NOTICE OF EDITORIAL CORRECTIONS

PUBLICATION DATE: May 1, 2018

**Summary of Editorial Corrections**

The following Editorial Corrections have been made to correct errors found late in the processing of CPC projects issued in January and February 2018. Additional minor corrections to the scheme and definitions not associated with CPC projects are also included.

**CORRECTIONS FROM 2018.01 and 2018.02 PROJECTS:**

| <b>DP0139 Definition Corrections</b> |   |
|--------------------------------------|---|
| <b>Location</b>                      | <b>Correction</b>   |
| G03G 21/00                           | In the Definition statement, change “Security” to “security” and add “e.g. watermarking” in the bulleted item for security copying as show below: <ul style="list-style-type: none"> <li>security copying, e.g. watermarking</li> </ul> |
| G03G 21/00                           | In the References section, delete the subtitle “Limiting references” and replace it with the subtitle “References out of a residual place”:<br>Limiting references    References out of a residual place                                |

| <b>RP0159 Definition Corrections</b> |   |
|--------------------------------------|---|
| <b>Location</b>                      | <b>Correction</b>   |
| G10K                                 | In the Limiting references section, delete all of the table rows currently in this section.                     |
| G10K                                 | In the Limiting references section, insert the following table row:<br>Sound producing toys            A63H5/00 |

| <b>RP0506 Definition Corrections</b> |   |
|--------------------------------------|---|
| <b>Location</b>                      | <b>Correction</b>   |
| A41D 1/06                            | In the Definition statement section, add the following new line <b>above</b> “Illustrative examples of subject matter classified in this group” in the Definition statement:<br><br>Also covers details of trouser cuffs.<br><br>Illustrative examples of subject matter classified in this group |

| <b>MP0387 Scheme Corrections</b> |   |
|----------------------------------|---|
| <b>Location</b>                  | <b>Correction</b>   |
| B29C 35/00                       | Add semicolon after B29C 33/02:<br>Heating, cooling or curing, e.g. crosslinking or vulcanising; Apparatus therefor (moulds with incorporated heating or cooling means B29C 33/02 { thermal after-treatment of shaped articles B29C 71/02}; curing devices for plastics dental prostheses A61C 13/14; before moulding B29B 13/00) |
| B29C 59/14                       | Delete semicolon and replace with parentheses; move closing parentheses inside curly brackets:<br>by plasma treatment { (plasma tubes per se H01J) }  |
| B29C 65/00                       | Add “(“ between “)” and “general” Add closing parentheses before “)” and after B29C44/326:<br>Joining {or sealing} of preformed parts {, e.g. welding of plastics materials}; Apparatus therefor {(general aspects of processes or apparatus for joining  |

|            | preformed parts B29C 66/00; using porous material formed by internal pressure generated therein for joining preformed parts B29C 44/1228, B29C 44/326  |
| B29C 73/00 | References are out of order, B29C5/142 should go first:<br>Repairing of articles made from plastics or substances in a plastic state, e.g. of articles shaped or produced by using techniques covered by this subclass or subclass B29D (linings for tyres acting locally B60C5/142; retreading tyres B29D 30/54 ; linings for tyres acting locally B60C5/142); devices for covering leaks in pipes or hoses F16L 55/16) |
| B29C 73/16 | Add curly brackets inside parentheses:<br>Auto-repairing or self-sealing arrangements or agents (incorporating auto-repairing or self-sealing arrangements or agents on or into tyres B29D 30/0685)  |

**MP0387 Definition Corrections**

| Location | Correction  |
|----------|---|
| B29C     | In the Definition statement, delete the following existing paragraphs as shown below:<br>The working of plastics is covered in the subclass B29C. Its scope is however so broad that a detailed description of the subject matter appropriate for this place is correctly possible only at the main-group level, e.g. B29C33/00.<br>The working of plastics includes besides processes, apparatuses therefore as well as products, as long as the products are characterised by a method provided in this subclass.   |
| B29C     | In the Definition statement, insert the following new paragraphs as shown below:<br>Processes and apparatus for:<br><ul style="list-style-type: none"> <li>shaping or joining of plastics;</li> <li>shaping of material in a plastic state when a specific material is not identified;</li> <li>shaping of material in a plastic state, not otherwise provided for.</li> </ul> Products obtained by processes provided for in this subclass, as long as the products are characterised by said processes.   |
| B29C     | In the Relationships with other classification places section, delete the following existing paragraphs as shown below:<br>The working of plastics is, as far as possible, classified primarily according to the particular shaping technique used, e.g. in subclass B29C.<br>Classification according to production of particular articles in subclass B29D is restricted to:<br>aspects which are characteristic for the production of a particular article, and not classifiable in subclass B29B or B29C;<br>combined operations for making the particular article which are not fully classifiable in subclass B29C. |
| B29C     | In the Relationships with other classification places section, insert the following new paragraphs as shown below:<br>Subclass B29C is often connected with the following areas:  |
