To: Information Collection
Subject: 0651-0057 comment

To whom it may concern:

In response to the October 9, 2015 Patents External Quality Survey, please see my comments below.

We respond to the question of whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility.

As a patent and trademark attorney located in the City of Miami, Florida, and with over 16 years of experience dealing with the Patent Office, it is our opinion that the planned two waves of data collection will result in data that is relevant to customer satisfaction with the USPTO.

Sincerely,

Mark Terry
