Email questions to: [inventorinfochat@uspto.gov](mailto:inventorinfochat@uspto.gov)
Overview

• Explanation of the role of the patent examiner in examination of an application
• Explanation of the examination process
• Explanation of the office action
• Explanation of applicant’s rights and responsibilities when responding to an office action
• Explanation of the appeal process

Email questions to: inventorinfochat@uspto.gov
**Patent Examination**

- **Patent Examiner reviews contents of the application for compliance with all U.S. patent legal requirements**

- **Burden is on the examiner: An applicant is entitled to a patent unless...**
  
  - Requirements of U.S. patent law are not met
Simplified Patent Application Examination Process

1. Examiner selects application from PALM docket in eDAN or DAV

2. Examiner reviews application, formulates search strategy, and performs prior art search

3. Examiner reviews prior art, applies art to application, and authors office action

4. Office action is forwarded for review and signature (if necessary) then routed to TSS for recording in PALM

5. Office action is forwarded to mailing contractor and mailed to applicant

6. Office action is indexed and scanned into IFW

Email questions to: inventorinfochat@uspto.gov
Terminology

Allowed: Patent application which has been indicated by an examiner as meeting all statutory (laws) and regulatory (rules) requirements – not patented yet; may or may not have been published

Patented: Allowed patent application which has been issued (published) on the patent (issue) date

Abandoned: Application which is no longer pending and was not patented; abandonment may be expressly requested by applicant or be as a result of failing to respond within a set time period

Published Patent Application: An application published as part of PGPub (PreGrant Publication) in accordance with 35 U.S.C. §122(b)

Pendency: The time from a patent application’s filing date until the date a patent is issued or the application is abandoned
The Examination Process

Rejection

First Examination

Applicant Response

Appeal Brief

Appeal Process

Second Examination

Disposal

Notice of Allowance or Abandonment

Appeal Decision

Affirmed or Reversed In Whole or In Part

Please note that a negative opinion by the examiner may be correct. In those instances, a patent will not be granted. The Appeal Process can include appeals to the Patent Trial and Appeal Board, The US District Court for the Eastern District of Virginia, US Courts of Appeals for the Federal Circuit and The US Supreme Court.

Email questions to: inventorinfochat@uspto.gov
The Office Action

Legal Record

- Sets forth the legal basis for any objections, rejections, and indications of allowable subject matter
- Available to the public from www.uspto.gov (if published application)
- Relied upon in any court proceedings for a resulting patent
- Aids the public and the courts with the underlying rationale behind the prosecution history
- Must be consistent with the policies of the Office, including:
  - Published Guidelines (Interim or Final) used between MPEP updates
  - Internal, unpublished positions

Email questions to: inventorinfochat@uspto.gov
Patent Examiner First Action on the Merits (FAOM)

- Reads and understands invention
- Determines whether the application is adequate to define the metes and bounds of the claimed invention
- Determines the scope of the claims
- Searches existing technology for claimed invention
- Determines patentability of claimed invention
- Writes opinion – called an Office Action that notifies applicant of the examiner’s patentability determination

  Opinion includes objections, rejections and/or indication of allowance of claimed invention presented based on Patent Laws

Sets forth a Shortened Statutory Period (SSP) for response
Laws/Rules – Application/Interpretation

Law = Title 35, United States Code

• Enacted by Congress, signed by the President

• USPTO does not have the authority to waive or interpret laws inconsistent with binding case law

• Basis for a rejection of claim(s)

• If twice rejected, applicant may appeal to the Patent Trial and Appeal Board (PTAB)

• If PTAB affirms the examiner’s rejection, judicial review may be sought at the CAFC or the U.S. District Court for the Eastern District of Virginia
Laws/Rules – Application/Interpretation (cont.)

Rules = Title 37, Code of Federal Regulations (CFR)

- USPTO has authority to make changes in certain instances, subject to approval of the Office of Management and Budget (OMB)
- USPTO has the authority to waive its own rules so long as such waiver is not inconsistent with the law.
- The rules implement the patent law enacted by Congress so that the law can be administered. The rules set forth the procedures for complying with the law.

- Unless/until published/patented, patent applications are preserved in confidence

- 37 CFR 1.14(a):
  - Patent applications that have not been published under 35 U.S.C. §122(b) are generally preserved in confidence pursuant to 35 U.S.C. §122(a)
  - Information concerning the filing, pendency, or subject matter of an application for patent, including status information, and access to the application, will only be given to the public as set forth in §1.11 or in this section

• 35 U.S.C. §101
  • 4 categories of patent-eligible (statutory) subject matter
    • Process, machine, article of manufacture, or composition of matter
      • includes improvement inventions in any of the 4 categories
  • Specific, substantial, and credible utility
  • 1 invention = 1 patent (restriction and double patenting)
Laws/Rules – Prior Art Rejections

- **Rejections made under 35 U.S.C. §102 or §103 are commonly referred to as “prior art rejections”**

- **35 U.S.C. §102**
  - Novelty (new)
  - Anticipation (every claimed feature present in a reference)
  - Defines what qualifies as “prior art”

- **35 U.S.C. §103**
  - Non-obvious (legal determination)
  - Concept of “one of ordinary skill in the pertinent art”
35 U.S.C. §101 sets forth patent-eligible subject matter. Notwithstanding the word “new” in the phrase “new and useful,” it is not a redundant test. Instead, it is a precursor to 35 U.S.C. §§ 102 and 103, which require the subject matter to be novel and unobvious, respectively, over the prior art.

The public relies on the USPTO to ensure that whatever is patented was, as of the effective filing date, not only patent-eligible subject matter, but also new and unobvious
Laws/Rules – Prior Art Rejections (cont.)

• The most common type of prior art is a reference document, such as:
  • Patents (foreign and domestic)
  • Patent application publications (international, foreign, and domestic)
  • Non-patent literature (NPL), e.g., books, journal articles, web-based publications, etc.

• Another type of prior art is applicant admitted prior art (AAPA)

• 37 CFR sets forth various rules that dictate how prior art gets made of record in a U.S. patent application
Laws/Rules – Mechanisms Through Which Art is Made Part of the Application

• 37 CFR 1.104 Nature of examination
  • ...On taking up an application for examination or a patent in a reexamination proceeding, the examiner shall make a thorough study thereof and shall make a thorough investigation of the available prior art relating to the subject matter of the claimed invention....

• 37 CFR 1.56 Duty to disclose information material to patentability
  • ...Each individual associated with the filing and prosecution of a patent application has a duty of candor and good faith in dealing with the Office, which includes a duty to disclose to the Office all information known to that individual to be material to patentability as defined in this section....
    • 37 CFR 1.97 Filing of information disclosure statement
    • 37 CFR 1.98 Content of information disclosure statement
Laws/Rules – Mechanisms Through Which Art is Made Part of the Application

• 37 CFR 1.290 Third-party preissuance submissions
  • Members of the public may submit relevant references within 6 months after the PGPub date unless a notice of allowance was already mailed by then; or up to the date of first rejection if the date of first rejection occurs more than 6 months from the PGPub date

• 37 CFR 1.105 Requirements for information.
  • Examiner may request information from individuals identified in §1.56(c) as may be reasonably necessary to properly examine or treat a matter

Email questions to: inventorinfochat@uspto.gov

• 35 U.S.C. §112
  • Specification requirements
    • Written Description
    • Enablement
    • Best Mode
  • Claim requirements
    • Content
      • Particularly point out (not vague); distinctly claim (not indefinite)
    • Format
      • Independent, dependent, multiple dependent

Examiner
Art Unit

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. Extension of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after the expiration of six months from the mailing date of this communication.

If the period for reply set by the Office is less than one month, this form is will be shortened to such a period. If the form is filed on or before the expiration of the applicable period set for reply, an examiner will mail an examiner's reply, unless specified otherwise in the Notice of Allowance.

Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any allowable period for reply set in the Notice of Allowance, the Supplemental Examination or the Interference proceeding.

Status

1. Response to communication(s) filed on 03 March 2011.
   2. This action is FINAL.
   2b. This action is non-final.
   3. An election was made by the applicant in response to a restriction requirement set forth during the interview on
   4. Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 452 O.G. 213.

Disposition of Claims

5. Claim(s) 1 is/are pending in the application.
   5a. Of the above claim(s) 1 is/are withdrawn from consideration.
   6. Claim(s) 1 is/are allowed.
   7. Claim(s) 1 is/are rejected.
   8. Claim(s) 1 is/are objected to.
   9. Claim(s) 1 is/are subject to restriction and/or election requirement.

Application Papers

10. The specification is objected to by the Examiner.
11. The drawing(s) filed on 03 March 2011 are: a) accepted and b) objected to by the Examiner.

Priority under 35 U.S.C. § 119

12. Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
   a) All b) Some c) None
   1. Certified copies of the priority documents have been received.
   2. Certified copies of the priority documents have been received in Application No: ________________
   3. Copies of the certified copies of the priority documents have been received in this National Stage
   4. A certified copy of a European Patent Application will be received in Office Action Form PTO-152. The certified copy will be received in the National Stage
   5. A certified copy of a European Patent Application will be received in the National Stage
   6. Other:

Attachment(s)

1. Notice of References Cited (PTO-892)
3. Information Disclosure Statement(s) (PTO-1810)
5. Notice of Patentability
6. Other:

Email questions to:
inventorinfochat@uspto.gov
Applicant Response

- Regarding Amendments:
- Non-final Office Action
  - Right of entry (37 CFR § 1.111)
- Final Office Action (close of prosecution)
  - No right of entry (37 CFR § 1.116)
Applicant Response

• Requirements of Amendment
  • Answer all formal objections and rejections
    • Amendments must be filed timely in accordance with the SSP and 37 CFR § 1.136
    • Contain amendments and/or arguments (generally both)
    • 37 CFR § 1.121 governs manner of making amendments
    • Must be signed by the authorized individual (attorney or pro se applicant)
    • Sample amendment format available at http://www.uspto.gov/sites/default/files/web/offices/pac/dapp/opla/preognotice/formatrevamdtprac.pdf

Email questions to: inventorinfochat@uspto.gov
Final Rejection

- May occur on second (or later) consideration if the application includes claims that are not allowable. The examiner’s final Office Action would notify applicant of the examiner’s final patentability determination
  - The final Office action could include objections, rejections and/or indication of allowable subject matter
  - Sets forth a Shortened Statutory Period (SSP) for response
  - Prosecution is considered to be closed
  - Further amendment (after final) is restricted (37 CFR § 1.113 & § 1.116)
Allowance

1. **A Notice of Allowability form PTOL-37** is used whenever an application has been placed in condition for allowance.

2. **A notice of Allowance and Issue Fee Due (PTOL-85)** will normally accompany a Notice of Allowability.
Applicant’s Options After Final are Limited

- To avoid abandonment, Applicant’s reply options are:
  - Filing an After Final Reply (§1.116) that places the application in condition for allowance;
  - Appealing any rejections (§41.31); or
  - Filing an RCE (§1.114).

- MPEP §§ 706.07 and 714.13 II
After Final Rejection, Applicant Has No Right to Unrestricted Further Prosecution

• 37 CFR §1.116 applies to replies filed After Final action.

• Once a proper Final Rejection has been entered in an application, Applicant or Patent Owner no longer has any right to unrestricted further prosecution. See: MPEP §714.12.

• Ordinarily, amendments filed after the Final Action are not entered unless approved by the Examiner.
After Final replies should be processed and considered promptly.

- Examiner’s action in response to After-Final Reply under §1.116 should be mailed within 30 days of Office receipt of the After-Final reply.

See: MPEP §714.13 III
Period for Reply to Final Office Action

• **Shortened Statutory Period (SSP):** 3 months

  • **SSP starts from the date the Final rejection is mailed.**
  • can be extended up to additional 3 months.

• **Replies After Final will not be considered by the Examiner unless they are filed within the SSP or are accompanied by a petition for an extension of time and the appropriate fee.**
Advisory Actions

If the Applicant’s after-final reply does not place the application in condition for allowance, an Advisory Action (PTOL-303) should be sent to the Applicant stating the remaining period for reply. If no Notice of Appeal was filed:

- Normally, the reply period continues to run 3 months from the mailing date of the Final Rejection plus any extensions of time paid for.
- However, if the Advisory Action is mailed more than 3 months after the mailing date of the final rejection in response to an after-final reply filed within 2 months of the mailing date of the final rejection, the SSP ends on the mailing date of the Advisory Action.
Filing of a Notice of Appeal After a Final Rejection

Remember, after a Final rejection, Applicant’s reply options are:

• **Filing an After Final Reply** that places the application in condition for allowance (§ 1.116);

• **Appeal of any rejections** (§ 41.31); or

• **Filing an RCE** (§ 1.114).
Appeal

• **After claims either 1) twice rejected or 2) finally rejected,** an application may be appealed to the Patent Trial Appeal Board

• **Guidance for filing a Notice of Appeal, Appeal Brief and appropriate fees are found in MPEP sections 1204 and 1205.**
Request for Continued Examination (RCE)

After Final Rejection, Applicant’s reply options are:

• Filing an After Final Amendment that places the application in condition for allowance (§ 1.116);
• Appeal of any rejections (§ 41.31); or
• Filing an RCE (§ 1.114)
Request for Continued Examination (RCE) - What is it?

• A procedure set forth in 37 CFR 1.114 under which an Applicant may obtain continued examination of an application in which prosecution is closed (i.e., the application is under final rejection or appeal, a notice of allowance, or an action that otherwise closes prosecution in the application such as Ex parte Quayle).

• An RCE is not the filing of a new application.

• See: MPEP §706.07(h)
Request for Continued Examination (RCE)-
What is it? (cont.)

• An RCE is not the filing of a new application.

• If Applicant timely files a submission and fee, the Office will withdraw the finality of any Office action and the submission will be entered and considered.
Options for Continuing Applications:

- Continuation
- Continuation-in-Part
- Divisional
Continuation/Continuation-in-Part (CIP)

Continuation:
(MPEP 201.07)
Has same disclosure as “parent”

Continuation-in-Part:
(MPEP 201.08)
Disclosure includes additional subject matter not disclosed in parent

Application $A_1$
Application $A_1$

Application $A_1$
Application $A_2$
Divisional Application (DIV)

Has same disclosure as “parent,” but claims an invention independent or distinct from the invention claimed in the parent (MPEP 201.06)
Helpful Hint: Have an Interview

Interview

- **Pro Se**
  - In person, over the phone, or via WebEx

- **Attorney/Agent**
  - In person, over the phone, or via WebEx
  - Inventor cannot have an interview without their attorney or agent present

Use USPTO Automated Interview Request (AIR) form found on [https://www.uspto.gov/patent/uspto-automated-interview-request-air-form](https://www.uspto.gov/patent/uspto-automated-interview-request-air-form)
Tips for Requesting and Preparing for an Interview

Once the need for an interview is recognized, applicant should

• Submit a request for an interview as early as possible
• Provide a detailed agenda, reference support for any proposed claim or spec. amendments
• Be prepared to explain the “inventive concept” of the invention
• Summarize the interview in the next response
Recordation of Interviews

• Agendas, proposed amendments and remarks, submitted (email, fax, etc.) to the Office, will be retained as part of the application record.

• Interview summary, completed after interview, captures the thrust of the issues and arguments presented.

• Comments & Questions – ExaminerInterviewPractice@uspto.gov
Allowance and Issue

• **Fees**
  - No extension of time permitted

• **Amendments after allowance**
  - Minor corrections, drawings, formal matters

• **Corrections**
  - Inventorship, misspelled words

• **Time to publish the patent**
After Patent Grant

• **Maintenance fees for utility patents**
  - Due 3.5, 7.5, and 11.5 years after patent issue date

• **Correction**
  - Certificate of Correction
  - Reissue
Resource – USPTO on the web
