1. Introduction

This Quick Start Guide will provide you with the information you need in order to understand how to file a WebADS, including a brief overview of the process and screen shots that identify critical aspects of the submission.

EFS-Web will automatically generate and attach a PDF version of the WebADS.

A more comprehensive guide on how to use EFS-Web can be found at the EFS-Web Guidance and Resources page located at: <http://www.uspto.gov/patents/process/file/efs/guidance/index.jsp>

2. Basic Guidelines for Filing a Web-based ADS

- You must be able to access EFS-Web.
- The WebADS is available for **new** applications under the following submission types: Utility and Designs.
- The WebADS is not permitted in PCT and Supplemental Examination submissions
- You can be either a Registered or Unregistered eFiler. Only Registered eFilers may save a submission as a work-in-progress for up to 7 days.
- The WebADS is **not** permitted in follow-on submissions.
- The Application Data Sheet must be signed in accordance with 37 CFR 1.33(b). If an applicant is prosecuting the application pro se, all of the inventors must sign to comply with the rule, unless a power of attorney has been given. MPEP 402.01.
- All required fields must be completed in order to proceed with the submission. The required fields are indicated with an asterisk.
- A Web-based ADS can only be submitted with the filing of a new application on or after September 16, 2012, or with a U.S. national stage entry under 35 USC 371 where the Patent Cooperation Treaty (PCT) filing date (international filing date) is on or after September 16, 2012.
- Do **not** attach an ADS as a PDF if submitting a Web-based ADS.
- Submissions under a Secrecy Order may not be filed electronically.

Warning: EFS-Web sessions will time-out after one hour of inactivity. A WebADS that has not been submitted or saved after one hour of inactivity will be lost. You will need to login to EFS-Web again and re-enter the information from the start.
