The Office's Prior Art Statutory Compliance metrics are based on reviews assessing patentability under 35 USC 102 and 103, where the reviews were conducted by OPQA on every Office action type from all technologies. The number of instances of non-compliance under the overall metric will not necessarily be the sum of the number of instances of non-compliance under each of the breakdowns because a single case that is non-compliant with respect to both 35 USC 102 and 35 USC 103 will be counted only as a single instance of non-compliance in the overall metric.
