infectious diseases; tumor suppressing agents; hemotropic agents for medical purposes; pharmaceutical preparations for animals for the treatment of diabetes, arteriosclerosis, cancer, cancer metastasis, high blood pressure, skin disease, arthritis, asthma, and allergy; diagnostic reagents for animals for veterinary purposes; pharmaceutical preparations for dental purposes; diagnostic reagents for gum disease; diagnostic reagents for oral fungus; medicated mouth treatment preparations; agents for oral use, namely, medicated mouthwash; oral care preparations for medical purposes, namely, medicated mouthwash; [oral care kit comprised of toothbrush and dental floss;] lactose for pharmaceutical purposes; glucose preparations for medical purposes; plant extracts for pharmaceutical purposes; reagent paper for medical purposes; medical diagnostic test strips; reagent paper for veterinary purposes; diagnostic reagent * for * cartridge * filling * or medical purposes; diagnostic reagent capsule for medical purposes; eye wash preparation for medical purposes; glucose for medical purposes; medicated toiletry preparation, namely, medicated acne treatment creams; mouthwashes for medical purposes; enzyme preparations for medical purposes; collagen for medical purposes; medicated sweets; oxygen for medical purposes; detergents for medical purposes; medicinal tea; chewing gum for medical purposes; bath preparations for medical purposes; medicated dentifrices; medicated hair lotions; medicines for veterinary purposes, namely, for the treatment of diabetes, arteriosclerosis, cancer, cancer metastasis, high blood pressure, skin disease, arthritis, asthma, and allergy; medicated animal shampoos; fumigants for agricultural purposes; fungicides for agricultural purposes; rodenticides for agricultural purposes; insecticides for agricultural purposes; herbicides; insect-repellents for agricultural purposes; antiseptics for agricultural purposes; oiled paper for medical purposes; adhesive tapes for medical purposes; drug delivery agents in the form of edible wafers for wrapping powdered pharmaceuticals; gauze for dressings; empty capsules for pharmaceuticals; eyepatches for medical purposes; ear bandages; menstruation bandages; menstruation tampons; sanitary napkins; sanitary panties; absorbent cotton for medical purposes; adhesive plasters for medical purposes; bandages for dressings; liquid bandages for skin wounds; breast-nursing pads; cotton swabs for medical use; dental composite materials; diapers for babies, incontinence diapers, adults disposable diapers; infant diaper covers; fly catching paper; mothproofing paper; lacteal flour for babies; dietary supplements for humans; dietary supplements for humans made from plant extracts; dietary supplements for controlling blood sugar level; dietary supplements for skin whitening; dietary supplements for skin beautifying; dietary supplements for animals; nutritional supplements consisting primarily of glucose for medical purposes; dietetic beverages adapted for medical purposes; dietetic foods adapted for medical purposes; beverages for babies, namely, infant formula; food for babies; dietary supplements for animals; semen for artificial insemination

CLASS 9: Lifesaving apparatus and equipment, namely, life preservers; game cartridges for arcade video game machines; vehicle driving simulators for training purposes; electronic sports training simulators; laboratory devices for genetic testing, namely, for detecting genetic sequences; laboratory apparatus and instruments for the research of gene analysis, namely, test tubes; apparatus for testing and analyzing blood, body fluid and urine for scientific or research use, namely, centrifuges used as laboratory apparatus and research laboratory analyzers for measuring, testing and analyzing blood, body fluid and urine; DNA chips; disposable dispenser syringes for laboratory use; photographic machines and apparatus, namely, cameras; cinematographic machines and apparatus, namely, video cameras; electronic products for the analysis of optical signals, namely, optical analyzers; measuring or testing machines and apparatus, namely, digital bathroom scales; bathroom scales; pedometers; precision measuring machines and apparatus, namely, digital laboratory scales; material testing machines and apparatus for testing the strength of rubber, cement, textile plastic and lumber; surveying machines and apparatus; testing apparatus not for medical purposes testing gas, liquids and solids; urinometers; diagnostic apparatus, not for medical purposes for testing sample collection equipment, namely, wipes and swabs for use in diagnostic testing; dosage dispensers, namely, machines for dispensing pre-determined dosages of medication; apparatus for gene analysis for research purposes, not for medical purposes; apparatus

for the analysis of chemical ingredients, not for medical purposes; apparatus for biochemical analysis, for research purposes not for medical purposes; apparatus for body fluid analysis, not for medical purposes, and their parts; apparatus for blood analysis, not for medical purposes, namely, research laboratory analyzers for measuring, testing and analyzing blood and other bodily fluids, and their parts; apparatus for biochemical analysis for research purposes, not for medical purposes, and their parts; apparatus for urine analysis for research purposes, not for medical purposes, and their parts; apparatus for saliva analysis for research purposes, not for medical purposes, and their parts; apparatus for oral analysis for research purposes, not for medical purposes, and their parts; apparatus for nose swab analysis for research purposes, not for medical purposes, and their parts; apparatus for throat swab analysis for research purposes, not for medical purposes, and their parts; apparatus for tear fluid analysis for research purposes, not for medical purposes, and their parts; apparatus for measuring blood sugar level for research purposes, not for medical purposes, and their parts; apparatus for measuring osmotic pressure for research purposes, not for medical purposes, and their parts; apparatus for gene analysis for research purposes, not for medical purposes, and their parts; apparatus for measuring immunity for research purposes, not for medical purposes, and their parts; apparatus for detecting cells for research purposes, not for medical purposes; apparatus for analysing cells for research purposes, not for medical purposes; contact lenses; instruments for measuring lactic acid, not for medical purposes for research purposes; apparatus for measuring breath for research purposes, not for medical purposes, and their parts; electric and magnetic meters and testers; telecommunication machines and apparatus, namely, mobile phones; remote control apparatus, namely, remote controlled laboratory robots; remote checking supervision apparatus * and instruments * for the control of machine operations; audio-receivers and video-receivers; sound reproduction apparatus; sound transmitting apparatus and instruments; monitoring apparatus, other than for medical purposes, namely, for the monitoring of machine operations; thermal imaging cameras; straps for mobile phones; personal digital assistants; wearable computers; downloadable computer programs for database management, monitoring, tracking, organizing, viewing, sharing health and medical information, medical analysis, examination and diagnosis; downloadable computer programs for medical machines and apparatus for database management, monitoring, tracking, organizing, viewing, sharing health and medical information, medical analysis, examination and diagnosis; cloud computing featuring software for use in database management, monitoring, tracking, organizing, viewing, sharing health and medical information, medical examination and diagnosis; computer software applications, downloadable for database management, monitoring, tracking, organizing, viewing, sharing health and medical information, medical examination and diagnosis; downloadable computer software and application software for data management; downloadable computer software and downloadable application software for monitoring, tracking, organizing, viewing, sharing health and medical information; recorded computer software for preparing electronic medical chart; recorded computer software for scientific and research analysis; recorded computer software for medical tests, analysis and diagnosis; image recognition software, downloadable; image diagnostic software, downloadable; data management software, downloadable; software for health management, downloadable; software for managing and recording blood sugar level, downloadable; computer program for remote supervising system, downloadable; downloadable computer software for remote monitoring and analysis; photo printers, document printers, thermal printers, video printers; image scanners; data processors; electron microscopes; X-ray apparatus not for medical purposes; radiological apparatus for industrial purposes, not for medical purposes; magnetic resonance imaging (MRI) apparatus, not for medical purposes; lasers, not for medical purposes; electrodes, other than welding electrodes or medical electrodes; dust masks; gas masks; welding masks; * droplet transmission * protective face shields for workmen; fireproof garments; disaster prevention hoods, namely, smoke hoods; protective clothing especially made for laboratories; gloves for protection against accidents; gloves for protection against X-rays for industrial purposes; eyeglasses; game cartridges for home video game machines; electronic circuits and CD-ROMs recorded with programs for hand-held games with liquid crystal displays; protective helmets for

sports; sports whistles; electronic circuits and CDROMs recorded with automatic performance programs for electronic musical instruments; downloadable music files; downloadable image files; recorded video discs and video tapes; electronic publications, downloadable, namely, downloadable magazines in the field of orthodontics; electronic publications, downloadable, namely, journals, magazines, catalogues, books, newsletters, pamphlets, booklets in the field of scientific and research tests and analysis; electronic publications, downloadable, namely, journals, magazines, catalogues, books, newsletters, pamphlets, booklets in the field of medicine and health; exposed cinematographic films; exposed slide films; slide film mounts; X-ray photographs, other than for medical purposes

CLASS 10: Finger guards for medical purposes; pacifiers for babies; ice bag pillows for medical purposes; triangular elastic bandages; supportive bandages; surgical catguts; feeding cups for medical purposes; dropping pipettes for medical purposes; feeding bottle teats; medical ice bags; medical ice bag holders; baby bottles; nursing bottles; contraceptives, non-chemical, namely, diaphragms; artificial tympanic membranes; prosthetics or fillings materials, not for dental use, namely, artificial materials for use in the replacement of bones; ear plugs for sleeping; ear plugs for soundproofing; esthetic massage apparatus for commercial use; diagnostic apparatus and instruments, namely, apparatus for medical diagnostic testing in the fields of diabetes, arteriosclerosis, cancer, cancer metastasis, high blood pressure, skin disease, arthritis, asthma, and allergy; apparatus for clinical diagnosis, namely, x-ray machines for medical purposes and clinical thermometers; therapeutic apparatus and instruments, namely, weightlifting machines for physical therapy, inhalers for therapeutic use sold empty, high frequency electromagnetic therapy apparatus, infrared radiator units for therapeutic purposes, low frequency electric therapy apparatus; puncture apparatus for therapeutic purposes, namely, for sampling of blood and body fluids; veterinary apparatus, namely, stethoscopes for animals, blood collection bags for veterinary purposes sold empty, electrocardiographs for veterinary purposes; glucose meters; surgical apparatus and instruments; electrodes for medical use; dental apparatus and instruments, namely, dental picks, dental broaches, filling instruments for dental purposes, dental drills, dental excavators, prosthetic instruments for dental purposes; genetic testing apparatus for medical purposes; apparatus for use in medical analysis, namely, x-ray apparatus for medical use; blood testing apparatus; diagnostic imaging apparatus for medical purposes; magnetic resonance imaging (MRI) diagnostic apparatus; medical apparatus for body fluid analysis, and their parts; medical apparatus for blood analysis, and their parts; medical apparatus for biochemical analysis, and their parts; medical apparatus for urine analysis, and their parts; medical apparatus for saliva analysis, and their parts; medical apparatus for oral analysis, and their parts; medical apparatus for measuring blood sugar; medical apparatus for nose swab analysis, and their parts; medical apparatus for throat swab analysis, and their parts; medical apparatus for tear fluid analysis, and their parts; medical apparatus, namely, sample preparation device for medical diagnostic uses in the nature of an apparatus specially adapted for automating or enhancing the moving, loading, and unloading of medical and biological samples for medical, clinical, chemical, or biological analysis, testing, and diagnostics; medical equipment, namely, conveyor lines specially adapted for use with medical, chemical, clinical, and biological testing, analysis, and diagnostics in the nature of an analyzer accessory for automating or enhancing the moving, loading, and unloading of samples; medical apparatus for measuring osmotic pressure, and their parts; medical apparatus for detecting cells, and their parts; medical apparatus for analysing cells, and their parts; indwelling medical apparatus for measuring blood sugar, and their parts; haemocytometers for medical purposes; medical apparatus for measuring breath, and their parts; lancets; medical apparatus for measuring lactic acid; medical apparatus for cell analysis; sphygmotensimeters; blood pressure measuring apparatus; body fat monitors; pulse meters; clinical thermometers; electrocardiographs; medical testing devices for measuring hearing loss in patients, namely, audiometers; medical apparatus, namely, spirometers; tonometers; medical apparatus for testing sensory function of feet; cooling bags for keeping pharmaceuticals cold, for medical purposes; walking aids for medical purposes; crutches; electric massage apparatus for household purposes; gloves

for medical purposes; urinals being vessels for medical purposes; bed pans; ear picks; virus protection masks, namely, sanitary masks for virus isolation purposes; germ protection masks, namely, sanitary masks for germ isolation purposes

CLASS 16: Hygienic hand towels of paper; towels of paper; table napkins of paper; hand towels of paper; handkerchiefs of paper; electrocardiograph paper; printed matter, namely, magazines in the field of scientific and research tests and analysis, and medicine and health; printed catalogues in the field of medical apparatus, medical diagnostic apparatus, medical analysis apparatus; printed calendars; printed magazines in the field of scientific and research tests and analysis, and medicine and health; printed books in the field of scientific and research tests and analysis, and medicine and health; printed newsletters in the field of scientific and research tests and analysis, and medicine and health; printed pamphlets in the field of scientific and research tests and analysis, and medicine and health; printed booklets in the field of scientific and research tests and analysis, and medicine and health; printed posters; printed matter, namely, paper charts, printed magazines, journals, catalogues, books, newsletters, pamphlets, booklets featuring information regarding health, nurturing, child caregiving, nursing, nutrition, growing, and various types of pharmaceuticals, medical supplies, medical apparatus; printed pamphlets, catalogues, newsletters, leaflets and other printed matters featuring treatment of diabetes; printed pamphlets, catalogues, newsletters, leaflets and other printed matters featuring healthcare information

CLASS 35: Advertising and publicity services; marketing services; compilation, production and dissemination of advertising matter; promoting the goods and services of others through the administration of sales and promotional incentive schemes involving trading stamps; business management analysis or business consultancy; business management; marketing research or analysis; providing information concerning commercial sales; sales promotion for others; sales promotion, advertising and marketing of medical apparatus and reagents for medical purposes; business consultancy and information services relating to medicine, pharmaceuticals, and healthcare; procurement of contracts for the purchase and sale of goods; marketing in the framework of software publishing; web site traffic optimisation; office functions, namely, filing, in particular documents or magnetic tapes; medical billing services; compilation of information into computer databases; compilation and maintenance of patient medical records and files; publicity material rental; providing commercial information and advice for consumers in the choice of products and services; retail and wholesale store services featuring woven fabrics and beddings, clothing, diapers, footwear, other than special footwear for sports, bags and pouches, key holders and key chains, foods and beverages, liquor, meat, sea food, vegetables and fruits, confectionery, bread and buns, rice and cereals, milk, carbonated drinks in the nature of refreshing beverages and nonalcoholic fruit juice beverages, tea, coffee and cocoa, processed food, dietary supplements, furniture, joinery fittings, tatami mats, electrical machinery and apparatuses, computer programs and software, bladed or pointed hand tools, hand tools and metal hardware, kitchen equipment, cleaning tools and washing utensils, pharmaceutical, veterinary and sanitary preparations and medical supplies, cosmetics, toiletries, dentifrices, soaps and detergents, agricultural machines, implements and supplies, natural flowers and trees, printed matter in the nature of journals, magazines, catalogues, books, newsletters, pamphlets, booklets, downloadable electronic publications in the nature of journals, magazines, catalogues, books, newsletters, pamphlets, booklets, paper and stationery, musical instruments and records, sound and video recordings featuring music, downloadable still and moving images, photographic machines and apparatus and photographic supplies, clocks, watches and spectacles in the nature of eyeglasses and goggles, tobaccos and smokers' articles, building materials, semi-wrought precious stones and their imitations, pets, chemical preparations, glue and adhesives, perfumery, fragrances and incense, PET bottle covers and PET bottle holders, hand-held paper bags and paper packaging bags, paper towels and paper dish cloths, hot water bottles and hot water bottle cases, shoe cream and shoe black, medical instruments, baby carriage, potties for children, disaster prevention hoods, soap dispensers, candles, heating or cooling packs filled with chemical substances ready to

react when required, disposable heat packs, textile articles, matches, photograph and photograph stands, piggy banks, ornaments of synthetic resins, plastics, wood, bamboo, ceramic, metal and textile, trophies, commemorative shields and commemorative medals, banners and flags, tapestry, shop curtain and banners, toilet paper holders, toilet seat covers of textile, tissue box covers; floor coverings, shower curtains, plant pots and watering cans, vases and flower bowls, newspaper racks, pet brushes and pet combs, pet clothes and pet towels, pet collars and leads, pet carriers, beds, kennels and dishes, pet playthings, measuring or testing machines and instruments, alarms, laboratory apparatus and instruments

CLASS 37: Installation, maintenance and repair of medical apparatus and instruments; repair or maintenance of optical machines and apparatus; repair or maintenance of electronic machines and apparatus, namely, camera printers; repair or maintenance of computers; installation, maintenance and repair of computer hardware; repair or maintenance of telecommunication machines and apparatus; repair or maintenance of telephone apparatus; repair or maintenance of telecommunication machines and apparatus other than telephone apparatus, radio receivers and television receivers; refilling of ink cartridges; repair or maintenance of consumer electric appliances, namely, kitchen microwaves; repair or maintenance of electric lighting apparatus; repair or maintenance of electric motors; repair or maintenance of power distribution or control machines and apparatus; repair or maintenance of power generators; repair or maintenance of laboratory apparatus and instruments; repair or maintenance of measuring and testing machines and instruments; repair or maintenance of medical apparatus and instruments; repair or maintenance of veterinary apparatus and instruments; information of repair or maintenance of medical apparatus and instruments; repair or maintenance of printing or bookbinding machines and apparatus; repair or maintenance of chemical processing machines and apparatus; repair or maintenance of machines and apparatus for processing foods or beverages; sterilization of medical apparatus and instruments

CLASS 41: Educational and instruction services relating to arts, crafts, sports or general knowledge, namely, courses of instruction in the fields of painting, tennis, and baseball; educational and instruction services relating to medicine and health, namely, courses of instruction in the fields of scientific and research tests and analysis, and medicine and health; educational and instruction services, seminars and courses of instruction in the fields of diabetes; providing information in the field of medical education, namely, information on donation of human corpses for medical education; medical education services, namely, arranging of donation of human corpses for use in medical education courses of instruction; arranging, conducting and organization of seminars in the field of scientific and research tests and analysis, and medicine and health; arranging, conducting and organization of seminars relating to medicine and health; arranging, conducting and organization of seminars relating to treatment of diabetes; animal training; plant exhibitions; animal exhibitions; providing online electronic publications, not downloadable namely, nondownloadable journals, magazines, catalogues, books, newsletters, pamphlets, booklets in the field of scientific and research tests and analysis; services of reference libraries for literature and documentary records; book rental; providing online electronic publications, not downloadable namely, nondownloadable journals, magazines, catalogues, books, newsletters, pamphlets, booklets in the field of medicine and health; publication of books; publishing and issuing scientific papers in relation to medical technology; providing videos from the Internet, not downloadable in the field of scientific and research tests and analysis, and medicine and health; movie theatre presentation services; film production and distribution; providing digital music from the Internet, not downloadable, namely, providing non-downloadable music videos; provision of music, sound, moving image, image and texts by Internet, namely, providing non-downloadable video and image featuring medical matters; production of videotape film in the field of education, culture, entertainment or sports, not for movies or television programs and not for advertising or publicity; organization of exhibitions for cultural or educational purposes; language interpretation; translation; rental of optical machines and apparatus, namely, rental of camera for entertainment purposes

CLASS 42: Designing of machines, apparatus, instruments including their parts or systems composed of such machines, apparatus and instruments, namely, machines for the analysis of blood, urine and body fluid; design and development of medical diagnostic apparatus, namely, apparatus for the analysis of blood, urine and body fluid; consultancy in the design and development of computer hardware; providing information relating to computer technology and programming via a web site; computer software design, computer programming, or maintenance of computer software; creating and maintaining web sites for others; off-site data backup; monitoring of computers and computer systems by remote access to ensure proper functioning; advisory and consultancy service of remote monitoring of computer programs for monitoring disturbance of medical apparatus; remote monitoring for technical purposes of * computer programs for * medical apparatus [and its programs] to ensure proper functioning; technical information in the field of remote monitoring of * computer programs for * medical apparatus [and its program] ; remote monitoring for technical purposes of * computer programs for * laboratory apparatus [and its programs] to ensure proper functioning; information in the field of remote monitoring of [computer programs for] laboratory apparatus [and its program] ; updating of computer software; technological advice relating to computers, automobiles and industrial machines; testing, inspection or research of pharmaceuticals, cosmetics or foodstuffs for scientific research purposes; medical research; chemical research; chemistry services, namely, research in the field of chemistry; chemical analysis; bacteriological research; biological research; clinical trials, namely, conducting clinical trials for others; scientific research; scientific laboratory services; research and development of new products for others; testing of pharmaceuticals; material testing; quality control for others; testing or research for others on machines, apparatus and instruments; calibration of medical apparatus for others; rental of computers; providing computer programs on data networks, namely, providing nondownloadable online software for database management; online provision of computer programs for medical apparatus, namely, providing nondownloadable online software for calibrating, operating and monitoring medical apparatuses; online provision of computer software for data management, namely, providing nondownloadable online software for database management; online provision of computer software, namely, providing nondownloadable online software for monitoring, tracking, organizing, viewing, sharing health and medical information; online provision of application software, namely, providing nondownloadable online software for monitoring, tracking, organizing, viewing, sharing health and medical information; online provision of computer software, namely, providing nondownloadable online software for displaying and viewing of electronic medical charts system; online provision of computer software, namely, providing nondownloadable online software for use in medical examination and diagnosis; online provision of software, namely, providing nondownloadable online software for image recognition; online provision of software, namely, providing nondownloadable online software for image diagnosis; online provision of software for data management; online provision of software, namely, providing nondownloadable online software for health management tracking; online provision of software, namely, providing nondownloadable online software for management and recording of blood sugar level; software as a service (SaaS) featuring computer software platforms for use in database management, monitoring, tracking, organizing, viewing, sharing health and medical information, medical analysis, examination and diagnosis; cloud computing featuring software for use in database management, monitoring, tracking, organizing, viewing, sharing health and medical information, medical analysis, examination and diagnosis; hosting computer web sites; platform as a service (PaaS) featuring computer software platforms for use in database management, monitoring, tracking, organizing, viewing, sharing health and medical information, medical analysis, examination and diagnosis; rental of a database server to third parties; electronic storage of data, namely, medical and health records; rental of laboratory apparatus and instruments; rental of measuring apparatus

CLASS 44: Providing medical information; physical examination services; [preparation and dispensing of medications;] medical screening; medical assistance; medical

analysis services for diagnostic and treatment purposes provided by medical laboratories; medical testing for telemedicine treatment services; medical testing at home of body fluids, namely, blood, urine, saliva, mucosal fluid; medical testing of test substances, namely, stool, urine, blood; medical diagnostic services; physical therapy; health counseling; providing health information; physical therapy services; nursing home services; dietary and nutritional guidance; animal breeding; veterinary services; beautification for animals, namely, animal grooming; clinical testing services required for medical diagnosis and medical examination of animals; nursing care; rental of medical apparatus and instruments; rental of medical examination and diagnostic apparatus and instruments; rental of veterinary apparatus and instruments; rental of veterinary examination and diagnostic apparatus and instruments; rental of sanitary installations; rental of animals for gardening purposes

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
