Recordation of Trademark Assignments

It is hard to understand why there remains the \$40 fee for electronically recording trademark assignments, but the \$40 fee for electronically recording patent assignments was discontinued years ago. Please be fair across the board and eliminate the fee for recording trademark assignments electronically. When I questioned it, I was told by the TM Assignment Division that the Patent Assignment department is separate from the TM Assignment department, and it simply was never discussed, so the fees remains chargeable. Is there a rational explanation that I am missing?

Thank you for your kind consideration,

Angela
