Overview

- **On January 20, 2021, President Biden issued Executive Order (EO) 13985, Advancing Racial Equity and Support for Underserved Communities through the Federal Government.**
- The EO directs: “The Federal Government should pursue a comprehensive approach to advancing equity for all, including people of color and others who have been historically underserved, marginalized, and adversely affected by persistent poverty and inequality.”
- **The EO has two primary requirements for agencies: conduct equity assessments of their programs and services: develop a plan for addressing barriers to full participation of underserved communities. In March, the White House provided guidance to agencies on equity assessments.**
- White House guidance also directed the establishment of Agency Equity Teams to facilitate, inform, and advance agency progress on the equity assessments, action planning, and other agency actions directed by EO 13985. The Agency Equity Teams serve as leaders of work that is occurring enterprise-wide
