---

As corruption has infested the USPTO, its high time someone take a stand against it. Some ignorant employee there just allowed the trademark of the word "Dogs". Seriously, DOGS. Yes. You just allowed this trademark for a person who sent you the request with a mock up of a t-shirt that he doesn't even sell!!!! Are you kidding me?!?!?!?!? Who paid this person off and how much did they pay!?!?

Charging a fee to oppose these types of frivolous trademark requests is just as corrupt. I realize as a government agency, its ridiculous of me to expect anything other than political corruption fueled by the almighty dollar but please, as a tax paying citizen, DO NOT ALLOW more corruption to infest this disastrous organization!!
