers for clothes, mining machines and apparatus, industrial dish drying machines, and dish washing machines for industrial purposes; shipbuilding; furniture restoration; sharpening of scissors and kitchen knives; setup or repair of locks; fur care and repair; laundering; pressing of clothing; chimney sweeping; floor polishing; disinfecting of telephone hand-sets; vermin exterminating other than for agriculture, forestry or horticulture; sterilization of medical machines and apparatus

OWNER OF U.S. REG. NO. 1291830, 1076284, 1155282

OWNER OF INTERNATIONAL REGISTRATION 0982716 DATED 03-31-2008,
EXPIRES 03-31-2028

SER. NO. 79-061,128, FILED 03-31-2008

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
