Search PTAB

11. Searching in PTAB

You do not need to be logged into the PTAB E2E system to perform searches. The PTAB E2E Search tool searches metadata of all files and documents in the PTAB document repository, see Figure 1 below.

11.1 AIA Review Case Types

PTAB E2E system currently handles the following types of AIA Review Cases:

- a. Inter Partes Review (IPR)
- b. Post Grant Review (PGR)
- c. Covered Business Method Patent Review (CBM)

Figure 1: Search window on PTAB Home screen

11.2 Alternate ways to Search

External users can also click on the top menu bar “Search” menu option to perform search as well, as in figure 2 below.

Figure 2: Search options on PTAB Home screen

11.3 Reviewing the Search results

The default search results view shows cases with the metadata matching the specified search terms, as in figure 3 below. Select the “**AIA Review**” slider to switch between AIA Review view (listing each of the cases found in the search) and **Documents** view (listing each of the documents in a separate row for each of the cases found in the search). In the Documents view, you can download all metadata from within the search results, as in figure 4 below.

Figure 3: Search results view

Select the “records per page” field to change the number of records per page displayed. The default is 10 records per page

- Click the **“View Documents”** button (see figure 3) to the right to view the documents associated with that particular case.
- Click on any column heading (see figures 3 and 4) to change the sort order of the search results based on that column’s data.
- Click on “Download All” (see figure 4) to download all metadata associated with that particular search result and
- Click on the hyperlinked Document Title value (see figure 4) in any case row to view that particular document attached to a case.

You are seeing the first 2000 results for AIA Review Number: IPR2012 ✕ sorted by AIA Review Number and Patent Number.
Please use the "Primary" and "Filter by" on the left to filter your results.
