Subject: Opposed to New Fee on Letters of Protest
Date: Monday, September 23, 2019 1:59:26 PM

To whom it may concern:

I am writing to voice opposition to the proposed new fee for filing of Letters of Protest under the category of Trademark Processing Fees. Letters of Protest are one of the few tools available to counter a growing trend of using trademarks to "corner the market" on very common phrases that become popular for print-on-demand products. Without Letters of Protest, more frivolous trademarks will be filed, abusing a system that should protect businesses but is instead being used to monopolize certain segments of the market.

Thank you,
Rex Goodman
