Service Mark

Trademark

Principal Register

ONET SA (FRANCE Société anonyme à directoire et conseil de surveillance)
36 boulevard de l'Océan
F-13009 Marseille
FRANCE

CLASS 1: Chemical products, namely, chemicals for use in industry, chemicals for use in water treatment, and chemicals for use in the sciences; chemicals for use in agriculture, horticulture, and forestry, except fungicides, herbicides, insecticides and parasiticides; chemicals for use in the manufacture of disinfecting, pest control, and rat extermination products; chemicals for use in pollution control in the nature of adhesives for use in industry, chemicals for use in industrial decontamination primarily for use in nuclear, chemical and bacteriological decontamination; unprocessed artificial resins, unprocessed synthetic resins and unprocessed plastics in the form of powders, liquids or pastes; natural and artificial fertilizers and manures, fire extinguishing compositions; chemical tempers and preparations for soldering metals, namely, soldering chemicals, and tempering chemicals for use in soldering; chemicals for use in cleaning and disinfecting in the food and food processing industries, namely, chemical preparations for cleaning purposes in the food and food processing industries, chemicals for use in the manufacture of disinfectants; chemicals for use in pollution control, namely, chemicals for use in decontamination of polluted sites; chemical products, namely, degreasing and cleaning solvents for cleaning, disinfecting and decontamination operations, whether by bath, smear, peel, grinding, sand blasting, or any other means; chemical products, namely, chemicals for preventing the tarnishing of glass windows; chemical product for opacifying glass, namely, titanium oxides; soluble glass, namely, sodium silicate; anti-tarnishing chemicals for windows; chemical products in the nature of chemical substances and preparations for deodorizing and eliminating odors, namely, bacillus and other microbes suspended in powdered or liquid form for sanitation, odor control and wastewater treatment applications; propellant gases for aerosols; wallpaper removing products, namely, wallpaper removing preparations

CLASS 2: Colorants, paints, varnishes, lacquers, white lead paint; thinners for colors and paints; thinners for lacquers; binding agents and binders, namely, binding agents for paint; thickeners for paints, natural dyes and color pigments for primers, whitewash; whites, namely, titanium white; Prussian blues for paints; anti-rust oils and greases; preservatives against rust and against deterioration of wood, namely, coatings; mordant dyes; dyes, namely, dyes for wood, basic dyes, acid dyes, oil soluble dyes; colorants for wood; colorant extracts for wood, namely, logwood extract; wood preservatives,

Katherine Kelly Vidal

Director of the United States
Patent and Trademark Office

namely, oils and products for preserving wood; carbonyl wood preservative; dyewood; fixatives in spray form for industrial use in the nature of an acrylic protective coating; dyestuffs; raw natural resins; metals in foil and powder form for use in painting, decorating, printing and art; aluminum paints and aluminum powders for painting; bactericidal paints; anti-fouling paints; fireproofing preparations, namely, fireproof paints, and fire retardant coatings; coatings, namely, anti-corrosive coating bands and anti-corrosive coatings; glazes; mastics in the form of raw natural resins; drying agents for putty and glaziers' putty; distempers; filled ink cartridges for printers and photocopiers; products in the nature of anti-corrosive coatings for iron and ferrous metal that also have cleaning properties; protective products and products for preventing the tarnishing of metal, namely, anti-tarnishing preparations for coating metals

CLASS 3: Bleaching preparations and salt for laundry use; cleaning and polishing preparations; turpentine for degreasing; abrasive cloth, paper, paste, rolls and strips; abrasive sand, decontaminating preparations, namely, decalcifying and descaling preparations for cleaning household products, bleaching preparations for household use; soaps and detergents; abrasives, namely, abrasive papers; detergents for household use, namely, ammonia used as detergent; refurbishing preparations, namely, polishing preparations; bleaching, namely, bleaching salts and soda; bleaching preparations for laundry use, bleaching laundry wax; shining preparations, namely, polish; metal carbides abrasives, namely, metal for use as an abrasive in blasting services, flexible abrasives; volcanic ash for cleaning, parquet floor wax, polishing wax, scouring solutions for parquet floor wax, colorants for laundry, namely, laundry blueing, laundry pre-soak; bleaching, namely, bleaching preparations for laundry use; products, namely, bleaching preparations for household use for removing colors and dyes; rust-removing products, namely, rust removing preparations; cleaning chalk; preparations for unblocking drain pipes, namely, drain openers, cleaning preparations for cleansing drains; scouring solutions, stain removers, polish for furniture and flooring, oil of turpentine for degreasing, perfumery, perfumes; essential oils, namely, jasmine, lavender and rose oil; cosmetics; deodorant soap, disinfectant soap, amber perfume; star anise, bergamot and mint essences for cosmetic use; essential oils, namely, cedar wood and lemon essential oils; scented linen water, lavender water; incense, flower extracts for perfumery; pre-moistened cosmetic towelettes permeated with cosmetic lotions; oils for cleaning and for perfumery; products, namely, household cleaning preparations for washing, cleaning, dry cleaning and laundry; glass paper, for emery and polishing; wallpaper cleaning preparations, impregnated abrasive polishing cloth, potpourris fragrances; products, namely, cleaning preparations with deodorizing properties for use on fabrics, rugs, carpets and household appliances, all these products in the form of liquids, aerosols, solid blocks and liquid sprays; the aforementioned products not for use with optical items; permeated gauze for cosmetic purpose

CLASS 4: Industrial oils and greases, oil for the preservation of masonry; soybean and vegetable oils for the manufacture of paints; beeswax for use further manufacture, methylated spirits for fuel; industrial lubricants; dust binding compositions, namely, dust laying and dust absorbing compositions for use on unpaved roads; fuel compositions, namely, lighting fuels; tapers, candles; candle for nightlights and wicks for candles; dust removing preparations, namely, petroleum based dust suppressing compositions for dust laying; wicks for candles for lighting

CLASS 5: Hygiene products, namely, disinfectants for hygiene purposes; products for purifying, freshening and deodorizing the air, namely, air deodorizers, air purifying preparations, household disinfectants and household deodorants, all these products in the form of liquids, aerosols, solid or liquid blocks; household deodorants other than for personal use; disinfectants for chemical toilets; preparations in the form of solid products, liquids and gases for killing weeds and destroying vermin; fungicides, germicides; mothproofing products, namely, mothproofing preparations; slug exterminating products, namely, slug exterminating preparations; rat poison, fly destroying preparations, fly glue, fly catching paper, sulphur sticks for disinfection, smelling salts; products for disinfecting, namely, disinfectants for sanitary purposes,

pesticides for pest control, rat extermination preparations in the nature of raticides, mosquito control pesticides, weed killers, herbicides, insecticides, insect repellents, insect repellants in the form of insect-repelling incense, insect-repelling cedar wood; acaricides, larvae exterminating preparations, parasiticides, mothproofing paper, pesticides; pyrethrum powder for use as a pesticide; evacuants; preparations for washing animals and livestock, namely, medicated shampoo

CLASS 6: Common metals and their alloys, metal building reinforcement materials, transportable metal buildings; railway material of metal, namely, materials of metal for railway construction; non-electric cables and wires of common metal; ironmongery and small items of metal hardware, namely, metal locks, pipes of metal; metal access apparatus, namely, metal locks, metal doors, metal gates, non-automatic turnstiles of metal; rotating metal drums for storage; tunnels in the nature of metal tubes; metal safes and strong boxes; baskets of common metal; common metal double-compartment baskets, metal safety cashboxes, metal packaging and transport containers, tinplate packings, namely, tinplate; metal containers for transport; floating containers of metal, namely, floating metal docks; metal bags for transport in the nature of metal containers for transport; cash boxes of metal, boxes of common metal; ores of metal; framework of metal for building; frames of metal for building; metal frames for windows, doors and greenhouses; metal gutters, metal chests, portable metal buildings, metal roof coverings; metal window stops, metal window frames, metal window pulleys and metal fittings for windows; metal non-electric door closers; metal grids in the nature of metal frameworks; metal door frames, wainscoting of metal; suspenders, namely, metal straps and slings for handling loads, metal handling pallets; paint spraying booths of metal; doors of metal for buildings; reinforcing materials, namely, door stops, frames for building, and joinery fittings of metal; metal rollers for garage doors, metal door knockers and door panels, metal door handles, non-electric metal door bells, metal door bolts, metal non-electric door openers; locks of metal, other than electric; locks of metal for vehicles; safety chains of metal; metal bolts in the nature of flat bolts; casement windows of metal, scaffolding of metal, ladders of metal, slings of metal for handling loads; telescopic and demountable metal poles of aluminum, titanium, tungsten, carbon with metal cleaning

CLASS 7: Machines for the, cleaning or maintenance of buildings, premises, floors, walls and facades, surfaces, vehicles of all kinds, aircraft, ships, rolling stock, machines, industrial installations, professional or scientific, diverse objects, pipes, green spaces, and means of communication, namely, compressor of steam cleaning machines, floor cleaning machines and non-abrasive blast cleaning machines; machines for the construction of buildings, premises, floors, walls and facades, surfaces, vehicles of all kinds, aircraft, ships, rolling stock, machines industrial installations, professional or scientific diverse objects, pipes, green spaces, and means of communication, namely, concrete construction machines, and machines and lines composed thereof for the production of automobiles, vehicles, aircraft, ships, pipes, communication equipment and their parts; electric cleaning machines and apparatus, namely, electric machines and apparatus for carpet shampooing, electric dust removing installations for cleaning purposes, self-propelled road sweeping machines; conveyor belts, electric parquet floor waxing machines, floor polishing machines; waste compacting machines, grinding machines, garbage disposals, electric waste grinders and crushers for household purposes, namely, waste compactors, garbage disposals; clothes washing machines, coin-operated laundry washing machines, pulverizers for industrial and commercial application, darning machines; ironing machines, namely, electronic clothing pressing machines; industrial robots, electric machines for shampooing carpets; moving pavement; textile dyeing machines; earth-moving machines, lawnmowers, dishwashers; high pressure cleaning apparatus, namely, machines for cleaning surfaces using high pressure water in the nature of high pressure cleaners that use cold water, hot water, and three-phase hot water; machines for cleaning surfaces using high pressure water, namely, electrically-heated multi-purpose high-pressure cleaners; steam cleaning machines; pure water cleaners, namely, reverse osmosis pumps; carpet cleaning machines; vacuum cleaning systems and installations, namely, central vacuum cleaning

installations, electric vacuum cleaners and their components, and vacuum cleaners; vacuum systems comprised primarily of vacuum cleaners and their components; steam systems comprised primarily of steam cleaning machines; thinning systems comprised primarily of mixing machines; retention and hygiene systems comprised primarily of waste and trash separator machine; self-propelled mowers, electric self-propelled lawn mowers; thermal hedge trimmers, namely, rechargeable hedge cutters; power-operated thermal brush cutters, outdoor vacuum cleaners, vacuum cleaners, industrial vacuum cleaners, backpack and brush-type vacuum cleaners for water and dust, dust vacuum cleaners, battery-powered dust vacuum cleaners, multi-function brush-type vacuum cleaners, water vacuum cleaners; injection and retrieval machines, namely, injection plastic molding machines; foam paint spray guns, power-operated sprayers, integrated mobile power-operated sprayers, pre-pressure power-operated sprayers, single disc floor cleaning machines, low and high speed single disc floor cleaning machines, stand-alone battery-powered floor polishing machines, floor washing machines, industrial electric sweepers, professional electric sweepers; self-propelled road sweeping machines; mobile vehicle washing installations, namely, stand-alone battery-powered cleaning machines specially designed for cleaning transport equipment, machines specifically designed for cleaning train carriages; apparatus, machines and installations for lifting and handling, namely, cargo handling machines; vacuum cleaner bags, vacuum cleaners and vacuum cleaner hoses, vacuum cleaner attachments for disseminating perfumes and disinfectants, air suction machines for industrial use, air suction machines; installations for vacuum cleaning, namely, central vacuum cleaning installations; hydraulic door openers and closers, pneumatic door openers and closers, mechanical discharge hoppers for mechanical unloading, shredders for industrial use, turf removing plows, emergency power generators; washing apparatus, namely, washing installations for vehicles; painting machines and spray guns for paint, compressed air pumps, electric door openers; fuel pumps for land vehicles; dust removing installations for industrial use and cleaning purposes; dust exhausting installations for industrial use and cleaning purposes, and in incinerators

CLASS 8: Hand-operated hand tools and implements, namely, hand-operated abrading tools; cutlery, forks and spoons; side arms, not including firearms, namely, hunting knives; razors, insecticide sprayers in the nature of hand tools; truncheons, namely, police batons; lawn clippers in the nature of hand-operated lawn cutters; hand operated hand tools for gardening, namely, scythes, sickles, digging forks; hand-operated agricultural implements, namely, broadforks

CLASS 9: Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring apparatus and instruments, namely, computer hardware; railway traffic safety appliances, namely, traffic lights, electric alarm monitoring apparatus; distribution boxes for electricity; transmitting sets for telecommunication, namely, telephone sets and headsets for use with computers; special electric, data, or telecommunications cables for the railway industry and airports, namely, rigid electrical conductor cables, flexible electrical conductor cables, enameled insulated copper wires, telephone telecommunications cables for installations, telecommunications cables for overhead networks and underground networks, computer cables for computer networks, electrical and coaxial cables gathered in a harness, polyethylene-insulated electrical and coaxial cables, connection cables for signaling circuits and fixed installation telephony, electronic television cables, electrical cables for public and industrial energy distribution, insulated conductors in the nature of electrical and data cables gathered in a harness for overhead networks; electric cable sheaths for low voltage industrial installations; rigid electric conductors, flexible electric conductors, homogeneous electric aluminum conductors, mixed steel and aluminum electric conductors; electric conductors comprised of homogeneous alloys of aluminum, magnesium and silicon; electric conductors comprised of a mix of steel and alloys of aluminum, magnesium and silicon; electric hard copper cables; electric wires and cables and fiber optic cables for electronics and electric installations; Ethernet cables, modem cables and power cables; scientific, signaling, checking and inspection, emergency and life-saving and teaching apparatus and instruments, namely, computer hardware; apparatus and instruments for

conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, apparatus and instruments for conveying, distributing, transforming, storing, regulating or controlling electric current; fire extinguishers; electric and electronic alarms and alarm installations; robots for personal use, namely, security and monitoring robots; electric monitoring apparatus, namely, anti-theft warning apparatus and electric theft prevention installations in the nature of alarms not for vehicles, motion detectors, acoustic sound alarms, anti-interference devices relating to electricity in the nature of electricity limiters, fire alarms, whistle alarms, metal detectors for industrial or military purposes, smoke detectors, and central alarm posts and stations in the nature of alarm central units; electric and electronic apparatus and installations for access control and security, namely, electric video surveillance installations and cameras; apparatus, namely, industrial automation controls for monitoring and controlling industrial processes; computer hardware, namely, digital video storage systems comprised of computer hardware for analogue, Internet protocol and mixed signal cameras; apparatus for recording time; apparatus for recording presence, namely, electrical sensor apparatus for sensing the presence or absence of individuals or objects by contact or pressure; closed circuit television cameras; electric and electronic apparatus for the recording, processing, transmission, storage and reproduction of data; control and supervision and data reception apparatus, namely, mobile data receivers; electronic security systems composed of computer hardware; dongles, namely, electronic security token in the nature of a fob-like device used by an authorized user of a computer system facilitate authentication; remote controls for televisions; security systems composed of computer hardware and computer software for use in continuously controlling and monitoring the guarded transport of valuables; security systems composed of computer hardware and computer software for use in detecting abnormal situations and determining the securities necessary to destroy threats and render other systems unusable; systems composed of computer hardware and computer software for use in protection during the transport and storage of valuables; systems for recording and locating vehicles which are transporting valuables comprised primarily of vehicle locator and recovery devices programmed to use global positioning systems (GPS) and cellular telecommunications; software for use in recording and locating vehicles which are transporting valuables; special clothing for protection against nuclear and other contamination, namely, boots, slippers, shoes, gloves, masks, respiratory apparatus in the nature of respiratory masks for non-medical purposes; divers apparatus, namely, air tanks, diving masks, dive computers for underwater use, and weight belts; protective eyewear in the nature of goggles; gloves for work and protection against accidents, namely, latex gloves also containing cotton and polyester media, reinforced mechanical protective gloves, handling gloves, leather gloves, PVC gloves, supported latex dipped gloves, waterproof and airtight gloves, disposable gloves, and gloves for working in dry and humid environments; gloves for protection against accidents, gloves for divers, asbestos gloves for protection against accidents; clothing for protection, namely, suits with elastic protective hoods for protection against accidents and injury, suits for protection against accidents and injury with protective balaclavas, suits for protection against accidents and injury for cleaning in low-risk liquid environments, polypropylene suits for protection against accidents and injury, diving suits, clothing for protection against fire, special protective clothing for use in laboratories, clothing for protection against accidents, irradiation and fire, protective footwear for industrial use, safety footwear for protection against accidents, safety boots for protection against accidents, and footwear for protection against accidents, irradiation and fire; automotive vacuum gauges; protective helmets, clothing for protection against accidents; devices for protecting personnel against accidents, radiation, fire, nuclear and chemical contamination, and asbestos, namely, nets for protection against accidents, beacon lights, fire escape ladders, explosive containment vessel, safety harnesses other than for vehicles or sports purposes; nets for protection against accidents; breathing apparatus for underwater swimming, diving suits, gloves for divers, divers' masks, ear plugs for divers, gloves for protection against X-rays for industrial use, protection masks, filters for respiratory masks, non-medical protective face masks for breathing; non-medical respiratory masks other than for artificial respiration; air analysis apparatus; respirators for filtering air other than for artificial respiration; decompression chambers; laboratory safety

equipment, namely, fixed and mobile confinement enclosures for decontaminating all equipment and personnel; time clocks, blank video tapes, calculating machines and data processing equipment, computer programs for use in managing construction sites and maintaining buildings and reactors, and for use in quality measurement and control; monitors in the nature of computer programs for use in monitoring industrial processes; computers, computer keyboards, blank floppy computer disks, computer peripheral devices, mouse pads, printers for use with computers, photocopiers; computer software, namely, software for use in managing construction sites and maintaining buildings and reactors, and for use in quality measurement and control; cathodic anti-corrosion apparatus in the nature of cathodes, optical fibers, lasers not for medical use, speedometers, walkie-talkies, intercom apparatus in the nature of intercoms, radio pagers, fax machines, portable telephones, telephone apparatus, television apparatus in the nature of televisions, antennas, navigation apparatus for vehicles, transmitters of electronic signals; dosimeters, peepholes in the nature of magnifying lenses for doors; optical goods, namely, sunglasses, sports glasses; multi-purpose goggles, namely, goggles for safety, sports, snow, and dust protection; safety goggles for working with dust and debris; visitor safety goggles for dangerous environments, dust protective masks and goggles with adjustable straps for dusty environments; helmets, namely, worksite safety helmets; noise-canceling headphones and earphones, headphones, protective helmets; fire extinguishers and alarms in the nature of theft and fire protection apparatus, namely, security and fire alarms, access control and alarm monitoring systems; apparatus for detecting objects, especially weapons, namely, electrical sensors for sensing the presence or absence of objects by contact and pressure; timers, namely, time management apparatus; intercommunication apparatus, namely, intercoms; downloadable electronic publications in the nature of magazines in the field of safety; electronic, optical, digital and computer data carriers, namely, blank magnetic and optical data carriers; computerized anti-theft monitoring systems, namely, theft alarms; video protection supervision systems comprised primarily of a remote video monitoring system consisting primarily of a camera and video monitor for recording and transmitting images to a remote location; touch-screen selection systems for diffusion and security comprised primarily of touch screens, computer hardware, and operating system software; intrusion and video applications systems consisting of computer hardware and computer software for use in detecting, monitoring, and alerting users to intrusions and events

CLASS 11: Apparatus for disinfecting, lighting, heating, generating steam for cooking, refrigerating, distributing, sanitizing and purifying air or water, namely, water disinfecting apparatus, lighting installations, light diffusers, air diffusers for freezers and refrigerators, and gas purification machines; sanitary installations in the nature of steam rooms; hair dryers; drying apparatus and installations, namely, electric hand driers for washrooms; disinfectant dispensers for toilets, electric machines and apparatus for deodorizing air, for purifying air and non-medical sterilizers, namely, electric air deodorizers, air purifying apparatus, and air sterilizers; filters for air conditioning, air filtering installations; fumigation apparatus, not for medical purposes, namely, germicidal gas burners, germicidal lamps for purifying air; purification installations for sewage; air cooling installations and machines, namely, air conditioners, air cooling apparatus, cooling domes, cooling evaporators, and evaporative air coolers; deodorizing apparatus not for personal use, namely, electric and mechanical air diffusers of sanitizing products; incinerators

CLASS 12: Land vehicles; machines, apparatus and installations for the transport and movement of people, machines and equipment, for warehousing services, for use within structures and for carrying various loads, namely, dollies; land vehicles for the collection and transport of waste; sweeping, cleaning, sanitizing and monitoring land vehicles; Motorized trolleys, namely, self-guiding and not self-guiding trolleys for use in cleaning floors and all surfaces, messaging, monitoring and handling materials; trolleys for transporting recipients and containers made of plastic or metal for household use and skips; electric vehicles, namely, self-propelled electric vehicles, electrically-powered motor vehicles; tractors, vans; carriages, namely, baby carriages, horse drawn

carriages, railway carriages; automobiles, motor cars, trucks, delivery tricycles, two-wheeled trolleys; cable transport apparatus and installations, namely, cable cars, suspension arms for cable cars; anti-theft alarms for vehicles, anti-theft devices for vehicles, and sprinkling trucks; trailers, namely, compact high pressure trailers for carrying hot water and fuel oil for rapid response; land vehicles, namely, rapid response cleaning vehicles, self-propelled electric vehicles in the nature of self-washers, self-propelled electric vehicles for sweeping, self-propelled electric vehicles in the nature of snow removers, salters in the nature of self-propelled electric vehicles; self-propelled electric vehicles containing electric roadway vacuum cleaners; self-propelled electric vehicles for washing surfaces with ride-on conductor specially adapted for the maintenance of transport vehicles; trolleys for household purposes; goods handling carts; lifting cars, hotel linen washing trolleys, double-bucket washing trolleys, selective sorting trolleys, multi-purpose trolleys, selective sorting trolleys for paper and general industrial waste, sanitary and toilet trolleys, train trolleys; electric vehicles, namely, trolleys designed to fulfill diverse utility functions in varied environments including collectives, litter industry, railway stations, where such functions include refuse collection, emptying toilets, and recovering water from graffiti; tilt trucks; bicycles; bodies for vehicles, namely, tipping bodies for trucks; garden hose carts; tailboard lifts in the nature of parts of land vehicles, namely, power-operated lifts specially adapted for vehicles for use with wheelchairs, scooters, and personal mobility vehicles; trailer hitches for vehicles; land vehicles for use as electric road sweepers, land vehicles for use as multi-function road sweepers; electric town vehicles, namely, cars for the transport of people, electric sports utility vehicles, modular electric sports utility vehicles; vehicles for the physically handicapped and those with reduced mobility

CLASS 16: Paper and cardboard; goods made of paper and cardboard, namely, boxes, cartons, storage containers, and packaging containers; paper and paper articles, namely, toilet paper, letter paper, garbage bags of paper and plastic; garbage bags made of biodegradable plastics; paper and plastic bags and sachets sold empty for packaging; paper bags, paper envelopes, pouches for merchandise packaging made of paper and plastics, paper and cardboard boxes, paper bibs, hand towels of paper, handkerchiefs of paper, tissues of paper for removing make-up, tablecloths of paper, table napkins of paper, table linen of paper, filter paper, paper coffee filters, coasters of paper, paper mats for beer glasses, tablemats of paper, holders for checkbooks, paperweights; cardboard and cardboard articles, namely, letter trays, cardboard garbage containers; printing goods and printed matter, namely, newspapers and periodicals in the field of quality control, books in the field of quality control, bookmarks, bookends, tear-off calendars, calendars, writing or drawing books, notebooks, manuals in the field of quality control, almanacs, photo albums, bookbinding fabric material, printed prospectuses for others in the field of quality control, brochures about quality control, catalogs in the field of clothing, boards for display in the nature of printed charts, advertisement boards of paper and cardboard, posters, signboards of paper or cardboard, stickers, stationery, comic books, photographs; printing blocks; stationery articles, namely, stationery; adhesive materials, namely, adhesives for stationery use; materials for artists, namely, paintbrushes; typewriters; office requisites except furniture, namely, staples for offices, printing blocks, cardboard boxes in the nature of collectors of biodegradable paper in recycled cardboard; writing pads, pen holders, pencils, pencil holders, pencil sharpeners, pencil lead holders, pens, ball-point pens, fountain pens, stands for pens and pencils, inking pads, rubber erasers, drawing instruments in the nature of ruling pens, paper cutters in the nature of office supplies, envelopes, mailing labels not of fabric, office hole punchers, transfers in the nature of decalcomanias, adhesive tape dispensers, blotters, binders, folders for papers, adhesives for stationery or household purposes; printed instructional and teaching material in the field of quality control; printing type, art print engravings, terrestrial globes, house painters' rollers; paper towels in the form of coils

CLASS 19: Non-metallic building materials, namely, non-metallic rigid pipes for building; asphalt, pitch and bitumen; transportable constructions, not of metal; monuments, not of metal; devices for providing access not of metal, namely,

advertisement columns not of metal, door casings not of metal, structural timber in the nature of furrings of wood, cabanas not of metal; non-metal shelter structures in the nature of non-metal huts; folding doors not of metal; installations, namely, structures not of metal for parking bicycles; woodwork, namely, structural and architectural members formed of pressed wood fibers; paint spraying booths not of metal; window framing, namely, window frames not of metal; door cases, namely, door casings not of metal; building frameworks not of metal, window frames not of metal, door frames not of metal, greenhouse frames not of metal, roof gutters not of metal, building partitions not of metal, fences not of metal, wainscoting not of metal, parquet floor boards, laths not of metal, stair-treads of steps not of metal, insect screens not of metal; wall panels, namely, non-metallic building wall linings; non-metallic paving blocks, lighting slabs not of metal for building, veneer wood, wood veneers, non-metallic ceiling panels, non-metallic floors, planks of wood for building, non-metallic gates, non-metallic door panels, non-metallic doors, non-metallic building roof coverings; outdoor blinds not of metal and not of textile; casement windows, not of metal; shutters, not of metal; scaffolding, not of metal

CLASS 20: Baskets, containers, bins, floating containers or any other recipients not of metal or plastic for the collection, storage, transport, treatment and processing of industrial and household waste, mainly of office paper for recycling and disposal for commercial use, namely, non-metal bins, non-metal recycling bins, non-metal containers for transport and commercial use, baskets for transporting goods for commercial purposes; plastic cases, plastic packaging containers, wooden and plastic boxes, chests not of metal; telescopic poles not of metal; pole angles not of metal, namely, angle valves of plastics, other than parts of machines; broom handles not of metal; baskets for transporting goods for industrial purposes not of metal, double-compartment baskets for transporting goods for industrial purposes not of metal, containers not of metal for commercial use; packaging containers of plastic; furniture, namely, sales display stands and sales containers in the nature of display cases

CLASS 21: Non-electric utensils, instruments, equipment and containers for household purposes, namely, scouring sponges, cleaning brushes for household use, sponges for household purposes; handle sets for cleaning households comprised primarily of self-closing dust-pans and brushes; mops, and hand-operated mechanical cleaning brushes for household purposes; cleaning brushing for household use, namely, brushes for routine household cleaning maintenance, brushes with detergent and water tanks for cleaning, flat cleaning brushes for household use by professionals, abrasive scrubbing brushes, cosmetic brushes, brushes for cleaning scissors; parts of mops, namely, automatic wringing mop bases, fringed mop bases, cotton mop bases, mop bases comprised of mixed microfibers, articulated mop bases with pins, handled mop bases with pins, folding mop bases, aluminum mop bases; electric trouser presses, namely, presses for cleaning, jaw-action presses for cleaning, and lateral presses for cleaning; buckets, containers for household or kitchen use not of precious metals, mop buckets with two trays and drain valve, ergonomic mop buckets, special window cleaning buckets, single tray buckets with wringer; two-tray buckets with wringer, washing brushes and sweeping brushes for household purposes; household utensils, namely, steel wool for cleaning, scrubbing brushes, cloths for washing floors, and natural and synthetic chamois leathers for cleaning; cleaning cloths, gloves for household purposes, furniture dusters; cleaning cloths, namely, gauze for sweeping; polishing gloves, gardening gloves, abrasive pads for kitchen or domestic purposes, abrasive pads for kitchen or domestic purposes dispensed on rolls; scouring pads in the nature of abrasive discs for single discs floor cleaners and mini single discs floor cleaners, scouring pads in the nature of scouring discs, washing cloths in the shape of discs, floor polish applicators mounted on mop handles in the nature of spray discs; lustering and polishing discs, namely, dusting and polishing cloths in the shape of discs; discs for care of parquet flooring and marble, namely, cleaning and polishing cloths in the shape of discs; microfiber cleaning cloth; hand-operated decontamination equipment and instruments in the nature of mop wringers; electric face cleansing brushes, non-impregnated steel wool pads for cleaning, saucepan scourers of metal, rinsing tubs; swimming pool products,

namely, glass granules used in pool filters; trash cans, trash cans for selective sorting and waste collection, non-metal baskets for domestic use, toilet paper dispensers, soap dispensers, non-electric parquet wax-cloth polishers, namely, hand-operated mops and brushes for polishing; non-electric wax-polishers for shoes, namely, shoe polish applicators not containing shoe polish; non-electric dust removers in the nature of dusters, table brushes in the nature of cleaning brushes for household use; clips for picking up waste, namely, hand-operated non-electric device for scooping up waste and refuse; floor scrapers for household purposes, floor squeegees for household purposes, plastic squeegees with foam for household purposes, brushes for dusting, wire brushes not being parts of machines; window equipment for household purposes, namely, wetting sponges, scrapers, squeegees, window cleaners in the nature of rubber blade barrettes; works of art made of porcelain, terra cotta or of glass; non-electric household hand-operated grinders, boxes of glass, demijohns, flower-pot covers not of paper; cauldrons, cooking pots, aerosol dispensers not for medical purposes; sanitizing and deodorizing products, namely, flasks not of precious metal sold empty for use as wick diffusers of deodorizing products; perfume burners, perfume sprayers, perfume vaporizers sold empty; vases of precious metal, containers for household or kitchen use of precious metal; flasks; sanitary care products and accessories, namely, soap dispensers, paper towels dispensers for household use, dispensers for toilet paper, toilet paper holders; electric devices for attracting and killing insects; baskets for domestic use; containers of precious metal for household or kitchen use; wiping cloths, namely, shammies, and cloth for wiping or dusting; baskets for domestic use, not of precious metal

CLASS 25: Clothing, namely, jackets, trousers, overalls; shoes; headgear, namely, headwear; fleece jackets, tunics, shirts, trousers, vests, Bermuda shorts, caps, chasubles, polar wear in the nature of coats, Tee-shirts, polo shirts, thermal clothing in the nature of socks and underwear, rain suits, suits, neckties, sweatshirts, wind-resistant jackets, sport boot bags, coveralls, singlets, bathing suits, bath robes, shorts, socks, suspenders, gloves, belts, clogs, slippers, non-slipping soles for footwear in the nature of socks, work boots, bedroom slippers, uniforms, bathing caps, bathing trunks, swimsuits; clothing for baths, namely, bath sandals and bath slippers; short-sleeve shirts, collars, sashes for wear, sock suspenders, gabardines, raincoats, coats, shirt fronts, pullovers, underwear, brassieres, aprons; paper clothing, namely, paper hats

CLASS 27: Carpets, non-slip bath mats, door mats, carpets for automobiles, floor mats, linoleum; products for protecting floors, namely, protective floor coverings; plastic and synthetic coverings for floors and walls; plastic and synthetic facades in the nature of floor and wall coverings; bath mats, wallpaper, floor coverings, vinyl floor coverings, floor mats with scratching and absorbent fibers, double-fiber floor mats on a latex backing, vinyl foot-wiping tiles for removing heavy dirt

CLASS 35: Advertising and marketing; business management; distribution of advertising materials and advertising documents; rental of office equipment; rental of billboard advertising material; rental of billboards; rental of signs for advertising purposes, namely, non-metallic, non-luminous and non-mechanical "slippery floor" warning signs for advertising purposes, signs featuring clip art for advertising purposes, and hazard symbols for advertising purposes; publication of publicity texts; publicity services through mailing; direct mail advertising services; dissemination of advertising matter; rental of billboards and interactive communication and information screens in public spaces, in commercial and industrial premises, and in public buildings for advertising purposes; providing advertisements for others, namely, providing displays for vehicles, rental of advertisement space on vehicles fitted with a display and communication system, and rental of static and mobile display panels for advertising purposes; organization of exhibitions for commercial or advertising purposes, rental of vending machines; business assistance, namely, business consultation; business consultancy, information and technical business inquiries; assistance for industrial, commercial, agricultural, financial, research and management services companies, namely, the management and organization of businesses; assistance for businesses,

namely, business consultancy, business information and inquiries in the fields of construction and light work as well as those specialized in building maintenance, cleaning, roadway works, pollution control, and decontamination; assistance for businesses, namely, market research and prospecting on decontamination, dismantling and decommissioning of installations, buildings, equipment, machines, vehicles, and contaminated areas and zones, all in the nuclear, industry, collection of waste, transport of waste, treatment of waste, transformation of waste, decategorization and reusing of waste, environmental protection, transportation, handling, collective catering, temporary work, surveillance of people, and surveillance of industrial installations and premises sectors; analysis of cost price; cost assessment services, namely, assessment of non-quality costs, productivity defects and reasons for dissatisfaction among their customers or users; conducting businesses appraisals relating to the nuclear, industry, collection of waste, transport of waste, treatment of waste, transformation of waste, decategorization and reusing of waste, environmental protection, transportation, handling, collective catering, temporary work, surveillance of people, and surveillance of industrial installations and premises sectors with a view to their transfer or acquisition; market research for market opportunities and potential customers on behalf of the business in the nuclear, industry, collection of waste, transport of waste, treatment of waste, transformation of waste, decategorization and reusing of waste, environmental protection, transportation, handling, collective catering, temporary work, surveillance of people, and surveillance of industrial installations and premises sectors; conducting statistical work, assistance and consultancy for businesses, namely, providing statistical information and related business consultation in the formulation of business responses to calls for tenders and awards of public and private customers in the nuclear, industry, collection of waste, transport of waste, treatment of waste, transformation of waste, decategorization and reusing of waste, environmental protection, transportation, handling, collective catering, temporary work, surveillance of people, and surveillance of industrial installations and premises sectors; business auditing and business consulting services in the fields of document management and records management, assistance in planning and coordinating interventions of others for business organization and management purposes, managing working time, recruiting personnel, coordinating work for business organization purposes; business management, namely, directing companies; providing business assistance and business information to the clients of businesses for the purpose of drafting calls for tenders, establishing and defining requirements, and drafting project specifications in the nuclear, industry, collection of waste, transport of waste, treatment of waste, transformation of waste, decategorization and reusing of waste, environmental protection, transportation, handling, collective catering, temporary work, surveillance of people, and surveillance of industrial installations and premises sectors; business auditing, namely, carrying out business organization audits, carrying out personnel management audits; accounting services in the nature of accounting assistance in managing and implementing business projects of others, with respect to lead times, costs, and quality control of services in said sectors of activity; procurement services for others, namely, purchasing goods and services for other businesses in the field of construction and light work as well as those specialized in building maintenance, cleaning, roadway works, pollution control, decontamination, the collection and destruction of waste, environmental protection, transport, handling, collective catering, temporary work, surveillance of people, and surveillance of industrial installations and premises; business consulting services, namely, providing technical advice for the sourcing and procurement in the nature of cooperative purchasing of raw materials and services for businesses in the building construction and light work sector as well as those specializing in the maintenance of buildings, cleaning, road works, pollution clean-up, decontamination, the collection and disposal of waste, environmental protection, transportation, handling, catering, temporary work, monitoring of people, and surveillance of premises or industrial plants; compilation of information into computer databases in the field of business construction; business administration assistance, namely, statistical work in the nature of compiling and analyzing statistics for business purposes, tabulating in the nature of compilation and systemization of information into computer databases, typing, accounting services, document reproduction, support for performing administrative tasks at home in the

nature of providing virtual on-line office support staff services for businesses, organization services for business purposes in the nature of help with work time management, payroll preparation, tax statement preparation; secretarial services, public opinion polling, document reproduction, employment agencies; temporary personnel services, namely, provision of temporary personnel, placing of interim personnel; personnel management consultancy; personnel selection using psychological testing, namely, personnel selection using psychometric techniques; temporary personnel services, namely, temporary provision to any public or private company of personnel with all levels of qualifications; personnel management consultancy; personnel recruitment, namely, employee selection and recruitment services, employment recruitment and placement services for professionals; personnel recruitment, namely, assistance in recruiting domestic staff; career mediation and career management services, namely, career placement; business management consultancy services; business consultancy, business information and inquiries; providing information online and through the distribution of printed advertising documents in the fields of career mediation and career management for career placement and business management; outsourcing services, namely, administrative outsourcing services specialized in the areas of information technology, engineering, finance; provision of statistical information, namely, compilation of statistics; conducting marketing studies; psychological testing for the selection of personnel, namely, organizing personnel recruitment tests and behavioral tests; personnel consultancy, namely, conducting evaluations of an individual's knowledge regarding office functions, secretarial work, word processing, data input, information management systems and in technical and industrial sectors; business consulting services relating to the retail sale and supply of wheelchairs, walking frames for use in the context of the aforementioned activities; business advice for procuring and purchasing products; retail store services featuring equipment and apparatus for use in the activities of guarding, security, protection of people and property, goods and buildings, information services, night guards, technical monitoring and inspection in the nature of computer hardware; online retail store services, namely, providing a website for taking on-line commercial orders in the field of guarding, security, protection of people and property, information services, night guards, technical monitoring and inspection; administrative processing of purchase orders and administrative stock management, namely, inventory management; market research in the fields of decontamination, dismantling and decommissioning of installations, buildings, equipment, machines, vehicles, contaminated areas and zones in the nuclear and industrial sector; retail sale and wholesale services, namely, wholesale and retail store services for pharmaceutical preparations, veterinary and sanitary preparations, medical supplies; wholesale and retail sale, namely, wholesale and retail store services featuring computer hardware products; retail sale and wholesale services, namely, wholesale and retail store services for food and beverage products; retail sale and wholesale services, namely, wholesale and retail store services for fruits and vegetables; retail sale and wholesale services, namely, wholesale and retail store services for confectionery, breads and buns; business event marketing services; stock management and flow management, namely, inventor control and management; administrative accounting services

CLASS 36: Insurance underwriting in the field of accident and fire, insurance consultancy and information, insurance brokerage, accident insurance underwriting, real estate agencies, arrangement of real estate leasing agreements, real estate management of office buildings; rental of business assets and buildings, namely, rental of offices and apartments; real estate appraisals; management of real estate, namely, office buildings and accommodation bureau; renting of apartments and offices, real estate broker services, real estate evaluation and appraisal, rent collection, debt collection agency, credit agency, financial analysis, financial affairs and monetary affairs, namely, financial information, management and analysis services, capital investment, sureties, financing services, financial consultancy, financial information, loan financing, credit consultation services, fund investment, financial transaction services, namely, providing secure commercial transactions and payment options, consulting services provided in financial and monetary affairs, fiscal valuations, fiscal assessments; financial asset

management; professional consultancy concerning the compensation of persons, namely, claims administration in the field of worker's compensation

CLASS 37: Providing local services to individuals, associations, administrations and businesses, namely, laundering and building restoration work; home help, namely, cleaning of residential houses; furniture maintenance; cleaning, namely, washing and cleaning of building interiors, furniture, and tableware; maintenance of the household and housework, namely, sweeping of chimneys and walkways, laundering, clothes washing, house cleaning, ironing of clothes, residential house tidying, and house renovation; steam pressing of clothing, clothes, and linen; dry cleaning; maintenance, cleaning and repair of leathers and furs; repair and maintenance of commercial premises, namely, cleaning of commercial premises, and building maintenance and repair; shoe repair, cobbler services; maintenance and repair of timepieces; services for installing, and repairing computers and multimedia equipment, namely, installation and repair of office computers, laptop computers, peripheral devices in the nature of printers, game consoles, digital connection hardware, computer networking hardware, computer and communication network hardware, television monitors and audiovisual products in the nature of multimedia equipment; repairing of railways, roads, streets, squares, and paths, namely, concrete paving, paving contractor services, brick paving, and road paving; maintenance of oil pipelines; automotive oil change services; air conditioning apparatus installation and repair, namely, installation and repair of equipment for processing and distribution of air, and equipment for outside air intake for blasting and filtering air; providing information relating to maintenance, upkeep, washing and cleaning of buildings; building maintenance for public works; rental of earth moving machines; construction and repair of buildings and warehouses; general contractor services, namely, lifting and assembly of building frameworks, metal bridges, foot-bridges, cladding panels, roofing, and silos; building construction, namely, erection of scaffolding for hoppers, gates, and dams, and building of frame cofferdams; construction and installation of apparatus for lifting and shoring mines; rental of tools and equipment for building, cleaning and public works, namely, rental of hand and power tools, rental of construction and building equipment, rental of cleaning machines and equipment, and rental of cleaning machines; rental of bulldozers, rental of building site machinery, rental of cleaning machines; rental of equipment for industrial and household cleaning, disinfecting and insect eradication not for agricultural purposes; rental of road sweeping machines; rental of earth moving equipment and excavators, namely, rental of machines and equipment for assisting in tree removal; construction, repair, cleaning, and maintenance in the nature of electrical lighting installation, repair and maintenance, masonry services, and construction, repair, and cleaning of building partitions; locksmithing in the nature of installation, changing, replacement and repair of locks; installation, maintenance and repair of lighting fixtures and related electrical wiring; plastering; wallpapering, rustproofing, painting of interiors and exteriors, plumbing, works of cleaning, dismantling, and decommissioning building and sites, equipment, machines, vehicles and contaminated areas and zones in buildings, namely, bio-hazard biological clean-up services, vehicle dismantling and cleaning, demolition of buildings, and dismantling and cleaning of industrial machinery and equipment; building maintenance, namely, removing and fitting partitions, false ceilings, false floors, carpeting, tiles, floor tiles, floor coverings, linoleum, parquet flooring and floorboards; sanding and varnishing of parquet flooring; building maintenance and repair, namely, application of glass glazing on floors, and installation and repair of insulation; kitchen equipment installation; pavement sealing services; maintenance, cleaning, disinfecting and repair of all pipes, casings, refuse chutes, horizontal and vertical ducts in all types of buildings and at any location; chimney sweeping; repair and installation of boilers; installation and repair of electric, electronic and audiovisual equipment and installations; cleaning outdoor and indoor, namely, cleaning of building exterior surfaces, and cleaning of building interiors; maintenance, cleaning and repair of edifices, buildings, offices, commercial premises, warehouses, factories, laboratories and all industrial and professional buildings; installation services, namely, installation of boiler fittings for businesses; painting, application of coatings and sealers, and cleaning of facades, walls, ceilings, floors, windows, and window panes; upkeep, cleaning, repair

and washing of vehicles, fixed and moving transport equipment, trailers, portable workshops, aircraft, carriages, automobiles, trucks, buses, and industrial, agricultural and scientific machines; servicing in the nature of maintenance and washing of vehicles and automobiles; vehicle polishing, vehicle lubrication; vehicle service stations; vehicle breakdown assistance in the nature of vehicle repair; furniture restoration and repair, specifically in the agri-food, pharmaceutical, computer, nuclear, hospital, medical and paramedical, and research laboratory industries; cleaning and maintenance services in the nuclear industry, namely, cleaning of building installations; cleaning and maintenance of industrial premises in the nature of floors, windows, walls, and ceilings; cleaning and maintenance of equipment in the nature of towers, trays, tools, transport vehicles, railway carriages, trucks, semi-trailers, ships, and airplanes; cleaning services in the nature of vehicle cleaning and cleaning of industrial premises by rubbing, tearing off, and sanding of soiled, polluted and contaminated parts of platforms, carriages, trucks, floor and wall coverings; underwater construction and repair of underwater buildings; demolition of buildings; rental of cleaning machines; rental of equipment for industrial and household cleaning, disinfecting, and insect eradication; rental of road sweeping machines; installation, maintenance and repair of construction machines; cleaning of surveillance, security, service call and handling equipment; mending of laundry, namely, clothing repair; laundry services, namely, washing, cleaning, ironing of laundry; installation and repair of devices for irrigation, insect eradication, mosquito eradication, pest control, rat exterminating, disinfecting and vermin exterminating other than for agriculture; installation, maintenance and repair of alarm devices and security systems against fire and theft of computers; installation, maintenance and repair of machinery; installation, maintenance, repair, and cleaning of security equipment, service call repair equipment and goods handling equipment; installation and maintenance services for buildings and commercial premises, namely, building maintenance, installation and maintenance of burglar and/or fire alarms, and installation and repair of computer systems; installation and maintenance services for building security systems; construction of buildings and masonry and structural installations; maintenance and repair of machinery in the nature of dismantling of machinery installations; repair and maintenance of rolling and fixed transport equipment, trailers, and portable workshops; quarrying services; installation, maintenance, repair and upkeep of fire alarm systems; services of installation, upkeep, repair, construction and maintenance of electric and electronic equipment, namely, security systems and computer hardware, remote surveillance machines, video surveillance systems and devices, video security systems and devices, monitoring systems and devices, security devices, electric and electronic alarms, and building security systems; providing service call services, namely, repair and maintenance of equipment for handling and manufacture of electric cables; renovation, repair, cleaning of building interiors, building exteriors and windows; textile dry cleaning services, fabric and clothing dry cleaning services; laundry services, namely, washing and ironing of linen, textile ironing services, fabric ironing services, clothes ironing services, textile pressing services; laundering; locksmithing services, namely, setup and repair of locks; motor vehicle maintenance and repair, namely, servicing cars

CLASS 38: Telecommunication access services; data transmission and reception via multi-service company telecommunication networks; services of telecommunication, namely, providing transmission of electronic mail via internal and external global information networks; secure electronic mail services, namely, providing electronic transmission of secure email; press and news agency services for electronic transmission; radio, telephone and telegraph communication services via radio, telephone and telegraph transmissions and equipment; electronic data transmission, namely, data communication primarily on computer terminals, computer peripherals and electronic and digital equipment, and also via videophone, video-intercom and video-conferencing; electronic sending and transmitting of dispatches and messages, namely, electronic transmission of messages; electronic data transmission services, namely, data packet transmission services, electronic document dispatching in the nature of electronic transmission of documents, electronic data transmission, transmission of electronic mail services; providing advanced calling features, namely, telephone call transfer via

telecommunications; cellular telephone communication; satellite transmission; Internet broadcasting services featuring television programs, music, sounds for interactive and other use, still and animated images, and multimedia programs on the subject matter of computer editing of texts and image; telecommunication services, namely, teleprinting, transmission of telegrams, transmission of data by teletypewriter; communications by computer terminals; electronic data transmission, namely, services for electronic transmission of information by data communication means with a view to obtaining information held in data banks and image banks; communication services, namely, electronic data transmission over global computer networks in general; rental services for remote computing and data communication apparatus and instruments, namely, rental of access time to global computer networks, and rental of teleprocessing and computer communication apparatus and instruments; technical consulting and advice in the field of telecommunications, namely, telecommunication consultation in the nature of technical consulting in the field of audio, text and visual data transmission and communication; rental of access time to a database server center communication apparatus

CLASS 39: Transportation of goods, namely, water supplies; transport brokerage; transport commission agency services, namely, transportation information, and making bookings for transport; providing local services to individuals, associations, administrations and businesses, namely, delivery of shopping parcels; laundry pick-up and delivery services, namely, collection and delivery of ironed linen; transport of passengers and goods, by road, rail, air, sea and waterways; transport of people and goods by automobile; portage, namely, home delivery of meals, medicines, and shopping goods; packaging, cargo handling and transport of items of furniture; transport, packaging, cargo handling of contaminated materials, machines and apparatus as well as of nuclear, industrial and other waste; junk removal, namely, removal of furniture, tanks, machine tools and more generally any unusually large and heavy equipment; transport, namely, ambulance transport, secure armored-car transport, transport and delivery of waste, transport of hydrocarbon slurry and any other industrial, household, medical, agricultural, and nuclear waste, and transport of equipment in the industrial, medical, agricultural and nuclear fields; taxi transport services; freight loading; conveying of animals, namely, transport of animal passengers; marine towing, salvage of ships; consultation in the transportation of vehicles and also including inspection and sanitizing of vehicles prior to their transport; truck hauling; portage; unloading of ships; cargo unloading of rail cars, trucks, and trailers; cargo handling and freight forwarding services; vehicle breakdown assistance, namely, vehicle towing; cargo handling services; delivery of goods by mail, parcel shipping services; delivery of parcels, delivery of food in the nature of meal trays; delivery of goods, shipping of goods; packaging of products for others, namely, packaging articles to the order and specification of others; warehousing services; storage, namely, storage of goods; providing information relating to storage, transport, and warehousing of goods in a warehouse for safekeeping purposes; provision of garages, namely, rental of garages for vehicles; rental of vehicles fitted with a display and communication system; vehicle parking garage services; rental of vehicle roof racks; rental of lifting equipment and machinery, namely, rental of fork and pallet lifts; rental of transport vehicles, vehicles, automobiles, rail cars, and boats; warehouse rental; garage and parking space rental; car parking; travel arrangement, namely, booking of travel seats, excluding hotel room reservations; refrigerator rental; distribution of iced water and hot water; ice water and hot water dispensing, namely, distribution and supply of water; organization of logistics on large sites, namely, technical consulting in the field of transport, cargo handling, and delivery of goods; freighting services, namely, supplying through transport, delivery, and storage of raw materials for businesses in the fields of building, light work, building maintenance, cleaning, roadway works, pollution control, decontamination, the collection and destruction of waste, environmental protection, transport, handling, collective catering, temporary work, surveillance of people, and surveillance of industrial installations and premises; airport services; provision of expert solutions in airport assistance on the runway and in the terminal, namely, air traffic control services, airport passenger and baggage check-in services, fastening and anchoring aircraft to

airport tarmacs; provision of airport installations for aviation, namely, airport services; transport, freight forwarding, cargo unloading and storage services, namely, transport and storage of waste in the fields of the collection, transport, treatment, transformation, decategorization and reusing of waste; delivery services, namely, delivery of flowers, delivery of bread, delivery of plants, delivery of fruits and vegetables excluding organic, delivery of pharmaceutical and para-pharmaceutical preparations, parcel delivery, delivery of goods, delivery of physical products, delivery of journals, delivery of magazines, delivery of newspapers, delivery of goods by mail order, pizza delivery services, document delivery services by non-electronic means, delivery of food in the nature of restaurant meal delivery services, delivery of food in the nature of cooked dishes, collection for delivery and delivery of textile goods, delivery of goods by road or rail; postal services, namely, delivery of mail by non-electronic means, delivery of parcels, delivery of newspapers, dispatching in the nature of shipping mail and parcels, franking of mail, and correspondence delivery by post and messenger; transport and delivery of goods, samples and merchandise of all kinds by road, rail and ship; non-electronic delivery of letters, mail, journals magazines, packages, parcels, newspapers, freight and goods; delivery services for gift baskets featuring an assortment of goods for special events or occasions; transport reservation services, namely, taxi transport services, chauffeur services, courier services; provision of shopping and parcels, namely, the delivery of goods; laundry pick-up and delivery services, namely, collection and delivery of airport linen; storage of hydrocarbon slurry and all other waste; information relating to garbage collection and transport; organization of travel for others relating to transport and cargo handling

CLASS 40: Air purification; water treatment, wastewater treatment, chemical treatment and filtration of water; treatment of hazardous liquids, namely, solutions for cleaning, disinfecting and decontaminating, eradicating insects, exterminating rats, mosquito control, pest control and pollution control; decontamination of hazardous materials; treatment of radioactive fuels, namely, destruction of such fuels; decontamination of nuclear waste; waste treatment, namely, grinding of waste; destruction and treatment of industrial, urban and agricultural waste, treatment and destruction of household waste; recycling of waste and trash; incineration of household, industrial and other waste and trash; waste treatment, namely, treatment of hydrocarbon slurry and all other waste industrial and non-industrial in storage; conducting of waste treatment services for hydrocarbon slurry and all other waste industrial and non-industrial in storage by personnel specialized for operations of decontamination, pollution control, asbestos removal, selective sorting, and sanitizing; window tinting as a surface treatment, namely, window tinting services for automobiles, residential buildings, and commercial buildings; treatment of materials, namely, treatment of metal; preservation services for preservation of the environment, ecology and sustainable development, namely, sorting of waste; environmental remediation services, namely, treatment of soil and subsoil; burnishing by abrasion; decontamination works, namely, decontamination of hazardous waste by laser; woodworking, copper smithing, polishing of glass and gemstones, optical glass grinding, soldering, laser scribing of metal, treatment of metal in the nature of metal coating; lustering, namely, treatment of fabric, textile and cloth to provide a glossy appearance; dyeing, waterproofing of textiles and fabric, pattern printing services, treatment of cloth and fur, mothproofing; waterproofing of fabric, cloth, furs, clothing, wool, textiles and leathers; bleaching of fabric, food and drink preservation services; printing; treatment and incineration of industrial and nuclear waste; providing hazardous material treatment information in the fields of transformation, decategorization and reusing of waste; hazardous waste management, namely, global services for the treatment, sorting, decategorization, reusing in the nature of reprocessing, destruction, transformation and reclamation of waste; technical services, namely, consultation for the management and treatment of stored waste; sewing services, custom clothing alteration and retouching; custom laundry services in the nature of sewing and fabric alterations; key copying services, namely, key cutting; destruction of household waste and industrial and medical waste; management of industrial hazardous waste; hazardous waste decontamination intervention, namely, consulting in the field of decontamination of hazardous waste and waste management

services; bacterial removal services, namely, bacterial removal treatment of building surfaces; radiation protection services, namely, radiation area decontamination services; biological decontamination services for buildings, installations, premises, floors, windows, walls, ceilings, equipment towers, trays, tools, transport vehicles, carriages, trucks, semi-trailers, ships, aircraft and work zones; biological decontamination services for clothing, equipment, and personal property for arid environments; decontamination of hazardous materials, namely, radioactive cleaning by decontamination in nuclear and hospital environments; waste treatment, namely, process of heat treating radioactive and asbestos waste

CLASS 41: Education, teaching, training and sensitizing in ecology to promote respect for the environment, namely, providing classes in the field of ecology; arranging and conducting of educational colloquiums, conferences, and congresses; organization of exhibitions for cultural or educational purposes; production of audiovisual programs, namely, television programs; educational services, namely, organization of training workshops, symposiums, and seminars in the field of ecology; organization of sports competitions, organization and conducting of practical training demonstrations in the field of business training; consultancy in the field of education and training, namely, consultation in the field of K-12 educational systems, consultation in the field of business training; vocational guidance and business training of personnel, namely, providing advice concerning educational options to pursue career opportunities; training services in the fields of providing home help for families, the elderly, the sick, and the disabled; conducting of workshops online or in person, in the areas of job search techniques, career networking, career management, business management and training of executive staff; providing education in the field of ecology rendered through correspondence courses; educational services, namely, providing internships in the fields of commercial and industrial business management, organization, administration and operation with respect to users and clients of firms involved in the fields of cleaning, surveillance, security, business process intervention, mechanized handling, automated and robotic handling, hygiene, technical cleaning, transport and logistics, construction, maintenance, light work and environmental conservation; production of educational films and publication of pamphlets; production and rental of films, and video cassettes; television show production; publishing of texts in the nature of books, magazines, reviews, and electronic publications; video editing of radio and television programs; publication of books and manuals relating to video editing; production of sound recordings, videotape recording production through filming; production of phonographic sound recordings, rental of cinematographic projection apparatus and accessories for theater decoration; rental of videotapes; rental of films; rental of sound and visual recordings on multimedia carriers, video tape editing; publication of books about technical and commercial information; education, namely, providing training services in the field of ecology; entertainment, namely, organizing activities in the nature of light shows; outdoor coaching for development of leisure activities in the field of sports; education services, namely, home-based homework tutoring and educational support in the nature of training in the fields of math, science, foreign languages, grammar, literature, and social sciences; business training for staff; entertainment information; providing information in the field of leisure activities, namely, providing information about hunting and fishing; organization of cultural events and exhibitions, namely, sports competitions; booking of seats for shows; training services in the fields of engineering, inspection of industrial projects, administrative control of industrial projects, piloting of industrial projects, and project management support; training services in the fields of nuclear power, industry and the environment relating to providing technical assistance for large projects on dismantling, design and construction of new installations; conducting of workshops online or in person, in the areas of job search techniques, career interworking, career management, business management, and training of executives in the field of business administration; training services in the field of home-based assistance for handicapped people; film production

CLASS 42: Geological surveys and prospecting; material testing; laboratory services, namely, biological research, bacteriological research, chemical research, cosmetic

science research, mechanical research, geological research; technical research and scientific research in the field of medicine; surveying, engineering and engineering design services for use in designing and commissioning systems and installations implementing cleaning, surveillance and computer-integrated manufacturing techniques and their operation; surveying and conducting project feasibility studies for the design and conducting of decontamination, dismantling, decommissioning of sites, buildings, equipment or vehicles, and for the treatment or incineration of waste; technical assistance in the management and completion of projects, namely, quality control for others relating to services for the design and conducting of decontamination, dismantling, decommissioning of sites, buildings, equipment or vehicles, and for the treatment or incineration of waste, and also setting forth time and costs analyses therewith; technical advice relating to the operation of computers and environmental engineering, namely, advice and technology inspections relating to the use of computer-integrated manufacturing techniques in the mechanization and automation of the cleaning of buildings, premises, vehicles, rolling equipment, aircraft, and ships, technical advice relating to the operation of computers, namely, advice and technology inspections relating to the use of computer-operated cleaning robots, surveillance systems, security systems, automated service calls and handling robots; industrial design services; oil prospecting; technical consulting services in the field of biological research, namely, providing advice, technical information and inspections for businesses relating to bacteriological quality and the presence of microorganisms in collective kitchens and restaurant kitchens, in the agri-food, pharmaceutical and cosmetic science industries, in hospitals and all sterile environments; physics research, bacteriological research; technical research, namely, chemical analyses; consultation in the field of research of environmental protection relating to sustainable development and ecology; quality control for others in the fields of contamination and pollution control; underwater exploration; design of interior decor; engineering work, namely, engineering; professional consulting in the field of design and inspection of fire detection systems; engineering and drawing up of engineering plans unrelated to the conducting of business; laboratory research services in the field of chemistry; rental of equipment, namely, computers for use in the fields of engineering, chemistry, environmental protection, and scientific research; scientific research project studies relating to the design and development of works in contamination, dismantling, decommissioning of sites, buildings, equipment and vehicles, and treatment and incineration of waste; measuring and monitoring of equipment, machines, pipes, pumps, electric motors, cameras, objects and products to be treated for levels of initial and residual contamination for quality control purposes; technical writing for others, namely, drafting of expert reports by engineers in the field of surveillance, energy distribution, electricity, and security of goods and people, not for legal or advertising purposes; scientific research and development in the fields of computing, engineering and design; quality control and traceability services, namely, quality control for others, and quality evaluation and analysis in the field of engineering; scientific research featuring the measuring and monitoring initial and residual contamination and pollution levels for geographic regions; technology specific interior design in the agri-food, pharmaceutical, computer, nuclear, hospital, medical and paramedical industries and for research laboratories; monitoring of equipment, machines, pipes, pumps, electric motors, cameras, objects and products to be treated for levels of initial and residual contamination for quality control purposes; collection, namely, providing information in the field of collection of evidence for forensic purposes; engineering design services, namely, design of electric and electronic alarms, design of alarms for protection against theft and fire, design of access control apparatus, design of automatic rotating drums, design of apparatus for primarily for detecting objects in the nature weapons, design of time management apparatus, design of intercommunication apparatus, design of television apparatus, and design of access apparatus in the nature of turnstiles and locks; hosting of Internet sites

CLASS 43: Providing temporary accommodation; services for canteens, dormitories and hotels, namely, canteen services, hotel services, and rental of temporary accommodation; mobile cafe services for providing food and drink; food and drink

catering; cafeterias; institutional food services, namely, restaurants; food preparation services featuring preparation of fish meals, especially for eating at home; self-service restaurants; permanent snack bar services; hotel services; boarding house services; bar services, cafes, restaurants; rental of transportable buildings; rental of meeting rooms; motel services; making hotel reservations for others; child care outside the home, namely, day-nurseries, stop-over day care centers, extracurricular day care centers, authorized maternal assistance in the nature of child care; operation of campground facilities, namely, providing campground facilities; retirement home services; restaurant services; individual and collective child care services; restaurants also providing home delivery; cooking services at home and in the work place, namely, food preparation services featuring fish meals; reservation of restaurants; rental of rooms for social function, namely, rental of social function facilities for special occasions, namely, wedding receptions, and birthday parties; rental of furniture, table linen and tableware for special events; rental of tents; take-out restaurant services; boarding for animals

CLASS 44: Horticulture services; forestry pest control; gardening and landscape gardening services; plant nursery services; opticians' services; beauty salons, pedicure and hairdressing services at home, massage; washing of people, namely, hygienic care services; medical services, medical assistance at home, health care, nursing home services; convalescence homes; rest home services; hygienic and beauty treatments for human beings, namely, hygienic and beauty care; medical nursing excluding treatments, home care services in the nature of hospice services, hospital services, home help health care services; rental of farming equipment; creation and maintenance of green spaces, lawns, parks and gardens, and plantations, namely, lawn care, garden care services, landscape design, tree care services, and garden tree planting; flower arranging, tree removal services; tree surgery, killing of animals harmful to agriculture and forestry, namely, pest control for agriculture and forestry; weed killing, rest home services; beauty spa treatments at home in the nature of cosmetic body care; hygienic and beauty treatments for human beings or animals, namely, hygienic and beauty care; pet grooming; pet care, namely, bathing treatments and walking of pets; beauty care services, namely, hairdressing services; massages for relaxation; beauty care in the nature of manicures; personal hair removal services, cosmetic face care services; body care in the nature of nail care services, cosmetic body care services; hygiene and treatment services and beauty for animals in the nature of animal grooming; hygienic and beauty care for animals, care of animals in the nature of lice removal; plant care services; organization and booking services for others at their request in the nature of making reservations and bookings for others for beauty salon services

CLASS 45: Home help services in the nature of non-medical in-home personal care for assisting with daily living activities of the elderly, the disabled, and children, namely, escorting in society in the nature of chaperoning, assistance with taking medication, assistance with eating meals; monitoring the radioactivity of installations for regulatory compliance, namely, tracking and monitoring regulatory requirements in the field of nuclear safety for regulatory compliance purposes; security and remote surveillance services intended to ensure the protection of individuals and personal property and buildings; escorting in the nature of personal body guarding; civil protection in the nature of guard services; technical surveillance services and security inspection services; security consultancy; guard services; fire-extinguishing services, namely, fire-fighting; surveillance services, namely, surveillance of construction and workshops; locksmithing, namely, opening of security locks; security services for the protection of property and individuals excluding the transport thereof, namely, guard services; night guard services; monitoring of burglar and security alarms; personal body guard services; detective agency services; surveillance services and monitoring of anti-intrusion and anti-theft security alarms; computerized security services for business in the nature of providing authentication, issuance, validation and revocation of digital certificates; computerized security services for private organizations in the nature of providing authentication, issuance, validation and revocation of digital certificates; computerized security services for corporate organizations in the nature of providing authentication, issuance, validation and revocation of digital certificates; computerized security services

for households in the nature of providing authentication, issuance, validation and revocation of digital certificates; security services in the field of aeronautics in the nature of identification verification services, namely, identifying individuals by providing authentication of personal identification information; security consultancy, namely, advisory services in the field of security; fire prevention consultation, namely, consultancy services in the field of fire protection; rental of personal property in the form of fire and anti-theft alarms, and security devices and safety products in the nature of fire extinguishers, safes, and security surveillance equipment; surveillance services, namely, surveillance of industrial plants; monitoring of alarms at alarm centers; monitoring of alarms, namely, alarm monitoring management, and centralization of alarms in the nature of monitoring services; security services, namely, armed escorts and security personal for escorting suspects, prisoners and those in custody from prisons, temporary detention centers, police stations and other similar institutions to court and vice versa; surveillance services; rental of safes; legal research; civil protection services, namely, providing escorts for close protection; fire-fighting services; surveillance services, namely, surveillance of workshops and construction sites; professional consulting in the fields of video surveillance and fire detection services; social services, namely, companionship services for the elderly and disabled; escort services, namely, services for escorting handicapped people and those with reduced mobility; legal services, namely, legal help in the management and carrying out of projects especially in respect of timescales, costs, quality control services; litigation services, baby sitting; legal information services in the field of home help for families, the elderly, the sick, the disabled, for carrying out their projects especially in terms of legal services; administrative information services in the field of home help relating to non-medical in-home personal care services for assisting with daily living activities and legal affairs for families, the elderly, the sick, the disabled, for carrying out their projects especially in terms of legal services; video monitoring of facilities, viewable through a global computer network for security purposes

The color(s) blue, dark gray and red is/are claimed as a feature of the mark.

Mark made up of the wording "ONET" in Helvetica Neue font in Pantone 281 blue color with the letter O crossed through from the inner left side to the upper right by a circular arc of oblong shape in Pantone 446 dark gray at the base and lightening in shade up to the top of the bottom third of the arc and changing to Pantone 446 dark red on the two remaining thirds and arcing over the letters N and E.

The mark consists of the stylized wording "ONET" in the color blue, and the design of an arc shaped band crossing the letter "O" in "ONET" and extending above the letters "NE" in "ONET". The arc shaped band is comprised of a gradient from dark gray on the lower left to red on the upper right.

OWNER OF INTERNATIONAL REGISTRATION 1233188 DATED 01-27-2014,

SER. NO. 79-179,490, FILED 08-17-2015

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
