Name: Kelly Houston

Address:

20217 Bascom Ridge Drive
Cornelius, NC,

Submitter's Representative: Kelly Houston

Organization: AEI, LLC

General Comment

The PTAB was unconstitutional in its founding, operation and decisions. It has to be shut down and all of its decisions vacated.

My Ex-Parte was accepted by the USPTO even though my issued patent singular scientifically well known method "Aerosolization" was not mentioned once in a 350 page petition AND none of the known scientific steps mentioned much less addressed. At the time (June of 2015) there was over 3800 issued patents that extremely clearly lay out the necessary steps of the science.
