PTAB End To End (PTAB E2E) Boardside Chat

June 23, 2016

UNITED STATES
PATENT AND TRADEMARK OFFICE

The AIA e-filing system known as the Patent Review Processing System (PRPS) will be replaced by a new system known as the Patent Trial and Appeal Board End to End (PTAB E2E) system with a deployment target of July 9, go live on Monday, July 11, 2016

PTAB E2E utilizes a web browser (Google Chrome is the preferred browser) and a filing wizard to assist petitioners and patent owners to provide metadata and upload pdf documents to the USPTO. PTAB E2E also provides an interface to the USPTO next generation financial system for submitting necessary fees.

PTAB E2E is planning be deployed over the weekend of July 9, 2016 to process the following AIA Reviews - Inter Partes Review (IPR), Transitional Program for Covered Business Methods (CBM), and Post Grant Review (PGR). PRPS will be unavailable from 12:01 a.m. (EST) Saturday, July 9th. At 5:00 a.m. (EST) on Monday, July 11th AIA Reviews (IPR, PGR, CBM) will be available in PTAB E2E. All AIA reviews of these trial types will be migrated to PTAB E2E and will be available in the search, and should be viewable by the counsel on their docket.

Derivations (DER) will be still processed in PRPS until they are migrated into PTAB E2E later in 2016. Only DER will be available in PRPS.

PRPS users should ensure that their user profile in PRPS is updated with an unique email address. The email address should be associated with your name and USPTO Registration number and not another individual's name or a shared email address. This email address will be linked with other USPTO systems and will become the user identification when logging into USPTO systems. In the future, PTAB E2E will be changed to accommodate multiple email addresses for notification purposes.

PTAB E2E is being developed using Agile Methodology. Agile development allows PTAB to iteratively deliver new functionality, address defects, and respond to user feedback. PTAB will be committed to continuously improving the e-filing process with a focus on user experience. While we are aware that defects will exist in the system, the defects will be prioritized and fixed in upcoming deployments.

Support Contact info: Support will be available at 571-272-7822. We encourage you to provide feedback and report issues about the PTAB E2E system by sending an email with your comments to PTABE2EAdmin@uspto.gov

PRPS Users – PTAB E2E First Login

Petition – Document Availability

The screenshot displays the 'Create Petition' interface with a warning dialog box overlaid. The dialog box has a dark header with the word 'WARNING' and a close button (X). The main text of the dialog reads: 'Document would be viewed by the public unless a different option is selected.' Below the text are two buttons: 'Change availability' and 'Keep it Public'. The background interface is dimmed and shows a sidebar with sections: 'Patent Verification', 'Petition Information', 'Claims Challenged' (with a '9' notification), 'Petition Documents', 'Required Information', 'Real Party', 'Additional Real Party', and 'Review'. The main content area includes a dropdown menu for 'Petition' (set to 'Petition'), an attachment list with '* Attachment 006-PET-petition.pdf' and a trash icon, and an '* Availability' dropdown menu set to 'Available for everyc'. There are 'Add' and 'Clear Form' buttons below the attachment list. At the bottom right, there is a 'Continue' button. A 'Withdraw Petition' button is visible at the bottom left. In the top right corner of the interface, the text 'AIA Review Number: IPR2016-80034' is visible.
