General Comment

i think its shame how someone has idea and its stolen and used and person who has created this invention is left out in the cold and suffering great loss

i have created many inventions but its hard to prove once the invention has been put out somebody has -copy of the exact invention i have copies of inventions i created sent to Davidson Inventions fluorescent street lights and lights are up in my home town cell phone tv solar tv and cell phone that was created in1996 have not seen any royalties or anything from invent as advertised on tv i think tv and all is fraud and needs to be addressed third party consumers wait by for inventions to go untouched steal and lie im supposed to be millionaire billionaire by now..
