Leahy-Smith America Invents Act Implementation

President Barack Obama signs the America Invents Act September 16, 2011, at Thomas Jefferson High School for Science and Technology in Alexandria, Va.

Message from Director David Kappos

On September 16, 2011, President Barack Obama signed into law the Leahy-Smith America Invents Act, which will foster innovation and spur job creation in the United States. This Act sets into motion the most comprehensive overhaul to our nation's patent system since 1836.

The new law will afford more certainty for patent applicants and owners, and provide the USPTO the resources needed to operate efficiently and issue high-quality patents. Implementation of the new law will occur over a period of months, and our USPTO team will seek input and provide updates all along the way. I strongly encourage you to use this site to regularly track progress pertaining to the agency's implementation efforts.

All of us at USPTO look forward to working together with the innovation community to tackle the exciting challenges of rolling-out this historic law. Here are a few documents to get started:
