Patent Center Viewing and Retrieval

[Patent Center](#) provides web-based access to public and pending patent information in the internal Patent Application Locating and Monitoring (PALM) system. This simplifies application tracking and follow-up on documents through the patent approval process. The public view covers all issued patents and published applications. Some information is not available (e.g., fees).

Searching for Patent Applications

Patent applications can be searched on the home page and by selecting Search from the bar on the home page. Number selection options include Application, Patent, PCT (Patent Cooperation Treaty), Publication, and International Design Registration. The search format may include commas, forward slashes, or dashes. Valid format types are listed below.

A screenshot of the Patent Center search interface. It features a search bar with a dropdown menu for 'Application #' and a 'Search' button. Below the search bar, a list of search options is displayed: 'All fields', 'Application #', 'Patent #', 'PCT #', 'Publication #', and 'Intl. Design Reg. #'. The entire search area is enclosed in a red rectangular border.
