Subject: Attributable owner proposal: please do not enact

As the owner of a startup (and the holder of 10 issued patents), I am writing to inform you that the proposed change to

37 CFR Part 1
[Docket No.: PTO-P-2013-0040]
RIN 0651-AC90

will likely (a) cost us a lot of time and money, possibly stifling innovation, and (b) deter investment, also possibly stifling innovation.

Please don't throw the baby out with the bathwater, so to speak.

Cordially,
Sharon Flank, Ph.D.
CEO, InfraTrac
