Jamie Holcombe
Chief Information Officer, USPTO

Osman Turan
Acting Trademarks Product Line Manager
Trademark IT updates to the Trademark Public Advisory Committee (TPAC)

Jamie Holcombe, Chief Information Officer
David Gooder, Commissioner for Trademarks
Greg Dodson, Deputy Commissioner, Trademarks
Deborah Stephens, Deputy Chief Information Officer
Glen Brown, Trademarks Product Line Lead
Oz Turan, Trademarks Product Line Manager (acting)
July 30, 2021
Highlights since last TPAC meeting

- OCIO Data Center move from Boyers to Manassas on track for August 1, 2021
- Trademark Modernization Act (TMA) development efforts continue on track
- Progress on decoupling architectures - implemented new microservices to remove MYUSPTO’s dependency to the on-premise TRAM database
- Cloud readiness and migration planning for Exam and Content Management Services completed
- Cloud migrations underway for various other products and components
- Continued progress with implementing infrastructure improvements to improve Agile delivery of software to production
Agile Infrastructure Improvements

**DevSecOps Pipelines** = faster deployments

**Blue/Green environments** = increased availability

Projecting completion of pipelines and blue/green environments for all components by Sep/Oct 2021

* Values within pie charts indicate the number of system components that are complete or are in progress.

** Four of the Trademark Exam components will not require Blue/Green environments.
