Subject: New Satellite office

To The U. S. Patent and Trademark Office,

The Meridian, Idaho Chamber of Commerce would like to express our support for the location of one of the new satellite office to be located in Boise or nearby. I spent 15 years in the relocation industry before I joined the Chamber and assure you that the people that relocate here are glad they did. The Treasure Valley is a great place to live and work.

Micron Technology is one of our largest employers and hold many patents as do many of their employees and former employees who have remained in this area and continue to need patents. There are also many former Hewlett Packard employees in this area that hold patents and continue to invent – many have gone out to start their own complimentary businesses and are still inventing. We are also centrally located and only an hour plane ride from Salt Lake City, Utah and Portland, Ore. and only a little longer to Seattle, WA and San Jose, CA.

Please give the Treasure Valley serious consideration regarding the location of your next satellite office.

Best regards,

Anne Little Roberts
