

Scott Beliveau

Scott Beliveau is a Branch Chief of Enterprise Advanced Analytics at the United States Patent and Trademark Office. Mr. Beliveau has been serving as acting Director of Enterprise Architecture and leading the Enterprise Advanced Analytics Branch and its team of data scientists to support the development of the “big data reservoir”, an effort to improve performance management enterprise-wide with data driven decision/policy making and to establish a future platform for Artificial Intelligence (AI) development at the USPTO.

Mr. Beliveau began his career at the USPTO in 2002 as an Examiner in the Interactive Video Distribution art area (725). He eventually became a Supervisory Patent Examiner in that same area and led a number of special projects relating to mobile application software development, knowledge management and crowdsourcing. While detailed to the Office of the Under Secretary, Scott helped lead the USPTO efforts to meet the White House and Department of Commerce strategic data goals, work which laid the foundation for the creation of the “Digital Services and Big Data” portfolio.

Mr. Beliveau received his Bachelor of Science in Electrical Engineering at Brown University and his Masters of Business Administration at the University of Rhode Island.
