Subject: proposed rule change BRI to Phillips
Date: Thursday, June 7, 2018 2:45:47 PM

Dear Sir/Madam:

I strongly support, and would urge the adoption of the proposed rule.

I am in full support of replacing the BRI with the Phillips claim construction . Further if a patent has been challenged in an Articles Three Federal court and found to be Not Invalid it should not be subject to IPR ' s or Re Exams . The money spent to defend a patent(s) on two fronts is prohibitive for innovators.

The damage done to the patent system in the U.S. by the use of BRI has been a major deterrent to innovation in the USA, the sooner you change the better.

Regards
Dean King
