Attn: Janet Gongola, Associate Solicitor, Office of the Solicitor

I strongly support this legislation, and since my practice is dedicated to small entities (I believe "large entity" or "defensive" patents are counterproductive and inhibit innovation, and refuse to support them), I would greatly appreciate any information on methods for assisting my clients; as I said, EXCLUSIVELY small entities.

Honorable Judge Tierney;

I believe this is good legislation, and support it.

OOPS! I am sorry, I replied too quickly. I thought this was something else.

I strongly support this legislation. I think it is long overdue.

Again, I apologize for "shooting from the hip" as I did.

This is an absolutely horrible, anti-innovation piece of legislation. I am hoping the Senate or the President will block it.

ABSOLUTELY HORRIBLE! I can only hope the Senate or the President will stop it!
