# Agenda

- I. Background
- II. Standard Operating Procedure 2 Revision 11
- III. Revised Interim Director Review Process
- IV. Delegated Rehearing Panel
- V. Appeals Review Panel

# I. Background

# Background – SOP 2

Sept. 2018: Standard Operating Procedure 2 (SOP 2) Rev. 10 (**currently superseded by Revision 11 that has retired the POP process**)

- Created Precedential Opinion Panel (POP)
  - Receive requests for review of Board decisions
  - Decide issues of exceptional importance through precedential decisions
- Revised procedures for designating existing Board decisions as precedential
  - Provides for designation of previously-issued cases as precedential or informative by the Director, as well as de-designation of previously designated cases
  - Provides for input from a Screening Committee and PTAB

# Background – Director Review

- On June 21, 2021, the Supreme Court issued its decision in *United States v. Arthrex, Inc.*, 141 S. Ct. 1970, 1986 (2021)
  - Addressed the Constitution’s Appointments Clause as it relates to administrative patent judges (“APJs”)
  - The Court held that “the unreviewable authority wielded by APJs during *inter partes* review is incompatible with their appointment by the Secretary to an inferior office”
- The Court’s remedy provides that the Director “may review final PTAB decisions and, upon review, may issue decisions himself on behalf of the Board”

# Background – Director Review

- “Decisions by [APJs] must be subject to review by the Director” addressing concerns of the “Director’s ability to supervise APJs in adjudicating petitions for inter partes review.”
  - *United States v. Arthrex, Inc.*, 141 S. Ct. 1970, 1986-87 (2021)
- The Director has an interest in
  - Issuing guidance to increase fairness and efficiency
  - Establishing consistency across Board proceedings

# Background – Interim Director Review process

- On June 29, 2021, the Office implemented an **interim process for Director Review**, consistent with *Arthrex*
  - The interim process furthers the USPTO’s goal of promoting innovation through consistent and transparent decision-making and the issuance and maintenance of strong patents
  - The interim process complemented three other PTAB procedures that promote the same goals: panel rehearing; internal review; and the POP
- Under the interim process
  - Only a party to a proceeding may request Director review of a **final written decision** (FWD) or a decision **granting rehearing of a FWD** in an AIA proceeding
  - The Director also may grant review *sua sponte*

# Background – Interim Director Review process

- On April 22, 2022, the USPTO published two webpages to increase openness as it formalized the interim Director review process.
  - Interim process for Director review webpage, setting forth more details on the interim process and some additional suggestions for parties who wish to request Director review.
  - Status of Director review requests webpage, providing information about the proceedings in which Director review has been granted, and a spreadsheet, updated monthly, with the status of all Director review requests.

# Background – Request for Comments

- Published a [Request for Comments](#) (RFC) seeking public input to inform rulemaking on July 20, 2022; comment period closed October 19, 2022
  - Over 4,300 comments received
- Plan to engage in policy making in 2023 and formalize processes through notice and comment rulemaking

# Background – RFC questions

1. Should any **changes** be made to the interim Director review process, and if so, what changes and why?
2. Should **only the parties** to a proceeding be permitted to request Director review, or should third-party requests for Director review be allowed, and if so, which ones and why?
3. Should requests for Director review be **limited to final written decisions** in IPR and PGR? If not, how should they be expanded and why?
4. Should a party to a proceeding be able to request **both Director review and rehearing by the merits panel**? If so, why and how should the two procedures interplay?

# Background – RFC questions

5. What **criteria** should be used in determining whether to initiate Director review?
6. What **standard of review** should the Director apply in Director review? Should the standard of review change depending on what type of decision is being reviewed?
7. What **standard** should the Director apply in determining whether or not to grant ***sua sponte*** Director review of decisions on institution? Should the standard change if the decision on institution addresses discretionary issues instead of, or in addition to, merits issues?

# Background – RFC questions

8. Should there be a **time limit** on the Director's ability to reconsider a petition denial? And if so, what should that time limit be?
9. Are there considerations the USPTO should take with regard to the fact that decisions made on Director review are not **precedential** by default, and instead are made and marked precedential only upon designation by the Director?
10. Are there any **other considerations** the USPTO should take into account with respect to Director review?

# Background – RFC questions

11. Should the POP review process **remain** in effect, be modified, or be eliminated in view of Director review? Please explain.
12. Are there any **other considerations** the USPTO should take into account with respect to the POP process?

# RFC comments received

- The majority of commenters preferred that
  - Only parties should be able to request Director Review,
  - Director Review should be available for final written decisions and decisions on institution,
  - The Director should apply *de novo* review to all issues on review,
  - The same standard of review should apply for all Director Review decisions,
  - There should be a set time limit on Director Review, and
  - Director Review decisions should be routine by default.

# Overview of current changes

# Overview of current changes

In response to RFC comments and USPTO's experience:

- Updates to SOP 2 (Revision 11)
  - Retirement of the Precedential Opinion Panel
- Revised interim Director Review process
  - Expansion to institution decisions
  - Introduction of the Delegated Rehearing Panel
- Creation of the Appeals Review Panel

## **II. SOP 2 Revision 11**

# Updates to SOP 2 Revision 11

- On July 24, 2023, SOP 2 Revision 11 replaced Revision 10
- SOP 2 Revision 11
  - Retires the Precedential Opinion Panel process
  - Focuses on the processes for designating or de-designating Board decisions as precedential or informative
  - No substantive change to designation process of Revision 10

# Reminder: Effect of designation

- The Board enters thousands of routine decisions every year
  - Routine decisions only bind that specific case
- SOP 2 explains the procedures for designating decisions as precedential or informative
  - Helps ensure consistency in decisions across Board jurisdictions including ex parte appeals and AIA proceedings
  - A precedential decision is binding Board authority in subsequent matters involving similar facts or issues
  - Informative decisions set forth Board norms that should be followed in most cases, although it is not binding authority on the Board

# Reminder: Effect of designation

- A **precedential decision** establishes binding Board authority concerning
  - major policy or procedural issues,
  - issues of exceptional importance, including constitutional questions, or
  - issues regarding statutes, rules, and regulations, case law, or issues of broad applicability to the Board
- An **informative decision** provides
  - Board norms on recurring issues,
  - guidance on issues of first impression to the Board,
  - Board rules and practices, or
  - guidance on issues that may develop through analysis of recurring issues in many cases
- No case will be designated without Director approval

# Reminder: Nomination process

- Any person, including anyone from the public or the USPTO, may nominate a routine Board decision for designation as precedential or informative
- Nominations for designation must
  - set forth with particularity the reasons for the requested designation,
  - identify any other Board decisions of which the person nominating is aware that may conflict with the nominated decision, and
  - be submitted by email to [PTAB\\_Decision\\_Nomination@uspto.gov](mailto:PTAB_Decision_Nomination@uspto.gov) or through PTAB's online Decision Nomination form at [www.uspto.gov/patents/ptab/ptab-decision-nomination](http://www.uspto.gov/patents/ptab/ptab-decision-nomination)

# Reminder: Review of nominations

- Each nomination is reviewed by the Director's Advisory Committee and PTAB Executive Management
- The Advisory Committee is comprised of at least 11 members from various USPTO business units
  - The Advisory Committee prepares an advisory recommendation for each nominated decision, including any dissenting views

# Reminder: Review of nominations

- PTAB Executive Management reviews each nominated decision and provides a recommendation to the Director
  - PTAB Executive Management also solicits and considers feedback from Board judges

# Reminder: Designating a decision

- If the Director determines that the decision should be designated as precedential or informative, the Director will notify the Chief Judge
  - No designation without the Director's approval
  - SOP 2 does not limit the authority of the Director to designate or de-designate at any time, in their sole discretion
- Any decision designated as precedential or informative will be posted on the Board's [Precedential and Informative Decisions Webpage](#)
