A screenshot of the USPTO website homepage. The header includes the USPTO logo, navigation links for "About Us", "Careers", and "Contact Us", and a search bar. The main navigation menu has "Patents", "Trademarks", and "Learning and Resources" tabs. A large blue banner features the text "First time here? Let us help you find your bearings." and a "Get Going" button. Below the banner, there are sections for "Learn About the Process" with sub-sections for "Patents" and "Trademarks". A red circle highlights the "Patents & Trademarks Initiatives" section, specifically the "Enhanced Patent Quality Initiative" link. The USPTO logo is visible in the bottom right corner of the page.

Enhanced Patent Quality Initiative

Leading in Quality Excellence – Every Interaction Counts

Intellectual property (IP) intensive industries support at least 40 million jobs in the U.S. and contribute more than \$5 trillion - or nearly 35 percent - to our gross domestic product. Our new quality initiative comes as there is increased recognition and appreciation around the world of the importance of IP.

The dedicated efforts of our employees over the last few years have significantly reduced our patent application backlog and pendency. We want to continue to build on those efforts, and recent America Invents Act (AIA) legislation passed by Congress supports doing just that.

The AIA allows us to set our fees and retain fees collected above our appropriated level. This means our financial health is more stable than in the past, giving us a unique opportunity to further expand our quality efforts throughout the entire process.

Patent Quality Chat

- The USPTO will present a monthly, lunchtime Patent Quality Webinar Series hosted by patent specialists on quality-related topics.

Building an Enhanced Patent Quality System

Chat Overview

- OPQA Structure
- Work Product Reviews
- Surveys
- Examiner Transactional Data
- Quality Composite
- Next Steps

Email questions to PatentQualityEventParticipationBox@uspto.gov

7

Office of Patent Quality Assurance

Email questions to PatentQualityEventParticipationBox@uspto.gov

8

Office of Patent Quality Assurance (OPQA)

- OPQA is responsible for the overall assessment and measurement of patent *examination* quality at the USPTO.
 - Measurement accomplished through:
 - work product reviews;
 - administration of satisfaction-based surveys; and
 - analysis of examiner transactional data

Email questions to PatentQualityEventParticipationBox@uspto.gov

9

Office of Patent Quality Assurance (con't)

- 53 Review Quality Assurance Specialists (RQAS)
 - Former primary examiners with demonstrated skills in examination quality, productivity, efficiency, mentoring and training
 - Avg. 22 years patent examination experience
 - Tasks include review of examiner work product, training, mentoring, and serving as subject matter experts
 - Assigned to specific technology in which they have examination experience

Email questions to PatentQualityEventParticipationBox@uspto.gov

10

Office of Patent Quality Assurance (con't)

- RQAS Duties:
 - 75% of time dedicated to review of work product
 - 25% of time providing Technology Center training and assistance
- 6 Supervisory RQAS (SRQAS) oversee the RQAS
 - Ensure consistency among reviewers
 - Validate issues raised and interact with Patent Corps
- Statisticians and program analysts

11

Measuring Quality Through Work Product Reviews

Email questions to PatentQualityEventParticipationBox@uspto.gov

12

Work Product Reviews

- Randomly selected Office Actions to ensure that any metric we generate represents a true picture of all patent corps work product

Email questions to PatentQualityEventParticipationBox@uspto.gov

13

Work Product Reviews (con't)

- Key metrics derived from work product reviews:
 - Final Disposition Compliance Rate
 - Measures correctness of the final determination made by an examiner – either the decision to allow a patent or finally reject it
 - Review for improper or omitted rejections, improper finality, failure to treat arguments
 - In-Process Compliance Rate
 - Measures correctness and reasonableness of Office Actions during prosecution (non-final actions)
 - Review for improper or omitted rejections, improper restriction practice, failure to treat arguments, and other issues that may significantly inhibit the advancement of prosecution

Email questions to PatentQualityEventParticipationBox@uspto.gov

14

Other Work Product Reviews

- First Action on the Merits (FAOM) and Search:
 - Implemented in 2011 to better capture quality at initial stages of prosecution
 - Provides more insight into clarity issues than normal compliance reviews
 - Key focus of current quality initiative
- Targeted Reviews
 - Ad hoc reviews to assist in evaluating the effectiveness of training and the impact of programs on quality
 - e.g., 101 rejections, use of 3rd party art submissions, restriction practice

Email questions to PatentQualityEventParticipationBox@uspto.gov

15

Measuring Quality Through Surveys

Email questions to PatentQualityEventParticipationBox@uspto.gov

16

Internal Quality Survey

- Conducted semi-annually
- Measures patent examiner satisfaction with various factors that lead to the ability to perform high quality patent examination
 - Evaluates overall **examiner** experience in past 3 months with respect to:
 - Office-related factors: tools, training, etc.
 - Applicant-related factors: incoming patent applications, applicant responses, etc.

Email questions to PatentQualityEventParticipationBox@uspto.gov

17

External Quality Survey

- Conducted semi-annually
- Measures applicant and practitioner satisfaction with patent examination quality
 - Evaluates overall **applicant** experience in past 3 months with respect to:
 - Consistency
 - Reasonableness of rejections
 - Adhering to rules and procedures

Email questions to PatentQualityEventParticipationBox@uspto.gov

18

Measuring Quality Through Analysis of Examiner Transactional Data

Email questions to PatentQualityEventParticipationBox@uspto.gov

19

Quality Index Reporting (QIR)

- Statistical analysis of data representing examination events (examiner trends) occurring during prosecution
 - Data taken from the USPTO internal database
- Statistical analysis identifies outlier populations that can signal the presence of quality or procedural issues that represent best practices or opportunities for improvement
- Typically a process-based evaluation of quality rather than an end-product inspection

Email questions to PatentQualityEventParticipationBox@uspto.gov

20

Using the Data We Collect

Email questions to PatentQualityEventParticipationBox@uspto.gov

21

Uses of Quality Data

- In addition to generating metrics of quality to gauge performance, USPTO uses OPQA data to:
 - Develop training
 - Measure effectiveness of training
 - Determine the impact of PTO programs on quality
 - Telework programs, etc.

Email questions to PatentQualityEventParticipationBox@uspto.gov

22

Putting it all together...

Email questions to PatentQualityEventParticipationBox@uspto.gov

23

Quality Composite

- In 2011, USPTO implemented a Quality Composite in an attempt to consolidate the wide variety of quality metrics and generate a single index that could be used to quickly assess progress towards Office goals.

Quality Composite Items and Weights
