Service Mark

Trademark

Principal Register

ENVIROSUITE HOLDINGS PTY LTD (AUSTRALIA PROPRIETARY
LIMITED COMPANY)
L 10 157 Walker St
North Sydney NSW 2060
AUSTRALIA

CLASS 9: Downloadable computer software for scientific data analysis; all of the foregoing in respect of environmental monitoring, assessment, testing and reporting; downloadable software for environmental monitoring, assessment, testing and reporting; downloadable computer software for data analysis and data storage; downloadable electronic publications in the nature of written articles, blogs being journals, books, and brochures in the fields of environmental monitoring, airline compliance and airport noise management in respect of environmental monitoring, assessment, testing and reporting; electronic equipment for testing and measuring environmental conditions, namely, computer hardware for testing and measuring noise, air quality, odor, water quality, dust, humidity, temperature, ground vibration and blast overpressure; sensors, other than for medical use, for measuring noise, air quality, odor, water quality, dust, humidity, temperature, ground vibration and blast overpressure; sensors for environmental testing, analysis, and diagnosis of air, soil, industrial noise, dust, water, crops, and vibration for measuring noise, air quality, odor, water quality, dust, humidity, temperature, ground vibration and blast overpressure, not for medical use; agricultural probes for scientific purposes; agricultural sensors for measuring noise, air quality, odor, water quality, dust, humidity, temperature, ground vibration and blast overpressure; location sensors being sensors for determining the location of objects; optical sensors; electrochemical sensors for measuring noise, air quality, odor, water quality, dust, humidity, temperature, ground vibration and blast overpressure; mechanical sensors in respect of environmental monitoring, assessment, testing and reporting for measuring noise, air quality, odor, water quality, dust, humidity, temperature, ground vibration and blast overpressure

CLASS 42: Updating of computer software; upgrading of computer software; cloud

Katherine Kelly Vidal

Director of the United States
Patent and Trademark Office

computing services featuring software for environmental monitoring, assessment, testing, reporting, data analysis and data storage; technical data analysis services, namely, scientific analysis of environmental data; electronic data storage services; computer software services, being computerised electronic data storage services; all of the foregoing in respect of environmental monitoring, assessment, testing and reporting; environmental monitoring services being environmental testing and inspection services; environmental assessment services being research in the field of environmental protection; environmental testing services; environmental testing of air, soil, noise, dust, water, crops and vibration; environmental monitoring of air, soil, noise, dust, water, crops and vibration for scientific research purposes; environmental consultancy services, namely, consulting services in the field of environmental assessment and planning and technical consulting in the field of environmental science and engineering; design and development of devices, sensors, apparatus, instruments, [software] and hardware * for use in environmental monitoring, assessment, testing and reporting * [being computer hardware and software design and development services]; design and development of devices, sensors, apparatus, instruments, software and hardware for use in the analysis, monitoring, measurement, diagnosis, assessment and management of air, soil, noise, dust, water, crops and vibration being computer hardware and software design and development services; providing online non-downloadable software for delivery of real time information to assist in the analysis, monitoring, measurement, diagnosis, assessment and management of air, soil, noise, dust, water, crops and vibration; rental of scientific, surveying, checking being supervision apparatus and instruments, measuring, detecting and monitoring instruments and indicators

The mark consists of a design of a square with one curved corner. A semicircle design is placed inside of the square, along with the stylized wording "EVS AVIATION".

PRIORITY DATE OF 08-17-2021 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1653478 DATED 02-11-2022, EXPIRES 02-11-2032

No claim is made to the exclusive right to use the following apart from the mark as shown: "AVIATION"

SER. NO. 79-337,151, FILED 02-11-2022

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
