## General Comment

I would like to express my concern in future claims to this matter.

I believe that it is unlawful and unfair to allow for an overturn a law that has been established in this country that has been established in fair trials and freedom. By overturning this law it will allow for our rights to be forfeited and redeemed into submission of a unfair standing. There has been great innovations in this country that has made it best in technology advancement to make a better tomorrow.

By overruling this it will create an unfair and unlawful matter to be able to override in the court of law. I do not agree to this change and believe it is unfair and unlawful to do that change without approval of the people of The United States of America.
