

USPTO,

Please do a case study on the consistency of providing legal support of 35 USC 101 rejections with analysis/explanations.

That is, for all 101 rejections, please study whether they are backed by legal support citing cases AND then analysis of the application and how it relates and is applicable to the cited case.
Most of the 101 rejections I have seen are mere conclusory statements lacking any analysis.

Regards,

/Alan Heimlich/
